IMPORTANT: This permit is not valid if altered in any way and is not transferable.

SCHEDULE G

RECORD SHEET
(Regulation 114C (o))

Schedule G – RECORD SHEET
(Regulation 114C (o))

SPECIES HUNTED: Leopard

HUNT PERMIT NUMBER: 182063 CLIENT NAME: Chrys Potts

PROFESSIONAL HUNTER: Hugo Kotze HUNTING OUTFITTER: Andre Böhncke

HUNTING BLOCK/PROPERTY NAME: Ovihakondua CONCESSION HOLDER/LANDOWNER: Andre Böhncke

HUNT START DATE: 15/8/18 HUNT FINISH DATE: 18/8/18

1. WAS THE HUNT SUCCESSFUL? YES X NO

IF NO, WHY NOT?

2. HUNTING METHOD (tick appropriate box): i) BAIT AND BLIND X ii) ON FOOT

3. PRE-BAITING: YES X NO

4. NUMBER OF BAIT SITES USED DURING HUNT (including pre-baiting if applicable): 8

5. NUMBER OF BAIT SITES FED ON BY PREDATOR (including pre-baiting if applicable): 8

6. TOTAL NUMBER OF BAIT NIGHTS (including pre-baiting if applicable): 12
The total number of nights that all bait sites were open (if 6 bait sites were open for 1 night = 6 bait nights)

7. TOTAL NUMBER OF BAITS USED (including pre-baiting if applicable): 10
The total number of times that bait sites were 'freshened' with new bait

8.

SEX & AGE OF PREDATOR FEEDING ON BAITS DURING HUNT:	NUMBER:	EVIDENCE (SIGHTING, TRACKS, TRAIL CAMERA):
Adult male	5	Track / Camera
Adult female	1	Track / Sighting
Subadult male	2	Track / Camera
Subadult female	3	Track / Sighting
Juvenile		
Unknown		

9. NUMBER OF PREDATOR SEEN MORE THAN 1 KM AWAY FROM BAITS:

NAPP 1st/2nd
2018

4. Close up of the nose clearly showing the nose, eyes, and mount and a visible predator hunting quota tag number.

5. Frontal view of the teeth showing coloration and wear on the canines and incisors and visible predator hunting quota tag number..

6. Hindquarters clearly showing the scrotum and visible predator hunting quota tag number.

Photographs required from the cleaned skull:

7. Lower jaw showing all the teeth and chipping of the enamel ridge on the back of the canines.

8. Upper jaw showing all the teeth and chipping of the enamel ridge on the back of the canines.

9: Side view of the lower jaw (either side) showing the canine and wear on the cusps of molars and premolars.

10. Wide shot of all the teeth showing wear, broken teeth, and teeth coloration.

SIGNATURE OF:

Trophy hunter:... (b) (6) ..... Date: 18/8/18

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   WELL WORLDWIDE, ATTN: LYNETTE LILLEY
   17401 ALDINE WESTFIELD RD. HOUSTON, TEXAS 77073

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   LYNETTE LILLEY
   281-606-2400 EMAIL: TROPHIES@WELL-USA.COM

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   VAALGRAS WINDHOEK, NAMIBIA

   e. Date wildlife was hunted: 05/11/2018

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   MR EVERHARDUS P.F GOUS

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

   WINDHOEK NAMIBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). ATTACHED

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

CUSTOMS POWER OF ATTORNEY Acceptance of Terms and Conditions Know all men by these presents: That,

TERI CELENE HOPPE-MCKEWEN **(PRINT NAME), an individual residing at**

(b) (6) SPRING, TX 77386

(ADDRESS AS ON DRIVERS LICENSE)

hereby constitutes and appoints **WELL Worldwide Energy Logistics, Inc.** ("Broker"), its officers and employees, and or specifically authorized agents, to act for and on its behalf as a true and lawful agent and attorney of the grantor for and in the name, place, and stead of said grantor, from this date, in the United States (the "territory") either in writing, electronically, or by other authorized means, to: Make, endorse, sign, declare, or swear to any Customs entry, withdrawal, declaration, certificate, bill of lading, carnet or any other documents required by law or regulation in connection with the importation, exportation, transportation, of any merchandise in or through the customs territory, shipped or consigned by or to said grantor; Perform any act or condition which may be required by law or regulation in connection with such merchandise deliverable to said grantor; to receive any merchandise; Make endorsements on bills of lading conferring authority to transfer title; make entry or collect drawback; and to make, sign, declare, or swear to any statement or certificate required by law or regulation for drawback purposes, regardless of whether such document is intended for filing with Customs; Sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor; and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owner's declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits or statements in connection with the entry of merchandise; Sign and swear to any document and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated by said grantor; Authorize other Customs Brokers duly licensed within the territory to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantor's name drawn on the Treasurer of the United States; If the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor; And generally to transact Customs business, including filing of claims or protests under section 514 of the Tariff
Act of 1930, or pursuant to other laws of the territories, in which said grantor is or may be concerned or interested and which may properly be transacted or performed by an agent and attorney; Giving to said agent and attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents, This power of attorney to remain in full force until revocation in writing is duly given to and received by grantee (if the donor of this power of attorney is a partnership, the said power shall in no case have any force or effect in the United States after the expiration of two years from the date of its execution); Appointment as
Forwarding Agent: Grantor authorizes the above Grantee to act within the territory as a lawful agent and sign or endorse export documents (i.e. commercial invoices, bill of lading, insurance certificates, drafts and any other document) necessary for the completion of an export on grantor's behalf as may be required under law and regulation in the territory and to appoint forwarding agents on grantor's behalf; If the Grantor is a Limited Liability Company, the signatory certifies that he/she has full authority to execute this power on behalf of the Grantor. Grantor acknowledges receipt and acceptance of these Terms and Conditions of Service of Broker governing all transactions between all the Parties. This Power of Attorney constitutes authorization for you to forward all Customs entries, bills and related documents in care of our Forwarding Agent, Safari Specialty Importers, who arranges for the importing and international carriage of our merchandise pursuant to the executed Authorization to Import with them. This clause is intended to allow all parties to insure compliance with 19 CFR 111.36. We acknowledge that as importer of record payment to the broker will not relieve us of liability for Customs charges (duties, taxes or other debts owed Customs) in the event that the charges are not paid by the Broker/Forwarding Agent. We further acknowledge that Customs charges may be paid with a separate check payable to the "U.S. Customs" which shall be delivered to Customs by the broker.

In witness whereof, the said individual,

TERI CELENE HOPPE-MCKEWEN **(PRINT NAME)**

has caused these presents to be sealed and signed:

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
STRAIN	KEVIN	R	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
PETALUMA	CA	94952		USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
SAME

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE in the **amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   SAME AS PAGE ONE

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   KEVIN STRAIN, CELL(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

FARM GUISIS, NUMBER 180, WINDHOEK DISTRICT, WINDHOEK, NAMIBIA

b. Date wildlife is to be hunted:

JUNE 19TH-JULY15TH, 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

MR. MARE VAN DER MERWE, AFRICAN TWILIGHT SAFARIS

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   MR. MARE VAN DER MERWE, FARM GUISIS, NUMBER 180, WINDHOEK DISTRICT, WINDHOEK, NAMIBIA

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). I HAVE NOT HUNTED YET

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	MR. MARE VAN DER MERWE
Business Name:	AFRICAN TWLIGHT SAFARIS
Address:	FARM GUISIS, # 180
Address:	WINDHOEK DISTRICT
City:	WINDHOEK
State/Province:	NAMIBIA
Country, Postal Code:	

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

   Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signatu (b) (6) [redacted] Date: 04/28/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Jeff Williams, (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

Panthera pardus, Leopard

b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Zambia, Luawata, Luangwa Valley

b. Date wildlife is to be hunted:

Sept 26, 2019 - Oct 10, 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Simon Evans - professional hunter
Sitatunga Ranching and Safaris LTD - Hunting outfitter

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

b. Date wildlife was hunted:

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Have not hunted yet and do not have permit from Zambia yet.

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	Trophy Trackers Consult
Address:	12a Omelo Mumba Rd
City:	Rhodes Park
State/Province:	Lusaka
Country, Postal Code:	Zambia

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

No.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

$8,500.00 trophy fee. Hunting Outfitter works with the local community and the Department of National Parks and Wildlife. A majority of the money goes to the community and the Department. The money is used for anti-poaching, the building and maintenance of government schools and clinics within the community. Also, 80% of the edible meat during the Safari goes to the community.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

No.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Applicant's signature (b) (6) _____ Date: 4/29/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Amistoso	John	Lee	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer: Last name	4.b. Principal officer: First Name	4.c. Principal officer: Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Deer Park	WA	99006		USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE in the **amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   Return Fed Ex Envelope

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   John Amistoso
   (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

[x] No [ ] Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      Capra Falconeri Falconeri, Astor Markhor

   b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

      N/A

   b. Date wildlife is to be hunted:

      N/A

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

      N/A

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

      Pakistan, Northern Region, Bunji

   b. Date wildlife was hunted:

      01/11/2019

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Shikar Safaris Pakistan

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:
Block No. 5 Flat. 5
G. 8/4 Islamabad, Pakistan

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].
Name: Farhad Magpoon
Business Name: Shikar Safaris Pakistan
Address: Block No. 5 Flat No. 5 G. 8/4
City: Islamabad
State/Province:
Country, Postal Code: Pakistan

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

I hunted three days every day I saw numerous animals including several mature male Markhor. On day three I witnessed a group of males, females and young totaling 60 animals. The local community protects them, no poaching is occuring.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

My hunt cost was $150,000 US Dollars, I don't know what the actual tag was purchased for at auction by the out fitter. After my hunt the local community had a celebration, this was attended by officials in the game department as well as prominent community leaders. There was many thanks and appreciation that 80% of the tag cost was going to the local community. Speeches were given by both the wildlife department and community leaders in that regard. No discussion was had on how the community would use the funds. I can share other hunt situations where the funds were used to support education, new water sources and hydro power for the local community.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

I am not aware of funding activities related to this hunt. I do see at conventions hunts being donated by the outfitters and auctioned with the money going to conservation.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Safari Specialty Importers, 758 Sheldon Road Wallkill, NY 12566

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Robert Quartarone, 845-943-5943, info@safarispecialtyimporters.com

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Rungwa Open Area South, Tanzania

   e. Date wildlife was hunted: 08/04/2018

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Robin Hurt Safaris, Ltd

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Blue Logistics Company Ltd
Saidi Kondo Building 4th Floor, PO Box 2199
Arusha, Tanzania

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). See Attached Hunting Permits

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Country, Postal Code:

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Authorization to Export/Import

I, John Curry (Print Name Hunter), hereinafter referred to as the "*Client*", hereby authorize *Safari Specialty Importers, Inc.* and its successors, assignees or agents (collectively "SSI") to act on my behalf for the importing and/or exporting of hunted trophies for my personal use. *This includes the authorization to obtain any necessary information, make payment on behalf of, and sign related paperwork needed for the export and import of such trophies.*

I, the *Client*, affirm that the trophies being exported/imported by SSI on my behalf, are my personal trophies which have been legally hunted by me in compliance with all national and local laws and regulations of the country of origin pursuant to the attached Addendum.

I, the *Client*, agree to indemnify, defend, and hold harmless *SSI*, from and against any and all demands, claims, and damages to persons or property, losses and liabilities, including reasonable attorney's fees, arising out of or caused by negligence or willful misconduct by me or any third party.

I, the *Client*, agree to the Payment Terms and Addendums attached hereto and made a part hereof.

This Authorization to Export/Import will remain in effect until cancelled by either party in writing.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Olsen	Brian	W	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b) (6)				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Fort Stockton	TX	79735	Pecos	USA
2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE in the amount of $100. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee—attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Brian Olsen, (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

Panthera pardus, Leopard

   b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Zambia, Luawata, Luangwa Valley

   b. Date wildlife is to be hunted:

Sept 26, 2019 - Oct 10, 2019

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Simon Evans - professional hunter
Sitatunga Ranching and Safaris LTD - Hunting outfitter

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

   b. Date wildlife was hunted:

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Have not hunted yet and do not have permit from Zambia yet.

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	Trophy Trackers Consult
Address:	12a Omelo Mumba Rd
City:	Rhodes Park
State/Province:	Lusaka
Country, Postal Code:	Zambia

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

No.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

$8,500.00 trophy fee. Hunting Outfitter works with the local community and the Department of National Parks and Wildlife. A majority of the money goes to the community and the Department. The money is used for anti-poaching, the building and maintenance of government schools and clinics within the community. Also, 80% of the edible meat during the Safari goes to the community.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

No.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

    Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

    Applicant's signature: _____ Date: 5/2/2019

    Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Burchett	Ronnie	Gene	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (DBA)
2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Terrell	TX	75160	Kaufman	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE in the amount of **$100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Ron Burchett
(b) (6)
[redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
NA Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild: Northern Namibia in Bushmanland

   e. Date wildlife was hunted: May 19th, 2018

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   Thormahlen & Cochran Safaris

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

   Anton Alberts
   NA Jagna Conservancy
   Po Box 90911
   Windhoek, Namibia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Attached

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name: Anton Alberts (Prof. Hunter)
   Business Name:
   Address:
   Address:
   City:
   State/Province:
   Country, Postal Code:

   Cathy Rousseau
   African Shipping Services CC
   P.O. Box 86877, Eros, 46 TV Moore Street
   Southern Industrial Area
   Windhoek, Namibia

Re: Application for Import of Sport-hunted Trophy (South African Leopard)

Dear Sir or Madam:

Enclosed is the completed and executed Application for Import of Sport-hunted Trophy (South African Leopard), including a copy of the Republic of Namibia, Ministry of Environment and Tourism, Export Confirmation Certificate and a copy of the Permit to Hunt for Trophies.

I have also enclosed a check in the amount of $100.00 payable to the U.S. Fish and Wildlife Service.

Please contact me if there are any questions or concerns regarding my Application of Import of Sport-hunted Trophy (South African Leopard).

Sincerely,

(b) (6) [redacted]

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Robert Michael Coplen (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   Namibia Africa; Sebra Farms #264 Outju District, Namibia 19 degrees 57.13.36"S 14 degrees 55.09"E

   e. Date wildlife was hunted: August 7, 2018

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   Jan A. Du Plessis, Sebra Hunting Safari, PO Box 146 Outju , Namibia Africa. physical address is #264 Sebra Farms Outju District, Outju Namibia, Africa

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

   Marlon Beyer Taxidermy Studio and Tannery Bahnof Street 8 Otjiwarongo Nambia, Africa

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Export Confirmation Certificate date January 7, 2019

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name: J.A. Du Plessis
   Business Name:
   Address:
   Address: P.O. Box 146
   City: Outjo
   State/Province: Namibia, Africa
   Country, Postal Code:

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

   Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signa (b) (6) **ate:** May 8, 2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

PERMIT CONDITIONS

TROPHY HUNTING OF CHEETHAS, LEOPARDS & LIONS

1. A trophy hunter, trophy hunting guide and trophy hunting operator must read and acknowledge and sign the predator trophy hunting permit conditions before the hunt commences.
2. A predator trophy hunting permit must be obtained before the hunt for a predator commences and must be in the physical possession of the trophy hunting guide while the predator is being hunted.
3. The trophy hunting operator concerned must give notice of the predator hunt to the regional office of the Ministry seven days before the hunt commences.
4. A predator trophy hunting permit is
    a) issued to a trophy hunter;
    b) non-transferable; and
    c) valid for a period specified in the permit.
5. Predators may only be hunted for trophies under the following conditions -
    a) only free roaming, self-sustaining and adult predators may be hunted as trophies with a minimum skull measurement of 27cm for a cheetah, 32cm for a leopard and 52cm for a lion;
    b) a female leopard may not be hunted as trophy;
    c) a predator may not be shot in any form of confinement or in a trap or in an area which is smaller than 1000ha;
    d) a predator may be baited, but a live animal may not be used as bait;

e) a predator may not be shot within a range of 1km of any other predator kept in captivity in any form;

f) a predator may be stalked, tracked or ambushed, but dogs or horses may not be used to hunt it;

g) predator trophy hunting may not take place during the period between 30 minutes after sunset in any day and 30 minutes before sunrise the following day and artificial light is prohibited;

h) a predator may not be shot from a moving vehicle or chased in any way with an aircraft;

i) a predator may not be hunted unless it belongs to a wild and sustainable population (It exists as a naturally interacting member of a wild and sustainable population in an area large enough for it to breed, forage and hunt freely and where there is a natural state of balance between forage, predator and prey);

j) a predator bred in captivity may not be trophy hunted;

k) a predator to be hunted may not be drugged in any form;

l) a canned hunting (any restriction of an animal's natural movement for the purpose of trophy hunting) in any form is illegal; and

m) a predator may only be hunted in areas as specified on the predator trophy hunting permit;

n) once the predator has been killed, the following must occur –

(i) the following photos must be taken immediately after the hunt, at the location where the predator was killed –

(aa) the predator lying on its right showing the feet;

(bb) the predator lying on its left showing the feet;

(cc) a close-up photo from the front showing the face of the predator, clearly depicting facial features: nose, eyes, and mouth, and a visible leopard hunting quota tag number, in case of a leopard;

(dd) a close-up photo of the trophy hunter and trophy hunting guide posing with predator, with all four

legs of the predator stretched out for clear visibility of genital feature such as scrotum and visible leopard hunting quota tag number;

(ii) the trophy hunter and trophy hunting guide must sign all the photos on the reverse side of the photos;

o) the recording sheet of the predator trophy hunting permit in Schedule G has to be filled in, in permanent ink, immediately after the hunt;

p) the trophy hunter and trophy hunting guide must sign on the reverse side of the predator trophy hunting permit with the following statement:

"We hereby individually and collectively declare that the predator recorded and photographed was hunted, shot and killed by us in full accordance with all the predator trophy hunting permit conditions.";

q) a telephonic report must be given to the staff member responsible for the predator trophy hunting permit register in the Permit Office in Windhoek within 72 hours of the predator being killed, and full details of the predator trophy hunting permit must be provided;

r) an unsuccessful predator hunt has to be reported to the Permit Office in Windhoek within 72 hours after the trophy hunting permit has expired;

s) no application for subsequent predator trophy hunting permit from a trophy hunting operator may be processed if the Permit Office has not received the report on the previous permit issued to his or her client (trophy hunter);

t) the original predator trophy hunting permit with full details as described in paragraph (u) must be handed in to the Taxidermist or shipping agent with the trophy; and

u) an application for an export permit to export a predator trophy must be handed in at the Permit Office in Windhoek and must be accompanied by –

(i) a copy of the passport of the trophy hunter and of a page thereof with an immigration stamp indicating the date of entry;

(ii) the original predator trophy hunting permit;

(iii) the leopard trophy hunting quota tag, in case of a leopard;

(iv) the recording sheet; and

(v) the original photos printed on photo paper (glossy paper) referred to in paragraph (n): and

(vi) export permit may not be issued if the conditions in paragraph (u) have not been met.

6. Condition regarding skin and skull of the hunted predator

(a) scrotum of the hunted predator must be left attached to the skin to confirm the sex of the animal.

(b) skin found without an obvious scrotum attached will be treated as female and will not be allowed to be exported.

(c) skin of the hunted predator must be brought to MET office (CITES Office) for tagging and inspection before the export permit can be issued.

(d) skull of the hunted predator must be brought to MET office (CITES Office) for SCI measurements before the export permit can be issued

7. ***Leopard trophy hunting quota tag is not transferable.***

Any contravention or non compliance with any regulation or permit condition is dealt with in accordance with the Nature Conservation Ordinance, 1975 (Ordinance No. 4 of 1975), especially sections 84(5), 86, 87, 88 and 89.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Pease	Mark	L.	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
The Woodlands	Texas	77382	Montgomery	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
same as above

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature of applicant/Principal Officer for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   same as page one

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Mark Pease. (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: one (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Zambia, Chifunda GMA, Muchinga Adventures Concession, closest city is Lusaka

b. Date wildlife is to be hunted:

August 11-September 3, 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Muchinga Adventures Ltd.

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature (b) (6) [redacted] Date: 5/6/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
LUNDBERG	JAN	MAGNUS	Dr

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6) [redacted]			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
FORT LAUDERDALE	FLORIDA	33301		USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners c the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

COOUNTRY -NAMIBIA
RANCH - FARM GROSS OTTLAU # 444

   e. Date wildlife was hunted: 10/03/2018

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

HUNTING OUTFITTER - GUNTHER SCHWALM
SAFARI COMPANY - OMAMALANGA SAFARIS
HUNTING GUIDE - AIKOMBO MUNTU

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

ADDRESS:
AFRICAN SHIPPING SERVICES
46 Tv MOORE STREET
SOUTHERN INDUSTRIAL AREA
WINDHOEK, NAMIBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). HUNTING PERMIT # 182897

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	AIKOMBO MUNTU
Business Name:	OMAMALANGA SAFARIS
Address:	FARM GROSS OTTLAU # 444
Address:	
City:	OTAVI
State/Province:	
Country, Postal Code:	NAMIBIA

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b) (6) [redacted] Date: 05/1/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

IF TROPHY WAS TAKEN:

10. DATE TROPHY TAKEN: 03/10/18

11. GPS LOCATION (in decimal degrees): S19°34'48.779 E17°13'20.58"

12. CONDITION OF PREDATOR (tick all appropriate boxes):

i) HEALTHY [X] ii) UNHEALTHY [ ] iii) FULL STOMACH [X] iv) MEDIUM STOMACH [ ]

v) EMPTY STOMACH [ ]

MEASUREMENTS:

13. BODY LENGTH (CM): 215 cm

14. SHOULDER HEIGHT (CM): 70

15. NECK CIRCUMFERENCE (CM): 54cm

16. SKULL LENGTH (MM): 250

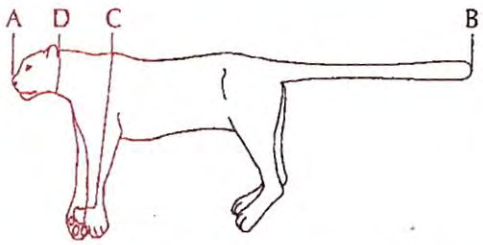
17. SKULL WIDTH (MM): 115mm

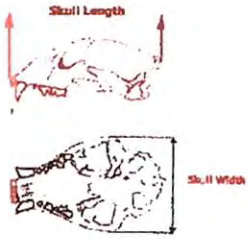
18. WEIGHT (KG) 54

MEASUREMENTS & PHOTOGRAPHS

Measurements to be taken:

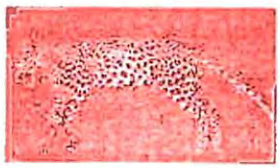
11. Body length (cm, tip of nose to tip of tail; Measurement A–B)
12. Shoulder height (cm, tip of scapula to back of plantar pad; Measurement C)
13. Neck circumference (cm, immediately behind the ear; Measurement D)
14. Skull length (mm, greatest length of skull, measured as a straight line between pegs)
15. Skull width (mm, greatest width of skull, measured across zygomatic arches)





Photographs required before the trophy is skinned:

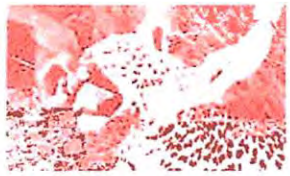
1. Side view showing the entire body with the hunter positioned directly behind for scale, and visible predator hunting quota tag number.



2. The predator lying on its right showing the feet and visible predator hunting quota tag number.

3. The predator lying on its left showing the feet and visible predator hunting quota tag number.

4. Close up of the nose clearly showing the nose, eyes, and mount and a visible predator hunting quota tag number.



5. Frontal view of the teeth showing coloration and wear on the canines and incisors and visible predator hunting quota tag number..

6. Hindquarters clearly showing the scrotum and visible predator hunting quota tag number.

Photographs required from the cleaned skull:

7. Lower jaw showing all the teeth and chipping of the enamel ridge on the back of the canines.

8. Upper jaw showing all the teeth and chipping of the enamel ridge on the back of the canines.

9: Side view of the lower jaw (either side) showing the canine and wear on the cusps of molars and premolars.

10. Wide shot of all the teeth showing wear, broken teeth, and teeth coloration.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Safari Specialty Importers 758 Sheldon Road, Wallkill, NY12589

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Robert Quartarone, 845-943-5943, info@safarispecialtyimporters.com

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

Capra falconeri falconeri, Astore Markhor

   b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

Sassi Haramosh Community Controlled Hunting Area, Gilgit City, Pakistan

   b. Date wildlife was hunted:

1/26/2019

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Merhan Safaris

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

Merhan Safaris
Office 204, 2nd Floor Clifton Broadway Centre, Main Clifton Road, Karachi, Pakistan

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).
See Attached Permits

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].
Name:
Business Name: Merhan Safaris
Address: Office 204, 2nd Floor Clifton Broadway Centre
City: Main Clifton Road
State/Province: Karachi, Pakistan 75600
Country, Postal Code:

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

OMB Control No. 1018-0093
Expires 08/31/2020

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

    Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Authorization to Export/Import

I, BRYAN K. HARLAN (Print Name Hunter), hereinafter referred to as the "*Client*", hereby authorize *Safari Specialty Importers, Inc.* and its successors, assignees or agents (collectively "SSI") to act on my behalf for the importing and/or exporting of hunted trophies for my personal use. *This includes the authorization to obtain any necessary information, make payment on behalf of, and sign related paperwork needed for the export and import of such trophies.*

I, the *Client*, affirm that the trophies being exported/imported by SSI on my behalf, are my personal trophies which have been legally hunted by me in compliance with all national and local laws and regulations of the country of origin pursuant to the attached Addendum.

I, the *Client*, agree to indemnify, defend, and hold harmless *SSI*, from and against any and all demands, claims, and damages to persons or property, losses and liabilities, including reasonable attorney's fees, arising out of or caused by negligence or willful misconduct by me or any third party.

I, the *Client*, agree to the Payment Terms and Addendums attached hereto and made a part hereof.

This Authorization to Export/Import will remain in effect until cancelled by either party in writing.

PAYMENT TERMS

1. Unless otherwise paid for directly by *Client* to a) the international Taxidermist (for dip & packing or mounting of trophies) and b) the Export Agent (for shipping), SSI will collect all international charges due from *Client* and pay on *Clients'* behalf in order that the shipment will be released for departure. These charges will in included in the Invoice (as noted in 2 below). The only additional cost that will be added is the international wire transfer fee charged by the banks on both continents. Currently, the fee is $75/wire but is subject to change.

2. Upon receipt of Invoice from SSI which will include all local clearing and final destination transportation charges (if applicable), payment from *Client* is due in full via bank wire transfer in order that the shipment can be released for delivery to final destination of either a USDA approved Tannery/Taxidermist or other location designated by *Client* depending on content of shipment. All the costs are published on the SSI website and is subject to change.

3. Any delay in payment(s) due as noted above will result in a delayed departure from country of export and any accrued bonded warehouse charges will be the sole responsibility of the *Client*. If payment in full is not received as noted above, the shipment does not leave the country of export, however if for some reason arrives and payment is not made within 10 (ten) days including accrued storage charges through the date paid, the Client forfeits the trophies to SSI. This paragraph shall serve as formal notice of such.

4. This Agreement shall be governed by the laws of the State of New York in the USA

Client Agrees to the aforementioned Payment Terms:

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Carl Atkinson (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Lukwati North Game Reserve, Chunya Msami OA, Piti OA, Chunya Lukwati OA

b. Date wildlife is to be hunted:

July 9,2019 through August 8,2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Safari Royal Holdings Ltd. P. O. Box 4 Arusha Tanzania PH: Michael Angelides

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Engstrom	Randall	R	Jr.

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6) [redacted]			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title		6. Primary contact name	
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b) (6) [redacted]				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Dallas	Texas	75205	Dallas	USA
2.a. Mailing address (include if different than physical address, include name of contact person if applicable)				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach **the nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE in the amount of **$100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification. I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   N/A

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Robert Engstron(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Zimbabwe, The Bubye Valley Conservancy
Bulawayo, Zimbabwe

b. Date wildlife is to be hunted:
June 23 - July 7 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
Mazunga Safaris: Richard Cooke (PH)

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   e. Date wildlife was hunted: N/A

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Haven't hunted yet and do not hold any such permits

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an Importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the Importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the Importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an Importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Pleasanton, CA 94588

FEDEX RETURN LABEL ATTACHED w/ Rhino Import Permit Application

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Vanessa Tabugan
Phone# (925) 417 5270
Email: import@b.hunter-international.net

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Leopard: Khaudum North Complex next to Khaudum National Park, NAMIBIA

b. Date wildlife is to be hunted:

September - October 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Outfitter: Sumsare Safaris
PH: Gerard Erasmus

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   e. Date wildlife was hunted: N/A

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). N/A

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Gerard Erasmus
Business Name:	Sumsare Safaris
Address:	174 Kudu Str
Address:	Finkenstein Estate
City:	Windhoek 9000, NAMIBIA
State/Province:	
Country, Postal Code:	

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

CA 12793

Social Security Number (b)(6) [redacted]

Date of Birth (b)(6) [redacted]

Know all men by these presents: That, Mark Wayne Pickle residing at
(Print Full Legal Name of Individual)

(b)(6) [redacted] Blanket, Tx 76432 hereby constitutes and appoints
(Residential or Physical Mailing Address only, P.O. Box is not acceptable)

HUNTER INTERNATIONAL BROKERAGE SERVICES, INC., its officers, authorized employees, duly appointed agents and representatives

To act for on its behalf as a true and lawful agent and attorney of the grantor named above for and in the name, place, and stead of said grantor from this date and in all Customs Districts, and in no other name to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, carnet or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandise shipped or consigned by or to said grantor, to perform any act or condition which may be required by law or regulation in connection with such merchandise to receive any merchandise deliverable to said grantor:

To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make sign, declare, or swear to any statement, supplemental statement, schedule, supplemental schedule, certificate of delivery, certificate of manufacture, certificate of manufacture and delivery, abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filing in any customs district:

To sign, seal and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owner's declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise;

To sign and swear to any document and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated by said grantor;

To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantor's name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor;

To waive the requirement of other Customs Brokers transmitting a copy of the entry summary CBP7501 and Customs Broker's bill of services directly to the undersigned grantor in accordance with CF111.36(a) & (b). Such entry summary and bill will be transmitted through Hunter International Brokerage Services, Inc.

And generally to transact at the customs houses in any district any and all customs business, including making, signing, and filing of protests under section 514 of the Tariff Act of 1930, in which said grantor is or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent and attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by a District Director of Customs.

Grantor also authorizes the above grantee to act within the territory as lawful agent to sign or endorse export documents (i.e., commercial invoices, bills of lading, insurance certificates, drafts and any other document) necessary for the completion of an export on grantor's behalf as may be required under law and regulation in the territory and to appoint forwarding agents on grantor's behalf;

The undersigned grantor of this power of attorney hereby agrees to HUNTER INTERNATIONAL BROKERAGE SERVICES, INC. Terms and Conditions of Service, which are attached hereto and incorporated herein by reference.

IN WITNESS WHEREOF, the said (P (b)(6) [redacted] Mark Wayne Pickle **has caused these presents to be sealed and signed: (Signature)** _____ **(Date)** 03-27-2015 **(Capacity)** _____

IMPORTANT NOTE: If you are the importer of record, payment to the broker will not relieve you of liability for Customs charges (duties, taxes or other debts owed Customs) in the event the charges are not paid by the broker. Therefore, if you pay by check, Customs charges may be paid with a separate check payable to the "U.S. Customs Service" which shall be delivered to Customs by the broker. Importers who wish to utilize this procedure must contact our office in advance to arrange timely receipt of duty checks.

Mandatory requirement to validate this CPOA is to provide a clear copy of a valid photo I.D. (passport or driver's license) or have this document notarized. Please mail "original signed" CPOA to Hunter Int'l. Brokerage Services, Inc., 5700 Stoneridge Mall Rd., Ste 260, Pleasanton, CA 94588, Tel (925) 417 5270, Fax (925) 417 0170.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Greg Brownlee
(b) (6) [redacted]

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Greg Brownlee (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

ZAMBIA AREA:- CHIKWA FULAZA GAME MANAGEMENT AREA: NEAREST TOWN:- MPIKA , GPS COORDINATES:- S11 40 015 E 032 35 562

   b. Date wildlife is to be hunted:

July 1-16, 2019

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

OUTFITTER:- IVORY SAFARIS

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   NA

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Will collect license upon arrival to Zambia

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature (b) (6) [redacted] Date: 5/20/19

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

Please continue to next page

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Thomas Mullins
(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
   Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Inyonga Game Controlled Area East, Tanzania

   e. Date wildlife was hunted: 25 July 2018

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Malagarasi Hunting Company
Meherdard S. Karambecki

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Kilombero North Safaris Ltd. Office
P.O. Box 4394
Dar Es Salaam, Tanzania

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). attached

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Thomas Mullins
(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
   Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Inyonga Game Controlled Area East, Tanzania

   e. Date wildlife was hunted: 25 July 2018

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Malagarasi Hunting Company
Meherdard S. Karambecki

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Kilombero North Safaris Ltd. Office
P.O. Box 4394
Dar Es Salaam, Tanzania

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). attached

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name:
   Business Name:
   Address:
   Address:
   City:
   State/Province:
   Country, Postal Code:

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature (b) (6) [redacted] Date: 5/20/19

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

(b) (6) [redacted]

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Blakeley Camp
(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Maswa Game Reserve North, Simiyu, Tanzania. Maswa Game Reserve North is Located along the southwestern boundary of the Serengeti National Park, this wildlife area is 751 square kilometers.

b. Date wildlife is to be hunted:

July 1-14, 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Bushman Hunting Safaris Limited,
Plot No. 61-64, Block E, Kihonda Industrial Complex, P.O. Box 678, Morogoro, Tanzania.

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Bushman Hunting Safaris Limited,
Business Name:	Plot No. 61-64, Block E, Kihonda Industrial Complex, P.O. Box 678,
Address:	Morogoro, Tanzania.
Address:

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

RCVD FEB 14 2020

February 7, 2020

To Whom It May Concern:

U.S. CITES permit # 19US42506D/9 issued to Mr. Justin Haynes in August of 2019 has been misplaced in a recent office move, and needs to be reissued in order to proceed with import. This shipment has not yet occurred however, the importer is standing by for an original in order to move forward. I am requesting a replacement U.S. CITES permit, and if the original is found, the original permit will be returned to the Division of Management Authority.

Thank You,

(b) (6) [redacted]

E. REPLACEMENT DOCUMENT (CITES/ESA/MMPA/WBCA/LACEY ACT)

NOTE 1: Use this application to request a replacement document if your currently valid permit has been lost or misplaced (for this application, all permits, registrations, and certificates are referred to as a permit).

NOTE 2: The application **must** be submitted to the office that issued the initial permit.

Provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you submit, indicate the application question number you are addressing.

1. *Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

   Mailing Address from Page 1 (b) (6) [redacted]

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Blakeley Camp - (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☒ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. Identify the permit number (found in the upper right corner) of the permit needing replacement, if known:

   19US42506D/9

5. Current location of specimen (include address and country):

   Bushman Safaris, Plot 61-64, Block E, Kihonda Industrial Complex, PO Box 678 Morogora, Tanzania

6. If the shipment has already occurred (i.e., the document was lost or damaged in transit), provide copies of:
   a. Cancelled CITES export or re-export document validated by OLE;
   b. For wildlife, cleared Declaration for Importation or Exportation of Fish or Wildlife (Form 3-177); **AND**
   c. Any correspondence you had with the shipper or importing country's Management Authority concerning the shipment.

   *Please be aware that if the permit was lost in transit, the issued permit will be forwarded to the Management Authority of the foreign country.

7. If the shipment has **not** occurred and the original permit no longer exists, submit a signed, dated, and notarized statement that:
   a. Refers to the permit number and describes the circumstances that resulted in the loss or destruction of the original permit;
   b. Includes a statement that affirms the shipment did not occur;
   c. You are requesting a replacement U.S. CITES permit;
   d. If found, the original permit will be returned to the Division of Management Authority.

8. If the shipment has **not** occurred and the original permit exists but has been damaged, submit the original damaged permit and a signed, dated, and notarized statement that:
   a. Describes the circumstances that resulted in the permit being damaged;
   b. Includes a statement that affirms the shipment did not occur;
   c. You are requesting a replacement U.S. CITES permit.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

(b)(6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Namibia, Omaheke 22 09 45S 18 17 07.3E -22.162549, Toekoms Ranch, Gobabis

b. Date wildlife is to be hunted:

7/1/2019 till 7/13/2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Jan Hendrik Tobias Delport, Toekoms Bow Hunting Safari's

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Johnston	Dana	L	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)	[redacted]	[redacted]	[redacted]

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Washington	Pennsylvania	15301	Washington	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

[redacted] (b) (6)

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Namibia, Omaheke 22 09 45S 18 17 07.3E -22.162549, Toekoms Ranch, Gobabis

b. Date wildlife is to be hunted:

7/1/2019 till 7/13/2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Jan Hendrik Tobias Delport, Toekoms Bow Hunting Safari's

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Jan Hendrik Tobias Delport
Business Name:	Toekoms Bow Hunting Safaris
Address:	PO Box 685
Address:	Gobabis
City:	Namibia 9000
State/Province:	
Country, Postal Code:	

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

   Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signatur (b) (6) **ate:** 5-30-19

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

RE: Import Application of a Republic of South Africa Lion (*Panthera leo*)Trophy for Steven Sandler

Dear Chief Cogliano:

Enclosed please find the permit application to import a lion trophy from Republic of South Africa for Steven Sandler. Also attached to the permit application is the Lion Management Plan for the Khamab Kahahari Reserve, where the Coenraad Verkaak Safaris is located within. Please refer to the hundreds of pages of enhancement information Conservation Force previously submitted to the U.S. Fish and Wildlife Service, as well as information submitted by the South African authorities, outfitters, and others, in making an enhancement finding for lion trophy imports.
Note: DMA has approved all permits in this area in the past. See 2016 PRT 1349C.

Please do not hesitate to contact us if you have questions about this permit application.

Sincerely,

John J. Jackson III

NOTICE OF REPRESENTATION

This is a notice to the U.S. Fish and Wildlife Service that I have appointed John J. Jackson, III of the non-profit firm Conservation Force as my attorney and legal representative for all matters concerning my application for a permit to import a lawfully hunted Lion trophy.

This authority is inclusive and extends to all applications and filings, whether administrative or judicial, including but not limited to any request for reconsideration, appeal, and litigation.

In the case of a permit an ESA endangered listed species this is also a request for Ten Days Notice before the permit is issued so I and my attorney can know of approval as soon as those that may have opposed the issuance of the permit.

IMPORT OF SPORT-HUNTED TROPHIES
(Appendix I of CITES and/or ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Sandler	Steven	A.	

2. Date of birth (mm/dd/yyyy)	3. Telephone number	3.a. Alternate telephone number	4. E-mail address
(b)(6)			

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)		
2. Tax identification no.	3. Description of business, agency, Tribe, or institution		
4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes) (If Broker or Taxidermist is applying on behalf of a foreign national, provide (b)(6) nters must provide their U.S. address)

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
Celina	TX	75009	Collin	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100, nonrefundable processing fee**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is compl (b)(6) tand that any false statement herein may subject me to the criminal penalties of 18 U

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;

(2) Was legally obtained by the hunter through hunting for his or her personal use;

(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and

(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:

(i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;

(ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and

(iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

---

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

Steve Sandler
(b)(6) [redacted]
Bellaire, TX 77401

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Steve Sandler (b)(6) [redacted]

3. Have you or your client (if a br[redacted] convicted of any criminal provision of any statute or regulation relating to the activity for which the

application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

No X Yes ____

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
   Panthera Leo

   b. Sex (if known). male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   South Africa, Khamab Kalahari Reserve - North West Province
   Nearest City: Bray

   b. Date wildlife is to be hunted:
   21 September - 05 October, 2019

   b. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   Coenraad Vermaak Safaris

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following: N/A

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

   b. Date wildlife was hunted:

   b. Name of hunting outfitter, safari company, or professional hunter you hunted with:

   c. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). N/A Have not hunted yet

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Douglas Cockcroft
Business Name: Splitting Image Taxidermy
Address: Postal: P.O. Box 27582, Greenacres Physical address: 14 Uitenhaige Rd.
City: Sydenham, Port Elizabeth
State/Province: Eastern Cape
Country, Postal Code:
South Africa, 6054

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

   a. Do you have any information regarding the population status or trend data on the species hunted?

   KHAMAB
   YES, PLEASE SEE ATTACHED ^ KALAHARI RESERVE
   LION MANAGEMENT PLAN.

   b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

   PLEASE SEE ATTACHED DOCUMENTATION.

   c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted?

   INFORMATION RELATED TO THE CONSERVATION ~~BENEFIT~~
   IS INCLUDED IN THE KHAMAB KALAHARI RESERVE
   LION MANAGEMENT PLAN.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies and two elephant trophies within the same calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

    Taxidermist/Broker's signature: _____ Date: _____

11. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

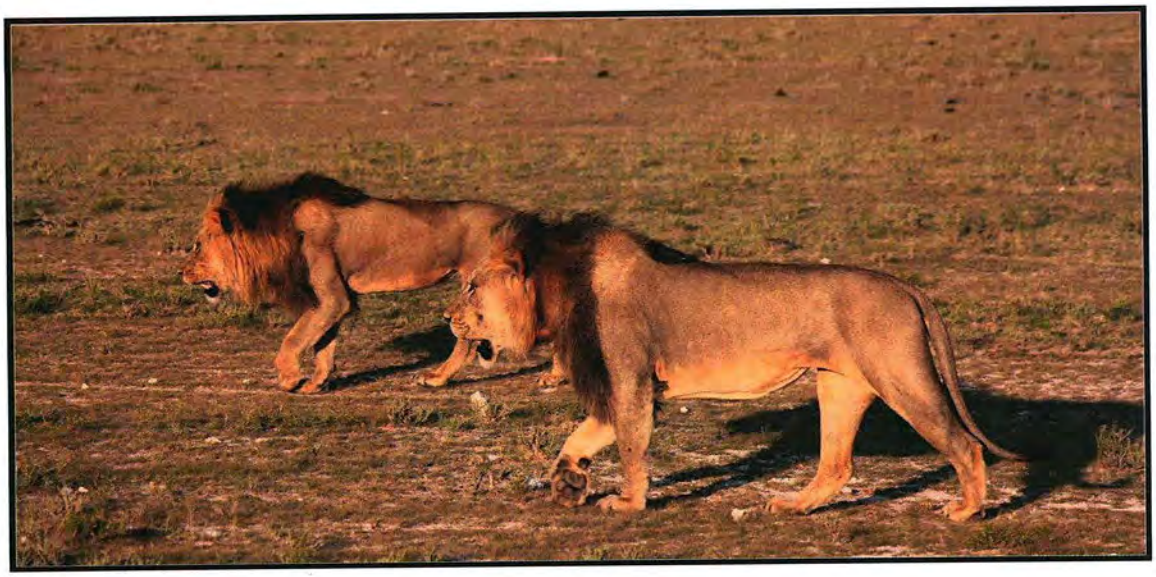
    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies and two elephant trophies within the same calendar year. In addition, I understand [redacted] d States, cannot be re-exported.

    Applicant's signature: _____ Date: _____

    Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

All international shipment(s) must be imported through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

LION MANAGEMENT PLAN FOR KHAMAB KALAHARI RESERVE



A GUIDE TO DECISION MAKING FOR MANAGING LIONS ON KHAMAB KALAHARI RESERVE

khamab
Kalahari Reserve

INTRODUCTION

The management of lions on small fenced game reserves has always been a contentious issue. There are two schools of thought; one promotes a hands-off approach to lion management as far as possible, while the other suggests the need for intensive management of the lion populations. Up till now not one of these points of view have been proven as the correct approach, although the intensive management of lions by far exceeded a hands-off lion management as the method of choice by reserve managers of small game reserves. Although the majority of reserve managers would prefer a hands-off approach, they feel that they cannot afford to let the lion population go, and in very small reserve they are right. Despite very intensive management of the lion populations, a large majority of reserves still experienced perceived "problems" with their populations. These " problems" were very rapid population growths resulting in high predation impacts on the prey populations, as well as issues with keeping the genetic integrity intact in the small populations.

Few reserves or national parks in South Africa are large enough to allow for a completely natural predator system, and all will require some sort of management intervention to a larger or lesser degree. However, the level of management intervention will depend on the objectives off each reserve, as well as the reason why they choose to have lions on the reserve

More and more studies are revealing how vital top predators are in the operation of ecosystem processes, which filters right down to the different trophic levels. Most lion reintroductions are for eco-tourism purposes rather than purely ecological reasons, but even though this is the case for most reserves, the value that they bring to the operation of the ecosystems is not always realized. The reserves whose primary motivation for introducing lions are for purposes of ecotourism, adopt mostly an intensive lion management approach to keep lion numbers within strict predetermined boundaries. This intensive management approach relies heavily on contraception, vasectomies and culling as a way of achieving their objectives. A small minority of reserves, on the other hand, sees lions as a very important part of the system and includes the importance of allowing the system to function with as little management intervention as possible as an objective in their management plans. This principle should also filter through to predator management plans, which should attempt to come as close to a hands-off approach on lion management as possible. However, the effect of a largely hands-off approach on "small" fenced reserves is still unknown, and it is unsure whether this approach will lead to natural population control measures (as seen in very large or open systems) to come into effect.

Lions have the capability to recover rapidly after disturbances, leading to rapid population growths on reserves after new populations get established, and quickly exceeds the pre-determined carrying capacity based on impact on prey populations. Previously managers reacted to this by regular translocation of lions to new reserves. However, options for translocations have largely disappeared as a result of excess lions available at several reserves across the country. This led to an increasing dependency on culling and birth control measures in an attempt to keep the fast population growth rates under control.

However, this approach is symptomatic and does not address to the underlying issues of why population "problems" occur. The challenge of developing a management plan is to find ways to mimic natural control mechanisms, thereby targeting the cause of ecological issues rather than treating the symptoms.

In natural lion populations, the high infanticide rates and associated social consequences as a result of regular turn-over of dominant males in prides lead to relatively stable populations. However, in small and highly controlled population this is not the case, and males tend to stay in "control" of

prides for very long periods, leading to pride instability and high cub survival. Also, regular population control actions, like culling and removals, prevent density dependent population control mechanisms from coming into effect. Two typical density dependent control mechanisms are age of first reproduction of females, and litter size. In low density populations lions breed at a younger age, have bigger litters, and the survival rates of litters are much higher. Therefore, regular culling or removal of lions leads to an increase in the above mentioned factors, resulting in faster population growth.

One of the biggest concerns for managers is the impact that lions have on the prey populations of small fenced reserves. This problem is exaggerated by inappropriate management actions like regular removal and/or supplementation of prey. Also, coupled with the factors in the previous paragraph, lack of social stability because of high male tenures and slow male turnovers, often resulting in several individuals rather than prides on a reserve, which increase the impact on the prey population.

One of the biggest mistakes is that managers ignore the temporal and spatial variability in ecosystems, and want to keep the system as stable as possible based on pre-determined "carrying capacities". This is largely driven because of economic demands and expectations, coupled with the demands of tourism and/or trophy hunting. Very few reserves will allow for the natural control mechanisms and the associated fluctuations to take its course.

Despite being the ideal management approach and the advantages associated with letting natural control mechanisms to come into play, it must also be kept in mind that it will probably not be possible in small fences systems, Madikwe Game Reserve being an example. Despite high lion densities and some natural control mechanisms starting to have an effect, the densities was still not high enough to ensure a population that can function without any management interference. If left completely, the population will without doubt reach a point where the lion population will regulate itself. However, the turning point in the population density where this will occur is unknown, and the associated impact in prey populations means that no reserve in South Africa has been brave enough or had the capacity to let this process run its full course. Therefore, as mentioned elsewhere, the objectives of each conservation area or reserve will determine at which point in time management will intervene, and what interventions they will use.

1.5 Extent of the property

The total size of the properties listed above is 95 537.31ha in size. However, some parts of some of the properties above does not farm part of the bigger "open" reserve as they are cut off by national roads from the reserve.

Another farm, Ella 1033, are fenced off separately and used for breeding of sable.

The size of the reserve that is available to lions to roam is **88 374ha.** See the attached map in Section 2.9.2

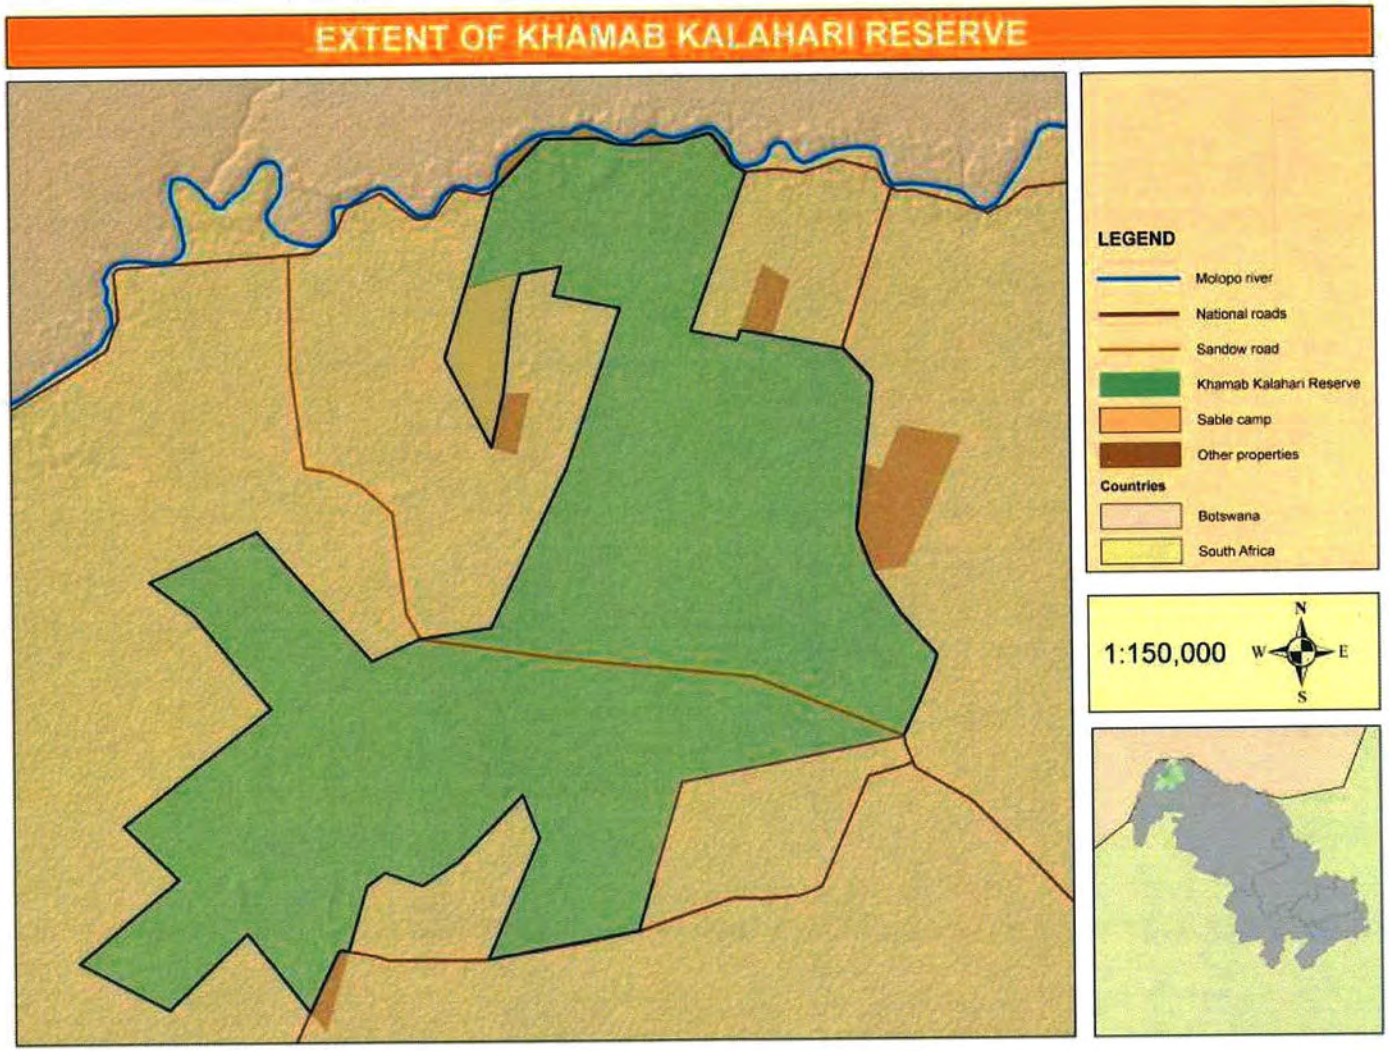

Figure 1: The extent of Khamab Kalahari Reserve

1.6 Land use on neighbouring properties

There are no crop and/or irrigation farming on any neighbouring farms or anywhere in the district close to Khamab. The land use on farms neighbouring Khamab Kalahari Reserve are limited to stock or game farming, hunting and a Big 4 game reserve.

The neighbouring farms, owners, land use and separation from the reserve are listed in the table below.

Table 2: Land use on neighbouring properties

FARM NAME	OWNER	LAND USE	DISTANCE
Ypello	Jan du Preez	Cattle farming	Immediate neighbour

1.7 Compiler of the management plan

Hanno Kilian

Ecologist: Khamab Kalahari Reserve

E-mail address: ecologist@khamab.co.za

Tel nr: 053 938 0015

Cell nr: 082 851 7296

Qualifications: Universtiy of Pretoria BSc (Agric); BSc. Hons (Wildlife Management), M.Sc (Wildlife Management)

1.8 Proximity to settlements, communities and tribal land

See attached map in Section 2.9.1 to see the location of KKR in the Molopo district and the distribution of surrounding settlements and towns.

The distances given below in Table 3 were measured from the centre of the reserve, as well as from the closest boundary of the reserve.

Table 3: Distances from release site to closest settlement

	DISTANCE FROM CENTRE OF RESERVE	DISTANCE FROM CLOSEST BOUNDARY
Settlement		
Bray	49km	33km
Vorstershoop	38km	15km
Tosca	86km	68km
Pomfret	48km	33km
Werda (Botswana)	33km	2.5km
Communities and tribal lands		
Werda (Botswana)	28km	1km
Morokweng communal areas	53km	38km

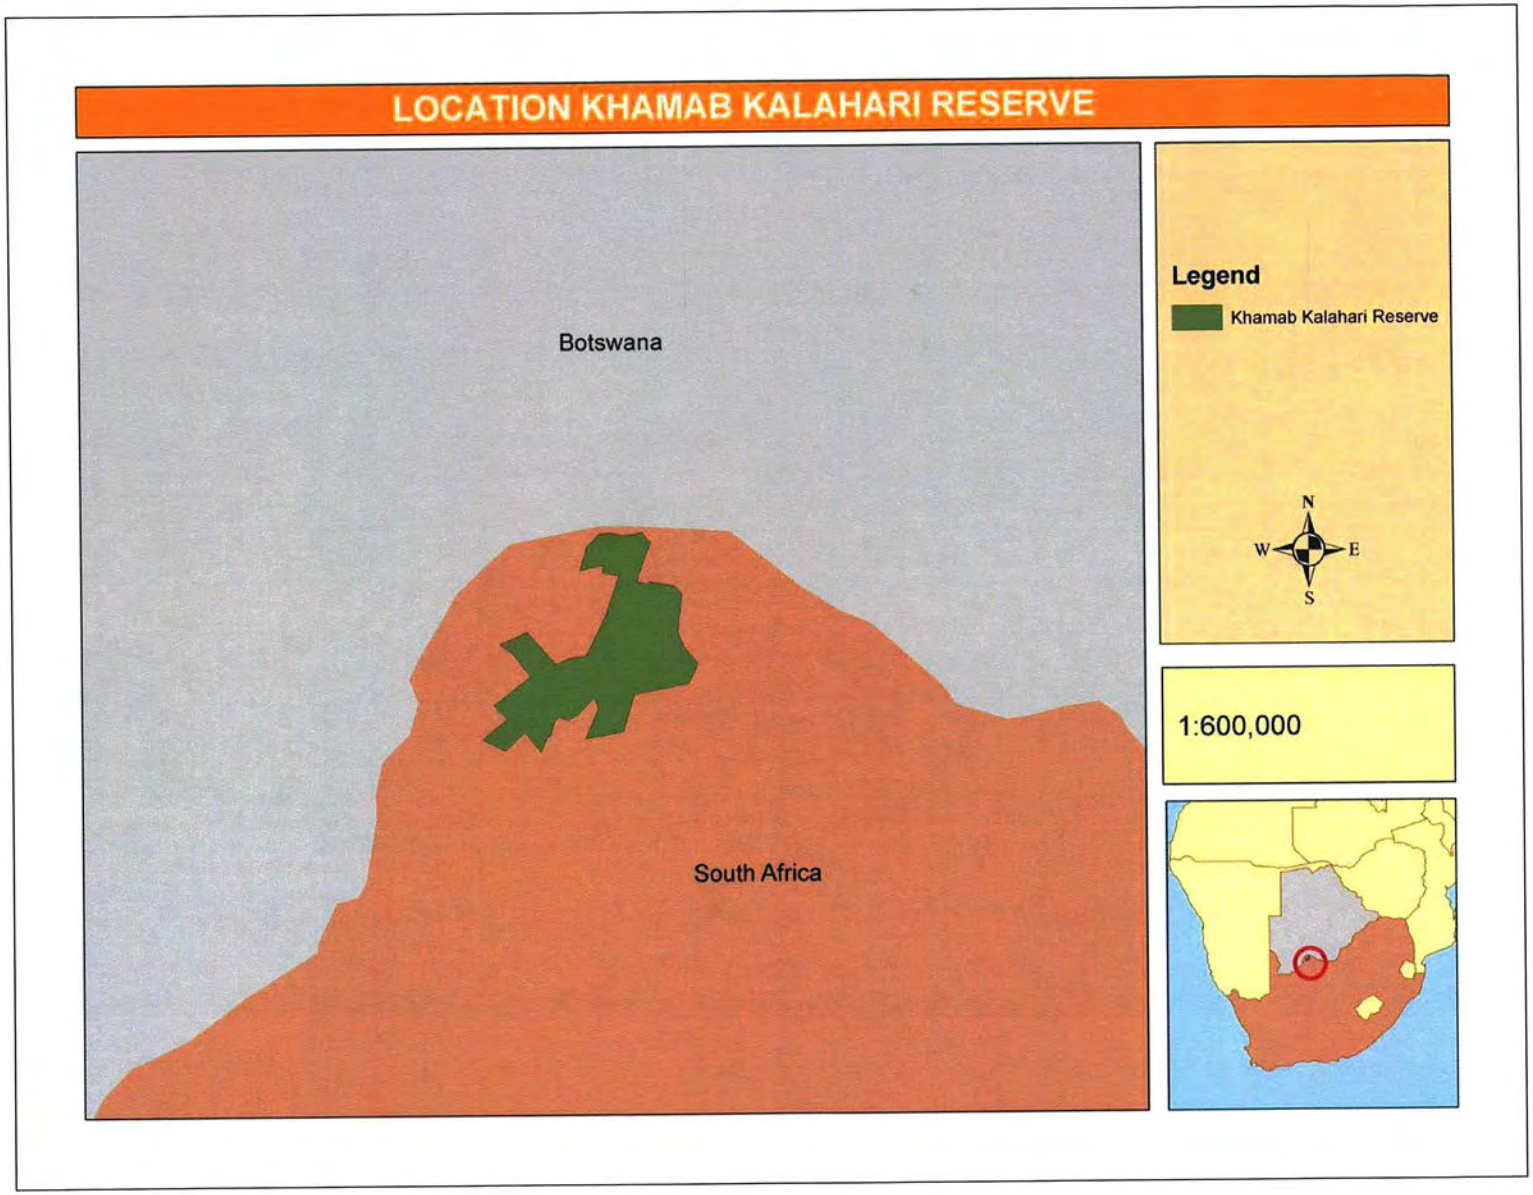

Figure 2: Location of Khamab Kalahari Reserve

1.9 Potential for enlarging the property

When Khamab started in 2007, there was an extensive drive to acquire a large portion of land, and several farms were bought and consolidated to shape the 95 500ha property.

Although it is not priority at the moment, there is potential for enlarging the current property by purchasing other neighbouring properties if they become available on the market. KKR will pursue these options if they are available at the right price in order to consolidate the current reserve.

1.10 Specifications of the perimeter fence

The fence line has been inspected and approved and are up to DACE specifications for the keeping of large game and predators.

The total height of the fence is 2.4m. The bottom 1.2m is fenced with bonnox, with 8 steel wires completing the top 1.2m.

On the inside of the fence there are five electrified strands at heights of 20cm, 50cm, 120cm, 180cm and 240cm as per specifications.

200mm line – on a 22cm double offset bracket with earth
500mm line – on a 22cm double offset bracket with earth
1200mm line – on a 22cm offset bracket
1800mm line – on a 40cm double offset bracket with earth
2400mm line – on a 40cm double offset bracket with earth.

An additional trip and earth wire about 60cm away from the main fence, and 10-20cm from the ground with an additional earth wire.

The voltage of the fence ranges between 6000V-8000V, and the entire fence line of 230km is patrolled on a daily basis.

The fence line is kept clean from plant material by the application of herbicides at a distance of 1m on both sides of the fence. A further 4m strip on the inside and a 2m strip on the outside are disked with a tractor and disk once a year to keep vegetation clear from the fence.

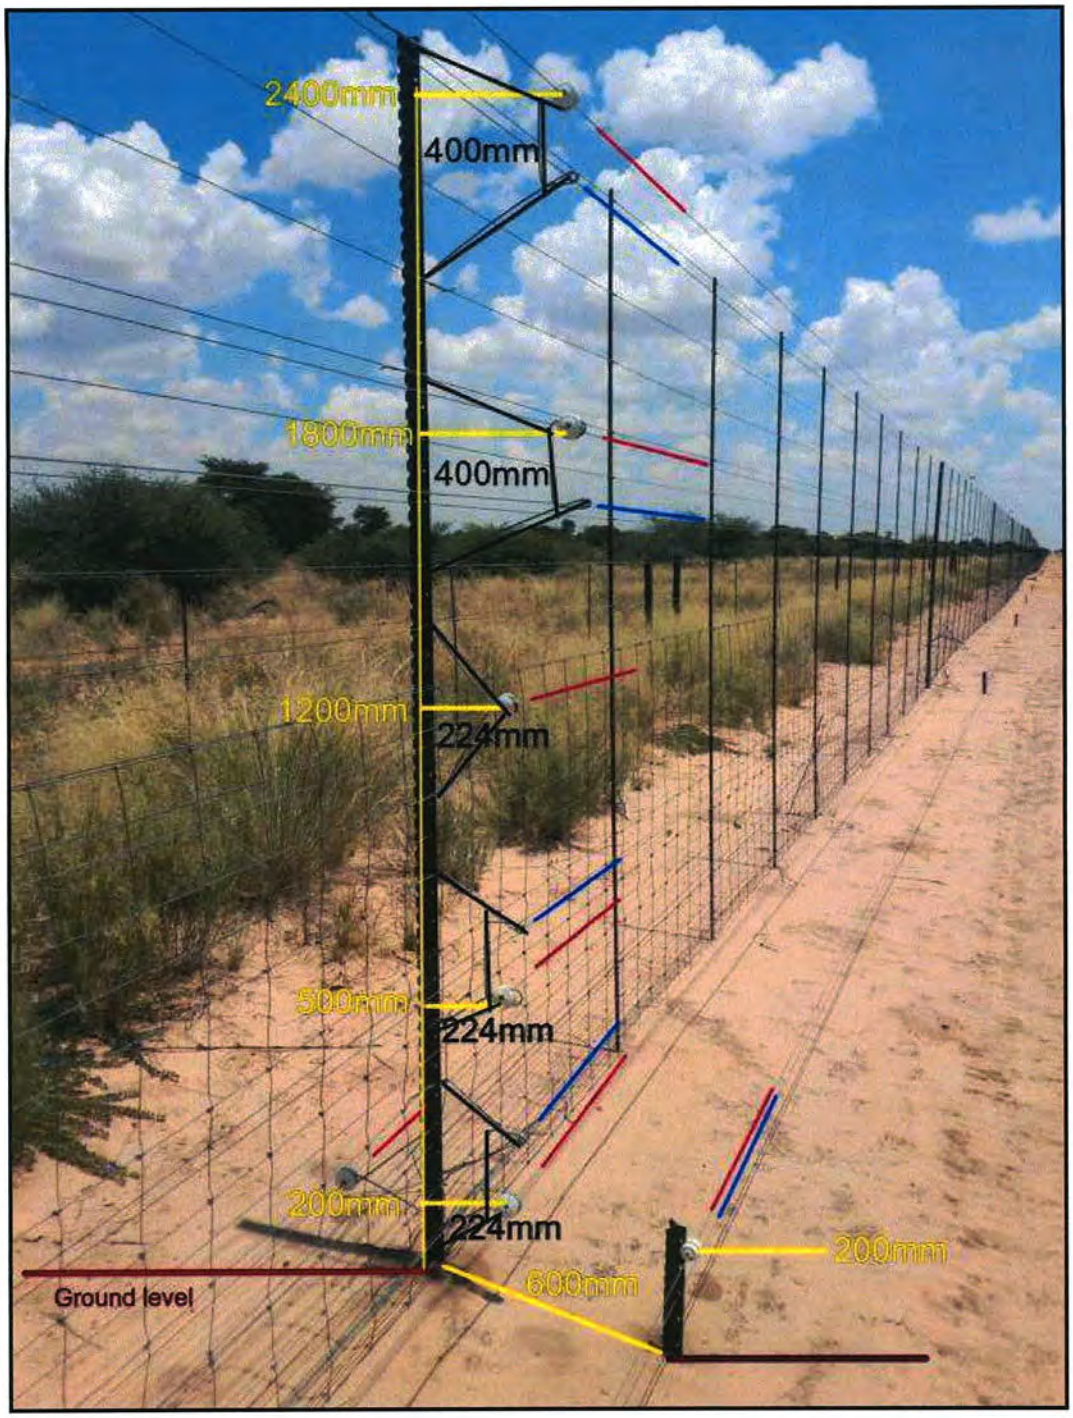

Figure 3: Photograph showing the KKR fence line, with heights and electrification indicated in different colours.

2 ECOLOGICAL

2.1 General climatic and hydrological data

2.1.1 Rainfall

Khamab Kalahari Reserve falls within the summer rainfall region of Southern Africa, with the majority of rain occurring between October and April. The mean annual rainfall according to farmers in the area is estimated at 320 mm, with a high annual coefficient of variation (CV) of 34%. This means that the area is semi-arid with a rainfall pattern that is erratic and unpredictable for any one year or series of years (Collinson & Brett 2007)

As to be expected in an arid environment, the annual mean rainfall across the reserve varies a lot between season to season. The period of 2011 to 2013 was very dry, with the 2012/13 season being particularly dry with only 188.3mm on average across the reserve. The perception during the 2013/14 season was that it was also very dry, but that was largely due to long periods during the rainfall season without any rain, and then the figures were bolstered when the majority of the rainfall all came in a short space of time towards the end of the season, as can be seen lower down in this document.

Table 4: Annual rainfall figures at the different weather stations on Khamab from July 2010 to June 2014

	Rainfall (mm)				Annual mean
Weather station	**2010/11**	**2011/12**	**2012/13**	**2013/14**	
Esperance	502.6	285.8	223.8	423.2	358.9
Ngwaphiwane	345.2	235.8	176.2	371.4	282.2
Sweetwater	401.8	249	164.8	447.6	315.8
Mean	416.5	256.9	188.3	414.1	318.9

This rainfall pattern can often be visually seen during the rainfall season, when thundershowers often pass the reserve on the south-eastern and eastern side, or on the north-western side. This is also reflected in the rainfall figures in Table 1 above.

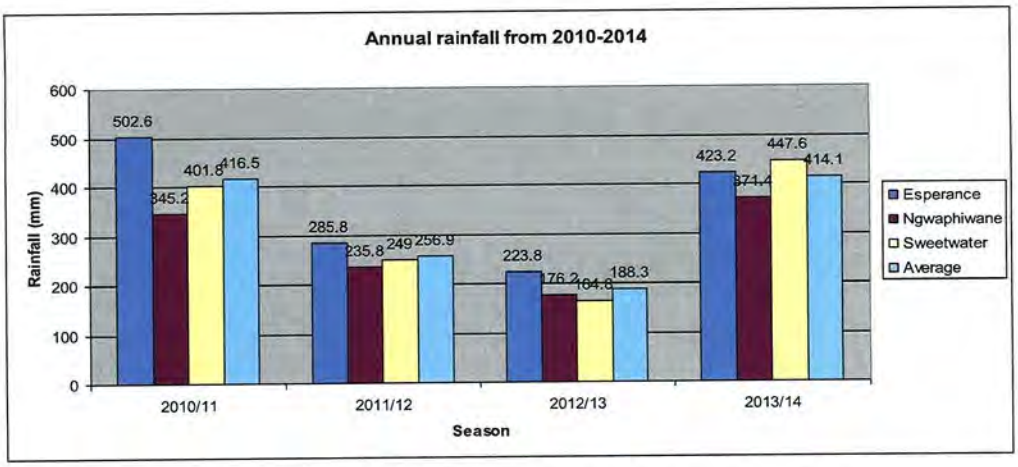

Figure 4: Annual rainfall at the different weather stations on KKR from July 2010 to June 2014

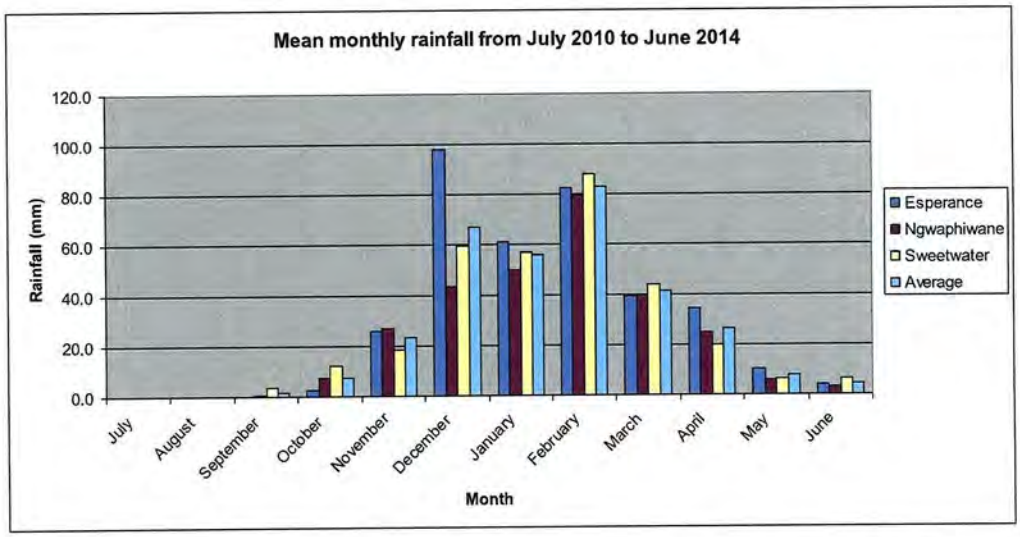

Figure 5: Mean monthly rainfall at the different weathers stations on KKR from July 2010 to June 2014

2.1.2 Temperature

Since the reserve started measuring temperature in 2010, the highest temperature measured on Khamab was 43.2°C which was measured at Esperance in October 2011, and the coldest temperature recorded was -7.1°C at Sweetwater in July 2012.

Over the last four years, the three months with the warmest mean temperatures were November, December and January, with January having the highest mean temperature of 26.7°C.

However, the highest mean maximum temperature is 40.3°C during November, followed by October and December with 39.7 °C each.

On average over the last four years, June has been the coldest month with a mean of 12.5°C, followed by July with 12.6°C.

The lowest mean minimum temperatures have been in June with -4.5°C, followed by July with -4.4°C.

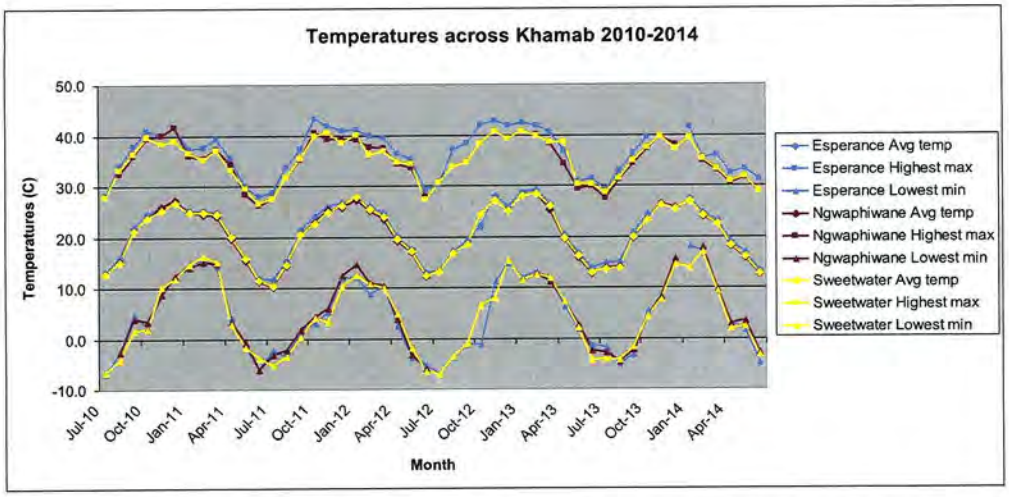

Figure 6: Monthly temperatures at the different weather stations on KKR from July 2010 to June 2014

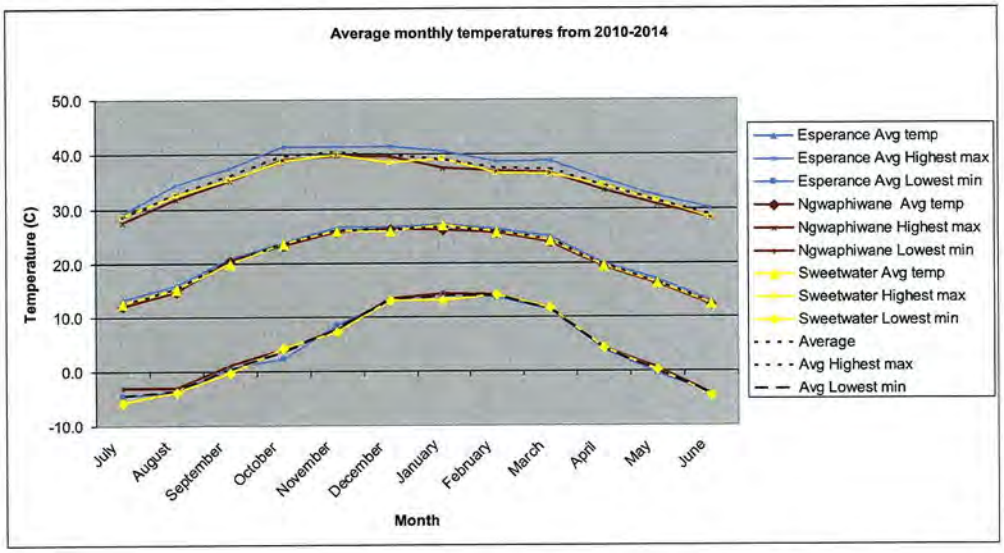

Figure 7: Mean monthly temperatures at the different weather stations on KKR from July 2010 to June 2014

2.1.3 Hydrology

The region is drained by the Molopo River. Although this river meanders for a great distance along the border between South African and Botswana before eventually joining the Orange River below the Augrabies Falls, it seldom has any surface flow. The fossilized Pephane River flows through the area to the southwest of KKR, but no other river courses (neither perennial nor ephemeral) are present on the reserve. Short-lived floods of the Molopo have occurred in recent years which attract a large number of water bird species into the area.

Accordingly, the key feature of the area is the complete absence of perennial surface water. This phenomenon has been the most important influence on the presence, abundance and distribution of indigenous plant and animal species.

Another significant feature of the area is the presence of endorheic pans (pans that do not possess an outflow). A number of large pans are present on the reserve. After the occurrence of heavy thunderstorms they may hold water for some time.

For the following reasons these pans add incredible value to a wildlife conservation project such Khamab Kalahari Reserve:

- The distribution of game animals (both herbivores and carnivores) tends to be highly concentrated on these pans and their immediate surrounds.
- This is due the soil nutrient status and soil moisture retention capacity of these pans being significantly higher than that of the "sea" of red sands making up the substrate of most of the area
- The presence of ephemeral surface water in these pans after thunder storms allows for "mini migrations" of certain water dependant game species (e.g. zebra) to grazing in areas that they normally avoid due to the absence of perennial surface water

The water table is generally very deep with boreholes being sunk to depths of 200 m. Due to the critical importance of groundwater in this semi-arid area with no perennial surface water, boreholes and the immediate surrounding areas are regarded as sensitive areas.

2.2 General description of geology and soils

The most visible geological feature of KKR is the substrate of red windblown sands of the Kalahari Group which occur uniformly over most of the reserve at depths which in places exceed 1.2 meters. These Kalahari sands are underlain by tillites, sandstones, mudstone and shale's. However, due to the depth of the sand substrate these rock formations are not visible on the landscape surface. Localised areas of exposed limestone (calcrete) occur along the Molopo River and in and around the edges of the pans. The Molopo river course is underlain by quartzites.

This uniformity of substrate on KKR is very different to most other areas in South Africa where landscapes are normally characterised by a mosaic of different soil and rock substrates. A less visible but, nevertheless, important additional feature of the geology of KKR is that groundwater is found at great depths beneath the deep layer of sandy substrate

Apart from its characteristic red colour and sandy texture, a key feature of the soil substrate is its relatively high fertility status. Another key feature is the very limited water-retaining capacity of the soil and the high infiltration and flatness means that there is virtually no runoff and all rain penetrates the soil. Soil erosion is thus of very little concern in this part of the Kalahari.

On a more scientific note these soils can be described as generally well-aggregated (apedal) and freely drained with a high base status which is the result of limited leaching under an arid climate. Soils of the river beds and pans are more alluvial in nature and their fertility status is even higher than that of the surrounding red sands. Occasional patches of lighter coloured sands (whitish to grey) are found in small depressions that intersperse the sea of red sands.

2.3 Vegetation Biome and Bioregion

KKR falls within the Savanna Biome of South Africa. This biome, which covers one-third of the country, is the most widespread of the biomes found in South Africa. As there are considerable climatic and therefore species variations within the Savanna Biome, with an east to west declining rainfall gradient, it has been considered useful to sub-divide this *biome* into six *bioregions*. Accordingly, KKR falls within the *Eastern Kalahari Bushveld Bioregion* which is that part of the Savanna Biome that extends westwards from Mafikeng to the Botswana border in the west and the Orange River in the south.

At a more local level the vegetation type in which KKR occurs has been classified and named in various ways over the years by various authors as follows:

- Kalahari Thornveld - Acocks (1975)
- Kalahari Plains Thorn Bushveld – Low & Rebelo (1996)
- Molopo Bushveld – Mucina & Rutherford (2004)

The above vegetation types are thus essentially synonymous with each other but for convenience the most current of these, namely Molopo Bushveld, will be used in this report. In broad terms the Molopo Bushveld may be described as follows:

- Structure – open woodland to a closed shrubland
- Prominent tree species – *Acacia erioloba, Boscia albitrunca, Ziziphus mucronata, Acacia mellifera, A. luederitzii* and *Terminalia sericea*
- Prominent shrub species – *Acacia haematoxylon, Acacia hebeclada, Grewia flava, Rhus burchelli, Rhus tenuinervis, Lycium cinereum, Euclea undulate, Ehretia rigida* and *Rhigozum trichotomum*
- Prominent grass species – *Schmidtia pappaphoroides, S. kalahariensis, Stipagrostis uniplumis. S. ciliata, Cenchrus ciliaris, Andropogon chinensis, Aristida diffusa, Digitaria eriantha, Urochloa mozambicensis, Panicum coloratum, Setaria verticilata, Cynodon dactylon, Eragrostis lehmanniana, E. rigidior; Heteropogon contortus* and *Melinis repens.*

Large specimens of *Acacia erioloba*, commonly known as the Camel Thorn, are a key feature of this veld type and for that matter the Kalahari as a whole. Unfortunately, large specimens of this species are scarce over most parts of KKR except on the deeper sands along the banks of the Molopo River. Their scarcity in KKR and the surrounding farms is attributed by some local land owners to large scale felling of the larger trees for fence posts and charcoal production in the past. However, field observations suggest that the scarcity of large specimens is more likely to be substrate influenced (large trees confined to pockets of deeper sand underlain by a relatively high water table) and hence a natural ecological phenomenon rather than man induced.

The floors of the scattered pans of the Molopo Bushveld are dominated by grasses such as *Sporobolus coromandelianus*, *Enneapogon desvauxii* and shrubs such as *Rhigozum trichotomum* and *Monechma incanum*.

The essential characteristics of the vegetation of the Molopo Bushveld can be summarised as follows:

- **Low tree and shrub diversity:** This is in keeping with an observed marked decrease in the diversity of tree and shrub species along an east to west gradient within the Savanna Biome. Accordingly species to area ratio in this part of the Kalahari is less than half the average for the Savanna Biome. The cause of this is the combination of the low

erratic summer rainfall, high evapo-transpiration and winter frosts. In such harsh climatic conditions deep soils are needed for trees and shrubs to survive. Thus if the deep sands were not present the tree and shrub diversity of this area would be even lower.

- **Low community/habitat diversity:** Prior to the impact of cattle farming the vegetation was, according to historical accounts, conspicuously uniform throughout i.e. open woodland dominated by *Acacia erioloba* and *Boscia albitrunca* with a low shrub under storey of *Grewia flava*. The exceptions to this are where *Terminalia sericea* thickets on patches of deep white sands and the sparsely scattered pans that is virtually devoid of shrubs and trees. This tendency towards vegetation uniformity, and hence a low diversity of vegetation communities and habitats, is due to:
  - The extremely harsh and evenly spread climatic conditions on the one hand
  - Together with the very uniform nature of the topography, altitude, geology and soils, throughout the area.

  Such uniformity is very unlike most other areas in South Africa where high variability of the components of the physical environment (especially soil patchiness) causes high variability in the vegetation pattern and hence high habitat diversity.

- **High palatability and nutritional value:** Despite the low species and habitat diversity, the vegetation is extremely palatable and nutritious. In sharp contrast to other areas in South Africa almost every tree, shrub and grass species that occur in the Molopo Bushveld are readily grazed or browsed by domestic and wild herbivores alike. This is due to the fertile and alkaline nature of the red Kalahari sands. The end result of this is that, despite the low vegetation diversity of the area, the Molopo Bushveld has the potential to carry a wide variety of large wild herbivores and carnivores.

2.3.1 Summary of the vegetation of Khamab Kalahari Reserve

The KKR consists of three distinct major plant communities with different sub-communities and variants totalling 11 different vegetation-cum-habitat units.

According to Mucina & Rutherford (2006) the vegetation of the study area falls within the Molopo Bushveld (SVk11) also known as Kalahari Plains Thorn Bushveld by Low & Rebelo (1996) with the Southern Kalahari Salt Pans (AZi4) vegetation type comprising small sections within KKR Reserve.

The vegetation of the **Molopo Bushveld (SVk11)** is described as open woodland and closed shrublands. The trees *Acacia erioloba, Boscia albitrunca* and *Terminalia sericea* together with the shrubs *Lycium cinerium* and *Rhigozum trichotomum* are characteristic. Dominant grasses include *Cenchrus ciliaris, Aristida stipitata, Aristida meridionalis, Eragrostis lehmanniana* with common forbs such as *Hermannia tomentosa, Limeum fenestrate, Sienna italica, Geigeria ornativa* and *Hermbstaedtia fleckii.* Biogeographically important taxa include the trees *Acacia luederitzii* var. *luederitzii* and *Acacia haematoxylon* and the graminoids *Antephora argentia, Megaloprotachne albescens* and *Panicum kalahariense* (Mucina & Rutherford 2006).

Unfortunately large sections of this vegetation type has been degraded due to human actions such as agriculture and intensive tree removal using herbicides that has led to bush densification by plant species such as the tree *Acacia mellifera,* the shrub *Grewia flava,* and the forbs *Geigeria ornativa* and *Tribulus terrestris* to name a few.

Communities 1 and 2 of the KKR are classified within this vegetation type. Community 1 (*Verbesina encelioides-Schmidtia kalahariensis* Grassland) is typical of water points and degraded areas (old cattle kraal sites). It occurs as small units scattered throughout the

reserve. Some of these areas are bare open patches and should be monitored to prevent the vegetation from overgrazing, while the other areas have relatively good herbaceous cover and provides grazing to animals for short periods. The *Grewia retinervis-Acacia erioloba* woodland (community 2) comprises the largest section of the reserve. The area is relatively homogeneous and flat with different variants mainly as a result of past management practices. These areas provide good grazing to animals with various important grazing grass species (e.g. *Schmidtia pappophoroides, Stipagrostis uniplumis, and Eragrostis lehmanniana*) prominent and dominant. No erosion was observed. Large scale herbicide application has unfortunately resulted in a catastrophic decline in woody species and can be seen with the many dead tree trunks remaining only (see photo below).

Although these actions may lead to an increase in grass production in the short term, it eventually leads to total degradation of diverse and species rich ecosystems. Trees and grasses are elements of this ecosystem and if excessive disturbances occur in the one element it will also influence the other. Trees play an important role in the ecosystem where they provide shade and cooler, more moist conditions to grass and other forb species preferring such conditions. Apart from also being a source of food for browsers, they also act as resting and sleeping places for animals and generally have a higher diversity of species growing underneath them. Grasses are important in protecting the soil from erosion and exposure to the environment. They also provide nutrients to the soil due to decomposition of dead material while being the only source of food for grazers. Although there is a constant competition between the grass and tree layer there are also interspecific completion between different tree species as well as between the different grass species themselves. Thus a disturbance in any one of the tree or grass layer will not only have an influence on the grass-tree interaction, but also on grass-grass and tree-tree interactions. That could therefore lead to a complete change in species composition and dominance.

Trees are normally removed to provide improved grazing. If selective removal is affected it could indeed improve the production potential of the veld. However, if large scale non-selective clearing takes place it will lead to an increase in production of the grass layer in the short term due to the higher nutrient conditions of the soil where trees used to be. However, once these nutrient sources have been depleted over a few years the high production grasses will die off quickly only to be permanently replaced by pioneer and low production grasses. At the same time indigenous invasive woody species could easily establish and form dense impenetrable stands leading to a further decline in grass production of the veld.

Many of these changes have been observed within the study area, where various species such as *Grewia flava* and *Acacia mellifera* have become prominent in areas where large-scale

tree removal has taken place. The grass layer in these areas has also become very homogeneous with only one or two grass species dominating. Thus a loss in biodiversity has occurred in these areas. Trees also act as refuge areas for different herbaceous species. This has also been observed during the field surveys with most of the different grass and forb species recorded per plot occurring underneath trees and dead tree trunks.

It therefore seems as though the previous large-scale tree removal did negatively affect some areas of the reserve. However, the fact that no intensive grazing has taken place for many years has allowed some areas to show signs of recovery. Large areas typical of *Acacia erioloba-Boscia albitrunca* veld are still present with higher species richness than the bush cleared areas.

The Southern Kalahari Salt Pans (AZi4) comprises low grasslands on pan bottoms and are sometimes devoid of vegetation (Mucina & Rutherford 2006). These pans are located on sandy sediments of the Cenozoic Kalahari Group and consist of sandy loam sand with a high calcium and phosphate content. These pans are exposed to the environment for the largest part of the year with water present only for short periods in the rainy season (Mucina & Rutherford 2006). Some larger pans do however keep water for longer period, but the pans are mostly shallow.

These pans are all present within the reserve and add to the diversity and species richness of the area. No signs of overutilization or degradation were observed during the surveys and the vegetation is typical of the vegetation type.

2.3.2 Species lists

The list of species identified during the vegetation surveys are presented in **Appendix 1**.

2.4 Disturbed or degraded areas such as bush encroachment and soil erosion

As a result of the flat topography and sandy soils into which water quickly infiltrates, as well as a good vegetation cover, soil erosion from both water and wind is largely absent from the reserve.

See the detailed description of degraded areas as a result of the use of herbicides to control bush encroachment in the past as described above in the summary of the vegetation.

SECTION B: MANAGEMENT GOALS AND OBJECTIVES

3 CONSERVATION ON KHAMAB KALAHARI RESERVE

Khamab was established in 2007 as a private venture in the Molopo district of the Eastern Kalahari Bushveld. It started with several properties being bought and amalgamated into a single property which is fenced with electrified game/bonnox fencing around the entire outside perimeter of 230km, with all the internal fences removed. The result is a property of just over 90 000ha which is completely open for animals to roam freely.

The size of the property makes it the biggest conservation area in the Northwest province by some margin, and in that regard Khamab plays a key role in conservation in the Northwest province. KKR's size means that it conserves a significant portion of the Eastern Kalahari Bushveld.

The vision, mission and key objectives of Khamab Kalahari Reserve is given below, emphasising the commitment of the reserve to conservation as well as highlighting that conservation is the only objective of the reserve (Collinson & Brett 2007).

3.1 Khamab Vision, Mission and objectives

3.1.1 Vision

The vision for KKR is to create a game reserve that:

- *Comprises unspoilt landscapes and habitats that visually typify the Kalahari Bushveld.*
- *Sustains the full spectrum of African wild herbivores and carnivores that naturally occurred in such landscapes/habitats in the past.*
- *Enables the ecological* processes *of the system to function with as little management intervention as possible.*

3.1.2 Mission

In realising this vision, KKR's mission is to establish a conservation icon that is held in high esteem both nationally and internationally for its positive contribution to wildlife conservation and the community at large.

3.1.3 Key Objectives

KKR's mission will be accomplished through the achievement of the following key objectives:

- Re-establish and sustain viable populations of the full spectrum of wild herbivore and predator species that occurred naturally in the Kalahari Bushveld in the past by undertaking a scientifically based reintroduction program and thereafter applying sound conservation practices
- Attain a high level of success in the conservation of endangered species such as black rhino, cheetah, wild dog and birds of prey by conducting comprehensive research programs and state of the art conservation management
- Eliminate those plant and animal species that are deemed to be alien to this bioregion or for other reasons ethically unacceptable including domestic livestock

- Rehabilitate the Kalahari Bushveld landscape to resemble its former natural state by removing all signs of the visually unappealing structures of past farming and other land use and land development practices
- Restore/simulate the natural ecological processes (e.g. fire frequency, surface water distribution, migration, herbivory and predation) and vegetation pattern/composition of the Kalahari Bushveld that have been disrupted/depleted/distorted by past farming practices.

Therefore, in striving to achieve these key objectives described above, the primary reason for keeping lions on Khamab is to have the full spectrum of carnivores that occurred in this landscape in the past. Coupled with this is to allow the ecological processes of the system to function with as little intervention as possible, of which lions as top predator should play a vital role.

3.2 Conservation partnerships and memberships

As captured in the vision of the reserve, Khamab wants to make a positive contribution to the conservation of wildlife and ecological processes, and hence the commitment to contribute to conservation at all levels. This includes the conservation of endangered species like wild dog (*Lycaon pictus),* cheetah (*Acinonyx jubatus)* and black rhino (*Diceros bicornis).*

In this regards Khamab participate and partners in the following conservation groups:

- Wilddog Advisory Group
- National Cheetah Metapopulation
- Lion Management Forum (LiMF) – one of the founding members

3.3 Game species and numbers present on the property

The table below shows all the species present on Khamab that was seen during the annual aerial census of 2015 (Kilian 2015).

Table 6: The results of the 2015 census.

SPECIES	TOTAL 2015
Black rhino	xx*
Blue wildebeest	2488
Buffalo	191
Cheetah	15
Duiker	90
Eland	1317
Gemsbok	3929
Giraffe	137
Impala	31
Kudu	459
Ostrich	43
Red hartebeest	870
Sable	7
Springbok	807

Steenbok	424
Warthog	769
Waterbuck	9
White rhino	xx*
Zebra	1161
Grand Total	14719

*Black and white rhino numbers are not included for security reasons.

3.4 Mammal species on Khamab

The full list of large mammal species occuring on Khamab is included in Appendix 2.

3.5 Endangered species conservation on Khamab

Khamab Kalahari Reserve conserves and is home to 2 mammal species currently on the IUCN Red List as endangered, while 5 others are lists as vulnerable or near threatened.

Black rhino - Critically endangered

African wild dog- Endangered

White rhino - Near threatened (population decreasing)

Leopard - Near threatened (population decreasing)

Brown hyena - Near threatened (population decreasing)

Elephant - Vulnerable

Cheetah - Vulnerable

Lion - Vulnerable

3.6 Waterhole distribution policy

The general belief amongst wildlife managers in South Africa is that *"the more water points provided, the more productive the wildlife and the healthier the vegetation"*. Put another way it is widely believed that many closely spaced water points is the universal remedy for achieving wildlife conservation objectives. This belief is unfortunately based on "intuition" rather than "good science". As a consequence of this much money and time is spent on the development and maintenance of permanent water points when it could have been spent better on other. In opposition to this "intuitive" approach, a "good science" approach to permanent surface water provision has been slowly gaining acceptance over the past two decades. For example it is now firmly entrenched in Kruger National Park – South Africa's premier protected area – as the outcome of some bitter lessons learnt along the way viz. declines in rare species numbers, undesirable eruptions in elephant numbers and bush encroachment due to the past practice a dense network of permanent water points throughout the Park. This gradual move to a "good science" approach has also been influenced by experience gained in semi-arid areas elsewhere - including both wildlife and domestic livestock grazing systems - where permanent water point provision was based on intuition rather than science. (Collinson and Brett, 2007) .

The effect that the distribution of surface water has on heterogeneity and ecological processes in a system is better understood, and is starting to play a much bigger role in how ecosystems are managed. The use of surface water by animals influences faunal distribution patterns across a range of spatial scales like landscape patterns. This is largely attributed to how different species utilise space at various distances from water sources. Some animals like gemsbok and eland would not need close association with water sources, while others like impala, buffalo and elephant would have a much closer association with available water sources. This in turn will influence species like lion, which tend to associate more with water sources, and how they impact on prey populations (Gaylard et al 2003)

Water distribution will also create community level patterns. These patterns that are influenced by surface water availability and distribution include direct changes to faunal compositional diversity and changes brought about indirectly by changing the frequency or intensity of ecosystem processes such as competition. An example of this is the requirements of diverse habitats necessary for the coexistence of the spectrum of carnivores, where cheetah prefers more open tree savanna and wild dog more densely wooded areas. Extensive water provision will lead to homogenization of the landscape vegetation structure, which in turn threatens the coexistence of carnivores (Gaylard et al 2003)

As said, surface water distribution will influence vegetation patterns on a landscape as well as ecosystem and population levels. On a landscape level the water distribution influence the landscape mosaic of vegetation condition and type, for example the influence that elephants or some intensive grazer will have on vegetation closer to water sources. On an ecosystem level water distribution will influence the formation of piosphere effects around water sources, where the increasing distance away from water source tend to decrease the density of the woody component and an increase in the grass component. The quantity and quality of the herbaceous community tends to improve with distance away from a water source (Gaylard et al 2003)

From these lessons learnt the challenge for KKR is to approach the provision of artificial water points for game in a way that is in accord with its vision and the foundation for the achievement of its objectives (Section B Point 3.1).

Very few reserves have the space available to implement this strategy with regards to water distribution. KKR does have enough space and are in the position to implement this management strategy.

When the reserve was started, there were more than 100 water points on KKR, and the distance between these points is in most cases were less than 5 km, giving a maximum foraging distance from water of 2.5 km. They were maintained by pumping and piping from boreholes. Prior to the acquisition of the land for establishing KKR, the primary purpose of these water points was to provide drinking water for cattle. On a few properties they provided for game animals.

From lessons learnt from the Kruger Park *"learning by doing experiment"* and from similar experiences elsewhere, it was recognised that KKR's conservation vision and objectives (as described elsewhere) would certainly not have been realised if the permanent water points on KKR were maintained in place as they existed at the time and that the prevailing water points had to be drastically reduced in number and realigned in cognisance of the ecological principles implied in the management objectives and modern thinking with regards to water distribution as described earlier.

Accordingly, the plan for the KKR was to reduce the number of permanent water points to a total of 8 and locate them as indicated in the configuration presented in Figure 13 below.

However, some of these old waterholes are being kept as temporary waterholes that can be used in the event of very severe droughts to provide water points in areas far from the permanent water points where some forage may still be in existence. To provide for such exceptional circumstances, five such water points and associated infrastructure (equipped boreholes, pipelines) will be maintained in a dormant state but in good working order.

In deciding on the number and configuration of permanent water points for KKR the following was taken into account:

- If restoration/simulation/maintenance of ecological processes was the sole objective of KKR then the ideal water point configuration would be either:
  - A single water point situated in the centre of the game reserve; or
  - A line of water points in the north that simulates a linear source of surface water - as would have been the case during the times when the Molopo River was perennial.
- However, to carry populations of water dependant species that are large enough for sustaining genetic viability, this ideal configuration will not suffice – especially for elements of the big 5 such as lion, elephant, buffalo and rhino
- Sustaining these species is an essential element of KKR's vision as well as for achieving the secondary objective (strategy) of creating meaningful economic activity on KKR through tourism and trophy hunting
- Furthermore, for tourism to be successful it is preferable to have more water points (and hence more localised concentrations of animals) spread over a wider geographic area than that of the ideal configuration – but with the rider that water points still need to be widely spaced from each other so as to encourage these desirable localised concentrations of animals from game viewing i.e. the number and spacing of water points needs to be optimised
- This desired optimum configuration of water points for tourism is also of great benefit for reducing territorial conflict (especially black rhino) and conflict between carnivore prides/packs (especially lions and wild dogs).
- While from a tourism perspective it is ideal to place water points on pans it is important from a species diversity perspective to leave a large number of pans free of permanent water i.e. water independent species (springbok, gemsbok, hartebeest) are highly reliant on pans for grazing and when permanent water is provided on pans these water independent species have to compete with water dependent species for this grazing
- Water points were moved away from fences as far as possible to reduce the density of prey animals along the fence and the possible associated effect of predators regularly chasing prey into fence lines
- One pan was kept on a large pan to provide the spectacular views associated with large numbers of animals on a large open pan
- Pans were positioned on natural depressions or very small pans (panlets)

On the basis of the above, the number and configuration of permanent water points indicated in Figure 13 represents what is considered to be a balanced compromise between competing objectives and strategies for the start-up phase. The merits of this compromise will then be evaluated over time by the process of *adaptive management.* In the meantime this start up configuration will be strictly maintained in place and only considered for

modification if the evaluation of monitoring feedback clearly indicates that objectives and strategies are not being achieved – and that this is clearly a consequence of the behaviour of populations and processes not conforming to the assumptions discussed earlier.

Waterholes were kept as natural as possible to simulate ephemeral water sources that are found in these depressions after rainstorms, albeit permanent in this case. Where these depressions were very sandy, clay from the Molopo River was used to seal these depressions to create waterholes. This provides a natural feel to the waterhole, as well as provide place for animals to roll, as well as provide habitat for frogs etc. See the photographs below of the water points on Khamab

There are no permanent open water on KKR, so these waterholes are all pumped from boreholes through and extensive pipe network system.

3.7 Fire management

Fire is a common disturbance in many terrestrial ecosystems, where it consumes enormous quantities of biomass. In Africa savannas, fire, climatic variability, soils, and large herbivores interact to shape the vegetation, driving spatial and temporal heterogeneity across the landscape. Fire affects the plant communities through large scale, episodic removal of biomass and the delivery, in some cases, of lethal temperatures to plant materials. It has been described as a large generalist herbivore (Bond 1997) that sometimes competes with, sometimes replaces, and sometimes facilitates herbivory. Many studies have shown that the exclusion of fire from savannas leads to an increase in woody biomass, and this has been interpreted that fires are essential for the persistence of savannas. However, in dry environments the exclusion of fire does not lead to the formation of forests, but rather to a denser form of savanna (Van Wilgen and Scholes 1997). Almost all plant species in arid savannas are able to survive repeated, frequent burning largely by resprouting. Pockets dominated by fire-intolerant species are not a feature of the landscape. Debates on the role of fire in such savannas therefore focus not on the conservation of fire-sensitive species but rather on their role in promoting dominance by certain species over others. Grass-tree coexistence may be made possible by separation of rooting niches, with trees having sole access to water in deeper soil horizons, and grasses having preferential access to, and being superior competitors for, water in the surface soil horizons.

Veld burning in conservation areas has for decades been, and still are, a contentious aspect of the management of southern African vegetation for three basic reasons. Fire is an obvious ecosystem driver (Walker 1987); there are important gaps in our understanding about the actual effects of fire including the interactive effects together with other factors such as herbivory (Bond 1997); and multiple practical fire management options appear to be available to managers (Bradstock *et al.* 1998). These three factors imply that managers realise the importance of fire, feel the need to choose between options to manage it, but acknowledge that the decisions are currently being taken on imperfect knowledge.

Natural fires as a result of lightning played an important role in the development of ecosystems in Africa (Biggs 2004), and the fire climax grasslands and the savanna areas owe their very nature to their long history of fire which has apparently played such an important role in their development. One area of continuing debate is the understanding of the role of early man in shaping the landscape with fire, as contrasted to a hands-off wilderness management. Modern human impact has grossly affected the historic natural fire pattern, or pattern which could reasonably be expected to prevail had human population growth and cultural practice not changed so rapidly and dramatically (Braack 1997). Humans have created roads, firebreaks, cultivated areas etc. which serves as barriers for the spread of fires over large areas. Also the tendency of modern humans to see fires as "destructive" and " bad" led to natural fires that were put out too often, probably resulting in more "damage" to the ecology than would have happened if the fires were left to burn.

Scientists realised that fire was a key determinant of savanna ecosystems and one of a suite of drivers that influence ecosystem dynamics and heterogeneity (Van Wilgen et al 2003). However, the interpretation of this influence resulted in managers applying very rigid and fixed regimes, burning areas at the same time of the year and at the same interval. Research has now shown that this have a negative influence on biodiversity by favouring those species with a life cycle better adapted to the specific burning regime. Also, a believe that fires are only good during a certain time of the year also led to some loss in biodiversity. Contemporary ecological thinking emphasizes the importance of disturbance processes in maintaining the composition and structure of savanna ecosystems, and fire is recognised as the most important disturbance process of all.

The Kalahari probably didn't see many anthropogenic fires as the original inhabitants of this land were San people, who were hunter/gatherers and not herdsman, and therefore would have no reason to start veld fires to provide grazing for their livestock. All it would have achieved was to burn away resources, which they could ill afford.

Given the high number of lightning strikes reported for the Kalahari area, it is reasonable to assume that historically fires would have been an important factor in maintaining ecosystem function in the region. It can probably also be safely assumed that in the past there was probably little permanent animal impact on the vegetation of the Kalahari due to a lack of open water, and that fires would have been an important factor in the productivity and stability of the plant communities of the Kalahari in the past, although there were relatively few (Scholes et. al 2002). Dougill and Cox (2003) suggests that the introduction of domestic livestock to the Kalahari has been accompanied by significant changes in the rangeland ecology, reflected most obviously in a shift from herbaceous to woody plant species. The exact mechanisms behind this remain unclear, and it remains uncertain whether the vegetation changes are a direct response to increased grazing pressure, or whether they reflect more fundamental changes in ecosystem function. Observations in some studies suggest that bush encroachment can be explained solely by the interactions between livestock pressure and abiotic environmental conditions, in particular rainfall variability and fire frequency. The significance of the applicability of the fire and herbivory explanations of bush encroachment is, they suggest, that vegetation changes are reversible.

Sources of historical occurrence of fires in the Kalahari system are limited, but Van der Walt and Le Riche (1984) said that fires in 1934, 1968 and 1974/5 were recorded for the southern Kalahari (nowadays Kgalagadi National Park), but that in the northern Kalahari with a rainfall of 500mm+ that fires burn every year. They only occur in large intervals in the semi-arid southern Kalahari (Jeltcsh et al 1997), but their effect is of considerable importance.

It is important to realise that fire in extensive natural settings is so varied under different circumstances, and these specifications sufficiently flexible, as to give management considerable freedom of judgement in implementing the intended achievement of the goals. Indeed, a more rigid programme is likely not to succeed in achieving biodiversity aims. Therefore, understanding the background and intention is crucial and management should not be criticised for consequences which may arise founded on good or even reasonable judgement on their part, in the rare events when unexpected changes of, for instance, weather conditions, lead to large fires. As mentioned this is a learn-by-doing approach, but if implemented correctly can be hugely positive for the conservation of biodiversity on Khamab Kalahari Reserve.

3.8 Rehabilitation programme for degraded areas

As described earlier in the discussion and conclusion of the vegetation description in Point 2.4.4, the degradation on KKR is limited to the widespread killing of trees due to non-selective bush clearing with chemicals (tebuthiuron) by aerial application in the past. This practice occurred over large areas of the reserve, and is still continuing in large areas of the Molopo district today. Unfortunately there is no rehabilitation that can be done that can rehabilitate these areas to what they formerly were. The chemicals need to work itself out of the system over time. Due to the slow growing nature of trees like *Acacia erioloba* and *Boscia albitrunca,* it will take a long time for the bush to recover to its natural state, even after all the chemicals have disappeared from the system. However, good veld management practices and prevention of overgrazing will assist the recovery, as stated by Brown & Bezuidenhout (2010).

Some areas of bush encroachment are present on KKR, mostly areas that have been overgrazed in the past and where no chemical bush clearing has been done. If encroachment occurs on areas where non-selective chemical bush clearing have been done in the past, both the woody and herbaceous components tend to become homogenous, resulting in a loss of biodiversity (*pers. obs*). Also, the bush tends to recover in thick stands of indigenous bush, eventually resulting in a loss of grass. Where the bush becomes encroached in areas that has never been cleared, or selectively cleared, it stills lead do a decrease in the grass layer, however, but the biodiversity in these areas is still high.

Areas of bush encroachment make up a small percentage of the surface area of KKR, and bush clearing is not of prime importance at the moment. The emphasis should rather be on restoring the natural mechanisms and processes that keep the balance between the woody and grass layer.
These processes include the placement of waterholes according to scientific principles (as described earlier in the document), the implementation and use of fire in the system, as well as ensuring an herbivory component that is in balance with its resources. Grazers have an important distal influence on the composition structure and pattern of savannah vegetation, while herbivory by browsers (especially elephant and black rhino) can also have a profound and more proximate influence. The introduction of elephant in the system will therefore assist and play a valuable part in restoring the natural processes that regulate the interactions between the grass and tree components.

The results of the vegetation monitoring programme, as discussed in detail earlier, will determine extent to which the above veld management interventions (herbivory, veld burning) contain and reverse bush encroachment – especially the vigorous coppice that occurs following bush clearing efforts by the previous land owners. Should the monitoring feedback indicate that the fire interventions are not having the desired effect then bush clearing interventions will be considered according to the following guidelines:

- No bush clearing will be done within a 5km radius from permanent water points
- Beyond this radius, bush clearing will focus on the coppice of previously cleared areas i.e. already encroached areas within this zone will be left untouched
- Aerial applications of chemicals will only be considered as a bush clearing technique in very localised areas
- Chopping by hand and spot spraying directly on the plant will be considered as will the use of contractors

3.9 Population management of other wildlife species

As described earlier in Section B in KKR's vision, it is stated the vision of Khamab is to allow the ecological processes to function with as little management intervention as possible. Therefore the management of other wildlife species will be kept to the minimum, as far as possible.

Predator numbers on the reserve are still establishing (some predator species like spotted hyena has not been introduced yet), and have not yet reached levels where they can exert a large enough impact on the prey population to prevent it from growing to levels outside the limits of acceptable change. The ecological management approach with regards to water distribution, fire, herbivory and predation as described above has not been fully realised yet, and it will take some time for all the processes to develop to an extent where they will keep animal populations inside the established limits of acceptable change.

To avoid overgrazing of the veld until predator numbers reach a level where they will start to exert pressure on prey population, large numbers of gemsbok, eland, blue wildebeest and zebra has been sold in 2012, 2013 & 2014, with another removal planned for 2015. These animals are captured through live capture by a game capture operator.

The number of animals that are sold through live capture gets determined after the annual aerial game census, where the whole reserve is counted systematically over a period of 7 days. Also taken into consideration are the known animals that are killed by predators during the year, and extrapolated for the whole predator population. This will be done up to a point where enough data has been collected through monitoring to accurately determine the impact of predators on prey.

The limits of acceptable change (see the discussion in Point 3.10.1 below) will constantly be evaluated based on the outcome of the vegetation monitoring programme. If the impact of the herbivore population is found to cross the lower limits of acceptable change, the population will be reduced and the lower acceptable level adapted to levels as indicated by the monitoring programme.

Predators also fall under the same approach, and the vision of as little management intervention as possible also applies to predators. We know, and information from other game reserves indicate likewise, that predator-prey relationships are complex processes that are not easy to understand, and the balance between predator and prey are not easy to establish. A lot of reserves struggle to find that balance, and are often ham struck with objectives that does not allow them the freedom to let processes continue a little longer in search of the point where the natural control mechanisms start to come to the fore (Millet et al 2013). On KKR the approach would be to only intervene if predation reaches levels where it crosses levels of acceptable change and from which prey populations are unlikely to recover.

3.10 Preferred herbivore density

3.10.1 Carrying Capacity

The concept of 'carrying capacity' is rather nebulous and consequently it has been defined in many ways. An essentially loose definition of the concept in an ecological context is:

"The number of animals that the habitat/vegetation of a given area can safely carry/maintain in the long term without risk of habitat degradation and species extinction"

In a commercial production context a more appropriate definition would be as follows:

"The number of animals that the habitat/vegetation of a given area can carry/maintain in a sustained long term productive state or a state that maximizes long term sustained yields"

In arid areas such as KKR with unpredictable variable rainfall patterns, and hence highly variable vegetation production from season to season, there is no such thing as a static or fixed carrying capacity. Instead the so called carrying capacity in reality is something that fluctuates widely and unpredictably over time. In these circumstances the usefulness of the concept becomes highly questionable with respect to herbivore management decision making for KKR.

Thus, in the context of KKR it is better to manage and make decisions in accordance with a range of so called carrying capacity estimates with upper and lower limits (i.e. *limits of acceptable change*). In this context carrying capacity estimates have some use at the start-up phase in providing the "pointers" within this range or the "ball park" estimates for placing start up stocking rates within the range. Furthermore, in the absence of any exact science basis for determining this range of estimates the following approaches were adopted in this report (Collinson & Brett, 2007):

- According to the knowledge and experience of local farmers and herbivore ranchers the overall herbivore carrying capacity for the Molopo area is:
  - 1AU/10 ha in good to average rainfall years[1]*
  - Much lower than this for drought years
  - 1AU/20ha if the aim is to adopt a cautious approach that minimizes the risk of die offs in drought years
- The current herbivore stocking rates of the nearby Molopo Game Reserve were then compared with the figures provided above by local farmers and they were found to concur i.e. during the current good rainfall years the total stocking rate has been sustainably maintained at 1AU/12 ha
- More scientific general equations (using average annual rainfall and soil fertility parameters) for estimating carrying capacity provide figures ranging from 1AU/10ha to 1AU/30ha for a mean annual rainfall of 320mm

3.10.2 Limits of Acceptable Change

Footnote: [1] **An AU (Animal Unit) is a standard animal with a mass of 454 kg which is used as a standard measure in carrying capacity estimates. Different species with different body masses are then assigned AU equivalent on the basis of this standard e.g. Conventionally in South Africa, carrying capacity has been expressed as the number of hectares required to support an AU (ha/AU or AU/ha). Recently, the use of an AU as a standard measure in the carrying capacity estimates has come under criticism due to the fact that it has several shortcomings. The critics of the use AU as the standard measure recommend biomass (with kg as the unit) as a preferred alternative. Nevertheless, due to its familiarity in the South African context this report has persisted with the AU concept.*

Having established a carrying capacity range and start-up stocking rate guidelines, and in keeping with KKR's vision and mission *(allow ecological processes to function with minimal management intervention)*, herbivore management, after the start-up phase, needs to be conducted as follows:

- The total overall stocking rate of established herbivore species should be allowed to fluctuate between an upper limit of 1AU/10ha and a lower limit of 1AU/30ha
- Apart from rare and/or valuable species, management interventions such as removals, predator control, feeding, veterinary treatment, supplementary introductions etc. should only be undertaken if herbivore populations fluctuate to such an extreme that they increase or decrease outside the range of these limits. *(Note that with this approach, some die offs of common species during droughts would need to be tolerated in keeping with the vision/mission)*
- For rare and/or valuable species such as black rhino, white rhino, and buffalo a far more hands on management approach would be required. In this respect, intervention including selling off of surplus animals (before food becomes scarce), feeding in times of drought and veterinary treatment would be major challenges for achieving maximum productivity through low mortality and high birth rates.

4 BASE FOR DEVELOPING A LION MANAGEMENT PLAN

4.1 Background to lion management on small reserves

As prelude to the lion management plan, let us look deeper into the typical breakdown of natural population factors that happen in small enclosed reserves.

Naturally lions live in groups or prides in order to defend territories from other groups, or to defend cubs from roaming males and/or males wanting to take over prides (Miller et al 2013). The typical situation on small fenced reserves is that there is often no roaming males, or sometimes no other prides and/or roaming groups. As a result there is no pressure for prides to stay intact, often leading to complete disintegration of pride structures. This in turn affects predator-prey relationships because the impact of several individuals and/or small groups of lions making multiple kills is bigger than the case with more stable prides making less kills, even if the total number of lions on the reserve is similar.

The typical situation on small reserves is that male coalition take-overs are a scarce occurrence, which is the prime reason for cub mortality in natural populations (Miller et al 2013). Pride males often stay with a particular pride for many years, sometimes leading to inbreeding when these males start mating with their daughters, reducing the genetic variability of the population.

Lion populations on small reserves often have a lower age of first breeding, shorter breeding intervals and larger litter sizes than their counterparts in natural populations (Miller & Funston 2014). This is probably partly management induced, but there are also arguments for the theory that because of the absence of roaming males and more prides, there are less social and resource stress in the populations. Increasing social and resource stress results in females loosing body condition, which in turn could affect fecundity. It could lead to females breeding at a later age, as well as less often.

Furthermore, management actions like culling or regular removals as ways of controlling population numbers can have the opposite effect in that it increases population growth rates (Miller et al. 2013). The reason for this is that it does not mimic natural population drivers, but are more similar to removals from a population due to natural disasters. When a population is under pressure from natural disasters, for example recovery after a disease outbreak, it can often respond by increasing its growth rate.

4.2 Objectives of lion management on Khamab Kalahari Reserve

Lion management on Khamab should strive to:

- manage the lion population in such a way that they form part of Khamab's vision by seeing them as an ecological process that should function with as little management intervention as possible
- keep the lion numbers within the levels of acceptable change, allowing for natural fluctuations in population size, and ensuring that they do not reach levels where the prey populations are unable to recover from
- allow natural population regulation mechanisms to play a role in the maintenance of the lion population
- keep the genetic integrity of the population intact
- to ensure that lion population does not grow to levels where the continued existences of endangered predators like wild dog and cheetah are in jeopardy
- minimize the prevalence of diseases in the lion population

- make Khamab a leading role-player in lion conservation community regarding the management of lions on small reserves
- contribute to lion conservation as a whole by participating in a lion meta-population management approach as suggested by the Lion Management Forum ("LiMF")
- minimize lion/human conflict situations

4.3 Principles incorporated in the lion management plan

System based approaches to conservation management include at least one of the following elements: allowing natural processes to play out, restoring ecological processes or mimicking the outcomes of ecological processes.

In line with the Khamab Kalahari Reserve's Vision, Mission and Key objectives, lion management on Khamab should primarily allow natural processes to play themselves out, as far as possible. However, realities and experience on small to medium sized, fenced reserves, have indicated that, although good to aim for, are not viable in practice, and that management intervention needs to be more intense, especially when managing a large carnivore like lion.

Therefore, the management plan must primarily attempt to restore ecological processes that control lion populations. Secondary it should aim to, in conjunction with the restoration, mimic social factors that impact on lion population control, rather than direct management actions based upon carrying capacity approaches.

Keeping in mind the reason for the breakdown of natural processes as described earlier, the natural population control mechanisms that can be restored or mimicked are:

- More prides
- Roaming males
- Coalition take over and infanticide
- Age of first and last breeding
- Litter intervals
- Litter sizes

4.3.1 Restoring ecological processes

In order to allow for natural mechanisms of population control, Khamab should aim to have at least two or three prides on the reserve, and possibly more depending on how the lion population develops. There should then be at least one roaming male coalition per pride to add social pressure on the population. As summarised earlier, increasing social pressure could potentially lead to increase in litter intervals and decrease in litter sizes.

More roaming male coalitions could potentially lead to more regular natural coalition take-overs, and this should be allowed to happen. In case natural take-overs do not occur, due to several factors, this should be mimicked by removing pride males regularly by live removal (providing other reserves with males or swopping males with other reserves) or hunting. Pride males should be allowed to ideally have two (or maximum three breeding cycles) and then be removed, or a natural pride take over should be encouraged by allowing competitor males to come through the ranks or being introduced.

This approach is new in lion conservation and as far as knowledge stretch, has not been implemented on any small fenced reserve in South Africa. Although the theory behind this

are sound, the effect of this on a small population is still unknown. This approach therefore needs close monitoring and regular scrutiny with regards to its effectiveness. The potential of this is widely recognised at the Lion Management Forum (LiMF), but because of the practical implications, especially in small reserves, is not that easy implement. The size of Khamab may make it more viable as a management tool than on the majority of other reserves in South Africa.

4.3.2 Mimicking of natural control mechanisms

If results from the above approach do not prove to be successful, ways to mimic the natural population regulation mechanisms can be introduced. This should ideally be done in combination with the above approach, and only under extreme circumstances be introduced as an "exclusive" option.

By carefully incorporating contraceptives as part of a lion management approach, it can fulfil a valuable role in mimicking natural control mechanisms. As described earlier, the age of first breeding, inter-litter intervals and age of last breeding can be controlled with the use of contraceptives. Here they can be used to increase the age of first breeding and increase litter intervals, and reduce the age of last breeding to be more in line with natural patterns as described earlier.

Contraception should be used with care. There have been some negative effects on population dynamics of lions reported when contraception has been used as a management tool for example prides splitting up, lionesses becoming over weight and sometimes unable to come into oestrus again . Although this is based circumstantial evidence on not documented literature, there are enough reports on this to probably have a certain amount of truth to it, even though not documented scientifically. Contraceptives should only be used in a way that will mimic natural population control mechanisms, and should not be used in a blanket approach in the population. In natural populations it is very unlikely that a number of females in a population will be without cubs for extended periods of time and this very unnatural approach should therefore not be induced by the use of contraceptives. However, if contraceptives are used carefully and as part of a well thought out management approach, can be an effective tool in controlling lion population growth. Like with restoring ecological processes, monitoring should be done to test the affectivity of mimicking these factors, as well as picking up any negative consequences of this approach.

Litter sizes could potentially be reduced by a current experimental procedure of unilateral tube tying. This is a surgical procedure where one tube of the uterus of the lioness gets tied or removed, which mean that fewer cubs can be conceived. Some reserves have started to use it, and the effectiveness of this procedure in natural conditions is still unknown, although it worked well in zoo situations. However, it does show some huge promise as a way of reducing population growth rate. Although it invasive and requires surgical intervention which can be expensive, it is a once-off cost, where after there are not regular interventions with the specific lioness, and in the long term probably the better option.

4.4 Management considerations in the management plan

4.4.1 Excess lions and population control

Lion numbers on Khamab should only be reduced if the lion population on Khamab reaches a level where it prevents the reaching of objectives of the reserve as a whole, or the specific objectives of the lion management plan.

However any decisions to reduce or control the population should be made with care and only if it proves that objectives cannot be achieved as a result of a larger lion population.

Several options are available for population control of the lion population: live removals to other reserves, hunting of specific individuals, culling (euthanasia) and contraception.

a. The options to remove live animals for introduction to other reserves have decreased dramatically of the past few years. The majority of reserves in South Africa belief that their lion populations are too large, and are looking for translocation opportunities. There is an oversupply of free-roaming lions from game reserves, so finding an outlet for lions for translocation will not be easy. However, this should be the preferred method if young animals need to be removed, and should be attempted first before other options are considered.

   If males in their prime need to be removed for genetic purposes (see below), they should be considered for swopping for other males (see below) from other suitable and credible reserves.

b. If specific adult individuals needs to be removed for whatever reason, and it is impossible to remove them alive, they should be considered for hunting. However, individuals that are part of a stable pride should not be hunted while in the presence of the pride. Hunting should only be applied as a simulation of a natural population process, and not as a means of generating income.

   Old males that have reached the end of their lives can be considered for hunting. Males in their prime can also be considered for hunting if there is no need to introduce new genes by swopping with other reserves (see above), or if there are no other reserves that form part of LiMF (see below) who are looking for lions for introduction.

   In small populations there are often single lionesses with a tendency to move off and spend most of their time on their own. Although un-documented, previous experience indicates that the offspring from such lioness show similar tendencies later in life. These animals are often shy, don't get seen often, and therefore don't contribute much to the game viewing experience. However, they add considerably to predation impact. In order to promote pride structures once the population and prides have established, these animals should be removed, preferably alive by translocation to other reserves. This strategy should be monitored for its effectiveness, and will hopefully contribute to more stable pride structures.

c. Euthanasia (culling) can be used in exceptional circumstances if the above options have been explored and if no alternative solutions can be found. However, because of the controversial perceptions of euthanasia, it should be done with the utmost care. Animals should not be euthanized in the presence of other individuals that are not earmarked for euthanasia. The best method of euthanasia is to first dart and immobilize all animals earmarked for euthanasia, remove them from the area, and then to kill them while they are asleep.

   Euthanasia of cubs is both a very sensitive topic, as well as hard on the person that needs to do it. In natural lion populations, low survival rate of cubs is one of the prime natural population control processes that appear to break down in small, fenced lion populations. In terms of simulating natural control mechanisms, euthanasia of cubs could be a good way of achieving the objective.

However, as with other euthanasia described above, this should not be done in presence of the mother or other pride members. Furthermore, not all the cubs from a littler should be euthanized. By leaving at least one cub, it will prevent the lioness from going into estrus immediately.
As mentioned, the euthanasia of cubs is extremely controversial, and should be debated openly and honestly by the Khamab management team.

d. Euthanasia should not be adopted as a rule as a quick fix, but underlying problems that cause over-population should be addressed as far as possible.

e. The use of contraceptives to control population numbers has been described in more detail earlier. Contraceptives should be used with care in a well thought out management approach.

4.4.2 Genetic integrity

In open systems genetic integrity is ensured through normal social behavior of lions, but these mechanisms often gets broken down in small populations. As a result some reserves with small lions populations face inbreeding issues, which is often amplified by management actions like euthanasia, contraception etc. However, by mimicking natural control mechanism and social behavior as described above, inbreeding problems are unlikely to occur on Khamab. However, whenever a lion needs to be darted for the first time for whatever reason, genetic samples should be taken and send for analysis to continuously monitor the genetic integrity of the population. If test results show indications of continuous decrease in genetic variability and integrity, serious steps to introduce new genetic material should be made as soon as possible. This can largely be achieved by participation in a meta-population management approach as described later in this document.

4.4.3 Disease and general health

Diseases play important roles in the functioning of natural systems, whether it is to control population numbers or maintenance of genetic diversity. It is therefore often important in natural systems that diseases dynamics play out in order to increase ecological heterogeneity. However, in small and/or fenced populations, it is important that managers think through the potential impacts of diseases carefully. Some diseases can severely deplete or in some cases completely exterminate a small population. And in a fenced reserve as an " island" there is no opportunity for natural re-colonization of the population. The establishment of the populations often came with lots of effort and financial implications, and it would therefore be ill advised to let certain diseases play itself out.

However, it also doesn't make sense to contracept or euthanize lions to prevent the population from getting too large, and then on the other hand also vaccinate to protect lions from diseases.

To not remove the important role that diseases play in the functioning of the system completely, it will therefor make sense to vaccinate core individuals only. This will allow diseases to still play a role in controlling the population, but will prevent the complete removal of the whole population as a result of the disease. However, vaccination should not be seen as a must do, and it is up to KKR management to decide on the necessity of vaccination.

Key diseases of lions to look out for are canine distemper virus (CDV), bovine tuberculosis (BTB), rabies and feline immunodeficiency (FIV). Some of these diseases has the potential to

kill a large percentage or exterminate the population, and should be avoided where possible. Furthermore, some of the diseases like BTB and rabies has the potential to spread into other animal populations as well, and should therefore be avoided. FIV seems to be present in most lion populations, and should not be a serious concern, but should be monitored.

Whenever lions get darted for whatever reason, blood samples should be taken and analyzed for these diseases if possible. The skin test for BTB has not been perfected for predators, and need boma time and follow up tests. It should not be a concern unless new animals are brought in from the Lowveld or KZN regions.

However, diseases that affect single animals and with a low probability to spread in the population should not be a concern. If animals do get infected by some means, they should not be treated unless it is an animal that has value for a particular reason, for example a new introduction for genetic reasons.

Similar rules should be used for injuries etc., even if it is life threatening. If it is an animal that doesn't have a high genetic value, or high potential economic value, these animals should be allowed to either die naturally as a result from the injury, or to recover naturally on its own. Lions have a remarkable ability to recover from what we as humans see as serious injuries, and even broken legs etc. have the ability to recover well. Managers often over-react to injuries on lions, but each case should be evaluated on its own merits.

4.4.4 Conflict with other predators

It is known that lion can have a large impact on con-specific predators, in specific wild dogs, cheetahs and brown hyena. However, some of the other smaller predators are also killed by lions, although unlikely to such an extent that it will threaten the existence of the small predators.
It was reported in some reserves that the populations of wild dog and cheetah were virtually killed to extinction on some reserves by lions, while on others the impact appears to be less severe.

However, both these species also have the ability to increase in numbers quickly, and as a result can have a high impact on the prey populations on a reserve. Lions serve as an important population control mechanism in natural systems.

Therefore, it must be accepted that lions will kill a significant number of other predators, and this must be allowed without interference. However, the status of small predators needs to be monitored closely, particularly for impact of lion killings on the population. Cheetah and wild dog are more endangered than lion, and therefore should have a higher conservation status on the reserve than lions. Khamab should aim to contribute to the conservation of both these species by providing excess animals for relocation to other reserves.

Only if it appears that the lion population will cause local extinction of any of the smaller predators should it be a concern, and should measures be implemented to combat this.

4.4.5 Effect on biodiversity/prey populations

In natural populations lions regulate the number of prey in most savannas systems. However, in small and fenced situations they are known to negatively affect prey populations, and this influence gets magnified on reserves where large scale hunting or continuous live removals for sale take place. Models have shown that increased numbers of predation in combination with regular harvesting can drive fenced prey populations to extinction. However, the same effect is also witnessed on reserves where hunting and live removals are not a regular occurrence, the difference is that it takes place over a longer period. Without careful

monitoring and sometimes regulation of large predator numbers, ungulate populations can decline more rapidly than managers expect.

However, the effect of waterhole distribution on the predator-prey relationships on small fenced reserves has not been tested. The limited waterholes on Khamab might or might-not influence the potential impact of the lion population on the prey population, as well as on other predators like cheetah and wild dog. There is the potential that the predator-prey relationships on Khamab might be more balanced in comparison with other much smaller fenced reserves, taking into account both the size and limited water distribution on Khamab. Therefore, Khamab management should not over-react when the lion population increases rapidly initially, and appears to start having an impact on the prey population. Natural ecological balances takes time to develop, and likewise might take time for the growth rate of the lion population to respond to the impact on prey population numbers.

The impact of the lions on the prey should continuously be monitored and modeled in order to get a good understanding of the predator-prey dynamics. This should also indicate if some sort of equilibrium between the predators and prey are possible in the context of water distribution, or if the pattern on Khamab will follow what is seen elsewhere on other fenced reserves.

As a starting threshold of potential concern (TPC) for the prey population, if a 15% decrease in the prey population can be attributed to high numbers of lion

4.4.6 Meta-population management

The major reason for the introduction of lions in fenced reserves is by far majority done for tourism purposes, rather than ecological reasons. Most small lion populations get micromanaged and in isolation from other populations, which has the net effect of reducing the conservation values of these small lion populations on a regional scale. This prompted an initiative by several private and government management agencies as well as biologists dealing with lion management, to form the Lion Management Forum (LiMF), with the purpose of enhancing the conservation status of lion population on small fenced reserves. It also attempts to find solutions to lion management issues and challenges on fenced reserves.

Part of this strategy is to group small lion populations on fenced reserves together to form a larger lion meta-population. The idea is to have regular movement of lions between the different meta-population reserves by swopping of animals from time to time, and to work together to mimic a much larger natural lion population. All reserves will still have its own management objectives and measures, but by having regular contact and assisting each other by creating opportunities for movement of animals, will prevent micromanagement of the populations, and in that way increase the conservation value of each small population.

Khamab was one of the founding members of LiMF, and should continue to participate in this initiative. In this way it can achieve several of the objectives of the reserve as a whole, as well as the vision of keeping a lion population as described earlier.

4.4.7 Human conflicts and compensation

Conflict between humans and lions (and all other predators) should be avoided at all costs. This implies keeping the electrified boundary fence in perfect condition to minimize the risk of escaping to almost zero. However, even if the fence is in perfect condition, the chance of a large predator escaping are always present, and in the case of a large predator escaping, Khamab management should react immediately to either capture the animal and return it back to the reserve, or destroy it if no alternative is available, and/or the escaped animal poses danger to the life a human outside the fence.

In case the escaped animal causes damage outside the reserve if it escapes, Khamab should have a compensation policy to repay damages to the affected parties. Whether this compensation policy is covered by insurance, or from allocated budget funds are to the discretion of the management team. However, they need to ensure the public liability etc. is in place in case the escaped animal causes the death of a human being.

In order to ensure the continues respect that the large predators have for the electrified fencing, it should be ensured that all fences on Khamab to which predators have access to, be electrified and in good condition. This include fences around camps, houses etc. The reasoning behind this is that animals will increasingly test fence lines in attempts to escape if they regularly come into contact with fences without electricity or electrified fences that are not working properly.

The first line of preventing predator/human conflict situations is a proper working boundary fence line.

In the case of an animal escaping the reserve, but gets captured and returned to the reserve, such an animal should only be giving one chance. The next time it escapes again (except in exceptional circumstances which is not the fault of the escaping animal), the animal should be destroyed as soon as possible to avoid escaping turning learned behavior.

Khamab should develop a policy for the compensation of neighbors in the case of any large predator escaping the reserve and causing damage on neighboring properties, as well as for liability in the possibility of a human being killed by an animal that has escaped from the reserve.

4.5 Monitoring

The effectiveness of this management approach will depend on a detailed monitoring program. An adaptive management route should be followed to make this management approach work. For the success of any adaptive management approach information the outcomes of decisions are very important in order to feed back in future decision making processes. Therefore, to get a good understanding of the outcome of decisions in this regard, a stringent and detailed monitoring program is critical. This monitoring program needs to be permanent and ongoing. Lions as apex predators are important drivers in the ecosystem and can have top-down effects on ecosystem processes.

5. DETAILED ADAPTIVE LION MANAGEMENT APPROACH FOR KHAMAB KALAHARI RESERVE

As described earlier, the lion management plan on Khamab is based on two strategies.

Strategy 1 focusses on the restoration of ecological processes, while **Strategy 2** involves the mimicking of natural control mechanisms that regulate lion populations.

The core of the lion management plan is based on the **flow diagram (Appendix 3)** which serves as decision making process on which management decisions can be based, and is very important in understanding the management process as described below.

5.1 Strategy 1 (Restoring ecological processes)

Strategy 1 should be the preferred (primary) management strategy to start off lion management on Khamab. As mentioned earlier, it is still untested, and therefore need to be monitored closely before decisions on its effectiveness can be made. Should it proof effective, it should remain the primary management strategy for managing lions on Khamab.

This strategy entails the following:

- Establish at least 2 prides on Khamab
- Establish at least 3 bachelor male coalitions
- Allow 2 or max 3 breeding cycles for pride males
- Remove pride males by live removal (preferable) or hunting (if no translocation options are available). Timing of removal will be important (try to remove when there are very young cubs or pregnant females pregnant). This should open opportunities for infanticide.
- Allow a young coalition to take over.
- Replace the coalition that took over with new, young coalition (either from outside of Khamab if new genes are needed or from within Khamab population).

Female dispersal groups should be allowed to establish prides to test for the increase in social pressure on the population. Khamab can potentially accommodate 3-5 prides based on home range size and available habitat.

Once fairly stable prides are established, lionesses that become loners should be removed, preferably by live removal.

Male coalitions should be restricted to maximum of one for each pride. Extra male coalitions should be removed by live removal (preferable) or hunting (if no translocation options are available) if they are old enough.

Pride sizes are not important and should self-regulate. However, if large prides leads to a significant increases in predation on large herbivores like rhino or buffalo, this strategy should be re-evaluated.

5.1.1 Monitoring

Monitor the outcome of Strategy 1, in particular population growth (inter-litter intervals, age of first breeding, cub survival).

Monitor the effects of these actions on the lion population growth and social structures.

Continuously monitor the effects of the lion population and the different management approaches on the prey populations.

Closely monitor impact on prey population, and use in predator-prey models to determine the effect of different management options on the predator-prey relationships.

If a decrease in prey populations can be attributed to lion predation (decrease of 20% of prey population), find the reason/s for this:

- Is the lion population to big?
- Are there too many prides?
- Are the prides to large?
- Too many single animals or bachelor groups?
- Is it related to environmental factors like water distribution?
- Is it a combination of the some of the above factors?

These can be answered with the use of models, using data from a monitoring program.

If the conclusion to above questions is that the lion population is too big, find the reason for why it is too big, and what can be done to remedy it.

- Is Strategy 1 not working, or not working well enough?
- Can Strategy 1 be adapted to make it work better?
- Should Strategy 2 be combined with Strategy 1 to make it more effective?

5.2 Strategy 2 (Mimicking natural control mechanisms)

Strategy 2 can be followed in case Strategy 1 does not prove successful. However, it should be kept in mind that the restoration of ecological processes will take time, and the natural drivers that are attempting to be restored with Strategy 1, need to be given ample time to start being effective.

However, should monitoring indicate that Strategy 1 does not lead to the desired results, Strategy 2 can be incorporated, and should ideally be combined with Strategy 1. Only in extreme cases should Strategy 2 be used on its own.

Strategy 2 involves mimicking natural control mechanisms that control lion populations

If a large lion population is responsible for decrease in prey numbers, the population needs to be reduced. Mimicking natural population control is important in this instance.

The best way to reduce impact on prey is to remove small dispersal groups, or a whole pride. In such a case the whole group or pride should be removed and no individuals left behind. This mimics normal dispersal or immigration and should not impact the surviving groups much.

The best option for removing a whole group is through live removals and relocation. However, options for relocation are becoming increasingly rare, and if it is a small group of only two animals they can be removed by hunting, alternatively if it is a larger group with young animals should be euthanized.

If this becomes a regular occurrence, other measures to reduce population growth should be implemented, but again should be focused on mimicking natural mechanisms.

- Unilateral tube tying to mimic decrease in litter sizes, but also mimic reduced cub survival into adulthood.
- Cub survival can be mimicked by euthanasia of cubs.
- Using once off contraception on young lionesses to increase age of first breeding.
- Using contraception on old lionesses to reduce age of last breeding
- Using single contraception in between litter to increase inter litter interval.

Of the above options, unilateral tube tying shows the most promise, and information should become available with regards to its effectiveness as more and more reserves are starting to use it as a management option.

APPENDIX 1: PLANT SPECIES LIST

The following is a list of species identified on KKR during the vegetation survey: (Brown & Bezuidenhout, 2010)

ACANTHACEAE
Barleria rigida Nees
Blepharis integrifolia (L.f.) E.Mey. ex Schinz
Monechma divaricatum (Nees) C.B.Clarke
Monechma incanum (Nees) C.B.Clarke

AIZOACEAE
Gisekia africana (Lour.) Kuntze var. africana
Limeum argute-carinatum Wawra & Peyr.
Limeum fenestratum (Fenzl) Heimerl
Limeum viscosum (J.Gay) Fenzl ssp. viscosum var. viscosum
Plinthus karooicus I.Verd.
Plinthus sericeus Pax
Trianthema parvifolia E.Mey. ex Sond. var. parvifolia

AMARANTHACEAE
Amaranthus praetermissus Brenan
Hermbstaedtia fleckii (Schinz) Baker & C.B.Clarke
Kyphocarpa angustifolia (Moq.) Lopr.
Pupalia lappacea (L.) A.Juss.

AMARYLLIDACEAE
Boophane disticha (L.f.) Herb.
Nerine laticoma (Ker Gawl.) T.Durand & Schinz
Pancratium tenuifolium Hochst. ex A.Rich.

ANACARDIACEAE
Rhus tenuinervis Engl.

ANNONACEAE
Monanthotaxis angustifolia (Exell) Verdc.

ASCLEPIADACEAE
Pergularia daemia (Forssk.) Chiov.

ASPARAGACEAE
Asparagus africanus Lam.
Asparagus species

ASTERACEAE
Chrysocoma obtusata (Thunb.) Ehr.Bayer
Dicoma capensis Less.
Eriocephalus aspalathoides DC.
Felicia muricata (Thunb.) Nees
Gazania krebsiana Less.
Geigeria ornativa O.Hoffm.
Helichrysum lineare DC.
Hirpicium echinus Less.
Hirpicium gazanioides (Harv.) Roessler
Nolletia arenosa O.Hoffm.
Pentzia globosa Less.
Schkuhria pinnata (Lam.) Cabrera
Verbesina encelioides (Cav.) Benth. & Hook.
Vernonia poskeana Vatke & Hildebr.

BIGNONIACEAE
Rhigozum brevispinosum Kuntze
Rhigozum trichotomum Burch.

BORAGINACEAE
Ehretia rigida (Thunb.) Druce
Heliotropium ciliatum Kaplan

CAPPARACEAE
Boscia albitrunca (Burch.) Gilg & Gilg-Ben.
Cadaba aphylla (Thunb.) Wild
Cleome angustifolia Forssk.

CHENOPODIACEAE
Chenopodium hederiforme (Murr) Aellen var. dentatum Aellen
Salsola kali L.
Salsola rabieana I.Verd.

COMBRETACEAE
Terminalia sericea Burch. ex DC.

COMMELINACEAE
Commelina africana L.
Commelina benghalensis L.

CONVOLVULACEAE
Convolvulus sagittatus Thunb.
Ipomoea magnusiana Schinz
Ipomoea species
Merremia verecunda Rendle

CRASSULACEAE
Kalanchoe paniculata Harv.

CUCURBITACEAE
Citrullus lanatus (Thunb.) Matsum. & Nakai
Cucumis africanus L.f.
Acanthosicyos naudinianus (Sond.) C.Jeffrey

CYPERACEAE

Dear Ms. Sandler,

Your application, #43432D, that was received on 06/06/2019, is currently under review. Please be aware that we have a significant number of applications pending, and we process applications in the order they are received in the office. The staff member working on your application has been notified of your inquiry. If there is a need for additional information or clarification on information provided in your application, the staff member will contact you directly.

We appreciate your time and consideration.

Thank you for submitting an application to the U.S. Fish and Wildlife Service. The application was received by the Division of Management Authority on 06/06/2019; check number 1994 accompanied the application for AFRICAN LION. Your application has been assigned the following PRT identification number: MA43432D-0While processing time may be less, you should anticipate a minimum of 30 days to process your request, with many requests averaging between 60 to 90 days due to some requests which need to be published in the Federal Register and/or be reviewed by other Service offices. While we are aware that you may want to inquire about the status of your application, we request that you allow our office at least three weeks after the receipt of this notification to make any inquiries. Should you have additional information that you need to provide to our office pertaining to the current request, we ask that you call our office first at 800-358-2104 or email managementauthority@fws.gov to obtain further instructions.

LION SOUTH AFRICAN ESA TROPHY

Permit Number: MA43432D-0

Effective: 08/30/2019 Expires: 08/29/2020

Issuing Office:

CHIEF, BRANCH OF PERMITS, DMA

Permittee:

STEVEN A. SANDLER
(b)(6) [redacted]
CELINA, TX 75009
U.S.A.

Authority: Statutes and Regulations: 16 USC 1539(a); 50 CFR 17.40(r).

Location where authorized activity may be conducted:
IMPORT THROUGH ANY PORT LISTED IN 50 CFR 14.12

Reporting requirements: Not applicable

Authorizations and Conditions:

A. Authorized to import the sport-hunted trophy of one male African lion (*Panthera leo melanochaita*), taken in South Africa for the purpose of enhancement of the survival of the species.

B. Specimen may not be sold or transferred for any financial remuneration.

C. **Trophy must have been taken during the 2019 hunting season.**

D. Trophy must be accompanied by a valid trophy permit or hunting license issued by the government of South Africa for the 2019 season.

E. Trophy must be accompanied by a valid Convention on International Trade in Endangered Species (CITES) Appendix II export permit/re-export certificate, source code "W", issued by the Management Authority of the exporting/re-exporting country.

F. General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

G. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law.

H. Valid for use by permittee named above.

I. Acceptance of this permit serves as evidence that the permittee understands and agrees to abide by the "General Permit Conditions" (copy attached).

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

(b)(6) [redacted]

OMB Control No. 1018-0093
Expires 08/31/2020

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

OMB Control No. 1018-0093
Expires 08/31/2020

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   Bubye Valley Conservancy, Fimbiri Camp, Zimbabwe. S 21-14.751, E 030 – 01.756

   e. Date wildlife was hunted: 06/19/2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   John Sharp Safaris (Representing Tracy Safari Adventures)
   22 Hoopoe Hollow, Burnside, Bulawayo, Zimbabwe +263 77 221 7067

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

   Collett's Wildlife Artistry
   15 Josiah Chinamano Road
   Belmont, Bulawayo, Zimbabwe +263 9 885868

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Attached

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	Collett's Wildlife Artistry
Address:	15 Josiah Chinamano Road
Address:	Belmont

State/Province:	Zimbabwe
Country, Postal Code:	

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I un[redacted] s in one calendar year.

Applicant's signatur[redacted] Date: 06/04/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
DABBS	THOMAS	EUGENE	N/A

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b)(6) [redacted]			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

(b)(6) [redacted] Apartment #, Suite #, or Room #; no P.O. Boxes)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
TRIMBLE	MISSOURI	64492	CLINTON	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
N/A

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country
N/A	N/A	N/A	N/A	N/A

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   N/A

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   THOMAS EUGENE DABBS (b)(6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: N/A (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Naivasha Area 1- Chiredzi District, Mwenezi District Council, Mwenezi, Masvingo Province Zimbabwe. Grid Ref UM390/020

b. Date wildlife is to be hunted:

JULY 28 2019 - AUGUST 16 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

SHANGANI SAFARIS (Tour Operators License Number 0128) Chiredzi, Zimbabwe / PH: Lloyd Yeatman

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   e. Date wildlife was hunted: N/A

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).
   I have not yet hunted and do not currently hold any permits or licenses.

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Trophy Consultants International
Business Name:	4 Josiah Chinamano Road
Address:	Belmont
Address:	Bulawayo

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: N/A Date: N/A

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signatu (b)(6) [redacted] Date: 05/30/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   Cindi Rulon ------- FED EX COURIER ENVELOPE ENCLOSED----
   Pro Cargo
   15619 Morales Rd.
   Houston, Texas 77032

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Cindi Rulon
   281-590-5500
   cindi.rulon@procargousa.com

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

[X] No [ ] Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
1 (one) Capra Falkoneri Heptneri; horns, skin, skull Bukhara Markhor

b. Sex (if known). Male; 12 years old

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:
Zigar Village, Darvoz Region, GBAO, Tajikistan, LLC M-Sayod
GPS coordinates 38.101984 / 70.428382

b. Date wildlife was hunted: February 2019

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:
Ayub Mulloyorov, Manager
LLC M-Sayod
Zigar Village, Darvoz Region, GBAO, Tajikistan

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:
Zigar Village, Darvoz Region, GBAO, Tajikistan
info@tajwildlife.com
+992-918-817-855

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Attached; Hunting Permit No. N08/0000008/517

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].
Name: Ayub Mulloyorov
Business Name: LLC M-Sayod
Address: Zigar Village
City: Darvoz Region
State/Province: GBAO, Tajikistan
Country, Postal Code:

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?
See IUCN Survey of Markhor in Tajikistan 2017 covering M-Sayod; pages 11, 12, 13, 14, 22, 24-25

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?
As I understand, $40,000.00 USD went to Tajikistan Committee on Environment Protection under the Government of Republic of Tajikistan.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?
Balance went to M-Sayod and Zigar Village to cover year round game rangers and other local conservation actions that are leading to the Markhor population and distribution outlined in the IUCN Tajikistan Survey Report attached.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more t

A. Survey participants

Group #1:

- Alidodov, Munnavar: NGO Panthera
- Broghammer, Tino: Biologist and independent observer for the IUCN SSC Caprinae Specialist Group
- Rahmatov, Khurshed: Department of State Control on Use and Protection of Flora and Fauna of the Committee for Environmental Protection under the Government of Tajikistan
- Saidov, Komiljon: Institute of Zoology and Parasitology of the Academy of Sciences
- Mulloyorov, Odil: LLC M-Sayod

Group #2:

- Guzenfarov, Kosumsho: Institute of Forestry
- Khudoidodov, Behruz: Institute of Zoology and Parasitology of the Academy of Sciences
- Oshurmamadov, Nuhzar: Pamir Biological Institute of the Academy of Sciences / NGO Panthera
- Vandenberg, Blake: Independent observer for the Wild Sheep Foundation
- Zuhurov, Shodmon: Forestry Agency under the Government of the Republic of Tajikistan

Group #3:

- Amirov, Zayniddin: Institute of Zoology and Parasitology of the Academy of Sciences
- Bahriev, Jura: NGO Panthera
- Herche, Clemens: Biologist and independent observer for the IUCN SSC Caprinae Specialist Group
- Mulloyorov, Khudoydod: LLC M-Sayod
- Talbanov, Khursand: Institute of Zoology and Parasitology of the Academy of Sciences
- Vatanov Jamshed: Department of State Control on Use and Protection of Flora and Fauna of the Committee for Environmental Protection under the Government of Tajikistan

Additionally, local rangers and conservancy heads supported the survey groups in their respective areas.

B. Introduction

The markhor *Capra falconeri* is a near-threatened wild goat species in the subfamily of *Caprinae*. Its geographic range includes southern Tajikistan, northeastern Afghanistan, southwestern Turkmenistan, northern India, northern and central Pakistan and southern Uzbekistan (Grubb 2005). The Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) lists this species in Appendix I, which includes species threatened to extinction (CITES Appendix I). In The IUCN (International Union for Conservation of Nature) Red List of Threatened Species™ the markhor was listed as "endangered" from 1994 till 2015. Due to international conservation success on the recovery of the population in protected areas and areas with sustainable hunting management, the global population has grown substantially during the last decades and the species could be down listed from "Endangered" (EN) to "near threatened" (NT) (Michel and Rosen 2015).

The Republic of Tajikistan is the most important range state of the subspecies Heptner's markhor *Capra falconeri heptneri* (also known as Bukharan or Tajik markhor). Tajikistan and its local communities are key players in the ongoing process of conserving the markhor, and the growing population size substantially contributed to the positive global trend reflected in the improved IUCN Red List status. This positive development and the outstanding work of the Committee on Environmental Protection under the Government of Tajikistan in collaboration with other agencies, national and international scientific and non-governmental organizations and especially the local communities of the markhor range in Darvaz and Shamsiddin Shohin (former Shuroabad) districts have been recognized by various scientific and management authorities in the international conservation community. As a result, the Tajik community-based conservancies, which play an important role in the recovery of the markhor, are mentioned as an exemplary case study in "Informing decisions on trophy hunting – A Briefing Paper for European Union Decision-makers regarding potential plans for restriction of imports of hunting trophies" (IUCN 2016).

A significant tool in the conservation of the species is the community-based trophy hunting, since old markhor males are highly valuable in the worldwide trophy hunting business.

Considering that large parts of the society and political decision-makers mainly in the European Union and the United States of America refuse trophy hunting and hunting in general, it is more important than ever to promote the "IUCN SSC (Species Survival Commission) Guiding Principles on Trophy Hunting as a Tool for Creating Conservation Incentives" (IUCN 2012) to ensure the legitimacy of sustainable trophy hunting as a component in conservation programs. Key principles in this guideline are "Biological Sustainability" in the meaning that trophy hunting does not affect the population in a negative way (e.g. population decline, artificial selection, poaching, etc.) and "Net Conservation Benefit" like creating incentives to conserve the species by producing revenues or employment for local communities living with wildlife. Moreover the IUCN promotes trophy hunting when there is a "Socio-Economic-Cultural Benefit" where trophy hunting respects the needs and values of the local communities and is accepted and co-managed by them. A further principle is "Adaptive Management: Planning, Monitoring, and Reporting". This principle includes ways of assessing and managing the resource adaptively. This includes animal counts, trophy quotas, hunting plans and a monitoring of the trophy hunting. The last principle is "Accountable and Effective Governance" which should provide transparency how decisions are made; revenues are distributed to local communities and steps taken to wipe out corruption. Obeying these guideline will also ensure the acceptance of trophy hunting of Heptner's markhor by CITES organs, national CITES authorities of importing countries and the United States Fish and Wildlife Service (USFWS), which regulate the export and import of trophies.

To assess the population status of Heptner's markhor in Tajikistan, the Committee on Environmental Protection under the Government of the Republic of Tajikistan organized a range-wide survey which took place from the 13th February till 6th March 2017. The results of this survey are used to determine and allocate the trophy hunting quotas for the hunting season of 2017/2018 and will be suggested at the CITES CoP19 as quotas for the next 5 years. In accordance to the Resolution of the "International Round Table on Sustainable Use and Conservation of Wildlife in Tajikistan (2-3 November 2016, Dushanbe-Tajikistan), Khairullo Ibodzoda, Chairman of the Committee on Environmental Protection under the Government of Tajikistan, invited the IUCN SSC Caprinae Specialist Group as an international observer and organization being recognized as impartial science-based agency, to participate in this year's survey.

C. Survey Methods

C.1. Study area

The survey took place in the known markhor distribution range located in the Darvaz and Shamsiddin Shohin (former Shuroabad) districts. It covers the areas of six conservancies managed by the following legal entities: LLC Morkhur, LLC Saidi Tagnob (collaborating with LLC M-Bukhori, the owner of which, Nurali Latipov, manages one section), LLC Safari Dashtijum, NGO Muhofiz, LLC M-Sayod and LLC Bars, Dashtijum Strictly Protected Area (*Zapovednik* Dashtijum) and few adjacent parts of local forestry enterprises, not assigned to hunting management entities. The range area of markhor has a size of about 1,177 km² and includes the south-western edge of the Darvaz mountain range, the mid part and the southern edge of the Hazratishoh range and the mountains east of Parvor village.

The survey teams were not able to survey the area east and south of Parvor village as locals and especially the border police informed us that during the time of the survey the risk of landmines and Afghan intruders was too high and heavy snow made access to these areas more difficult. For these reasons the survey team decided it would be neither responsible nor effective to continue the survey in the southern parts of the mountains east of Parvor village, reportedly assigned to NGO Muhofiz and LLC Bars. Similarly Dashtijum Strictly Protected Area could not be surveyed, except a minor section of 30 km² in the south-western part bordering the area managed by LLC Morkhur.

The altitude in the survey area ranges from 600 m in the south-west at the Panj River, which forms the border between Tajikistan and Afghanistan, to 4,573 m at Kuhifrush peak in the north (Darvaz district). In the lower parts open woodland and shrub communities with pistachio (*Pistacia vera*), redbud (*Cercis griffithii*) and other shrubs, among them pomegranate (*Punica granatum*) and almond (*Amygdalus bucharica*), *Artemisia spp.* and umbelliferous plants (*Prangos pabularia, Ferula spp.*) and a large number herbaceous and grass species form the vegetation cover. In higher altitude juniper *(Juniperus seravschanica, Juniperus semiglobosa*) occurs in scattered stands, mixed with shrubs of maple (*Acer regelii, Acer turkestanicum*), rose (*Rosa kokanica*) and honeysuckle (*Lonicera nummulariifolia* and *Cotoneaster spp.*).

During the survey, the weather was mild with some precipitation and fog occurring

occasionally. Temperatures below 0°C were noted in early morning hours and shady canyons. Local people are agro-pastoralists and own small numbers of livestock (goats, sheep and cattle).

C.2. Survey process

Upon arrival the three international survey participants on behalf of the IUCN SSC Caprinae Specialist Group and the Wild Sheep Foundation had a meeting with Mr. Nematullo Safarov (Research Laboratory for Nature Protection; National Center for Biodiversity and Biosafety), Mr. Rustam Muratov (Institute for Zoology and Parasitology of the Academy of Sciences), Mr. Alikhon Latifi (Association of Hunters of Tajikistan) and Mr. Karakul Sohibkulov (LLC Bars). We had a discussion about the survey method we planned to use and different other approaches to count animals like air flight survey and the SMART patrol system. Since we wanted to keep the results as comparable as possible with results from previous years, we decided to retain the standard method for counting *Caprinae* which is explained below.

The survey data sheets implied different topics:

General information:

- Name of survey (area, month, year)
- Survey team number
- GPS navigation device number
- Participants (Head of the group and other observers)
- Sheet number
- Date, Starting time, End time, Total time, Location
- Comment section for each waypoint

General information for each observation:

- Waypoint number
- Time (and search time)
- Latitude and Longitude of the observer position (in decimal degree)
- Elevation of the observer position

- Weather (sky coverage from 1/8 to 8/8, precipitation) and Visibility (Good, Medium, Bad)
- Distance, Azimuth (clockwise in degree with North = 0°) and Vertical angle to the observed animals

Information on observed animals:

- Species code (e.g. CAFAHE for *Capra falconeri heptneri*)
- Total number of observed animals (in the given waypoint)
- Number of Kids, Yearlings, Females, Subadult males (2 - 3 years), Adult males (> 3 years), Number of trophy age males (8+ years) among the age group of adult males, Unidentified by sex and age animals
- Signs of presence (Dead animals, Bone remnants, Tracks, Feces)
- Behavior (Feeding, Resting (standing), Resting (lying), Alert, Walking, Running (gallop), Running (trot))

Habitat information for each animal observation:

- Position of the animals at the slope (Ridgeline, Upper third, Mid third, Lower third, Valley)
- Steepness at the slope (in degree)
- Aspect of the slope (North, North-East, etc.)
- Substrate (Fine earth, Talus (debris), Boulder field (larger debris), Rock outcrops, Cliff)
- Vegetation (Forest, Woodland, Shrub vegetation, Tall herbs, Meadows, Dry steppe, Semi-shrubs, (Almost) bare)

The survey was carried out in three groups. In the teams participated people from the Department on State Control for Protection of Fauna and Flora Fauna of the Committee for Environmental Protection under the Government of Tajikistan, the Institute of Zoology and Parasitology of the Academy of Sciences, the Pamir Biological Institute of the Academy of Sciences, the Forest Agency under the Government of the Republic of Tajikistan, the Institute of Forestry and the NGO Panthera. Mr. Tino Broghammer (Germany), Mr. Clemens Herche (Germany), both on behalf of Prof. Sandro Lovari (Chairman of the IUCN SSC Caprinae Specialist Group), and Mr. Blake Vandenberg (USA) on behalf of the Wild Sheep Foundation participated as international, independent observers at the invitation of Khairullo Ibodzoda,

Chairman of the Committee on Environmental Protection under the Government of Tajikistan. Each group had at least one international observer, one scientist from the Academy of Sciences and one local ranger. The teams recorded data in the following conservancies:

- LLC Morkhur: 13/02/2017 - 17/02/2017
- LLC Saidi Tagnob: 19/02/2017 - 21/02/2017
- LLC Safari Dashtijum: 23/02/2017 - 24/02/2017
- LLC Saidi Tagnob (Nur): 25/02/2017 - 26/02/2017
- NGO Muhofiz: 27/02/2017 and 06/03/2017
- LLC M-Sayod: 28/02/2017 - 05/03/2017
- LLC Bars 06/03/2017

The time spent in a specific territory of a LLC or NGO was scheduled by Tajik scientists as agreed with the conservancy managers. Observation points were selected by conservancy managers and local rangers to get the best possible view over the markhor home-ranges. The survey aimed at providing a minimum count of markhor present in the surveyed areas. Hence, the three groups were distributed in a manner to get the largest area coverage of each management unit without causing too many faulty repeated records. All survey teams were equipped with a data sheet book, a GPS navigation device (Garmin), a spotting scope (Meopta 20 – 60 x 65) and binoculars with a magnification factor of 8 or 10 and a 42 or 50 mm objective diameter (different brands). We calibrated the compass of the GPS navigation devices every morning before data collection.

Markhor flocks were mainly spotted by local rangers who know the place well. In case we were aware of the risk that another observer group could have seen the same flock, we called each other if possible via mobile phone to discuss our observation event. For every spotted animal group or sign of presence (markhor or any other species) we marked a waypoint in the GPS navigation device and noted the given waypoint number, time, observer elevation, observer longitude and latitude in our data sheet. Within an observer group we shared the different tasks. The most experienced observer identified the animals by sex and age, the rest of the group discussed and corrected the results if necessary. It was compulsory to take photos of trophy age males together with a photo of the current waypoint on the GPS navigation device screen. We estimated and discussed the actual weather, visibility, distance and vertical angle

to the observed animals. We used topographic maps to optimize our distance estimate. The azimuth was determined by adjusting the GPS navigation device to the spotting scope direction. Furthermore we recorded the behavior of the animals and information about the habitat (see list above) in which they were observed.

If possible, we discussed all recorded data with all three groups at the end of each survey day or at least within a week. With the help of topographic maps and GPS navigation device we estimated the positions of the markhor flocks and marked them on a map. Obvious double observations were deleted immediately in consultation with all present scientists. The observer group that counted more animals in the repeatedly observed flock kept the waypoint; missed animals were added if necessary. We transferred all data into an Excel spreadsheet for further data analysis.

After finishing the survey Clemens Herche and Tino Broghammer were invited by Mr. Khairullo Ibodzoda, Chairman of the Committee on Environmental Protection under the Government of Tajikistan, to talk about the survey and further plans of the Committee for conserving the wildlife of Tajikistan. Mr. Alikhon Latifi, Mr. Rustam Muratov, Mr. Nematullo Safarov, Mr. Abdulkodirkhon Maskaev (Head of the Department on State Control for Protection of Fauna and Flora of the Committee for Environmental Protection under the Government of Tajikistan), Mr. Ayub Mulloyorov (LLC M-Sayod) and Mrs. Tanya Rosen (NGO Panthera) also participated in this meeting.

All observer waypoints and computed locations of recorded flocks were inserted in a Graphical Information System (GIS QuantumGIS and ArcGIS 10.2). We digitized simplified viewsheds based on observer waypoints and topography. Obviously wrong distances and azimuths of animal records were corrected. We then used the GIS for another check for possible repeated records and after discussing with other team members excluded all detected double observations from the animal count to determine the minimum absolute numbers of markhor in the surveyed areas and calculated the density of markhor in relation to the size of the viewshed in the respective areas. With the assistance of the GIS we created a point map of recorded markhor groups and computed kernel densities of total numbers per record provided in the results section. We discussed pictures of trophy age males and excluded falsely identified trophy age males from the count of this class. The results were discussed with members of the IUCN SSC Caprinae Specialist Group.

D. Results

D.1. Overall numbers and population density at the survey sites

Under exclusion of double counts of same markhor flocks, our final analysis results in an overall number of 1901 markhor observed in a survey area of 552 km². This number is composed of 428 kids, 323 yearlings, 522 females, 179 subadult males (2-3 years), 322 adult males (older than 3 years) and 63 unidentified animals. The number of adult males includes 81 trophy age males of 8 years or older. We counted the highest number of markhor in the territories of LLC Saidi Tagnob (738 markhor; 38.8% of the population (Table 1; Fig. 1)); the highest number of adult males we counted was in LLC M-Sayod with 137 adult males including 45 trophy age males (Table 1).

Table 1: *Results of the survey of Heptner's markhor 2017.* ***Red*** *= minimum value;* ***Black*** *= maximum value*

Unit (name)	**Total number**	**% of pop.**	**Survey area** (km²)	**Average density** (N/km²)	**Kids**	**Year-lings**	**Females**	**Sub-adult males** 2-3 years	**Adult males** > 3 years (included trophy age males)	**Un-identified**	**Kid-to-female ratio**
Zapove-dnik Dashtijum	25	1.3	30.2	**0.8**	9	**2**	6	2	6 (1)	**0**	**1.5**
Morkhur	400	21.0	174.2	2.3	91	69	136	35	57 (12)	12	0.7
Saidi Tagnob	**738**	**38.8**	122.0	**6.0**	**217**	**127**	**211**	**68**	93 (19)	**22**	1.0
Safari Dashtijum	137	7.2	75.3	1.8	28	31	35	16	16 (2)	11	0.8
Muhofiz	67	3.5	23.4	2.9	15	12	12	6	22 (2)	**0**	1.3
Bars	**5**	**0.3**	**1.9**	2.6	**0**	**2**	**2**	**0**	**1 (0)**	**0**	**0**
M-Sayod	529	27.8	**125.0**	4.2	122	80	120	52	**137 (45)**	18	1.0
Total	1901	100	552	3.4	482	323	522	179	332 (81)	63	0.9

In total 275 markhor flocks have been registered. Hence, the average markhor group size is 6.9 (SD: ± 6.1). The most common group size was 4 animals per group; the largest counted group consisted of 57 markhor and was recorded in the territory of LLC M-Sayod downstream of Zighar village (Fig. 2).

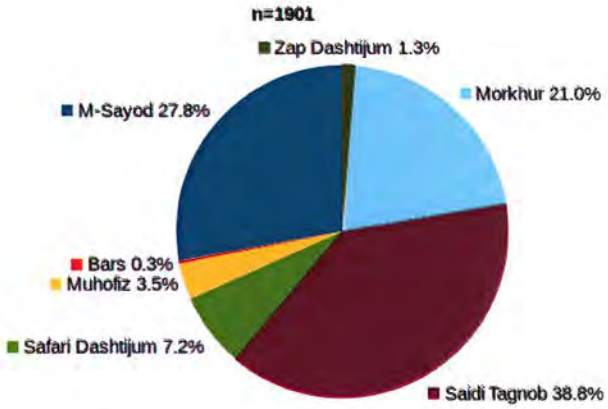

Fig. 1: The percentage distribution of markhor in the different management units.

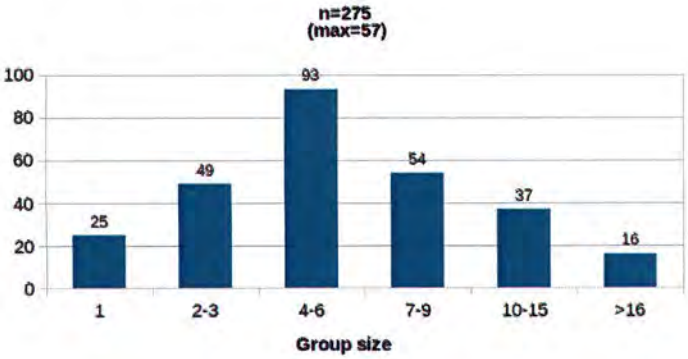

Fig. 2: Distribution of group sizes for all markhor flocks.

D.2. Sex and age composition of the markhor population

The composition of sex and age of the determined animals excluding the number of unidentified markhor was 26.2% kids, 17.6% yearlings, 28.4% females, 9.7% subadult males and 18.1% adult males (n = 1838; Fig. 3).

The population density in the surveyed areas ranges from 0.8 markhor per km² (100 ha) in Zap Dashtijum to 6.6 markhor per km² in M-Sayod, downstream of Zighar village. Upstream of Zighar village the density is just 1.3 markhor per km². The overall average density for all surveyed areas is 3.4 markhor per km² (Table 1).

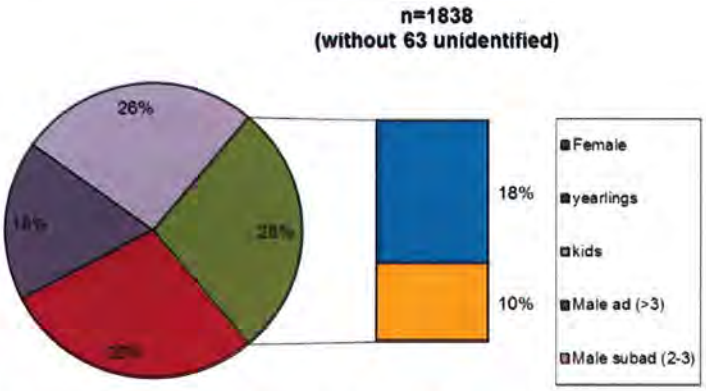

Fig. 3: Composition of sex and age of the determined markhor (unidentified markhor excluded).

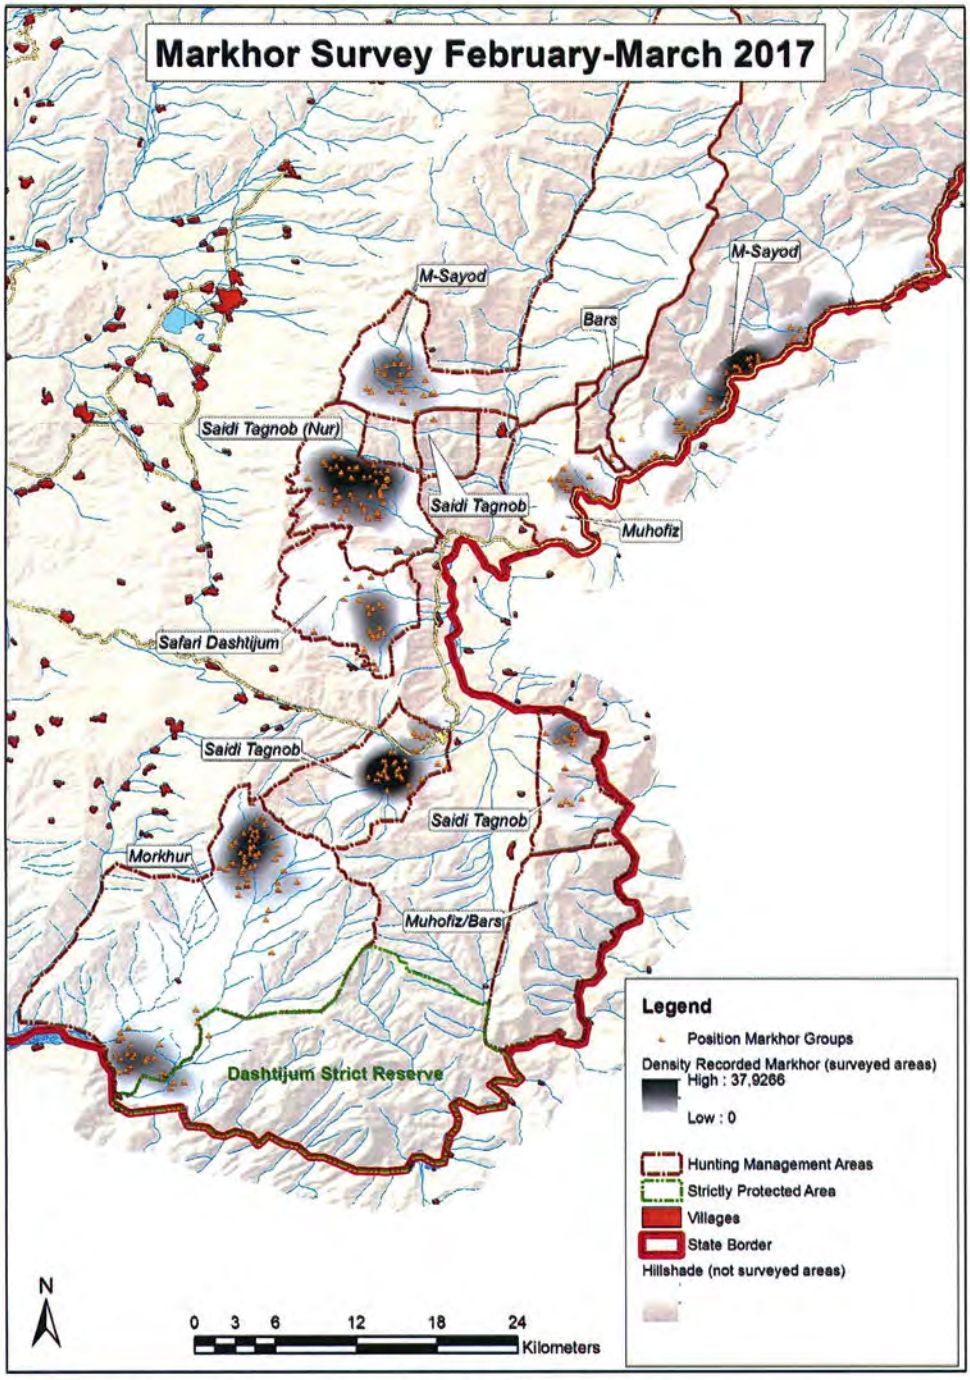

Fig. 4: Density map of Heptner's markhor in the surveyed areas.

E. Discussion

E.1. Survey method

The method we used in the survey is well established and has been used during the last surveys from 2009 to 2016. In our opinion, conducting the survey in early spring (end of February - March) is adequate for several reasons. Firstly, the survey was implemented in this time of the year for several years. To keep data comparable and assess the population growth, the time of the survey needs to be always the same. Because of following the first green herbs, grasses and opening buds markhor concentrate in lower elevations, which makes them easier observable than during other seasons. Furthermore, markhor do not move a lot during this time of the year which minimizes the risk of double counts (Parrini *et al*. 2003). On top of that, weak animals and kids, which had not survived the winter, do not get counted. Despite the generally positive assessment of the method, there appeared some issues, which need to be optimized in future surveys.

The time of all GPS navigation devices, cameras and mobile phones should be set to manual to prevent an automatical time change to Afghan time. This prevents possible mistakes and simplifies the analysis of trophy pictures. Furthermore, the focus of cameras should be checked and tripods should be used for cameras to ensure sharp photos. The photographer should also make sure to have enough memory space on the memory card and a sufficient battery status. The purchase of phone adapters for digiscoping with mobile phone cameras through spotting scopes should be considered. This would have the advantage to carry just one tripod for the spotting scope and receive pictures with a better quality which can be used for analysis, discussion within and between observer groups and marketing.

The survey method is well known by the scientists who worked with the GIZ wildlife management project and the NGO Panthera, including Nuhzar Oshurmamadov and Komiljon Saidov from the Academy of Sciences. Especially the scientists from Panthera imparted their knowledge to participants that were less familiar with the survey method. A brief method training with all participants before starting to record data would upgrade the survey significantly. This could also strengthen the motivation of unexperienced experts from national agencies to improve their skills in identifying age and sex of markhor.

The rangers and heads of LLC Morkhur, LLC Safari Dashtijum, LLC Saidi Tagnob (section

managed by Nurali Latifov and his team) and LLC M-Sayod were highly motivated to show as many animals and trophy age males as possible. Double counts and over-aging adult males was the result. Overlap of surveyed areas between survey teams and repeated coverage during different days should be avoided, as it increases the risk to detect repeated records. Time efficiency was also influenced by the fact that in LLC Morkhur, LLC Safari Dashtijum and LLC Saidi Tagnob (section managed by Nurali Latipov and his team) survey teams stayed longer than necessary and some valleys were observed by all three survey teams, while one or two observer groups would have been more efficient. To prevent these methodical mistakes in the future, fixed viewing points with defined observation times and adaptation of observer group numbers are recommended to be optimized.

If time and availability of survey teams allows the coverage of survey areas by more than one team, the double-observer method (Suryawanshi et al. 2012) would provide a good opportunity to estimate detectability of markhor flocks, such allowing to assess the population size under consideration of undetected animals. Two approaches are possible. Approach 1: One survey team follows the first survey team with a time lag of 30 minutes. Both teams count animals on fixed observation points with set times. Approach 2: Two survey teams search and count animals parallel with some spatial distance between them to avoid influence from the other group. Approach 1 is applicable when animals can be recorded along a transect. An exemplary conservancy for approach 1 is LLC M-Sayod. There is a potential risk in approach 1 that the first group startles the animals which leads to a decreased detectability for the second survey team. Approach 2 is considerable more applicable in the other conservancies where animals need to be recorded from the top of the counter slope to gain the best possible view.

Over- and underestimation of distances from survey teams to animals became visible in GIS. The individual experience of distance determination varied between the participants. The mentioned method training can equalize distance determinations within the groups.

To exclude repeated records, which cannot be detected in the very important daily discussions between groups, the use of GIS for post-survey analysis is the best possible tool. The position of markhor flocks observed by different groups can be made visible on a virtual map. Very close markhor flocks, for example, can be checked in the database and in case the age and

sex structure is identical, one markhor flock gets excluded from the database as it is a double count.

E.2. Area coverage

The survey was exceptionally well organized by Tajik officials, hunting area managers and scientists. Upcoming personnel or weather-related issues were solved diplomatically. As the results show, we could observe a population growth of Heptner's markhor compared to the data from the previous surveys. This growth is owed to the management of certain conservancies, which are on the right track to get excellent. In this case, LLC M-Sayod should serve as a prime example for other conservancies. It was recognized that local rangers especially coming from the conservancies LLC Morkhur, LLC Saidi Tagnob and LLC M-Sayod feel accountable for their areas and give their best to prevent poaching. According to conservancy managers and other locals, poaching is already be minimized in these territories.

The surveyed study area represents almost half of the known distribution of Heptner's markhor in Tajikistan and includes most of the prime habitat of the species. As mentioned before, it was impossible for us to access the markhor areas south-east of Parvor village and most of Dashtijum Strictly Protected Area due to the high risk of landmines, Afghan intruders and heavy snow. In a personal conversation, Mr Sayfiddin Sayfuloev (Leader of NGO Muhofiz) explained that there is not much information known about the possible numbers of markhor in their territory southeast of Parvor village. Furthermore, various locals confirmed in private conversations that the markhor population in these areas belonging to NGO Muhofiz and LLC Bars is negligible. On the other hand, we assume that despite the comparably low density of markhor found by us in Dashtijum Strictly Protected Area an unknown, but possibly substantial number of markhor could inhabit the not surveyed sections of this protected area (212 km² in total, about 30 km² surveyed).

E.3. Population trend of Heptner's markhor in Tajikistan

We conclude that the recorded numbers of markhor represent the minimum absolute population size and indicate the population growth of Heptner's markhor in Tajikistan. However, it must be said that despite careful screening still undetected repeated counts cannot entirely be excluded and may cause an overestimation of our markhor count, which could lead to rushed management decisions. This would pose a great danger for a threatened species like the Heptner's markhor.

In comparison to 2012 (Michel *et al*. 2015), 2014 (Forest Agency under the Government of the Republic of Tajikistan 2014) and 2016 (Academy of Sciences of the Republic of Tajikistan 2016) the minimum absolute population size is higher (Fig. 5). This can be explained by an actual population growth and the fact that a larger area was surveyed in 2017 (522 km^2 in comparison to 381 km^2 in 2016).

The average population density assessed in 2017 (3.4 markhor per km^2) is higher than in 2012 (2.84 markhor per km^2) and 2014 (2.32 markhor per km^2) but a bit lower than in 2016 (3.7 markhor per km^2) explained by inclusion of areas with lower markhor numbers and not covered in the 2016 survey. We found the highest density of Heptner's markhor downstream of Zighar village with 6.6 markhor per km^2 (LLC M-Sayod). Upstream of Zighar village the density was just 1.3 markhor per km^2 (LLC M-Sayod). In consideration of the circumstances that the competition for resources in this, by markhor newly populated, area is high due to massive fire wood cutting and grazing of livestock the result is pretty good.

The lowest densities was recorded in *Zapovednik* Dashtijum (0.8 markhor per km^2) and LLC Safari Dashtijum (1.8 markhor per km^2). The low density in *Zapovednik* Dashtijum could be related to past (and possibly still ongoing) poaching by Afghan intruders, the poor density in LLC Safari Dashtijum reflects the performance of the management in this territory which remains below its full potential. The surveyed area of LLC Bars is too small to draw conclusions from the density (2.6 markhor per km^2) and should be assessed together with the surveyed area of NGO Muhofiz. Considering that the surveyed area of NGO Muhofiz has a comparable habitat to the immediately adjacent downstream parts of LLC M-Sayod, the density of 2.9 markhor per km^2 stays far below its capacity. In LLC Morkhur we surveyed many areas with less suitable habitat for markhor. This and/or the poaching by Afghan intruders could have resulted in a lower population density in the area managed by this LLC.

Overall, the densities reflect pretty much the conservation effort of the different management

units. Thereby the habitat quality and effects from surrounding areas must be considered.

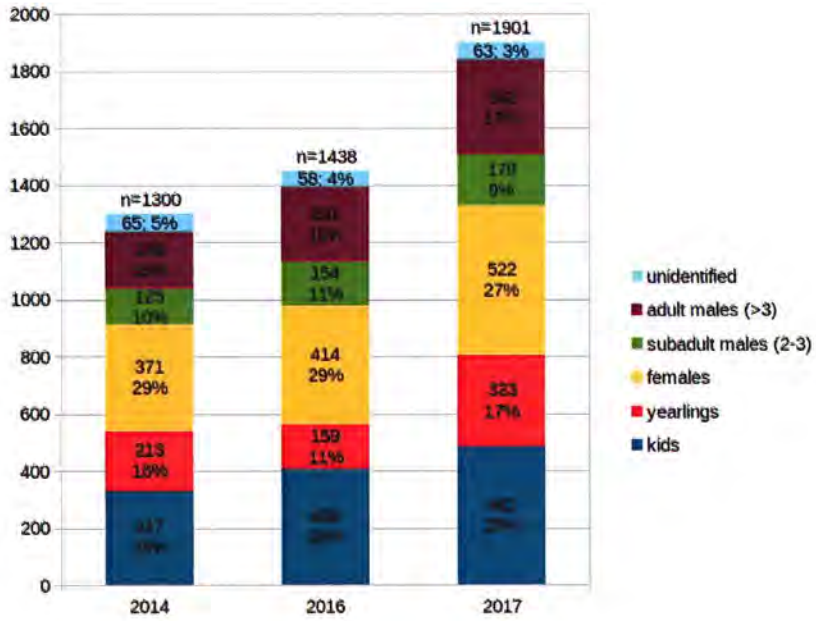

Fig. 5: *Comparison of survey results from 2014, 2016 and 2017.*

E.4. Limiting factors for an optimal markhor population development

The survey results suggest that different factors in various extent limit the further growth of the markhor population. Key factors seem to be habitat quality and poaching pressure. In some areas the population density may be close to the carrying capacity of the habitat. In the area with the highest density of markhor per survey area size, the slopes of Darvaz range between Yakhshipun and Zighar, managed by LLC M-Sayod, the population did not grow since the last survey and vegetation shows signs of intensive browsing. In the nearby located areas upstream along the Panj river markhor had reportedly been absent for decades and only since around 2012 increasingly markhor expand into this area. Here habitat quality is heavily affected by intensive livestock grazing, with goats being the predominant species, combined with intensive harvest of shrubs, including the important forage species redbud (*Cercis griffithii)*. Pasturing and domestic livestock can negatively influence markhor populations.

Ashraf (2010) found a diet overlap between domestic goat and Kashmir markhor *Capra falconeri cashmiriensis* and recommended that there has to be a ban on livestock grazing in core habitats of markhor.

In the part of the Darvaz range downstream of Yakhshipun, managed by NGO Muhofiz and LLC Bars, habitat conditions are virtually the same as upstream from Yakhshipun in the M-Sayod managed areas. Furthermore, one can expect that high population density in the latter area would cause immigration of markhor into this unit. The extremely lower density of markhor there can best be explained by poaching. Poaching is also a problem in other parts of the markhor range and may limit the growth of markhor populations and the expansion of range area. Poachers do not follow any hunting quotas and hunting season, this causes wildlife harassment that has a negative impact on mortality rates and the reproductive success of markhor. The compared to other areas extremely low numbers and density in the surveyed section of Dashtijum Strictly Protected Area and also comparably low densities and low percentage of trophy aged males in adjacent areas might be related to past (and possibly still ongoing) poaching, in particular reportedly by Afghan intruders in this difficult to control border area (Michel and Rosen 2015, Moheb 2011).

Share of the same habitat by markhor and domestic livestock increases the ability of disease transmission. 64 markhor died in 2010 because of *Mycoplasma*-pneumonia outbreak. Ostrowski et al. (2011) conclude that in all probability, domestic goats were the source of the infection. The infectious agent can be present in domestic goat herds without clinical symptoms and no effective vaccination exists for preventing this latent presence and transmission risk. We found signs of grazing goats and thus of acute risk of disease transmission in most markhor habitats. Minimizing the risk of disease transmission is a big challenge for Tajik agriculture authorities and veterinarians as well as conservancy managers.

The results of the survey confirm that regulated trophy hunting on markhor in the survey areas since 2014 has not have had any direct negative impact on the markhor population size. Current numbers and population structure show that in the areas for which the Academy of Sciences had recommended the allocation of quotas during the hunting season 2016/2017 numbers and population structure, including the recorded presence of trophy age males, indicate that the hunts not only did not have any detrimental influence on the conservation of the species, but actually were highly supportive to the active conservation management. This

concerns the conservancies of LLC M-Sayod, LLC Saidi Tagnob and LLC Morkhur. Talks with rangers of these entities and with local community members as well as observations in the respective villages suggest that these entities invest substantial shares of the income earned from the hunts into conservation activities, like anti-poaching, continuous surveillance of their areas and the wildlife, and into community development and support, for instance the construction of pipes and tanks for clean drinking water, the expansion of streets, scholarships for students and materials for farming.

On the other hand, trophy hunting without clear conservation investment and use of income for the benefits of local communities can have disastrous adverse impacts. Especially if people from outside of the local villages capture most of the income, there is a high risk that local people feeling disenfranchised, will not support protection from poaching and habitat conservation and even start poaching themselves. We could not find any information about community support and benefit sharing of the companies LLC Safari Dashtijum, NGO Muhofiz and LLC Bars. People living in surrounding villages of these conservancies do not get any incentive to protect wildlife and especially the markhor because they do not benefit from its conservation. This lack of support by local people combined with insufficient protection by rangers of these agencies leads by all means to poaching. In addition to that, we were made aware by locals that non-sustainable hunts, including some by international hunters, may have occurred in areas of LLC Safari Dashtijum, NGO Muhofiz and LLC Bars. Further investigations should be conducted to test this allegation; however, our results suggest that population numbers and trends in the surveyed areas of LLC Safari Dashtijum and NGO Muhofiz remain far below their natural potential. This is a clear sign of the lack of effective conservation effort.

There is a high risk in small conservancy units like NGO Muhofiz, LLC Bars or LLC Safari Dashtijum, that a particular trophy age male may be pursued too long without any success and, thus, the hunting location may not be changed for a new trophy hunting attempt. If there are not enough accessible trophy age males in a specific area, younger males will get hunted illegally to satisfy the paying trophy hunter. This will lead to a quite negative impact on the local population of Heptner's markhor, with population growth remaining under its full potential. From an economical point of view, large hunting territories provide the opportunity to have more markhor and therefore more trophy age males. Hence, more trophy licenses may be justified, in an optimal situation. Moreover, non-scattered territories are easier to patrol for local rangers.

F. Management recommendations

In the following text, we shall provide recommendations especially on trophy hunting quotas for each conservancy unit for the hunting season of 2017/2018. Furthermore, these quotas should be suggested at the CITES CoP19 as export quotas for the next 5 years. This would support the sustainable use of Heptner's markhor by community-based trophy hunting, according to the IUCN Caprinae Specialist Group. Following these recommendations would also ensure the acceptance of CITES authorities and the USFWS, thus allowing a smooth trophy import back to the hunters' home countries.

F.1. Assessment of LLC Morkhur

Biological Sustainability: Our results suggest that the subpopulation inhabiting the territory of LLC Morkhur is growing. Rangers work with different methods e.g. patrolling and deploying camera traps to prevent poaching. The territory is large enough to change the location of hunting during a trip and reduce wildlife harassment. We also recorded 5 Bukhara urials *Ovis orientalis bochariensis*. A good protection of the territory of LLC Morkhur also ensures the protection of Dashtijum Strictly Protected Area.

Net Conservation Benefit: LLC Morkhur employs 12 rangers, mostly former poachers, from local villages. Furthermore, there is a community support which creates incentives to protect wildlife. However, this LLC should aim for more community support. The head of this conservancy unit lives close to his territory and his family has been cooperative for many years.

Markhor trophy quota: From a biological and socio-economic-cultural point of view, the harvest of two trophy age markhor can be sustainable. Therefore, we **recommend and support a trophy hunting quota of two** trophy age Heptner's markhor to be allocated to LLC Morkhur.

F.2. Assessment of LLC Saidi Tagnob

Biological Sustainability: The comparison of our results with previous surveys suggest that the local population numbers in the territory of LLC Saidi Tagnob are growing. We also observed 2 wolves *Canis lupus*. Rangers patrol the territory to prevent poaching. The total territory is large enough to shift the location of hunting during a trip to reduce wildlife harassment.

Net Conservation Benefit: LLC Saidi Tagnob employs 15 local rangers, mostly former poachers from surrounding villages. The community support by this company is exemplary.

Incentives for the local community to protect wildlife are given not only by supplying villages with resources, but also by employing local people in community-based gardens. LLC Saidi Tagnob supports the local border police, which also prevents poaching by Afghan intruders. The head of Saidi Tagnob and his family are traditional hunters, part of the community and live directly next to the hunting territory and patrol the areas every day.

Markhor trophy quota: From a biological and socio-economic-cultural point of view, the harvest of three trophy age markhor can be sustainable. Therefore, we **recommend and support a trophy hunting quota of three** trophy age Heptner's markhor for LLC Saidi Tagnob.

F.3. Assessment of LLC Safari Dashtijum

Biological Sustainability: Our results show a small population number with two trophy age males. The area had not been surveyed in 2016. Because of the small size of this territory, a change of the location during a hunting trip would be impossible. In our opinion, the size of the area managed by LLC Safari Dashitjum is too small to effectively manage a species like Heptner's markhor, because suitable habitat is insufficient to support a larger, sustainably huntable population size. Nothing is known of the work to prevent poaching. According to locals, non-sustainable markhor hunts have occured in LLC Safari Dashtijum. Further investigations should be done to substantiate this allegation. Non-sustainable trophy hunting puts at risk the success of the whole conservation project and it should be prevented.

Net Conservation Benefit: LLC Safari Dashtijum claims to employ six rangers occasionally as the do not get paid regularly, and we had a chance to meet two or three of them. There is no community support in any form. However, the head of LLC Safari Dashtijum lives close to his territory.

Markhor trophy quota: From a biological and socio-economic-cultural point of view, we **cannot recommend or support any trophy hunting quota** for this conservancy. Changes in the management of the areas currently assigned to LLC Safari Dashitjum should be considered by decision-makers to ensure a long term community-based conservation hunting success of Heptner's markhor in Tajikistan. We recommend facilitating a closer collaboration and involvement of LLC Saidi Tagnob as a co-manager and example for community-based trophy hunting in the management of LLC Safari Dashtijum. On top of that, the involvement of other local hunters from the Khirmanjo village would be necessary to make them stop poaching and to ensure an improved net conservation benefit.

F.4. Assessment of NGO Muhofiz

Biological Sustainability: Our results show a small number of animals with just two trophy age males. According to the head of NGO Muhofiz, not much information on the status of markhor in their second area is available. Reportedly, six rangers patrol the areas of NGO Muhofiz and LLC Bars. Nothing is known about their approach to minimize poaching. According to locals, members of NGO Muhofiz are hunting markhor in a non-sustainable way or organize such hunts. Further investigations should be done to provide evidence for this allegation. Non-sustainable trophy hunting jeopardises the success of the whole conservation project and should be prevented. The territories of NGO Muhofiz are too small and highly fragmented for an effective markhor management.

Net Conservation Benefit: There is no community support in any form. Instead of employing more rangers and giving incentives to locals for conservation, the rangers are shared between NGO Muhofiz and LLC Bars.

Markhor trophy quota: From a biological and socio-economic-cultural point of view, we **cannot recommend or support any trophy** license for this conservancy. Changes in the management of the areas currently assigned to NGO Muhofiz should be considered by decision-makers to ensure a long term community-based conservation hunting success of Heptner's markhor in Tajikistan. We recommend a closer collaboration and involvement of LLC Saidi Tagnob as a co-manager and example for community-based trophy hunting in the management of NGO Muhofiz. LLC Saidi Tagnob could contribute from the trophy hunting incomes to the protection of all Parvor mountain (involving inhabitants from following villages: Parvor, Yol, Sarigor) without conducting hunts here.

F.5. Assessment of LLC M-Sayod

Biological Sustainability: Our results suggest that the subpopulation inhabiting the territory LLC M-Sayod is growing. There are a significant high number of adult markhor males in this territory. An enlargement of the markhor home ranges could be proved. We also recorded one snow leopard *Panthera uncia*, one Tien Shan brown bear *Ursus arctos isabellinus* and several Asiatic ibexes *Capra sibirica*. Rangers patrol frequently and minimize poaching. The area is large enough that a hunter could change hunting location during his trip and thus reduce wildlife harassment.

Net Conservation Benefit: LLC M-Sayod employs 20 rangers (all of them local people of

various villages), many of them had a special staff training. The family of LLC M-Sayod is part of the local community and they have been into conservation for many years. The community support is exemplary as LLC M-Sayod not only creates incentives for the local community to protect wildlife but also supports students with scholarships to enhance the educational status of people living in this community. On top of that, LLC M-Sayod supports the local border police.

Markhor trophy quota: From a biological and socio-economic-cultural point of view, the harvest of four trophy age markhor is sustainable. Therefore, we **recommend and support a trophy hunting quota of four** trophy age Heptner's markhor to be allocated to LLC M-Sayod.

F.6. Assessment of LLC-Bars

Biological Sustainability: We do not have any valuable data or estimates for the population status of Hepner's markhor inhabiting the territory of LLC Bars. Because of the small size of this territory, a change of the hunting location during a trip would be impossible. In our opinion, the size of LLC Bars is too small and fragmented to manage the Heptner's markhor to a population size that would allow sustainable hunting.

Six rangers are shared between LLC Bars and NGO Muhofiz. Nothing is known about their approach to obstruct poaching. According to locals, non-sustainable markhor hunts have been organized by LLC Bars for many years. Further investigations are required to prove this statement. Non-sustainable trophy hunting jeopardises the success of the whole conservation project and should be prevented.

Net Conservation Benefit: There is no valuable community support. The head of LLC Bars is not a local traditional hunter coming from the community. His family originates in another part of Tajikistan, never lived in the area and according to his son, they are living primarily in Russia. This does not fulfil our understanding and requirements of a community-based conservancy.

Markhor trophy quota: From a biological and socio-economic-cultural point of view, we **cannot recommend or support any trophy** license for LLC Bars. Significant changes in the administration of the areas currently assigned to LLC Bars should be introduced by decision-makers to ensure a long term community-based conservation hunting success of Heptner's markhor in Tajikistan.

F.7. Grazing and firewood cutting

Outside of core areas without any extractive resource use, livestock grazing needs to be regulated and habitats with preferred plant species should be protected from overly intensive fuel wood harvest, with slow growing *Juniper* being entirely excluded from any cutting. Overall awareness of the public about importance of biodiversity in general and threatened species in particular should be raised to win their support and cooperation in conservation efforts.

F.8. Territory size

We promote the approach of large hunting territories (minimum 10,000 ha) connected into one unit, under management of local and traditional hunters living in or very close to their hunting ground. Local and traditional hunters are part of the community; they should feel more responsible for wildlife inhabiting their territory and, as conservancy managers, they should provide incentives for the local community to support conservation. In our understanding, these criteria are required for a LLC or NGO head who gets supported by the international conservation community. The administration of a large and connected territory also has ecological and economic advantages. From an ecological point of view a sufficiently large area with natural boundaries provides enough habitat and forage to a local subpopulation of at least several hundred markhor, with sufficient old-age males to allow for sustainable and successful trophy hunting. A larger area allows the markhor to select year-round most suitable habitat for foraging, rut, giving birth and escaping from predators. Small areas may not cover year-round habitat and leave the markhor and other animals unprotected during large parts of the year. Furthermore, a large territory of the size of LLC Morkhur, LLC Saidi Tagnob or LLC M-Sayod gives the possibility to choose the location of hunting (valley, canyon, etc.). After an unsuccessful stalking of a specific old age markhor or wild boar *Sus scrofa*, hunters can continue their stalk in another area sufficiently far away from the first one. This increases hunting success, while reducing the hunting pressure, which is a stressful form of wildlife harassment, with negative impacts on animals in a specific area.

F.9. Hunting enclosures

In a meeting at the beginning of the survey, Mr. Zafar Bekmurodi, head of the Hot Spring Company for Marco Polo Hunting and member of the Association of Hunters of Tajikistan, reported about introductions of different animal species (mouflon, ring-necked pheasants, fallow deer, sika deer) to establish hunting enclosures. In general, the creation of hunting enclosures is regulated by law and thus legal. However, non-native species and subspecies may have very negative impacts on the local biodiversity in these areas and, if they escape from fenced areas, their long term impact can upset the local animal and plant communities.

Introducing non-native animals should be discouraged, as most likely long-term negative and unpredictable impacts on native ecosystems and species will occur. We do not support the establishment of hunting enclosures, including the possible captive breeding of markhor and urial for trophy hunting purposes. Such practices can cause massive damage to the successful community-based markhor conservation programme and to biodiversity conservation in Tajikistan. Examples of these consequences include:

- Harm to ecosystems caused by non-native herbivores like fallow or sika deer;
- Harm to native species, if these are outcompeted by introduced ones e.g. for feeding on similar forage;
- Hybridization of non-native ring-necked pheasants with the native pheasant subspecies will occur if the former escape from captivity, are released for hunting or are crossbred in the aviary. This bears the very high risk of irreversible loss of the pure endemic pheasant subspecies *Phasianus colchicus colchicus*, for which Tajikistan is one of the few remaining areas in the World where this pheasant subspecies has survived in purity until the present time. Also Mediterranean mouflons can readily hybridize with native urial, and sika deer and other red deer ssp can hybridize with the endemic Bukhara deer. Even one single hybridisation event can cause genetic pollution of native populations and their extinction through the loss of their genetic identity;
- Economic damage can be caused at several levels: generally, hunting enclosures have a poor cost-benefit ratio as they provide little return for high investment and maintenance costs; most foreign hunters prefer native, free-ranging populations for hunting and are rarely interested to shoot animals in fenced areas or animals released from an enclosure; the existence of hunting enclosures puts at risk the good reputation of Tajikistan as a hunting

destination with exclusively free ranging and well managed native animal populations; the risks of hybridization may lead to the perception that animals offered for hunting are not the pure wild forms but hybrids, which are of much less value to hunters; ecosystem degradation inside the hunting enclosures caused by non-native animals and impact of escaped or purposefully released animals can cause further damage.

- Impacts on human health can be caused if animals are hand-reared or habituated to humans and become aggressive when adult. Especially deer can be very dangerous and deaths and serious injuries of keepers and of unrelated visitors may occur.

G. Acknowledgements

We would like to thank Mr. Khairullo Ibodzoda, Chairman of the Committee on Environmental Protection under the Government of Tajikistan, Mr. Abdulkodirkhon Maskaev, Head of the Department on State Control for Protection of Fauna and Flora of the Committee for Environmental Protection under the Government of Tajikistan, and other Tajik officials for their friendly invitation and collaboration. Furthermore, we would like to thank the heads and collaborators of all conservancies for their hospitality and all survey participants for their active cooperation to conserve the Heptner's markhor. Special thanks goes to Blake Vandenberg for his great job as an independent observer.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
WALL	CHARLES	D.	
2. Date of Birth (mm/dd/yyyy) (b) (6) [redacted]	3.a. Alternate Telephone Number	4. E-mail address	
	804-877- 3380	cindi.rulon@procargousa.com	

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address, #, Suite #, or Room #; no P.O. Boxes) (b) (6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
GREER	SOUTH CAROLINA	29651	GREENVILLE	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature of applicant/Principal Officer for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   CINDI RULON 281-220-3176 CINDI.RULON@PROCARGOUSA.COM

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
      CAPRA FALCONERI CASHMIRIENSIS - KASHMIR MARKHOR

   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:
      PAKISTAN KOHISTAN AREA NEAR KAIGHA PROVENCE OF KPK

   b. Date wildlife was hunted:
      DECEMBER 2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

SHIKAR SAFARIS

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

SHIKAR SAFARIS PHA FLAT #05 BLOCK #05 G- 8/4 ISLAMABAD PAKISTAN

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). ATTACHED

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	FARHAD MAQPOON
Business Name:	SHIKAR SAFARIS PAKISTAN
Address:	PHA FLAT #05 BLOCK #05 G-8/4
City:	ISLAMABAD
State/Province:	
Country, Postal Code:	PAKISTAN

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

IT IS OUR UNDERSTQANDING THAT THE GOVERNMENT OF PAKISTAN PROVIDED A COMPREHENSIVE POPULATION STUDY COVERING THE 2018 YEAR HAS ALREADY BEEN SUPPLIED TO DMA. PAKISTAN STRICLY CONTROLS THE ISSUANCE OF PERMITS ONA QUOTA BASIS AFTER ENSURING THE SUSTAINABILITY OF PERMITTED HUNTING

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

LICENSE FEES WERE 175,000 PAID TO SHIKAR SAFARIS WHO USES THE FUNDS TO PAY FOR THE PERMIT FROM THE KOHISTAN DISTRICT OF PAKISTAN WHICH USES THE MONEY TO SUPPORT THE LOCAL COMMUNITIES SO THEY HAVE A VESTED INTEREST IN THE MARKHOR POPULATION WHICH HELPS TO CONTROL POACHING. ANOTHER 15,000 WAS PAID DIRECTLY TO LOCAL GUIDES, PORTERS AND GUARDS

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

THROUGH SUPPORT OF THE COMMUNITY WITH THE FEES OUTLINED ABOVE, ANTI POACHING PROGRAMS ARE MAINTAINED AND SUPPORT OF GOVERNMENT EFFORTS TO ENHANCE POPULATIONS ARE SUPPORTED. 80% OF PERMIT FEES ARE GIVEN TO LOCAL COMMUNITES TO SUPPORT INFRASTRUCTURE AND PROMOTE INTEREST IN MARKHOR MANAGEMENT.

OMB Control No. 1018-0093
Expires 08/31/2020

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or ~~taxidermist~~ applying on behalf of a U.S. hunter or ~~foreign national,~~ provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: [signature] atty in fact Date: 06/05/2019

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

KNOW ALL MEN BY THESE PRESENTS: That CHARLES DONALD WALL (Full Name of Person), residing at x (b) (6) GREER, SC 29651 hereby constitutes and appoints each of the following persons - John Rulon CHB

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, stead of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or consigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor. To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule, , supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filing in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise. To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filing of protests under section 514 of the Tariff Act of 1930, in which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing powers of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR §11.3(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is contenaing

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternatew procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if i the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   Pro Cargo- attn; Cindi
   15619 Morales Rd., Houston, Texas 77032

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Cindi Rulon– 281-220-3176 - cindi.rulon@procargousa.com

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Zambia- near Mpika in Muchinga Province, G.P.S. S1144490 E32 17207

   b. Date wildlife is to be hunted:

September 2019

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Busanga Trails Ltd.

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). NOT HUNTED YET

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB , who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an Importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the Importer. Under the alternative procedure, the Importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the Importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an Importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

SAME AS PAGE 1

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Greg Brownlee - (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

ZIMBABWE - Bubye Valley Conservancy, Dyers Camp - Closest City: Beitbridge, Zimbabwe.

b. Date wildlife is to be hunted:

June 23 - July 21, 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Mazunga Safaris - Pete Fick Professional Hunter

OMB Control No. 1018-0093
Expires 08/31/2020

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). WILL RECEIVE UPON ARRIVAL TO ZIMBABWE

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Expires 08/31/2020

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

JOHN A STEGEMAN

(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☑ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

TANZANIA, INYONGA EAST GAME CONTROLLED AREA, RUNGWA REGION

b. Date wildlife is to be hunted:

8/1/19 TO 8/22/19 - 21 DAY SAFARI

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

MALAGARASI HUNTING SAFARIS LTD / KILOMBERO NORTH SAFARIS

P.O. BOX 22567

DAR ES SALAAM

TANZANIA

PROFESSIONAL HUNTER: MEHERDAD KAREMBACK

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   N/A

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). HAVE NOT HUNTED YET, NO PERMIT IN POSESSION

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name: MALAGARASI HUNTING SAFARIS LTD - JULIUS MPONJI, TROPHY OFFICER
   Business Name: MALAGARASI HUNTING SAFARIS LTD
   Address: PO BOX 22567
   Address:
   City: DAR ES SALAAM
   State/Province:
   Country, Postal Code: TANZANIA
   AREAS OF HUNTING: INYONGA EAST GAME CONTROLED AREA

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

   Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature (b) (6) [redacted] Date: 6/7/19

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

John Andrew Stegeman
(b) (6) [redacted]
USA.

30th December 2018

TO WHOM IT MAY CONCERN

Letter of Invitation.

This Letter serves to confirm that, John Stegeman, of the above address, will be hunting in Tanzania with Kilombero North Safaris Ltd in our Inyonga East block in the Rungwa region. The Inyonga camp is about 75 kms from Rungwa town.

Dates confirmed for your hunting safari are:

ARRIVING IN TANZANIA: JULY 31st 2019

LEAVING TANZANIA: AUGUST 22nd 2019

You will be met by a representative of Kilombero North Safaris at the Julius Nyerere International Airport in Dar es Salaam with your firearm permit. We will assist you with the clearance process of your firearms, after which our representative will accompany you to your hotel, where you will stay prior to commencement of your trip.

We wish you much success and an excellent safari in Tanzania with us.

Yours Sincerely,

Harry Charalambous
Kilombero North Safaris Ltd

Kilombero North Safaris LTD, 112 Ali bin Said Avenue, PO Box 4394, Dar es Salaam, Tanzania,
Tel: +255 222666174 · Fax: +255 222667692 · info@kns.co.tz · www.kilombero-north-safaris.com

The area is called **Inyonga East Game Controlled Area.**
It is in the company name of **Malagarasi Hunting Safaris.**
This company is owned by the same owner of Kilombero North Safaris.
As is a 3rd company.
However, we market under one company, Kilombero North Safaris.
The company was purchased and kept in the same company name, Malagarasi Hunting Safaris.
For the CITES permit you will need to use the name of Malagarasi Hunting Safaris, as the export documents will be in this name as it is the owner of the block of Inyonga East where the hunt will take place.
This area is in the Rungwa region.

For number 8;

For MALAGARASI HUNTING SAFARIS LTD
Personal Name: JULIUS MPONJI, title : Trophy Officer
Business Name: MALAGARASI HUNTING SAFARIS LTD
Address: P. O. Box 22567
City: DAR ES SALAAM
Country : TANZANIA
Areas of Hunting: INYONGA EAST GAME CONTROLLED AREA.

I hope this has answered your questions.
If there is anything else I can help with, please do not hesitate to contact me.

Have a great day.
Kind regards
Harry

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

JOHN A STEGEMAN

(b) (6)

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☑ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

TANZANIA, INYONGA EAST GAME CONTROLLED AREA, RUNGWA REGION

b. Date wildlife is to be hunted:

8/1/19 TO 8/22/19 - 21 DAY SAFARI

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

MALAGARASI HUNTING SAFARIS LTD / KILOMBERO NORTH SAFARIS

P.O. BOX 22567

DAR ES SALAAM

TANZANIA

PROFESSIONAL HUNTER: MEHERDAD KAREMBACK

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   N/A

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). HAVE NOT HUNTED YET, NO PERMIT IN POSESSION

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name: MALAGARASI HUNTING SAFARIS LTD - JULIUS MPONJI, TROPHY OFFICER
   Business Name: MALAGARASI HUNTING SAFARIS LTD
   Address: PO BOX 22567
   Address:
   City: DAR ES SALAAM
   State/Province:
   Country, Postal Code: TANZANIA

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

   Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature (b) (6) [redacted] Date: 6/7/19

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

John Andrew Stegeman
(b) (6)
[redacted]
USA.

30th December 2018

TO WHOM IT MAY CONCERN

Letter of Invitation.

This Letter serves to confirm that, John Stegeman, of the above address, will be hunting in Tanzania with Kilombero North Safaris Ltd in our Inyonga East block in the Rungwa region. The Inyonga camp is about 75 kms from Rungwa town.

Dates confirmed for your hunting safari are:

ARRIVING IN TANZANIA: JULY 31st 2019

LEAVING TANZANIA: AUGUST 22nd 2019

You will be met by a representative of Kilombero North Safaris at the Julius Nyerere International Airport in Dar es Salaam with your firearm permit. We will assist you with the clearance process of your firearms, after which our representative will accompany you to your hotel, where you will stay prior to commencement of your trip.

We wish you much success and an excellent safari in Tanzania with us.

Yours Sincerely,

Harry Charalambous
Kilombero North Safaris Ltd

Kilombero North Safaris LTD, 112 Ali bin Said Avenue, PO Box 4394, Dar es Salaam, Tanzania,
Tel: +255 222666174 · Fax: +255 222667692 · info@kns.co.tz · www.kilombero-north-safaris.com

The area is called **Inyonga East Game Controlled Area.**
It is in the company name of **Malagarasi Hunting Safaris.**
This company is owned by the same owner of Kilombero North Safaris.
As is a 3rd company.
However, we market under one company, Kilombero North Safaris.
The company was purchased and kept in the same company name, Malagarasi Hunting Safaris.
For the CITES permit you will need to use the name of Malagarasi Hunting Safaris, as the export documents will be in this name as it is the owner of the block of Inyonga East where the hunt will take place.
This area is in the Rungwa region.

For number 8;

For MALAGARASI HUNTING SAFARIS LTD
Personal Name: JULIUS MPONJI, title : Trophy Officer
Business Name: MALAGARASI HUNTING SAFARIS LTD
Address: P. O. Box 22567
City: DAR ES SALAAM
Country : TANZANIA
Areas of Hunting: INYONGA EAST GAME CONTROLLED AREA.

I hope this has answered your questions.
If there is anything else I can help with, please do not hesitate to contact me.

Have a great day.
Kind regards
Harry

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Britton New

(b) (6) [redacted]

OMB Control No. 1018-0093
Expires 08/31/2020

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Zimbabwe, Save Valley Conservancy, Humani Concession, Nearest City Masvingo

   e. Date wildlife was hunted: May 16, 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Outfitter: Roger Whittall Safaris/Mozambique WildLife Adventures,Inc
Professional Hunter: Tanya Blake (License Number 564)

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

4 Josiah Chinamano Road Belmont
Bulawayo
Zimbabwe

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Enclosed

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Zambia-- near Mpika in Muchinga Province, G.P.S. S1144490 E32 17207

b. Date wildlife is to be hunted:

September 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Busanga Trails Ltd.

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

   NOT YET HUNTED

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

x Individual

KNOW ALL MEN BY THESE PRESENTS: That x Monty Baldwin (Full Name of Person), residing at x (b) (6) [redacted] Pueblo-Nev-81509 hereby constitutes and appoints each of the following persons - John Rulon CHB

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or cosigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filling of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB , who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an Importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the Importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the Importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an Importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Cyrus	Michael	James	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6) [redacted]			info@safarispecialtyimporters.(

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Atherton	CA	94027		USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Safari Specialty Importers 758 Sheldon Road Wallkill, NY 12589

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Robert Quartarone, 845-943-5943, info@safarispecialtyimporters.com

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Dande Safari Area, Mashonaland West, Zimbabwe

   e. Date wildlife was hunted: 08/02/2018

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Charlton McCallum Safaris

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Charlton McCallum Safaris
14 Yellowwood Lane
Harare, Zimbabwe

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). See Attached TR2 Hunting Permit

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Authorization to Export/Import

I, Michael James Cyrus (Print Name Hunter), hereinafter referred to as the "*Client*", hereby authorize *Safari Specialty Importers, Inc.* and its successors, assignees or agents (collectively "SSI") to act on my behalf for the importing and/or exporting of hunted trophies for my personal use. *This includes the authorization to obtain any necessary information, make payment on behalf of, and sign related paperwork needed for the export and import of such trophies.*

I, the *Client*, affirm that the trophies being exported/imported by SSI on my behalf, are my personal trophies which have been legally hunted by me in compliance with all national and local laws and regulations of the country of origin pursuant to the attached Addendum.

I, the *Client*, agree to indemnify, defend, and hold harmless *SSI*, from and against any and all demands, claims, and damages to persons or property, losses and liabilities, including reasonable attorney's fees, arising out of or caused by negligence or willful misconduct by me or any third party.

I, the *Client*, agree to the Payment Terms and Addendums attached hereto and made a part hereof.

This Authorization to Export/Import will remain in effect until cancelled by either party in writing.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Hudson (b) (6)	Edward	J.	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Napa	CA	94558	Napa	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

The Hunting Consortium, Ltd. 45 Spring House Lane, Berryville, VA 22611

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Amelia Proffitt (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Harare, Zimbabwe Makuti area

b. Date wildlife is to be hunted:
July/August 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Marthinius Kok, Mbalabala Safaris

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Country, Postal Code:

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

   Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b) (6) _____ Date: 06/12/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

SAME AS PAGE 1.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

TREY SPERRING

(b) (6) [redacted]

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

ZAMBIA – MULOBEZI - BILIBILI GMA
GPS - S16.10.463" | E025.28.187"
NEAREST CITY|TOWN - LUSIBI, ZAMBIA

b. Date wildlife is to be hunted:

JULY | AUGUST 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

TANDALA SAFARIS, PRINCIPAL|OWNER LANCE HIGGINS
PROFESSIONAL HUNTER: LANCE HIGGINS

6. ~~**IF THE ANIMAL HAS ALREADY BEEN TAKEN**~~, please enter the following:

d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

e. Date wildlife is to be hunted:

f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). HAVE APPLIED. HAVE NOT HUNTED YET.

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: The U.S. FWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during a sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year)

African elephant (*Loxodonta africana*) Quantity: N/A (Import permit is not required for trophies harvested in Botswana, Namibia, South Africa, or Zimbabwe). **Note: once imported, ivory cannot be re-exported.**

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: N/A (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild: RIVERSIDE RANCH, HWANGE, MATABELELAND NORTH, ZIMBABWE
   b. Date wildlife was hunted: OCTOBER 18, 2019

PROFESSIONAL HUNTER: MR. WAYNE BARTLETT
LICENSE NUMBER: 543

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks):

LIFESIZE SKIN AND SKULL

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

MATABELELAND TAXIDERMIST
16 BIRMINGHAM ROAD
BELMONT BULAWAYO, ZIMBABWE

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: SHAWN KELLY
Business Name: MATABELELAND TAXIDERMIST
Address:
Address: 16 BIRMINGHAM ROAD
City:
State/Province: BELMONT
Country, Postal Code: BULAWAYO, ZIMBABWE

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: _____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: (b) (6) [redacted] Date: 4-10-2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Coppersmith Global Logistics Atlanta, GA 114 Southfield Parkway, Suite 170
Tammy Lewis (404) 366-1650 Forest Park, GA 30297

9. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☑ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Kevin Batson (b) (6) [redacted]
(b) (6) [redacted]

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☒ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name		1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Schuff		Ryan	Scott	
2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address	
(b) (6)				

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Peoria	AZ	85383	Maricopa	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Applicant

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners c the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
   Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   Gokwe North, Zimbabwe

   e. Date wildlife was hunted: August 19, 2018

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   Mbalabala Safaris

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
   Trophy Consultants International, 4 Josiah Chinamano Road, Belmont, Bulawayo, Zimbabwe

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name:
   Business Name: Trophy Consultants International
   Address: 4 Josiah Chinamano Road
   Address:
   City: Belmont
   State/Province: Bulawayo, Zimbabwe
   Country, Postal Code:

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

   Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signatur (b) (6) Date: 4/30/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   Same as on page 1.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   (b)(6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners o the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Farm Borodino #179, Windhoek District, Windhoek, Namibia 9000

b. Date wildlife is to be hunted:
September 19, 2019 to October 4, 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Namibia Safari Corporation
Professional Hunter: JS. Van der Merwe

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). I have not hunted yet and do not currently hold any such permits or licenses.

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	J. S. van der Merwe
Business Name:	Namibia Safari Corporation
Address:	Farm Borodino #179
Address:	
City:	Windhoek
State/Province:	
Country, Postal Code:	Namibia 9000

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

   Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature (b) (6) [redacted] Date: 6/25/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Schroeder	Mark	Charles	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Houston	Texas	77024	Harris	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
same as above

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Mark C. Schroeder
(b) (6) [redacted]
I will be out of country and cannot be contacted June 28-July 16, 2019

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Zimbabwe, Beitbridge West RDC concession, Bulawayo nearest city

b. Date wildlife is to be hunted:

July 1-July 14, 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Nengasha Safaris; 36A Townsend Road; Suburbs, Bulawayo, Zimbabwe; Box 9084; Hillside, Bulawayo, Zimbabwe

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   e. Date wildlife was hunted:

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). No permits at present; animal not yet hunted.

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   -- SAME AS PAGE 1 --

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Greg Brownlee - (b) (6)
   Jeremy Cotton - [redacted]

OMB Control No. 1018-0093
Expires 08/31/2020

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

ZAMBIA Mulobezi-Bilibili GMA, GPS Coordinates: S16 10 46 3" / E025 28 18 7". c. Nearest City/Town: Lusibi, Zambia

b. Date wildlife is to be hunted:

AUGUST 14 - September 1, 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Tandala Safaris Zambia - Lance Higgins professional hunter/Principal Owner

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   e. Date wildlife was hunted: N/A

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). WILL RECEIVE UPON ARRIVAL TO ZAMBIA

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Matthew Saulsbury
(b) (6) [redacted]
Odessa, TX 79765

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Matthew Saulsbury
(b) (6) [redacted]

OMB Control No. 1018-0093
Expires 08/31/2020

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

OMB Control No. 1018-0093
Expires 08/31/2020

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   Upper Lupande, Luangwa Valley, Zambia

   e. Date wildlife was hunted: 17th May 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   Westgate Properties & Safaris
   P.O. Box 39072 Lusaka, Zambia

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

   Westgate Properties & Safaris
   Lusaka, Zambia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Expires 08/31/2020

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

N/A

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

FRANK R PRESTIA JR

(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: N/A (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

ZIMBABWE, BEITBRIDGE, SOUTHEASTERN ZIMBABWE
BISHOPSTONE ESTATES, LOT NO. 3 OF JOPEMBE BLOCK

b. Date wildlife is to be hunted:
JUNE 30, 2019 - JULY 13, 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

BISHOPSTONE SAFARIS
JOHN HUNT, PROFESSIONAL HUNTER

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   e. Date wildlife was hunted: N/A

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). I HAVE NOT HUNTED YET AND I DO NOT HAVE SUCH PERMIT OR LICENSE

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982.

BELOW IS A POWER OF ATTORNEY FORM WHICH IS REQUIRED BY U.S. CUSTOMS, TO ALLOW US TO TRANSACT U.S. CUSTOMS CLEARANCE ON YOUR BEHALF.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
SEENO	ALBERT	D.	JR.

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			cindi.rulon@procargousa.com

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
CLAYTON	CALIFORNIA	94517	CONTRA COSTA	U.S.A.

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   PRO CARGO USA ATTN:CINDI RULON SELF ADDRESSED FED EX ENVELOPE ENCLOSED
   15619 MORALES ROAD
   HOUSTON, TEXAS 77032

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   CINDI RULON CINDI.RULON@PROCARGOUSA.COM
   281-220-3176

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
   CAPRA FALCONERI HEPTNERI BUKHARAN MARKHOR

   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

   SAYDI TAGNOB CONSERVANCY IN THE SHAMISIDIN. SHONIN DISTRICT KHATLON REGION NEAR ANJIROB VILLAGE TAJIKISTAN GPS COORDINATES 37.980408, 70.113654

   b. Date wildlife was hunted:

   FEBRUARY 2019

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

WILD HUNTING IN TURKEY

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

LLC SAIDI TAGNOB ANJIROB VILLAGE SHAMSIDIN SHOHIN DISTRICTS KATION REGION TAJISKISTAN

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). ATTACHED

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	HAKIM ABDULHAEV
Business Name:	LLC SAIDI TAGNOB
Address:	ANJIROB VILLAGE
City:	ANJIROB
State/Province:	SHAMISIDIN SHOHIN DISTRICT
Country, Postal Code:	TAJIKISTAN

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

POPULATION IS STABLE AND HUNTING PERMITS ARE ISSUED ON A STRICT QUOTA BASIS

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

THE HUNTING FEES WERE APPROXIMATELY 170,000 USD OF WHICH A SIGNIFICANT PORTION IS USED TO PREVENT POACHING. SCOUTS ARE USED TO PREVENT POACHING AND TO MONITOR MOVEMENTS OF THE MARKHORS. LOCAL COMMUNITY BENEFITS FROM DIRECT EMPLOYMENT(ABOUT 25 PEOPLE) AND PROJECT SUCH AS IRRIGATION, PROCUREMENT OF BEE HIVES FOR HONEY PRODUCTION AND SUPPORT FOR SCHOOLS

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

THE ABOVE MENTIONED FUNDING IS PRIMARILY USED FOR ANTI- POACHING MEASURES TO PROVIDE STABLE POPULATIONS WHICH ALLOWS FOR SUSTAINABLE HUNTING TO CONTINUE. MARKHORS HAVE BEEN BROUGHT FROM POPULATIONS BELOW 1000 TO LEVELS OF 3,500 SINCE MANAGED HUNTING WAS STARTED.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or ~~taxidermist~~ applying on behalf of a U.S. hunter or ~~foreign national,~~ provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: [signature] Date: 06/27/2019

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

KNOW ALL MEN BY THESE PRESENTS: That x Albert D. Seeno Jr. (Full Name of Person), residing at x (b) (6) Clayton, CA 94517 hereby constitutes and appoints each of the following persons - John Rulon CHB

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or cosigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filling of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB , who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

same

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Jame Matthews
(b) (6)
[redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   N/A

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Upper Lupande Luangwa Valley Zambia

   e. Date wildlife was hunted: 17th May 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Westgate Properties & Safaris
P O Box 39072 Lusaka Zambia

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Westgate Properties & Safaris
Zambia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	V Hzath
Business Name:	Trophy Trackers
Address:	P O Box 39141 (124 Omelo Mumba Rd Rhodes Park)
Address:	
City:	Lusaka
State/Province:	Zambia 10101
Country, Postal Code:	

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: Jimmy Matthews Digitally signed by Jimmy Matthews Date: 2019.07.02 17:41:21 -05'00' (b) (6) Date: 7/2/19

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: Jimmy Matthews (b) (6) Digitally signed by Jimmy Matthews Date: 2019.07.02 17:41:06 -05'00' Date: 7/2/19

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

POA FOR SCOTT ROBERTS ATTACHED

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Safari Specialty Importers, 758 Sheldon Road, Wallkill, NY 12589

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Robert Quartarone, 845-943-5943, info@safarispecialtyimporters.com

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Dande Safari Area, Mashonaland West, Zimbabwe

   e. Date wildlife was hunted: 05/22/2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Charlton Mccallum Safaris

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Charlton McCallum Safaris
14 Yellow Wood Lane
Harare, Zimbabwe

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).
   See attached TRAS 2 and Tags

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	Opping Investments
Address:	T/A Charlton McCallum Safaris
Address:	14 Yellow Wood Lane
City:	Kambanjie
State/Province:	Harare, Zimbabwe
Country, Postal Code:	

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: _____ Date: 07/05/2019

POA FOR SCOTT ROBERTS ATTACHED

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

APPROVED QUOTAS
EXPORT
REGISTRATION

Dear Jorge,

Safari Specialty Importers applied on behalf of our client, Scott Nelson Roberts, for a CITES Import Permit (Leopard) on July 11, 2019. We received the CITES Permit with the incorrect country of origin listed on 9/13/19. We reached out to the USFW Office to have this corrected and did not receive a response on how it needed to be corrected for three weeks. Upon receiving the instructions on how to have this issue fixed, we immediately provided all necessary information to Miguel Richardson so he could proceed. We would appreciate this correction to be expedited as we have now gone 3 months waiting for this permit.

I find your refusal to have FedEx labels created to return the original, Incorrect CITES form to you as procedure dictates, and the Corrected CITES permit sent to us deeply concerning. We go to great lengths to make sure that all permits submitted by us are correct with all necessary information to make the review process easy for your office to complete. We use FedEx to transport the applications and Permits to guarantee their safe delivery, as these forms are absolutely essential to have for our clients. In this case, USFW made an error on the issued permit that renders it unusable. We paid for the safe delivery and return of a valid CITES Permit via FedEx and ask that you would provide the same to ensure that the new permit arrives safely.

If you have any questions, please feel free to contact me.

Respectfully,

Wyatt Fetner

Type of Activity

REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details. **Instructions on how to make your application complete and help avoid unnecessary delays are attached.**

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Roberts	Scott	Nelson	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			info@safarispecialtyimporters.c

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Benton City	Washington	99320		

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 6 and 7**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

Safari Specialty Importers, 758 Sheldon Road, Wallkill, NY 12589

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Robert Quartarone, 845-943-5943, info@safarispecialtyimporters.com

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☒ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. **Permit number.** Enter the permit number to be reissued/renewed/amended. Prt#: 19US48023D/9

5. Submit the original permit with this application.

6. **Past activities.**

   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

7. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

8. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

9. **Certification -** Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

      I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signature: _____ Date: _____

   b. For **CHANGES** to original application:

      On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we may need to request additional information regarding the changes after reviewing your initial request.

      I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

   Permittee's signature: _____ Date: 10/02/2019
   POA FOR SCOTT NELSON-ROBERTS

All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

N, A.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

DENNIS JORDAN

(b)(6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
   Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   NAMIBIA

   b. Date wildlife is to be hunted: JUNE 9, 2019

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   J. H. HONIBUL – OUTFITTER
   AFRICA THIRSTLAND SAFARI – SAFARI COMPANY
   J. H. HONIBUL – PROFESSIONAL HUNTER

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   e. Date wildlife was hunted: JUNE 9, 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   J. H. HONIBUL
   AFRICA THIRSTLAND SAFARI
   J. H. HONIBUL

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
   KINGS TAXIDERMY
   27 BAHNHOF STR
   OTJIWARONGO NAMIBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).
   - attached

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name: J. H. Honibul
   Business Name: Africa Thirstland
   Address: PO Box 80087
   Address:
   City: Windhoek
   State/Province:
   Country, Postal Code: Namibia

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

   Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b)(6) [redacted] 7/7/19

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

Permit Office 2010/02

PERMIT CONDITIONS

TROPHY HUNTING OF CHEETHAS, LEOPARDS & LIONS

1. A trophy hunter, trophy hunting guide and trophy hunting operator must read and acknowledge and sign the predator trophy hunting permit conditions before the hunt commences.
2. A predator trophy hunting permit must be obtained before the hunt for a predator commences and must be in the physical possession of the trophy hunting guide while the predator is being hunted.
3. The trophy hunting operator concerned must give notice of the predator hunt to the regional office of the Ministry seven days before the hunt commences.
4. A predator trophy hunting permit is
    a) issued to a trophy hunter;
    b) non-transferable; and
    c) valid for a period specified in the permit.
5. Predators may only be hunted for trophies under the following conditions -
    a) only free roaming, self-sustaining and adult predators may be hunted as trophies with a minimum skull measurement of 27cm for a cheetah, 32cm for a leopard and 52cm for a lion;
    b) a female leopard may not be hunted as trophy;
    c) a predator may not be shot in any form of confinement or in a trap or in an area which is smaller than 1000ha;
    d) a predator may be baited, but a live animal may not be used as bait;

e) a predator may not be shot within a range of 1km of any other predator kept in captivity in any form;

f) a predator may be stalked, tracked or ambushed, but dogs or horses may not be used to hunt it;

g) predator trophy hunting may not take place during the period between 30 minutes after sunset in any day and 30 minutes before sunrise the following day and artificial light is prohibited;

h) a predator may not be shot from a moving vehicle or chased in any way with an aircraft;

i) a predator may not be hunted unless it belongs to a wild and sustainable population (It exists as a naturally interacting member of a wild and sustainable population in an area large enough for it to breed, forage and hunt freely and where there is a natural state of balance between forage, predator and prey);

j) a predator bred in captivity may not be trophy hunted;

k) a predator to be hunted may not be drugged in any form;

l) a canned hunting (any restriction of an animal's natural movement for the purpose of trophy hunting) in any form is illegal; and

m) a predator may only be hunted in areas as specified on the predator trophy hunting permit;

n) once the predator has been killed, the following must occur –

(i) the following photos must be taken immediately after the hunt, at the location where the predator was killed –

(aa) the predator lying on its right showing the feet;

(bb) the predator lying on its left showing the feet;

(cc) a close-up photo from the front showing the face of the predator, clearly depicting facial features: nose, eyes, and mouth, and a visible leopard hunting quota tag number, in case of a leopard;

(dd) a close-up photo of the trophy hunter and trophy hunting guide posing with predator, with all four

visibility of genital feature such as scrotum and visible leopard hunting quota tag number;

(ii) the trophy hunter and trophy hunting guide must sign all the photos on the reverse side of the photos;

o) the recording sheet of the predator trophy hunting permit in Schedule G has to be filled in, in permanent ink, immediately after the hunt;

p) the trophy hunter and trophy hunting guide must sign on the reverse side of the predator trophy hunting permit with the following statement:

"We hereby individually and collectively declare that the predator recorded and photographed was hunted, shot and killed by us in full accordance with all the predator trophy hunting permit conditions.";

q) a telephonic report must be given to the staff member responsible for the predator trophy hunting permit register in the Permit Office in Windhoek within 72 hours of the predator being killed, and full details of the predator trophy hunting permit must be provided;

r) an unsuccessful predator hunt has to be reported to the Permit Office in Windhoek within 72 hours after the trophy hunting permit has expired;

s) no application for subsequent predator trophy hunting permit from a trophy hunting operator may be processed if the Permit Office has not received the report on the previous permit issued to his or her client (trophy hunter);

t) the original predator trophy hunting permit with full details as described in paragraph (u) must be handed in to the Taxidermist or shipping agent with the trophy; and

must be handed in at the Permit Office in Windhoek and must be accompanied by –

(i) a copy of the passport of the trophy hunter and of a page thereof with an immigration stamp indicating the date of entry;

(ii) the original predator trophy hunting permit;

(iii) the leopard trophy hunting quota tag, in case of a leopard;

(iv) the recording sheet; and

(v) the original photos printed on photo paper (glossy paper) referred to in paragraph (n): and

(vi) export permit may not be issued if the conditions in paragraph (u) have not been met.

6. Condition regarding skin and skull of the hunted predator

(a) scrotum of the hunted predator must be left attached to the skin to confirm the sex of the animal.

(b) skin found without an obvious scrotum attached will be treated as female and will not be allowed to be exported.

(c) skin of the hunted predator must be brought to MET office (CITES Office) for tagging and inspection before the export permit can be issued.

(d) skull of the hunted predator must be brought to MET office (CITES Office) for SCI measurements before the export permit can be issued

7. ***Leopard trophy hunting quota tag is not transferable.***

Any contravention or non compliance with any regulation or permit condition is dealt with in accordance with the Nature Conservation Ordinance, 1975 (Ordinance No. 4 of 1975), especially sections 84(5), 86, 87, 88 and 89.

I hereby acknowledge that I have read and understand the predator trophy hunting permit conditions:

HUNT START DATE (DD/MM/YYYY)	01/06/2019	HUNT FINISH DATE (DD/MM/YYYY)	09/06/2019

1. WAS THE HUNT SUCCESSFUL? (tick appropriate box): YES ✓ | NO

IF NO, WHY NOT?

2. HUNTING METHOD (tick appropriate box): i) BAIT AND BLIND [X] ii) ON FOOT [ ]

3. PRE-BAITING: YES X | NO

4. NUMBER OF BAIT SITES USED DURING HUNT (including pre-baiting if applicable): 4

5. NUMBER OF BAIT SITES FED ON BY PREDATOR (including pre-baiting if applicable): 4

6. TOTAL NUMBER OF BAIT NIGHTS (including pre-baiting if applicable): 1 Month
The total number of nights that all bait sites were open (if 6 bait sites were open for 1 night = 6 bait nights) 120

7. TOTAL NUMBER OF BAITS USED (including pre-baiting if applicable):
The total number of times that bait sites were 'freshened' with new bait 32

8.

SEX & AGE OF PREDATOR FEEDING ON BAITS DURING HUNT:	NUMBER:	EVIDENCE (SIGHTING, TRACKS, TRAIL CAMERA):
Adult male	3	Sighting, Tracks
Adult female	5	Sighting, Tracks
Subadult male	2	Tracks
Subadult female	1	Tracks
Juvenile	2	Sighting
Unknown	5	Tracks

9. NUMBER OF PREDATOR SEEN MORE THAN 1 KM AWAY FROM BAITS: 5

10. DATE TROPHY TAKEN (DD/MM/YYYY): 09/06/2019

11. GPS LOCATION OF HUNT (in decimal degrees for example; 15.21478 and -19.9591, one number per box):

S 20 21 938 | E 015 55 488

12. CONDITION OF PREDATOR (tick all appropriate boxes):

i) HEALTHY ☐ ii) UNHEALTHY ☐ iii) FULL STOMACH ☒ iv) MEDIUM STOMACH ☐ v) EMPTY STOMACH ☐

MEASUREMENTS:

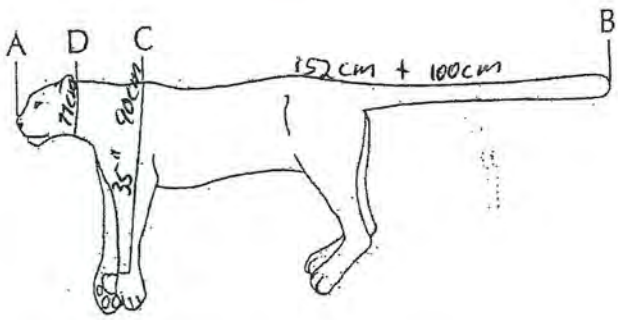
13. BODY LENGTH (CM):	252 cm	14. SHOULDER HEIGHT (CM):	90 cm
15. NECK CIRCUMFERENCE (CM):	77 cm	16. SKULL LENGTH (CM):	330 mm
17. SKULL WIDTH (CM):	180 mm	18. WEIGHT (KG)	99 kg

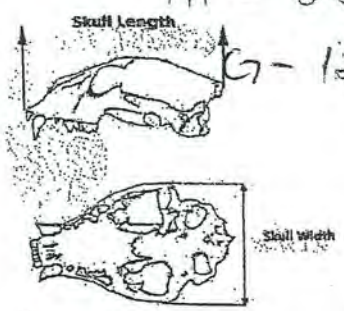
MEASUREMENTS & PHOTOGRAPHS

Measurements to be taken:

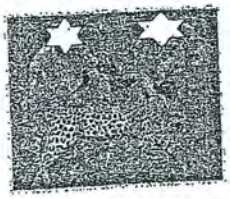
1. Body length (cm, tip of nose to tip of tail; Measurement A–B)
2. Shoulder height (cm, tip of scapula to back of plantar pad; Measurement C)
3. Neck circumference (cm, immediately behind the ear; Measurement D)
4. Skull length (mm, greatest length of skull, measured as a straight line between pegs)
5. Skull width (mm, greatest width of skull, measured across zygomatic arches)

L – 27
W – 18
total 45.
TH – 8.5
G – 17

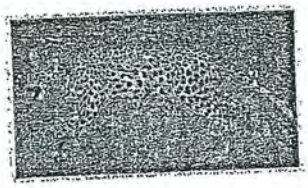




Photographs required before the trophy is skinned:



1. Side view showing the entire body with the hunter positioned directly behind for scale, and visible predator hunting quota tag number.



2. The predator lying on its right showing the feet and visible predator hunting quota tag number.

3. The predator lying on its left showing the feet and visible predator hunting quota tag number.

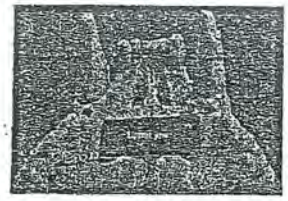
5. Frontal view of the teeth showing coloration and wear on the canines and incisors and visible predator hunting quota tag number.

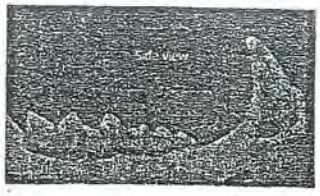
6. Hindquarters clearly showing the scrotum and visible predator hunting quota tag number.

Photographs required from the cleaned skull:

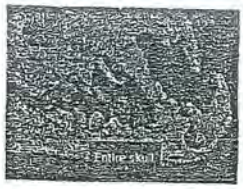
7. Lower jaw showing all the teeth and chipping of the enamel ridge on the back of the canines.



8. Upper jaw showing all the teeth and chipping of the enamel ridge on the back of the canines.

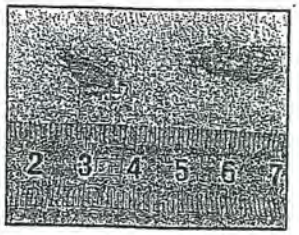


9: Side view of the lower jaw (either side) showing the canine and wear on the cusps of molars and premolars.



10. Wide shot of all the teeth showing wear, broken teeth, and teeth coloration.

Skin and Fur Sample - Collection Guidelines:



1. Cut off a 3 by 3 cm^3 square piece of fur with skin from the underneath (belly) of the leopard, as shown in the photograph, to avoid any damage to the trophy skin.
2. Write the following information onto an envelope:
    a. Species e.g. leopard
    b. Professional Hunter Full Name
    c. Farm Name
    d. MET TAG Number
    e. GPS Coordinates of hunt (in decimal degrees for example; 15.21478 and -19.9591)
3. Place the sample into the envelope.
4. Put a handful of rice or salt into the envelope with the sample.
5. Seal the envelope.
6. Store the envelope in a cool and dry place.
7. The envelope must be submitted to MET PERMIT OFFICE within a period of 2 months from the hunt date.
8. Tick the box below to confirm that a skin and fur sample has been collected from the leopard for submission:

YES X	NO

SIGNATURE OF (Type in full name into the box):

Falls Church, VA 22041-3803

Dear Sir/Madame:

I have a leopard import permit # 19US48029D/9 that has a mis-spelling of the Consigner's name that needs to be corrected.

This mis-spelling is in section 4 – Consigner on the original permit.

The correct name and correct spelling for the Consigner is:

Jacobus Hendrik Honiball

Please correct this name on my permit and re-issue to me with this corrected spelling of the consigner. (all other information on the original permit is accurate).

Please expedite this amendment request and issue me the corrected permit ASAP. My leopard is taxidermy complete and is crated and awaiting this corrected permit to be shipped to me in the USA. My crate is currently sitting in storage in Namibia and I am being charged a daily storage fee until this is shipped to me in the USA.

I have attached the $50 processing fee. I have also attached a Fed Ex envelope, prepaid, that I request you use to send me the amended/corrected spelling permit.

Sincerely yours,

(b)(6)
Dennis Jordan

Type of Activity

REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details. **Instructions on how to make your application complete and help avoid unnecessary delays are attached.**

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Jordan	Dennis	Dee	Mr.

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b)(6)			(b)(6)

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b)(6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Parkland	Florida	33067-1141	Broward	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 6 and 7.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☒ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. **Permit number.** Enter the permit number to be reissued/renewed/amended. Prt#: 19US48029D/9

5. Submit the original permit with this application.

6. **Past activities.**

   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

7. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

8. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

9. **Certification -** Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

      I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signature: _____ Date: _____

   b. For **CHANGES** to original application:

      On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we may need to request additional information regarding the changes after reviewing your initial request.

      I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I here[(b)(6) redacted] it with the indicated changes.

   Permittee's signatur[redacted] Date: 10-22-2019

All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports **(where an inspector is posted) is available. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.**

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

D+L CNB, LLC
2015 S. Arlington Heights Rd, Ste 123
Arlington Heights IL 60007

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Lisa Jamnik lisaj@dlchb.com
847-690-0690

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____. (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   N/A

   b. Date wildlife is to be hunted:

   N/A

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   N/A

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   Ibanda/Lumanyika, Kagera Region - Tanzania
   GIS: E122213 N9875125

   e. Date wildlife is to be hunted:

   5/10/2018

f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
Said Kawawa Hunting Safaris

g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
Dar Es Salam - Tanzania

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). See attached

8. Complete name and address of overseas person or business shipping the trophy to you.

a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:
Business Name: Said Kawa Hunting Safaris
Address: 80 U.S.A. River
Address:
City: Arusha
State/Province:
Country, Postal Code: Tanzania

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement. See attached

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: [signature] Date: 6/12/2019

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

n/A

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

KNOW ALL MEN BY THESE PRESENTS: That, ✓ Dale Duane Lian (Full name of individual, partnership, corporation, sole proprietorship, or limited liability company) (Identify) doing business as a ✓ INDIVIDUAL (individual, partnership, corporation, sole proprietorship, or limited liability company) (Identify) under the laws of the State of ✓ North Dakota, residing or having a principal place of business at (b) (6) [redacted] Fargo ND 58102, hereby constitutes and appoints ✓ D&L CHB, LLC (Grantee's Name), its officers, employees, and/or specifically authorized agents, to act for and on its behalf as a true and lawful agent and attorney of the grantor for and in the name, place and stead of said grantor, from this date, in the United States (the "territory") either in writing, electronically, or by other authorized means, to:

Make, endorse, sign, declare, or swear to any customs entry, withdrawal, declaration, certificate, bill of lading, carnet or any other documents required by law or regulation in connection with the importation, exportation, transportation, of any merchandise in or through the customs territory, shipped or consigned by or to said grantor;

Perform any act or condition which may be required by law or regulation in connection with such merchandise deliverable to said grantor; to receive any merchandise;

Make endorsements on bills of lading conferring authority to transfer title; make entry or collect drawback; and to make, sign, declare, or swear to any statement or certificate required by law or regulation for drawback purposes, regardless of whether such document is intended for filing with U.S. Customs and Border Protection;

Sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owner's declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits or statements in connection with the entry of merchandise;

Sign and swear to any document and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated by said grantor;

Authorize other Customs Brokers duly licensed within the territory to act as grantor's agent; to receive, endorse and collect checks issued for CBP duty refunds in grantor's name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor;

And generally to transact Customs business, including filing of claims or protests under section 514 of the Tariff Act of 1930, or pursuant to other laws of the territories, in which said grantor is or may be concerned or interested and which may properly be transacted or performed by an agent and attorney;

Giving to said agent and attorney full power and authority to do anything whatever requisite necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents;

This power of attorney to remain full force and effect until revocation in writing is duly given to and received by grantee (if the donor of this power of attorney is a partnership, the said power shall in no case have any force or effect in the United States after the expiration 2 years from the dates of its execution);

Grantor acknowledges receipt of ✓ D&L CHB, LLC (Grantee's Name) Terms and Conditions of Service governing all transactions between the Parties.

If the Grantor is a Limited Liability Company, the signatory certifies that he/she has full authority to execute this power on behalf of the Grantor.

IN WITNESS WHEREOF, the said ✓ Dale Duane Lian

caused these presents to be sealed and signed: (Signature) ✓ (b) (6) [redacted]

(Capacity) ✓ N/A Date: ✓ 7/17/18

Witness: (if required) N/A

If you are the importer of record, payment to the broker will not relieve you of liability for CBP charges (duties, taxes or other debts owed CBP) in the event the charges are not paid by the broker. Therefore, if you pay by check, CBP charges may be paid with a separate check payable to "U.S. Customs and Border Protection" which shall be delivered to CBP by the broker. Importers who wish to utilize this procedure must contact our office in advance to arrange timely receipt of duty checks.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

D&L CHB LLC
2015 S. Arlington Heights Ste 123
Arlington Heights, IL 60005

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Lisa Jamnik 847-690-0690
lisaj@dlchb.com

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

n/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

n/A

b. Date wildlife is to be hunted:

n/A

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

n/A

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Farm Mecklenburg, Windhoek, Namibia
S22°11'5" E017°38'52"

e. Date wildlife is to be hunted:

4/4/2019

f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Ingwe Wildlife Art
Hugo Kotz

g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Ingwe Wildlife Art
Industrial St., West 786
Okahandja, Namibia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). See attached

8. Complete name and address of overseas person or business shipping the trophy to you.

a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Hugo Kotze
Business Name: P.O. Box 1333
Address:
Address: Okahandja, Namibia
City:
State/Province:
Country, Postal Code:

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement. See attached

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: 7/5/2019

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

KNOW ALL MEN BY THESE PRESENTS: That, ✓ Michael J Bouchard (Full name of individual, partnership, corporation, sole proprietorship, or limited liability company) (Identify) doing business as a ✓ INDIVIDUAL (individual, partnership, corporation, sole proprietorship) under the laws of the State of ✓ Michigan, residing or having a principal place of business at ✓ (b)(6) [redacted] oomfield MI 48302, hereby constitutes and appoints ✓ D & L CHB (Grantee's Name), its officers, employees, and/or specifically authorized agents, to act for and on its behalf as a true and lawful agent and attorney of the grantor for and in the name, place and stead of said grantor, from this date, in the United States (the "territory") either in writing, electronically, or by other authorized means, to:

Make, endorse, sign, declare, or swear to any customs entry, withdrawal, declaration, certificate, bill of lading, carnet or any other documents required by law or regulation in connection with the importation, exportation, transportation, of any merchandise in or through the customs territory, shipped or consigned by or to said grantor;

Perform any act or condition which may be required by law or regulation in connection with such merchandise deliverable to said grantor; to receive any merchandise;

Make endorsements on bills of lading conferring authority to transfer title; make entry or collect drawback; and to make, sign, declare, or swear to any statement or certificate required by law or regulation for drawback purposes, regardless of whether such document is intended for filing with U.S. Customs and Border Protection;

Sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owner's declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits or statements in connection with the entry of merchandise;

Sign and swear to any document and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated by said grantor;

Authorize other Customs Brokers duly licensed within the territory to act as grantor's agent; to receive, endorse and collect checks issued for CBP duty refunds in grantor's name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor;

And generally to transact Customs business, including filing of claims or protests under section 514 of the Tariff Act of 1930, or pursuant to other laws of the territories, in which said grantor is or may be concerned or interested and which may properly be transacted or performed by an agent and attorney;

Giving to said agent and attorney full power and authority to do anything whatever requisite necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents;

This power of attorney to remain full force and effect until revocation in writing is duly given to and received by grantee (if the donor of this power of attorney is a partnership, the said power shall in no case have any force or effect in the United States after the expiration 2 years from the dates of its execution);

Grantor acknowledges receipt of ✓ D & L CHB (Grantee's Name) Terms and Conditions of Service governing all transactions between the Parties.

If the Grantor is a Limited Liability Company, the signatory certifies that he/she has full authority to execute this power on behalf of the Grantor.

IN WITNESS WHEREOF, the said ✓ Michael Bouchard caused these presents to be sealed and signed: (Signature) (b)(6) [redacted]

(Capacity) ✓ N/A Date: 04/08/19

Witness: (if required) N/A

If you are the importer of record, payment to the broker will not relieve you of liability for CBP charges (duties, taxes or other debts owed CBP) in the event the charges are not paid by the broker. Therefore, if you pay by check, CBP charges may be paid with a separate check payable to "U.S. Customs and Border Protection" which shall be delivered to CBP by the broker. Importers who wish to utilize this procedure must contact our office in advance to arrange timely receipt of duty checks.

Expires 08/31/2020

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

DHL CHLB
2015 S. Arlington Hts Rd, Ste 123
Arlington Heights, IL 60005

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Lisa Jamnik
847-690-0690
lisaj@dlchb.com

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

n/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

n/A

b. Date wildlife is to be hunted:

n/A

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

n/A

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Munyamadzi Game Mgmt Area, Luatata
Zambia

e. Date wildlife is to be hunted:

6/20/2018

f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Sitatunga Ranching & Safari

g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Bangweulu Taxidermy
4142/K Chifwema Rd
Lusaka, Zambia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). See attached

8. Complete name and address of overseas person or business shipping the trophy to you.

a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:
Business Name:
Address:
Address:

KNOW ALL MEN BY THESE PRESENTS: That, ✓ Frank Schimpf (Full name of individual, partnership, corporation, sole proprietorship, or limited liability company) (Identity) doing business as a ✓ INDIVIDUAL (individual, partnership, corporation, sole proprietorship, or limited liability company) (legal con) under the laws of the State of ✓ WI residing or having a principal place of business at (b) (6) [redacted] Mukwonago WI 53149 hereby constitutes and appoints ✓ D & L CHB (Grantee's Name), its officers, employees, and/or specifically authorized agents, to act for and on its behalf as a true and lawful agent and attorney of the grantor for and in the name, place and stead of said grantor, from this date, in the United States (the "territory") either in writing, electronically, or by other authorized means, to:

Make, endorse, sign, declare, or swear to any customs entry, withdrawal, declaration, certificate, bill of lading, carnet or any other documents required by law or regulation in connection with the importation, exportation, transportation, of any merchandise in or through the customs territory, shipped or consigned by or to said grantor;

Perform any act or condition which may be required by law or regulation in connection with such merchandise deliverable to said grantor; to receive any merchandise;

Make endorsements on bills of lading conferring authority to transfer title; make entry or collect drawback; and to make, sign, declare, or swear to any statement or certificate required by law or regulation for drawback purposes, regardless of whether such document is intended for filing with U.S. Customs and Border Protection;

Sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owner's declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits or statements in connection with the entry of merchandise;

Sign and swear to any document and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated by said grantor;

Authorize other Customs Brokers duly licensed within the territory to act as grantor's agent; to receive, endorse and collect checks issued for CBP duty refunds in grantor's name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor;

And generally to transact Customs business, including filing of claims or protests under section 514 of the Tariff Act of 1930, or pursuant to other laws of the territories, in which said grantor is or may be concerned or interested and which may properly be transacted or performed by an agent and attorney;

Giving to said agent and attorney full power and authority to do anything whatever requisite necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents;

This power of attorney to remain full force and effect until revocation in writing is duly given to and received by grantee (if the donor of this power of attorney is a partnership, the said power shall in no case have any force or effect in the United States after the expiration 2 years from the dates of its execution);

Grantor acknowledges receipt of ✓ D & L CHB (Grantee's Name) Terms and Conditions of Service governing all transactions between the Parties.

If the Grantor is a Limited Liability Company, the signatory certifies that he/she has full authority to execute this power on behalf of the Grantor.

IN WITNESS WHEREOF, the said ✓ Frank Schimpf

caused these presents to be sealed and signed: (Signature) ✓ (b) (6) [redacted]

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

DHL CAB. LLC
2015 S. Arlington Heights R., Ste 123
Arlington Heights, IL 60005

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Lisa Jamnik lisaj@dlchb.com
847-690-0690

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

n/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   n/A

   b. Date wildlife is to be hunted:

   n/A

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   n/A

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:.

   Farm, Vaalgras, nr 38, Windhoek District Namibia

   e. Date wildlife is to be hunted:

   11/19/2017

f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Dzombo Hunting Safaris

g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Reiser Taxidermy
Plot 43
Brakwater, Windhoek, Namibia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

See attached

8. Complete name and address of overseas person or business shipping the trophy to you.

a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	JN Blaauw
Business Name:	
Address:	P.O. Box 1677
Address:	
City:	Academia
State/Province:	Windhoek, Namibia
Country, Postal Code:	

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

See attached

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: 4/1/2019

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

n/A

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

SS# (b)(6) [redacted]

KNOW ALL MEN BY THESE PRESENTS: That, ✓ Christopher Wayne Severs (Full name of individual, partnership, corporation, sole proprietorship, or limited liability company) (Identify) doing business as a ✓ INDIVIDUAL (Individual, partnership, corporation, sole prop) under the laws of the State of ✓ Texas, residing or having a principal place of business (b)(6) [redacted], Dallas, Texas 75205, hereby constitutes and appoints ✓ D&L CHB, LLC (Grantee's Name), its officers, employees, and/or specifically authorized agents, to act for and on its behalf as a true and lawful agent and attorney of the grantor for and in the name, place and stead of said grantor, from this date, in the United States (the "territory") either in writing, electronically, or by other authorized means, to:

Make, endorse, sign, declare, or swear to any customs entry, withdrawal, declaration, certificate, bill of lading, carnet or any other documents required by law or regulation in connection with the importation, exportation, transportation, of any merchandise in or through the customs territory, shipped or consigned by or to said grantor;

Perform any act or condition which may be required by law or regulation in connection with such merchandise deliverable to said grantor; to receive any merchandise;

Make endorsements on bills of lading conferring authority to transfer title; make entry or collect drawback; and to make, sign, declare, or swear to any statement or certificate required by law or regulation for drawback purposes, regardless of whether such document is intended for filing with U.S. Customs and Border Protection;

Sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owner's declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits or statements in connection with the entry of merchandise;

Sign and swear to any document and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated by said grantor;

Authorize other Customs Brokers duly licensed within the territory to act as grantor's agent; to receive, endorse and collect checks issued for CBP duty refunds in grantor's name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor;

And generally to transact Customs business, including filing of claims or protests under section 514 of the Tariff Act of 1930, or pursuant to other laws of the territories, in which said grantor is or may be concerned or interested and which may properly be transacted or performed by an agent and attorney;

Giving to said agent and attorney full power and authority to do anything whatever requisite necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents;

This power of attorney to remain full force and effect until revocation in writing is duly given to and received by grantee (if the donor of this power of attorney is a partnership, the said power shall in no case have any force or effect in the United States after the expiration 2 years from the dates of its execution);

Grantor acknowledges receipt of ✓ D&L CHB, LLC (Grantee's Name) Terms and Conditions of Service governing all transactions between the Parties.

If the Grantor is a Limited Liability Company, the signatory certifies that he/she has full authority to execute this power on behalf of the Grantor.

IN WITNESS WHEREOF, the said ✓ Christopher Wayne Severs

caused these presents to be sealed and signed: (Signature) ✓ (b)(6) [redacted]

(Capacity) ✓ N/A Date: ✓ 7/8/2019

Witness: (If required) N/A

If you are the importer of record, payment to the broker will not relieve you of liability for CBP charges (duties, taxes or other debts owed CBP) in the event the charges are not paid by the broker. Therefore, if you pay by check, CBP charges may be paid with a separate check payable to "U.S. Customs and Border Protection" which shall be delivered to CBP by the broker. Importers who wish to utilize this procedure must contact our office in advance to arrange timely receipt of duty checks.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

n/a

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Steve Kelly (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   n/a

   b. Date wildlife is to be hunted: n/a

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   n/a

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Namibia, Okapekaha no 85, 21*26' 29" S - 15*51'21" E

   e. Date wildlife was hunted: 5/28/2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

John Wamback, Pro-Hunting Namibia

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Namib Taxidermy, Farm Spes Bons, Omaruru, Namibia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Mr. John Wamback
Business Name:	Pro Hunting Namibia
Address:	P.O. Box 11647
Address:	
City:	Klein Windhoek
State/Province:	
Country, Postal Code:	Namibia 9 000

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signatur (b)(6) [redacted] Date: 07/03/2019 7/3/019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an Importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the Importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the Importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an Importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982.

BELOW IS A POWER OF ATTORNEY FORM WHICH IS REQUIRED BY U.S. CUSTOMS, TO ALLOW US TO TRANSACT U.S. CUSTOMS CLEARANCE ON YOUR BEHALF.

Re: Permit 19US49113D913177D

Please be advised we have just received the above enclosed import permit but the Consignor country in box 4 was printed incorrectly. Please correct the country to read Zimbabwe not Zambia. We originally applied for the correct country as well and do not expect to be charged for the correction. Thank you.

SASE FedEx included for corrected permit.

Thank you

Type of Activity

REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details. **Instructions on how to make your application complete and help avoid unnecessary delays are attached.**

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
CRANDALL	STEVEN	CLARKE	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6) [redacted]			MATT@GENUSLOGISTICS.C

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (DBA)

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
ROSELAND	VA	22967		US

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 6 and 7**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Rev. 8/2017

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

   GENUS LOGISTICS INC 161-15 ROCKAWAY BLVD SUITE 205 JAMAICA NY 11434

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   MATT MAYERS 718 790 0216 / MATT@GENUSLOGISTICS.COM

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☒ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. **Permit number.** Enter the permit number to be reissued/renewed/amended. Prt#: 19US49113D9

5. Submit the original permit with this application.

6. **Past activities.**

   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

7. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

8. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

9. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

      I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signature: _____ Date: _____

   b. For **CHANGES** to original application:

      On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we may need to request additional information regarding the changes after reviewing your initial request.

      I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

   Permittee's signature: _____ Date: 9/10/19

All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

GENUS LOGISTICS
161-15 ROCKAWAY BLVD SUITE 205 JAMAICA, NY 11434

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

MATT MAYERS
TELEPHONE: 7187900216
EMAIL: MATT@GENUSLOGISTICS.COM

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

ZAMBEZI VALLEY, ZIMBABWE

   e. Date wildlife was hunted: JUNE 16, 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

CHARLTON MCCALLUM SAFARIS

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

14 YELLOW WOOD LN
KAMBANJI
HARARE
ZIMBABWE

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an Importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the Importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the Importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an Importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982.

BELOW IS A POWER OF ATTORNEY FORM WHICH IS REQUIRED BY U.S. CUSTOMS, TO ALLOW US TO TRANSACT U.S. CUSTOMS CLEARANCE ON YOUR BEHALF.

CUSTOMS POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That, STEVEN CLARKE CRANDALL (Full Name of person, partnership, corporation, or sole proprietorship (identify)) a corporation doing business under the laws of the State of, VIRGINIA or a ___ doing business as ___
residing at (b) (6) ROSELAND VIRGINIA having an office and place of business at ___ hereby constitutes and appoints each of the following persons ___ Genus Logistics Inc.___

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by thr Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or cosigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filling of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from Genus Logistics Inc., who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay Genus Logistics Inc., for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

IN WITNESS WHEREOF, the said (Print name) STEVEN CLARKE CRANDALL
has caused these presents to be sealed and signed:

RE: Import Application for a Republic of South Africa wild Lion *(Panthera leo)* Trophy

Dear Chief Cogliano:

Enclosed please find the permit application to import a "wild" lion trophy from Republic of South Africa for Roger Key. Included in our application packet is a copy of the Lion Management Plan for Khamab Kahalari Reserve, where, the operator, Coenraad Vermaak Safaris operates. The hunt will take place in August 2019.

In evaluating this ESA import application, please consider the information in your files describing Khamab Kalahari Reserve's mission and vision, which is to create a game reserve large enough to conserve natural habitats and maintain a wide variety of African wild herbivores and carnivores that naturally occurred in this habitat in the past. The Khamab Kalahari Reserve relies upon licensed, regulated sport-hunting to generate conservation incentives and funding to protects these habitats.

Please refer to the hundreds of pages of information Conservation Force previously submitted to the U.S. Fish and Wildlife Service, as well as information submitted by the RSA authorities, outfitters, and others, in issuing an import permit for this Lion trophy.

NOTE: DMA has approved all permits in this area in the past. Please see 2016 PRT13492C.

Please do not hesitate to contact us if you have questions about this permit application.

Sincerely,

John J. Jackson III

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)* App. II

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;

(2) Was legally obtained by the hunter through hunting for his or her personal use;

(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and

(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:

(i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;

(ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and

(iii)The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

---

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

   Please use address on page 1

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   John J. Jackson III, Conservation Force, p. 504-837-1233, e. permits@conservationforce.org

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the

application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

No X Yes ____

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

   Panthera leo (African Lion)

   b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   Republic of South Africa, Khamab Kalahari Reserve

   b. Date wildlife is to be hunted: 8/9/2019 to 8/24/2019

   b. Name of hunting outfitter, safari company, or professional hunter you will be hunting

   with: Coenraad Vermaak Safaris

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

   b. Date wildlife was hunted:

   b. Name of hunting outfitter, safari company, or professional hunter you hunted with:

   c. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). None available, I have not gone hunting yet.

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Douglas Cockcroft
Business Name:	Splitting Image Taxidermy
Address:	14 Uitenhaige Road
City:	Sydenham
State/Province:	Port Elizabeth/ Eastern Cape
Country, Postal Code:	Republic of South Africa 6057

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

   a. Do you have any information regarding the population status or trend data on the species hunted?

      Please refer to page 23 of the Lion Management Plan for Khamab Kalahari Reserve with population data and page 44 for information on the monitoring program. The last 3 pages of the report include a graph data with lion population trends.

   b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

      $90,000.00 USD in licenses and trophy fees have been paid. The Coenraad Vermaak Safaris donates meat from trophy hunted animals and supports the Lidgeton Cresche and Soup kitchen located near Kwa Natal midlands and provides funding for anti-paoching patrols.

   c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted?

      In addition to managing the lion population, the Kalahari Reserve maintains and restocks viable populations of all wild herbivors and predator species. The safari company also adheres to a strict code of conduct which ensures the sustainable utilization of wildlife through ethical hunting for the benefit of people, wildlife and wild places.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies and two elephant trophies within the same calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

    Taxidermist/Broker's signature: _____ Date: _____

11. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

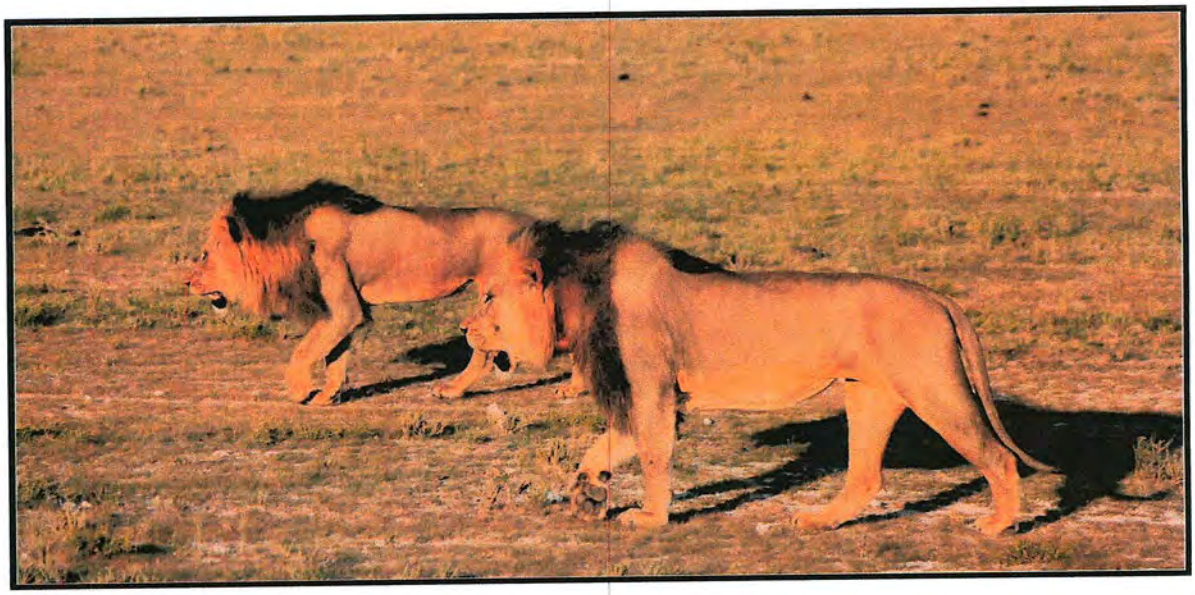
    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard(b)(6) s within the same calendar year. In addition, I understand that raw d States, cannot be re-exported.

    Applicant's signature: _____ Date: July 17, 2019

    Be aware that there may be quirements by your local or state governments, as well as requ oreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

All international shipment(s) must be imported through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

LION MANAGEMENT PLAN FOR KHAMAB KALAHARI RESERVE



A GUIDE TO DECISION MAKING FOR MANAGING LIONS ON KHAMAB KALAHARI RESERVE

khamab
Kalahari Reserve

INTRODUCTION

The management of lions on small fenced game reserves has always been a contentious issue. There are two schools of thought; one promotes a hands-off approach to lion management as far as possible, while the other suggests the need for intensive management of the lion populations. Up till now not one of these points of view have been proven as the correct approach, although the intensive management of lions by far exceeded a hands-off lion management as the method of choice by reserve managers of small game reserves. Although the majority of reserve managers would prefer a hands-off approach, they feel that they cannot afford to let the lion population go, and in very small reserve they are right. Despite very intensive management of the lion populations, a large majority of reserves still experienced perceived "problems" with their populations. These "problems" were very rapid population growths resulting in high predation impacts on the prey populations, as well as issues with keeping the genetic integrity intact in the small populations.

Few reserves or national parks in South Africa are large enough to allow for a completely natural predator system, and all will require some sort of management intervention to a larger or lesser degree. However, the level of management intervention will depend on the objectives off each reserve, as well as the reason why they choose to have lions on the reserve

More and more studies are revealing how vital top predators are in the operation of ecosystem processes, which filters right down to the different trophic levels. Most lion reintroductions are for eco-tourism purposes rather than purely ecological reasons, but even though this is the case for most reserves, the value that they bring to the operation of the ecosystems is not always realized. The reserves whose primary motivation for introducing lions are for purposes of ecotourism, adopt mostly an intensive lion management approach to keep lion numbers within strict predetermined boundaries. This intensive management approach relies heavily on contraception, vasectomies and culling as a way of achieving their objectives. A small minority of reserves, on the other hand, sees lions as a very important part of the system and includes the importance of allowing the system to function with as little management intervention as possible as an objective in their management plans. This principle should also filter through to predator management plans, which should attempt to come as close to a hands-off approach on lion management as possible. However, the effect of a largely hands-off approach on "small" fenced reserves is still unknown, and it is unsure whether this approach will lead to natural population control measures (as seen in very large or open systems) to come into effect.

Lions have the capability to recover rapidly after disturbances, leading to rapid population growths on reserves after new populations get established, and quickly exceeds the pre-determined carrying capacity based on impact on prey populations. Previously managers reacted to this by regular translocation of lions to new reserves. However, options for translocations have largely disappeared as a result of excess lions available at several reserves across the country. This led to an increasing dependency on culling and birth control measures in an attempt to keep the fast population growth rates under control.

However, this approach is symptomatic and does not address to the underlying issues of why population "problems" occur. The challenge of developing a management plan is to find ways to mimic natural control mechanisms, thereby targeting the cause of ecological issues rather than treating the symptoms.

In natural lion populations, the high infanticide rates and associated social consequences as a result of regular turn-over of dominant males in prides lead to relatively stable populations. However, in small and highly controlled population this is not the case, and males tend to stay in "control" of

KHAMAB KALAHARI RESERVE (Pty) Ltd

Vision

To create a game reserve that is large enough to conserve:

- ***Unspoilt landscapes and habitats that visually typify the Kalahari Bushveld***
- ***As wide as possible variety of African wild herbivores and carnivores that naturally occurred in such landscapes/habitats in the past.***
- ***Natural ecological processes to the extent that the system functions with as little management intervention as possible.***

Mission

To realise the vision our mission is to take on the challenges of:

- ***Maintaining (and where necessary restocking) viable populations of all the wild herbivore and predator species that occurred naturally in the Kalahari Bushveld in the past***
- ***Giving very special attention to the conservation of endangered species such as black rhino, cheetah, wild dog and birds of prey***
- ***Eliminating those plant and animal species that are deemed to be alien to this bioregion or for other reasons ethically unacceptable including domestic livestock***
- ***Rehabilitating the Kalahari Bushveld landscape to resemble its former natural state by removing all signs of the visually unappealing structures of past farming and other land use and land development practices***
- ***Restoring/simulating the natural ecological processes of the Kalahari Bushveld (e.g. fire frequency, surface water distribution, migration and predation) that have been disrupted by past farming practices***
- ***Ensuring that all of the above is sustainable by:***
    - ***Establishing a comprehensive wildlife research and monitoring programme***
    - ***Harmonising the game reserve's policies, strategies, plans and actions with Government's vision, laws, policies, plans and aspirations for the region***
    - ***Making the game reserve a long term investment success***

prides for very long periods, leading to pride instability and high cub survival. Also, regular population control actions, like culling and removals, prevent density dependent population control mechanisms from coming into effect. Two typical density dependent control mechanisms are age of first reproduction of females, and litter size. In low density populations lions breed at a younger age, have bigger litters, and the survival rates of litters are much higher. Therefore, regular culling or removal of lions leads to an increase in the above mentioned factors, resulting in faster population growth.

One of the biggest concerns for managers is the impact that lions have on the prey populations of small fenced reserves. This problem is exaggerated by inappropriate management actions like regular removal and/or supplementation of prey. Also, coupled with the factors in the previous paragraph, lack of social stability because of high male tenures and slow male turnovers, often resulting in several individuals rather than prides on a reserve, which increase the impact on the prey population.

One of the biggest mistakes is that managers ignore the temporal and spatial variability in ecosystems, and want to keep the system as stable as possible based on pre-determined "carrying capacities". This is largely driven because of economic demands and expectations, coupled with the demands of tourism and/or trophy hunting. Very few reserves will allow for the natural control mechanisms and the associated fluctuations to take its course.

Despite being the ideal management approach and the advantages associated with letting natural control mechanisms to come into play, it must also be kept in mind that it will probably not be possible in small fences systems, Madikwe Game Reserve being an example. Despite high lion densities and some natural control mechanisms starting to have an effect, the densities was still not high enough to ensure a population that can function without any management interference. If left completely, the population will without doubt reach a point where the lion population will regulate itself. However, the turning point in the population density where this will occur is unknown, and the associated impact in prey populations means that no reserve in South Africa has been brave enough or had the capacity to let this process run its full course. Therefore, as mentioned elsewhere, the objectives of each conservation area or reserve will determine at which point in time management will intervene, and what interventions they will use.

1.5 Extent of the property

The total size of the properties listed above is 95 537.31ha in size. However, some parts of some of the properties above does not farm part of the bigger "open" reserve as they are cut off by national roads from the reserve.

Another farm, Ella 1033, are fenced off separately and used for breeding of sable.

The size of the reserve that is available to lions to roam is **88 374ha.** See the attached map in Section 2.9.2

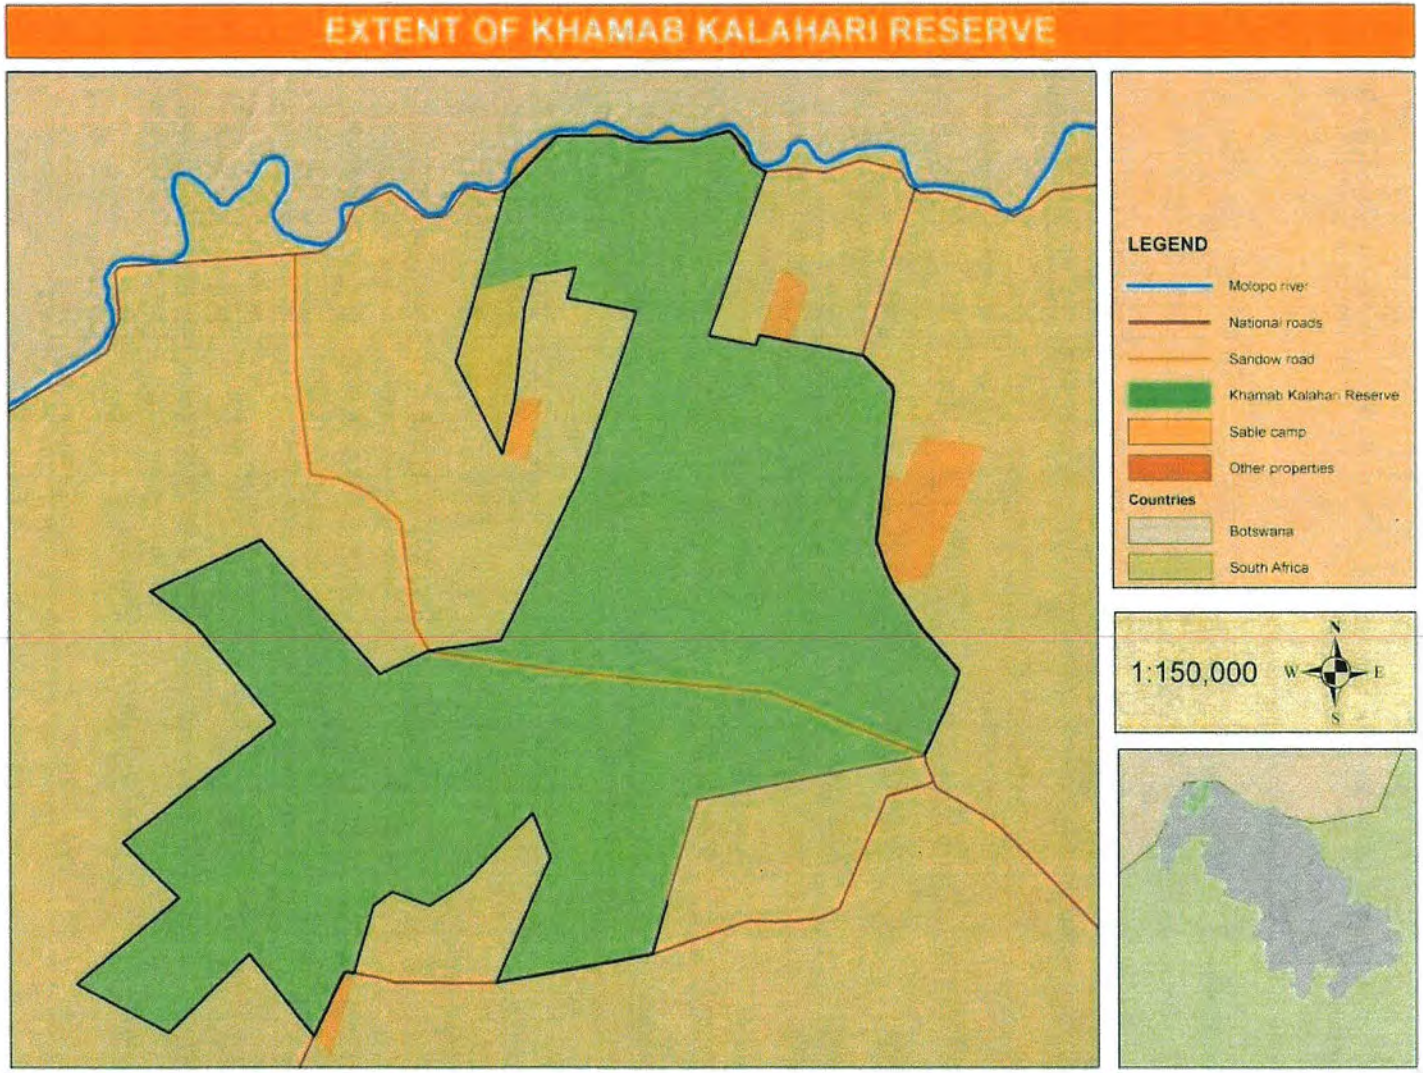

Figure 1: The extent of Khamab Kalahari Reserve

1.6 Land use on neighbouring properties

There are no crop and/or irrigation farming on any neighbouring farms or anywhere in the district close to Khamab. The land use on farms neighbouring Khamab Kalahari Reserve are limited to stock or game farming, hunting and a Big 4 game reserve.

The neighbouring farms, owners, land use and separation from the reserve are listed in the table below.

Table 2: Land use on neighbouring properties

FARM NAME	OWNER	LAND USE	DISTANCE
Ypello	Jan du Preez	Cattle farming	Immediate neighbour

1.7 Compiler of the management plan

Hanno Kilian

Ecologist: Khamab Kalahari Reserve

E-mail address: ecologist@khamab.co.za

Tel nr: 053 938 0015

Cell nr: 082 851 7296

Qualifications: Universtiy of Pretoria BSc (Agric); BSc. Hons (Wildlife Management), M.Sc (Wildlife Management)

1.8 Proximity to settlements, communities and tribal land

See attached map in Section 2.9.1 to see the location of KKR in the Molopo district and the distribution of surrounding settlements and towns.

The distances given below in Table 3 were measured from the centre of the reserve, as well as from the closest boundary of the reserve.

Table 3: Distances from release site to closest settlement

	DISTANCE FROM CENTRE OF RESERVE	DISTANCE FROM CLOSEST BOUNDARY
Settlement		
Bray	49km	33km
Vorstershoop	38km	15km
Tosca	86km	68km
Pomfret	48km	33km
Werda (Botswana)	33km	2.5km
Communities and tribal lands		
Werda (Botswana)	28km	1km
Morokweng communal areas	53km	38km

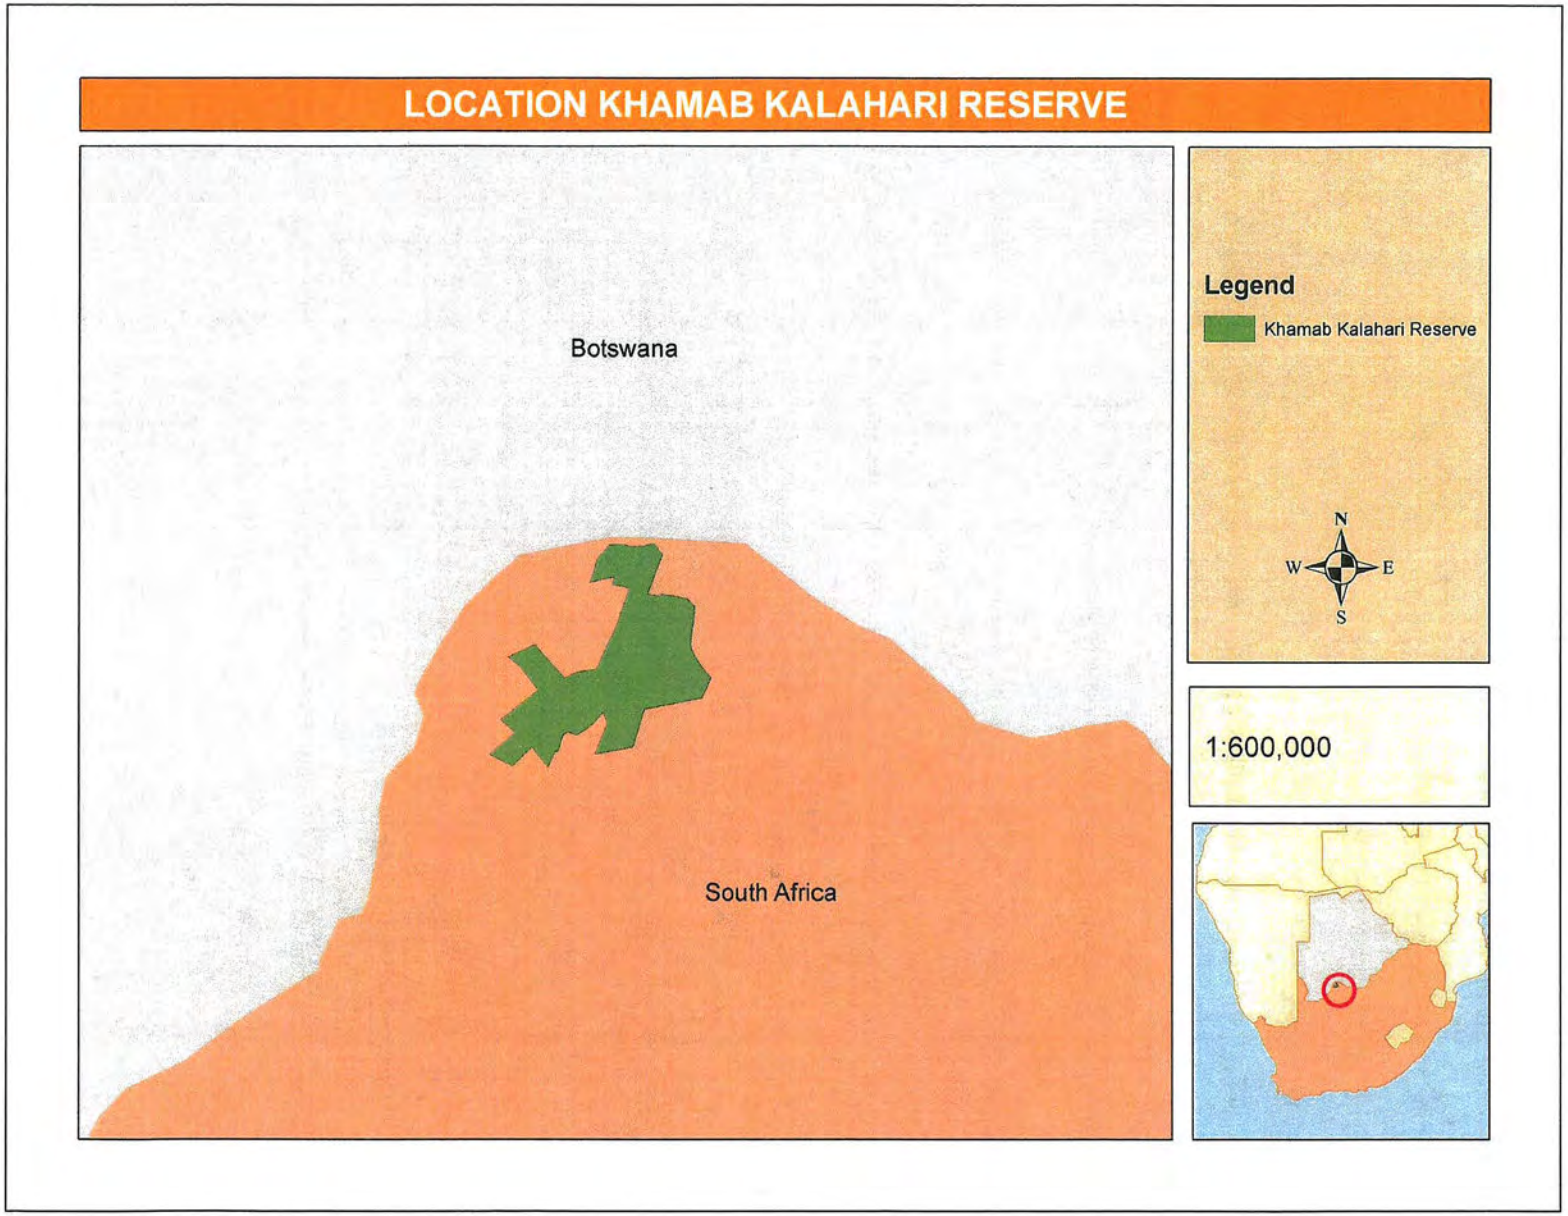

Figure 2: Location of Khamab Kalahari Reserve

1.9 Potential for enlarging the property

When Khamab started in 2007, there was an extensive drive to acquire a large portion of land, and several farms were bought and consolidated to shape the 95 500ha property.

Although it is not priority at the moment, there is potential for enlarging the current property by purchasing other neighbouring properties if they become available on the market. KKR will pursue these options if they are available at the right price in order to consolidate the current reserve.

1.10 Specifications of the perimeter fence

The fence line has been inspected and approved and are up to DACE specifications for the keeping of large game and predators.

The total height of the fence is 2.4m. The bottom 1.2m is fenced with bonnox, with 8 steel wires completing the top 1.2m.

On the inside of the fence there are five electrified strands at heights of 20cm, 50cm, 120cm, 180cm and 240cm as per specifications.

200mm line – on a 22cm double offset bracket with earth
500mm line – on a 22cm double offset bracket with earth
1200mm line – on a 22cm offset bracket
1800mm line – on a 40cm double offset bracket with earth
2400mm line – on a 40cm double offset bracket with earth.

An additional trip and earth wire about 60cm away from the main fence, and 10-20cm from the ground with an additional earth wire.

The voltage of the fence ranges between 6000V-8000V, and the entire fence line of 230km is patrolled on a daily basis.

The fence line is kept clean from plant material by the application of herbicides at a distance of 1m on both sides of the fence. A further 4m strip on the inside and a 2m strip on the outside are disked with a tractor and disk once a year to keep vegetation clear from the fence.

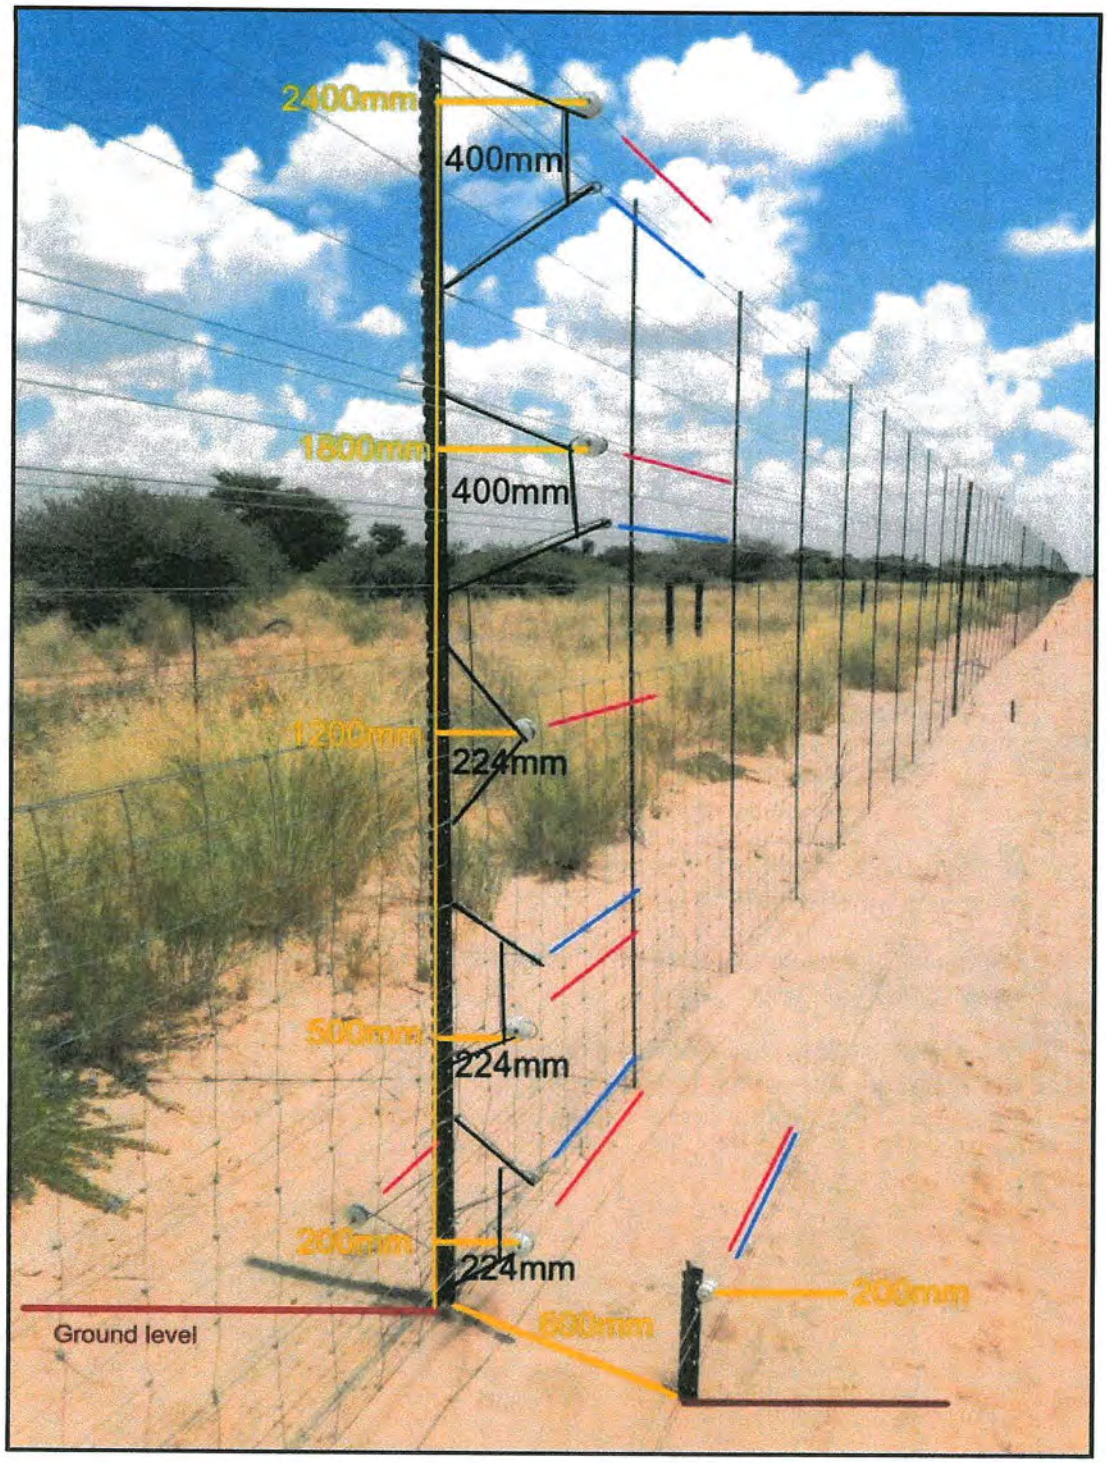

Figure 3: Photograph showing the KKR fence line, with heights and electrification indicated in different colours.

2 ECOLOGICAL

2.1 General climatic and hydrological data

2.1.1 Rainfall

Khamab Kalahari Reserve falls within the summer rainfall region of Southern Africa, with the majority of rain occurring between October and April. The mean annual rainfall according to farmers in the area is estimated at 320 mm, with a high annual coefficient of variation (CV) of 34%. This means that the area is semi-arid with a rainfall pattern that is erratic and unpredictable for any one year or series of years (Collinson & Brett 2007)

As to be expected in an arid environment, the annual mean rainfall across the reserve varies a lot between season to season. The period of 2011 to 2013 was very dry, with the 2012/13 season being particularly dry with only 188.3mm on average across the reserve. The perception during the 2013/14 season was that it was also very dry, but that was largely due to long periods during the rainfall season without any rain, and then the figures were bolstered when the majority of the rainfall all came in a short space of time towards the end of the season, as can be seen lower down in this document.

Table 4: Annual rainfall figures at the different weather stations on Khamab from July 2010 to June 2014

	Rainfall (mm)				Annual mean
Weather station	**2010/11**	**2011/12**	**2012/13**	**2013/14**	
Esperance	502.6	285.8	223.8	423.2	358.9
Ngwaphiwane	345.2	235.8	176.2	371.4	282.2
Sweetwater	401.8	249	164.8	447.6	315.8
Mean	416.5	256.9	188.3	414.1	318.9

This rainfall pattern can often be visually seen during the rainfall season, when thundershowers often pass the reserve on the south-eastern and eastern side, or on the north-western side. This is also reflected in the rainfall figures in Table 1 above.

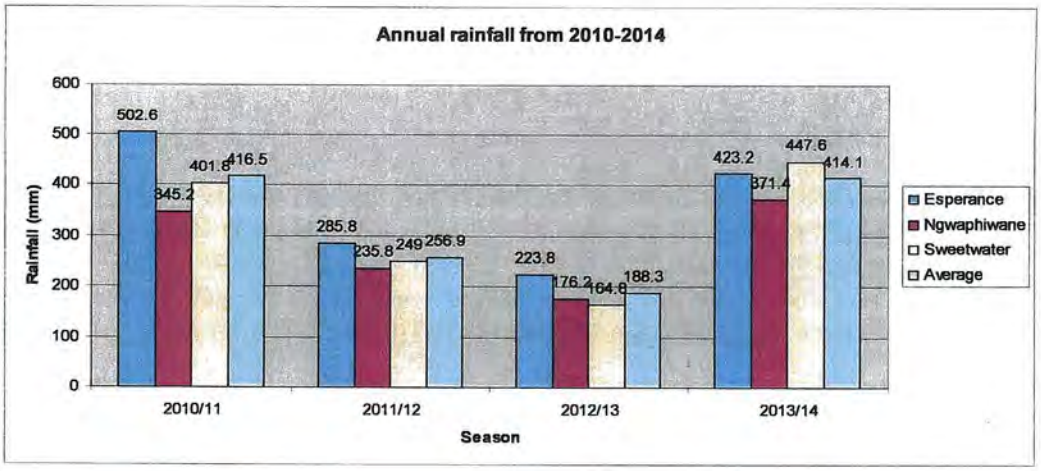

Figure 4: Annual rainfall at the different weather stations on KKR from July 2010 to June 2014

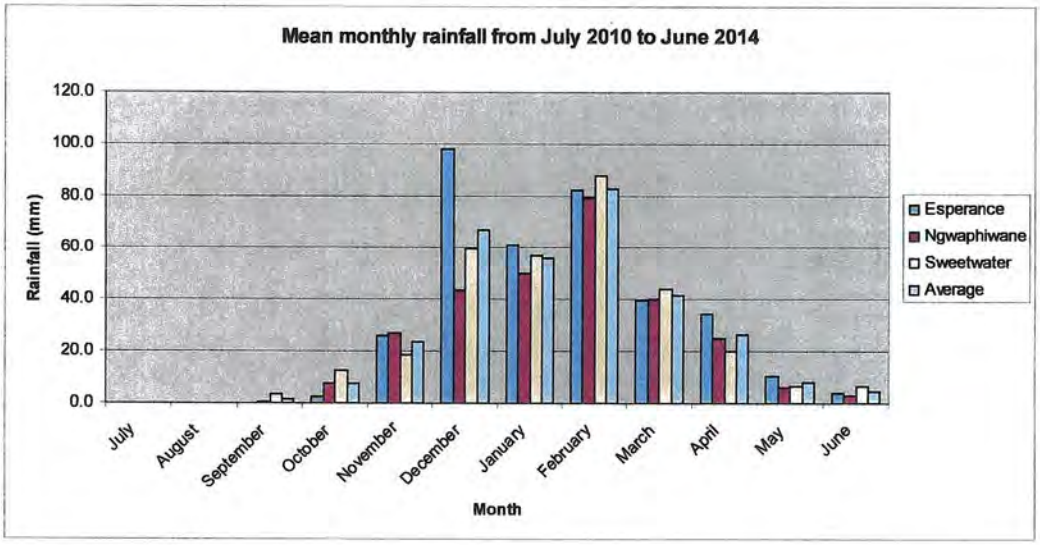

Figure 5: Mean monthly rainfall at the different weathers stations on KKR from July 2010 to June 2014

2.1.2 Temperature

Since the reserve started measuring temperature in 2010, the highest temperature measured on Khamab was 43.2°C which was measured at Esperance in October 2011, and the coldest temperature recorded was -7.1°C at Sweetwater in July 2012.

Over the last four years, the three months with the warmest mean temperatures were November, December and January, with January having the highest mean temperature of 26.7°C.

However, the highest mean maximum temperature is 40.3°C during November, followed by October and December with 39.7 °C each.

On average over the last four years, June has been the coldest month with a mean of 12.5°C, followed by July with 12.6°C.

The lowest mean minimum temperatures have been in June with -4.5°C, followed by July with -4.4°C.

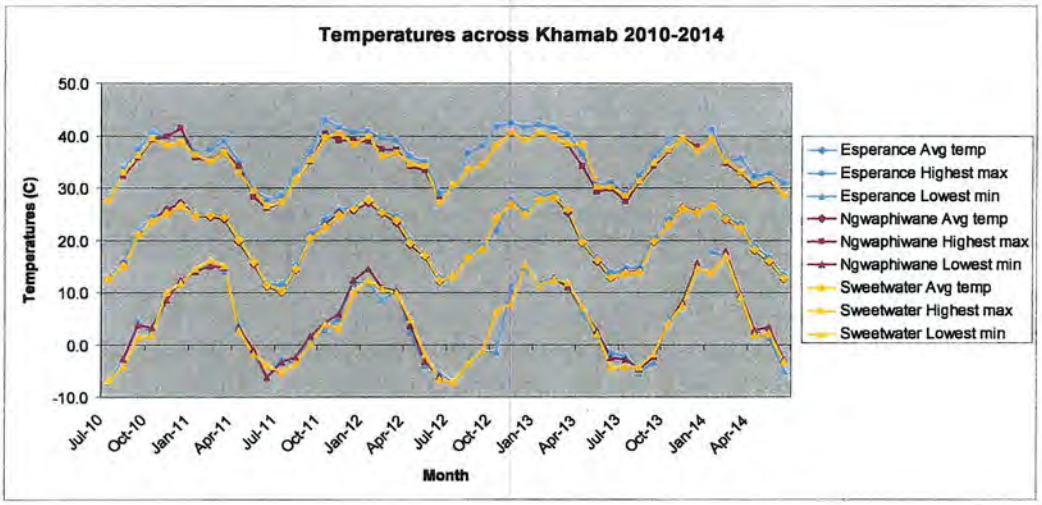

Figure 6: Monthly temperatures at the different weather stations on KKR from July 2010 to June 2014

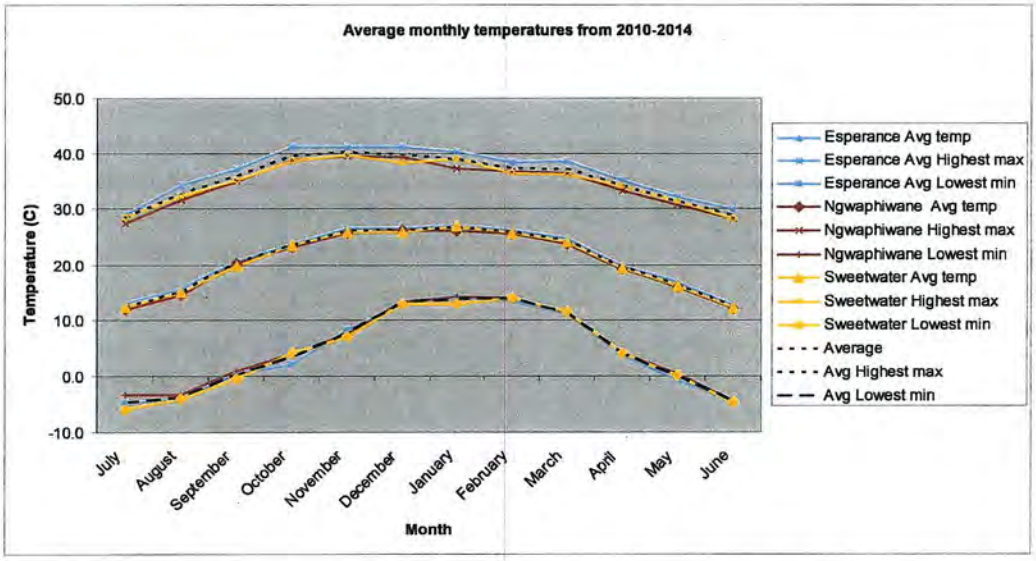

Figure 7: Mean monthly temperatures at the different weather stations on KKR from July 2010 to June 2014

2.1.3 Hydrology

The region is drained by the Molopo River. Although this river meanders for a great distance along the border between South African and Botswana before eventually joining the Orange River below the Augrabies Falls, it seldom has any surface flow. The fossilized Pephane River flows through the area to the southwest of KKR, but no other river courses (neither perennial nor ephemeral) are present on the reserve. Short-lived floods of the Molopo have occurred in recent years which attract a large number of water bird species into the area.

Accordingly, the key feature of the area is the complete absence of perennial surface water. This phenomenon has been the most important influence on the presence, abundance and distribution of indigenous plant and animal species.

Another significant feature of the area is the presence of endorheic pans (pans that do not possess an outflow). A number of large pans are present on the reserve. After the occurrence of heavy thunderstorms they may hold water for some time.

For the following reasons these pans add incredible value to a wildlife conservation project such Khamab Kalahari Reserve:

- The distribution of game animals (both herbivores and carnivores) tends to be highly concentrated on these pans and their immediate surrounds.
- This is due the soil nutrient status and soil moisture retention capacity of these pans being significantly higher than that of the "sea" of red sands making up the substrate of most of the area
- The presence of ephemeral surface water in these pans after thunder storms allows for "mini migrations" of certain water dependant game species (e.g. zebra) to grazing in areas that they normally avoid due to the absence of perennial surface water

The water table is generally very deep with boreholes being sunk to depths of 200 m. Due to the critical importance of groundwater in this semi-arid area with no perennial surface water, boreholes and the immediate surrounding areas are regarded as sensitive areas.

2.2 General description of geology and soils

The most visible geological feature of KKR is the substrate of red windblown sands of the Kalahari Group which occur uniformly over most of the reserve at depths which in places exceed 1.2 meters. These Kalahari sands are underlain by tillites, sandstones, mudstone and shale's. However, due to the depth of the sand substrate these rock formations are not visible on the landscape surface. Localised areas of exposed limestone (calcrete) occur along the Molopo River and in and around the edges of the pans. The Molopo river course is underlain by quartzites.

This uniformity of substrate on KKR is very different to most other areas in South Africa where landscapes are normally characterised by a mosaic of different soil and rock substrates. A less visible but, nevertheless, important additional feature of the geology of KKR is that groundwater is found at great depths beneath the deep layer of sandy substrate

Apart from its characteristic red colour and sandy texture, a key feature of the soil substrate is its relatively high fertility status. Another key feature is the very limited water-retaining capacity of the soil and the high infiltration and flatness means that there is virtually no runoff and all rain penetrates the soil. Soil erosion is thus of very little concern in this part of the Kalahari.

On a more scientific note these soils can be described as generally well-aggregated (apedal) and freely drained with a high base status which is the result of limited leaching under an arid climate. Soils of the river beds and pans are more alluvial in nature and their fertility status is even higher than that of the surrounding red sands. Occasional patches of lighter coloured sands (whitish to grey) are found in small depressions that intersperse the sea of red sands.

2.3 Vegetation Biome and Bioregion

KKR falls within the Savanna Biome of South Africa. This biome, which covers one-third of the country, is the most widespread of the biomes found in South Africa. As there are considerable climatic and therefore species variations within the Savanna Biome, with an east to west declining rainfall gradient, it has been considered useful to sub-divide this *biome* into six *bioregions*. Accordingly, KKR falls within the *Eastern Kalahari Bushveld Bioregion* which is that part of the Savanna Biome that extends westwards from Mafikeng to the Botswana border in the west and the Orange River in the south.

At a more local level the vegetation type in which KKR occurs has been classified and named in various ways over the years by various authors as follows:

- Kalahari Thornveld - Acocks (1975)
- Kalahari Plains Thorn Bushveld – Low & Rebelo (1996)
- Molopo Bushveld – Mucina & Rutherford (2004)

The above vegetation types are thus essentially synonymous with each other but for convenience the most current of these, namely Molopo Bushveld, will be used in this report. In broad terms the Molopo Bushveld may be described as follows:

- Structure – open woodland to a closed shrubland
- Prominent tree species – *Acacia erioloba, Boscia albitrunca, Ziziphus mucronata, Acacia mellifera, A. luederitzii* and *Terminalia sericea*
- Prominent shrub species – *Acacia haematoxylon, Acacia hebeclada, Grewia flava, Rhus burchelli, Rhus tenuinervis, Lycium cinereum, Euclea undulate, Ehretia rigida* and *Rhigozum trichotomum*
- Prominent grass species – *Schmidtia pappaphoroides, S. kalahariensis, Stipagrostis uniplumis. S. ciliata, Cenchrus ciliaris, Andropogon chinensis, Aristida diffusa, Digitaria eriantha, Urochloa mozambicensis, Panicum coloratum, Setaria verticilata, Cynodon dactylon, Eragrostis lehmanniana, E. rigidior*; *Heteropogon contortus* and *Melinis repens.*

Large specimens of *Acacia erioloba*, commonly known as the Camel Thorn, are a key feature of this veld type and for that matter the Kalahari as a whole. Unfortunately, large specimens of this species are scarce over most parts of KKR except on the deeper sands along the banks of the Molopo River. Their scarcity in KKR and the surrounding farms is attributed by some local land owners to large scale felling of the larger trees for fence posts and charcoal production in the past. However, field observations suggest that the scarcity of large specimens is more likely to be substrate influenced (large trees confined to pockets of deeper sand underlain by a relatively high water table) and hence a natural ecological phenomenon rather than man induced.

The floors of the scattered pans of the Molopo Bushveld are dominated by grasses such as *Sporobolus coromandelianus, Enneapogon desvauxii* and shrubs such as *Rhigozum trichotomum* and *Monechma incanum*.

The essential characteristics of the vegetation of the Molopo Bushveld can be summarised as follows:

- **Low tree and shrub diversity:** This is in keeping with an observed marked decrease in the diversity of tree and shrub species along an east to west gradient within the Savanna Biome. Accordingly species to area ratio in this part of the Kalahari is less than half the average for the Savanna Biome. The cause of this is the combination of the low

erratic summer rainfall, high evapo-transpiration and winter frosts. In such harsh climatic conditions deep soils are needed for trees and shrubs to survive. Thus if the deep sands were not present the tree and shrub diversity of this area would be even lower.

- **Low community/habitat diversity:** Prior to the impact of cattle farming the vegetation was, according to historical accounts, conspicuously uniform throughout i.e. open woodland dominated by *Acacia erioloba* and *Boscia albitrunca* with a low shrub under storey of *Grewia flava*. The exceptions to this are where *Terminalia sericea* thickets on patches of deep white sands and the sparsely scattered pans that is virtually devoid of shrubs and trees. This tendency towards vegetation uniformity, and hence a low diversity of vegetation communities and habitats, is due to:
    - The extremely harsh and evenly spread climatic conditions on the one hand
    - Together with the very uniform nature of the topography, altitude, geology and soils, throughout the area.

  Such uniformity is very unlike most other areas in South Africa where high variability of the components of the physical environment (especially soil patchiness) causes high variability in the vegetation pattern and hence high habitat diversity.

- **High palatability and nutritional value:** Despite the low species and habitat diversity, the vegetation is extremely palatable and nutritious. In sharp contrast to other areas in South Africa almost every tree, shrub and grass species that occur in the Molopo Bushveld are readily grazed or browsed by domestic and wild herbivores alike. This is due to the fertile and alkaline nature of the red Kalahari sands. The end result of this is that, despite the low vegetation diversity of the area, the Molopo Bushveld has the potential to carry a wide variety of large wild herbivores and carnivores.

2.3.1 Summary of the vegetation of Khamab Kalahari Reserve

The KKR consists of three distinct major plant communities with different sub-communities and variants totalling 11 different vegetation-cum-habitat units.

According to Mucina & Rutherford (2006) the vegetation of the study area falls within the Molopo Bushveld (SVk11) also known as Kalahari Plains Thorn Bushveld by Low & Rebelo (1996) with the Southern Kalahari Salt Pans (AZi4) vegetation type comprising small sections within KKR Reserve.

The vegetation of the **Molopo Bushveld (SVk11)** is described as open woodland and closed shrublands. The trees *Acacia erioloba, Boscia albitrunca* and *Terminalia sericea* together with the shrubs *Lycium cinerium* and *Rhigozum trichotomum* are characteristic. Dominant grasses include *Cenchrus ciliaris, Aristida stipitata, Aristida meridionalis, Eragrostis lehmanniana* with common forbs such as *Hermannia tomentosa, Limeum fenestrate, Sienna italica, Geigeria ornativa* and *Hermbstaedtia fleckii.* Biogeographically important taxa include the trees *Acacia luederitzii* var. *luederitzii* and *Acacia haematoxylon* and the graminoids *Antephora argentia, Megaloprotachne albescens* and *Panicum kalahariense* (Mucina & Rutherford 2006).

Unfortunately large sections of this vegetation type has been degraded due to human actions such as agriculture and intensive tree removal using herbicides that has led to bush densification by plant species such as the tree *Acacia mellifera,* the shrub *Grewia flava,* and the forbs *Geigeria ornativa* and *Tribulus terrestris* to name a few.

Communities 1 and 2 of the KKR are classified within this vegetation type. Community 1 (*Verbesina encelioides-Schmidtia kalahariensis* Grassland) is typical of water points and degraded areas (old cattle kraal sites). It occurs as small units scattered throughout the

reserve. Some of these areas are bare open patches and should be monitored to prevent the vegetation from overgrazing, while the other areas have relatively good herbaceous cover and provides grazing to animals for short periods. The *Grewia retinervis-Acacia erioloba* woodland (community 2) comprises the largest section of the reserve. The area is relatively homogeneous and flat with different variants mainly as a result of past management practices. These areas provide good grazing to animals with various important grazing grass species (e.g. *Schmidtia pappophoroides, Stipagrostis uniplumis, and Eragrostis lehmanniana*) prominent and dominant. No erosion was observed. Large scale herbicide application has unfortunately resulted in a catastrophic decline in woody species and can be seen with the many dead tree trunks remaining only (see photo below).

Although these actions may lead to an increase in grass production in the short term, it eventually leads to total degradation of diverse and species rich ecosystems. Trees and grasses are elements of this ecosystem and if excessive disturbances occur in the one element it will also influence the other. Trees play an important role in the ecosystem where they provide shade and cooler, more moist conditions to grass and other forb species preferring such conditions. Apart from also being a source of food for browsers, they also act as resting and sleeping places for animals and generally have a higher diversity of species growing underneath them. Grasses are important in protecting the soil from erosion and exposure to the environment. They also provide nutrients to the soil due to decomposition of dead material while being the only source of food for grazers. Although there is a constant competition between the grass and tree layer there are also interspecific completion between different tree species as well as between the different grass species themselves. Thus a disturbance in any one of the tree or grass layer will not only have an influence on the grass-tree interaction, but also on grass-grass and tree-tree interactions. That could therefore lead to a complete change in species composition and dominance.

Trees are normally removed to provide improved grazing. If selective removal is affected it could indeed improve the production potential of the veld. However, if large scale non-selective clearing takes place it will lead to an increase in production of the grass layer in the short term due to the higher nutrient conditions of the soil where trees used to be. However, once these nutrient sources have been depleted over a few years the high production grasses will die off quickly only to be permanently replaced by pioneer and low production grasses. At the same time indigenous invasive woody species could easily establish and form dense impenetrable stands leading to a further decline in grass production of the veld.

Many of these changes have been observed within the study area, where various species such as *Grewia flava* and *Acacia mellifera* have become prominent in areas where large-scale

tree removal has taken place. The grass layer in these areas has also become very homogeneous with only one or two grass species dominating. Thus a loss in biodiversity has occurred in these areas. Trees also act as refuge areas for different herbaceous species. This has also been observed during the field surveys with most of the different grass and forb species recorded per plot occurring underneath trees and dead tree trunks.

It therefore seems as though the previous large-scale tree removal did negatively affect some areas of the reserve. However, the fact that no intensive grazing has taken place for many years has allowed some areas to show signs of recovery. Large areas typical of *Acacia erioloba-Boscia albitrunca* veld are still present with higher species richness than the bush cleared areas.

The Southern Kalahari Salt Pans (AZi4) comprises low grasslands on pan bottoms and are sometimes devoid of vegetation (Mucina & Rutherford 2006). These pans are located on sandy sediments of the Cenozoic Kalahari Group and consist of sandy loam sand with a high calcium and phosphate content. These pans are exposed to the environment for the largest part of the year with water present only for short periods in the rainy season (Mucina & Rutherford 2006). Some larger pans do however keep water for longer period, but the pans are mostly shallow.

These pans are all present within the reserve and add to the diversity and species richness of the area. No signs of overutilization or degradation were observed during the surveys and the vegetation is typical of the vegetation type.

2.3.2 Species lists

The list of species identified during the vegetation surveys are presented in **Appendix 1**.

2.4 Disturbed or degraded areas such as bush encroachment and soil erosion

As a result of the flat topography and sandy soils into which water quickly infiltrates, as well as a good vegetation cover, soil erosion from both water and wind is largely absent from the reserve.

See the detailed description of degraded areas as a result of the use of herbicides to control bush encroachment in the past as described above in the summary of the vegetation.

SECTION B: MANAGEMENT GOALS AND OBJECTIVES

3 CONSERVATION ON KHAMAB KALAHARI RESERVE

Khamab was established in 2007 as a private venture in the Molopo district of the Eastern Kalahari Bushveld. It started with several properties being bought and amalgamated into a single property which is fenced with electrified game/bonnox fencing around the entire outside perimeter of 230km, with all the internal fences removed. The result is a property of just over 90 000ha which is completely open for animals to roam freely.

The size of the property makes it the biggest conservation area in the Northwest province by some margin, and in that regard Khamab plays a key role in conservation in the Northwest province. KKR's size means that it conserves a significant portion of the Eastern Kalahari Bushveld.

The vision, mission and key objectives of Khamab Kalahari Reserve is given below, emphasising the commitment of the reserve to conservation as well as highlighting that conservation is the only objective of the reserve (Collinson & Brett 2007).

3.1 Khamab Vision, Mission and objectives

3.1.1 Vision

The vision for KKR is to create a game reserve that:

- *Comprises unspoilt landscapes and habitats that visually typify the Kalahari Bushveld.*
- *Sustains the full spectrum of African wild herbivores and carnivores that naturally occurred in such landscapes/habitats in the past.*
- *Enables the ecological* processes *of the system to function with as little management intervention as possible.*

3.1.2 Mission

In realising this vision, KKR's mission is to establish a conservation icon that is held in high esteem both nationally and internationally for its positive contribution to wildlife conservation and the community at large.

3.1.3 Key Objectives

KKR's mission will be accomplished through the achievement of the following key objectives:

- Re-establish and sustain viable populations of the full spectrum of wild herbivore and predator species that occurred naturally in the Kalahari Bushveld in the past by undertaking a scientifically based reintroduction program and thereafter applying sound conservation practices
- Attain a high level of success in the conservation of endangered species such as black rhino, cheetah, wild dog and birds of prey by conducting comprehensive research programs and state of the art conservation management
- Eliminate those plant and animal species that are deemed to be alien to this bioregion or for other reasons ethically unacceptable including domestic livestock

- Rehabilitate the Kalahari Bushveld landscape to resemble its former natural state by removing all signs of the visually unappealing structures of past farming and other land use and land development practices
- Restore/simulate the natural ecological processes (e.g. fire frequency, surface water distribution, migration, herbivory and predation) and vegetation pattern/composition of the Kalahari Bushveld that have been disrupted/depleted/distorted by past farming practices.

Therefore, in striving to achieve these key objectives described above, the primary reason for keeping lions on Khamab is to have the full spectrum of carnivores that occurred in this landscape in the past. Coupled with this is to allow the ecological processes of the system to function with as little intervention as possible, of which lions as top predator should play a vital role.

3.2 Conservation partnerships and memberships

As captured in the vision of the reserve, Khamab wants to make a positive contribution to the conservation of wildlife and ecological processes, and hence the commitment to contribute to conservation at all levels. This includes the conservation of endangered species like wild dog (*Lycaon pictus),* cheetah (*Acinonyx jubatus)* and black rhino (*Diceros bicornis).*

In this regards Khamab participate and partners in the following conservation groups:

- Wilddog Advisory Group
- National Cheetah Metapopulation
- Lion Management Forum (LiMF) – one of the founding members

3.3 Game species and numbers present on the property

The table below shows all the species present on Khamab that was seen during the annual aerial census of 2015 (Kilian 2015).

Table 6: The results of the 2015 census.

SPECIES	TOTAL 2015
Black rhino	xx*
Blue wildebeest	2488
Buffalo	191
Cheetah	15
Duiker	90
Eland	1317
Gemsbok	3929
Giraffe	137
Impala	31
Kudu	459
Ostrich	43
Red hartebeest	870
Sable	7
Springbok	807

Steenbok	424
Warthog	769
Waterbuck	9
White rhino	xx*
Zebra	1161
Grand Total	14719

*Black and white rhino numbers are not included for security reasons.

3.4 Mammal species on Khamab

The full list of large mammal species occuring on Khamab is included in Appendix 2.

3.5 Endangered species conservation on Khamab

Khamab Kalahari Reserve conserves and is home to 2 mammal species currently on the IUCN Red List as endangered, while 5 others are lists as vulnerable or near threatened.

Black rhino - Critically endangered

African wild dog- Endangered

White rhino - Near threatened (population decreasing)

Leopard - Near threatened (population decreasing)

Brown hyena - Near threatened (population decreasing)

Elephant - Vulnerable

Cheetah - Vulnerable

Lion - Vulnerable

3.6 Waterhole distribution policy

The general belief amongst wildlife managers in South Africa is that *"the more water points provided, the more productive the wildlife and the healthier the vegetation"*. Put another way it is widely believed that many closely spaced water points is the universal remedy for achieving wildlife conservation objectives. This belief is unfortunately based on "intuition" rather than "good science". As a consequence of this much money and time is spent on the development and maintenance of permanent water points when it could have been spent better on other. In opposition to this "intuitive" approach, a "good science" approach to permanent surface water provision has been slowly gaining acceptance over the past two decades. For example it is now firmly entrenched in Kruger National Park – South Africa's premier protected area – as the outcome of some bitter lessons learnt along the way viz. declines in rare species numbers, undesirable eruptions in elephant numbers and bush encroachment due to the past practice a dense network of permanent water points throughout the Park. This gradual move to a "good science" approach has also been influenced by experience gained in semi-arid areas elsewhere - including both wildlife and domestic livestock grazing systems - where permanent water point provision was based on intuition rather than science. (Collinson and Brett, 2007) .

The effect that the distribution of surface water has on heterogeneity and ecological processes in a system is better understood, and is starting to play a much bigger role in how ecosystems are managed. The use of surface water by animals influences faunal distribution patterns across a range of spatial scales like landscape patterns. This is largely attributed to how different species utilise space at various distances from water sources. Some animals like gemsbok and eland would not need close association with water sources, while others like impala, buffalo and elephant would have a much closer association with available water sources. This in turn will influence species like lion, which tend to associate more with water sources, and how they impact on prey populations (Gaylard et al 2003)

Water distribution will also create community level patterns. These patterns that are influenced by surface water availability and distribution include direct changes to faunal compositional diversity and changes brought about indirectly by changing the frequency or intensity of ecosystem processes such as competition. An example of this is the requirements of diverse habitats necessary for the coexistence of the spectrum of carnivores, where cheetah prefers more open tree savanna and wild dog more densely wooded areas. Extensive water provision will lead to homogenization of the landscape vegetation structure, which in turn threatens the coexistence of carnivores (Gaylard et al 2003)

As said, surface water distribution will influence vegetation patterns on a landscape as well as ecosystem and population levels. On a landscape level the water distribution influence the landscape mosaic of vegetation condition and type, for example the influence that elephants or some intensive grazer will have on vegetation closer to water sources. On an ecosystem level water distribution will influence the formation of piosphere effects around water sources, where the increasing distance away from water source tend to decrease the density of the woody component and an increase in the grass component. The quantity and quality of the herbaceous community tends to improve with distance away from a water source (Gaylard et al 2003)

From these lessons learnt the challenge for KKR is to approach the provision of artificial water points for game in a way that is in accord with its vision and the foundation for the achievement of its objectives (Section B Point 3.1).

Very few reserves have the space available to implement this strategy with regards to water distribution. KKR does have enough space and are in the position to implement this management strategy.

When the reserve was started, there were more than 100 water points on KKR, and the distance between these points is in most cases were less than 5 km, giving a maximum foraging distance from water of 2.5 km. They were maintained by pumping and piping from boreholes. Prior to the acquisition of the land for establishing KKR, the primary purpose of these water points was to provide drinking water for cattle. On a few properties they provided for game animals.

From lessons learnt from the Kruger Park *"learning by doing experiment"* and from similar experiences elsewhere, it was recognised that KKR's conservation vision and objectives (as described elsewhere) would certainly not have been realised if the permanent water points on KKR were maintained in place as they existed at the time and that the prevailing water points had to be drastically reduced in number and realigned in cognisance of the ecological principles implied in the management objectives and modern thinking with regards to water distribution as described earlier.

Accordingly, the plan for the KKR was to reduce the number of permanent water points to a total of 8 and locate them as indicated in the configuration presented in Figure 13 below.

However, some of these old waterholes are being kept as temporary waterholes that can be used in the event of very severe droughts to provide water points in areas far from the permanent water points where some forage may still be in existence. To provide for such exceptional circumstances, five such water points and associated infrastructure (equipped boreholes, pipelines) will be maintained in a dormant state but in good working order.

In deciding on the number and configuration of permanent water points for KKR the following was taken into account:

- If restoration/simulation/maintenance of ecological processes was the sole objective of KKR then the ideal water point configuration would be either:
  - A single water point situated in the centre of the game reserve; or
  - A line of water points in the north that simulates a linear source of surface water - as would have been the case during the times when the Molopo River was perennial.
- However, to carry populations of water dependant species that are large enough for sustaining genetic viability, this ideal configuration will not suffice – especially for elements of the big 5 such as lion, elephant, buffalo and rhino
- Sustaining these species is an essential element of KKR's vision as well as for achieving the secondary objective (strategy) of creating meaningful economic activity on KKR through tourism and trophy hunting
- Furthermore, for tourism to be successful it is preferable to have more water points (and hence more localised concentrations of animals) spread over a wider geographic area than that of the ideal configuration – but with the rider that water points still need to be widely spaced from each other so as to encourage these desirable localised concentrations of animals from game viewing i.e. the number and spacing of water points needs to be optimised
- This desired optimum configuration of water points for tourism is also of great benefit for reducing territorial conflict (especially black rhino) and conflict between carnivore prides/packs (especially lions and wild dogs).
- While from a tourism perspective it is ideal to place water points on pans it is important from a species diversity perspective to leave a large number of pans free of permanent water i.e. water independent species (springbok, gemsbok, hartebeest) are highly reliant on pans for grazing and when permanent water is provided on pans these water independent species have to compete with water dependent species for this grazing
- Water points were moved away from fences as far as possible to reduce the density of prey animals along the fence and the possible associated effect of predators regularly chasing prey into fence lines
- One pan was kept on a large pan to provide the spectacular views associated with large numbers of animals on a large open pan
- Pans were positioned on natural depressions or very small pans (panlets)

On the basis of the above, the number and configuration of permanent water points indicated in Figure 13 represents what is considered to be a balanced compromise between competing objectives and strategies for the start-up phase. The merits of this compromise will then be evaluated over time by the process of *adaptive management*. In the meantime this start up configuration will be strictly maintained in place and only considered for

modification if the evaluation of monitoring feedback clearly indicates that objectives and strategies are not being achieved – and that this is clearly a consequence of the behaviour of populations and processes not conforming to the assumptions discussed earlier.

Waterholes were kept as natural as possible to simulate ephemeral water sources that are found in these depressions after rainstorms, albeit permanent in this case. Where these depressions were very sandy, clay from the Molopo River was used to seal these depressions to create waterholes. This provides a natural feel to the waterhole, as well as provide place for animals to roll, as well as provide habitat for frogs etc. See the photographs below of the water points on Khamab

There are no permanent open water on KKR, so these waterholes are all pumped from boreholes through and extensive pipe network system.

3.7 Fire management

Fire is a common disturbance in many terrestrial ecosystems, where it consumes enormous quantities of biomass. In Africa savannas, fire, climatic variability, soils, and large herbivores interact to shape the vegetation, driving spatial and temporal heterogeneity across the landscape. Fire affects the plant communities through large scale, episodic removal of biomass and the delivery, in some cases, of lethal temperatures to plant materials. It has been described as a large generalist herbivore (Bond 1997) that sometimes competes with, sometimes replaces, and sometimes facilitates herbivory. Many studies have shown that the exclusion of fire from savannas leads to an increase in woody biomass, and this has been interpreted that fires are essential for the persistence of savannas. However, in dry environments the exclusion of fire does not lead to the formation of forests, but rather to a denser form of savanna (Van Wilgen and Scholes 1997). Almost all plant species in arid savannas are able to survive repeated, frequent burning largely by resprouting. Pockets dominated by fire-intolerant species are not a feature of the landscape. Debates on the role of fire in such savannas therefore focus not on the conservation of fire-sensitive species but rather on their role in promoting dominance by certain species over others. Grass-tree coexistence may be made possible by separation of rooting niches, with trees having sole access to water in deeper soil horizons, and grasses having preferential access to, and being superior competitors for, water in the surface soil horizons.

Veld burning in conservation areas has for decades been, and still are, a contentious aspect of the management of southern African vegetation for three basic reasons. Fire is an obvious ecosystem driver (Walker 1987); there are important gaps in our understanding about the actual effects of fire including the interactive effects together with other factors such as herbivory (Bond 1997); and multiple practical fire management options appear to be available to managers (Bradstock *et al.* 1998). These three factors imply that managers realise the importance of fire, feel the need to choose between options to manage it, but acknowledge that the decisions are currently being taken on imperfect knowledge.

Natural fires as a result of lightning played an important role in the development of ecosystems in Africa (Biggs 2004), and the fire climax grasslands and the savanna areas owe their very nature to their long history of fire which has apparently played such an important role in their development. One area of continuing debate is the understanding of the role of early man in shaping the landscape with fire, as contrasted to a hands-off wilderness management. Modern human impact has grossly affected the historic natural fire pattern, or pattern which could reasonably be expected to prevail had human population growth and cultural practice not changed so rapidly and dramatically (Braack 1997). Humans have created roads, firebreaks, cultivated areas etc. which serves as barriers for the spread of fires over large areas. Also the tendency of modern humans to see fires as "destructive" and "bad" led to natural fires that were put out too often, probably resulting in more "damage" to the ecology than would have happened if the fires were left to burn.

Scientists realised that fire was a key determinant of savanna ecosystems and one of a suite of drivers that influence ecosystem dynamics and heterogeneity (Van Wilgen et al 2003). However, the interpretation of this influence resulted in managers applying very rigid and fixed regimes, burning areas at the same time of the year and at the same interval. Research has now shown that this have a negative influence on biodiversity by favouring those species with a life cycle better adapted to the specific burning regime. Also, a believe that fires are only good during a certain time of the year also led to some loss in biodiversity. Contemporary ecological thinking emphasizes the importance of disturbance processes in maintaining the composition and structure of savanna ecosystems, and fire is recognised as the most important disturbance process of all.

The Kalahari probably didn't see many anthropogenic fires as the original inhabitants of this land were San people, who were hunter/gatherers and not herdsman, and therefore would have no reason to start veld fires to provide grazing for their livestock. All it would have achieved was to burn away resources, which they could ill afford.

Given the high number of lightning strikes reported for the Kalahari area, it is reasonable to assume that historically fires would have been an important factor in maintaining ecosystem function in the region. It can probably also be safely assumed that in the past there was probably little permanent animal impact on the vegetation of the Kalahari due to a lack of open water, and that fires would have been an important factor in the productivity and stability of the plant communities of the Kalahari in the past, although there were relatively few (Scholes et. al 2002). Dougill and Cox (2003) suggests that the introduction of domestic livestock to the Kalahari has been accompanied by significant changes in the rangeland ecology, reflected most obviously in a shift from herbaceous to woody plant species. The exact mechanisms behind this remain unclear, and it remains uncertain whether the vegetation changes are a direct response to increased grazing pressure, or whether they reflect more fundamental changes in ecosystem function. Observations in some studies suggest that bush encroachment can be explained solely by the interactions between livestock pressure and abiotic environmental conditions, in particular rainfall variability and fire frequency. The significance of the applicability of the fire and herbivory explanations of bush encroachment is, they suggest, that vegetation changes are reversible.

Sources of historical occurrence of fires in the Kalahari system are limited, but Van der Walt and Le Riche (1984) said that fires in 1934, 1968 and 1974/5 were recorded for the southern Kalahari (nowadays Kgalagadi National Park), but that in the northern Kalahari with a rainfall of 500mm+ that fires burn every year. They only occur in large intervals in the semi-arid southern Kalahari (Jeltcsh et al 1997), but their effect is of considerable importance.

It is important to realise that fire in extensive natural settings is so varied under different circumstances, and these specifications sufficiently flexible, as to give management considerable freedom of judgement in implementing the intended achievement of the goals. Indeed, a more rigid programme is likely not to succeed in achieving biodiversity aims. Therefore, understanding the background and intention is crucial and management should not be criticised for consequences which may arise founded on good or even reasonable judgement on their part, in the rare events when unexpected changes of, for instance, weather conditions, lead to large fires. As mentioned this is a learn-by-doing approach, but if implemented correctly can be hugely positive for the conservation of biodiversity on Khamab Kalahari Reserve.

3.8 Rehabilitation programme for degraded areas

As described earlier in the discussion and conclusion of the vegetation description in Point 2.4.4, the degradation on KKR is limited to the widespread killing of trees due to non-selective bush clearing with chemicals (tebuthiuron) by aerial application in the past. This practice occurred over large areas of the reserve, and is still continuing in large areas of the Molopo district today. Unfortunately there is no rehabilitation that can be done that can rehabilitate these areas to what they formerly were. The chemicals need to work itself out of the system over time. Due to the slow growing nature of trees like *Acacia erioloba* and *Boscia albitrunca,* it will take a long time for the bush to recover to its natural state, even after all the chemicals have disappeared from the system. However, good veld management practices and prevention of overgrazing will assist the recovery, as stated by Brown & Bezuidenhout (2010).

Some areas of bush encroachment are present on KKR, mostly areas that have been overgrazed in the past and where no chemical bush clearing has been done. If encroachment occurs on areas where non-selective chemical bush clearing have been done in the past, both the woody and herbaceous components tend to become homogenous, resulting in a loss of biodiversity (*pers. obs*). Also, the bush tends to recover in thick stands of indigenous bush, eventually resulting in a loss of grass. Where the bush becomes encroached in areas that has never been cleared, or selectively cleared, it stills lead do a decrease in the grass layer, however, but the biodiversity in these areas is still high.

Areas of bush encroachment make up a small percentage of the surface area of KKR, and bush clearing is not of prime importance at the moment. The emphasis should rather be on restoring the natural mechanisms and processes that keep the balance between the woody and grass layer.
These processes include the placement of waterholes according to scientific principles (as described earlier in the document), the implementation and use of fire in the system, as well as ensuring an herbivory component that is in balance with its resources. Grazers have an important distal influence on the composition structure and pattern of savannah vegetation, while herbivory by browsers (especially elephant and black rhino) can also have a profound and more proximate influence. The introduction of elephant in the system will therefore assist and play a valuable part in restoring the natural processes that regulate the interactions between the grass and tree components.

The results of the vegetation monitoring programme, as discussed in detail earlier, will determine extent to which the above veld management interventions (herbivory, veld burning) contain and reverse bush encroachment – especially the vigorous coppice that occurs following bush clearing efforts by the previous land owners. Should the monitoring feedback indicate that the fire interventions are not having the desired effect then bush clearing interventions will be considered according to the following guidelines:

- No bush clearing will be done within a 5km radius from permanent water points
- Beyond this radius, bush clearing will focus on the coppice of previously cleared areas i.e. already encroached areas within this zone will be left untouched
- Aerial applications of chemicals will only be considered as a bush clearing technique in very localised areas

- Chopping by hand and spot spraying directly on the plant will be considered as will the use of contractors

3.9 Population management of other wildlife species

As described earlier in Section B in KKR's vision, it is stated the vision of Khamab is to allow the ecological processes to function with as little management intervention as possible. Therefore the management of other wildlife species will be kept to the minimum, as far as possible.

Predator numbers on the reserve are still establishing (some predator species like spotted hyena has not been introduced yet), and have not yet reached levels where they can exert a large enough impact on the prey population to prevent it from growing to levels outside the limits of acceptable change. The ecological management approach with regards to water distribution, fire, herbivory and predation as described above has not been fully realised yet, and it will take some time for all the processes to develop to an extent where they will keep animal populations inside the established limits of acceptable change.

To avoid overgrazing of the veld until predator numbers reach a level where they will start to exert pressure on prey population, large numbers of gemsbok, eland, blue wildebeest and zebra has been sold in 2012, 2013 & 2014, with another removal planned for 2015. These animals are captured through live capture by a game capture operator.

The number of animals that are sold through live capture gets determined after the annual aerial game census, where the whole reserve is counted systematically over a period of 7 days. Also taken into consideration are the known animals that are killed by predators during the year, and extrapolated for the whole predator population. This will be done up to a point where enough data has been collected through monitoring to accurately determine the impact of predators on prey.

The limits of acceptable change (see the discussion in Point 3.10.1 below) will constantly be evaluated based on the outcome of the vegetation monitoring programme. If the impact of the herbivore population is found to cross the lower limits of acceptable change, the population will be reduced and the lower acceptable level adapted to levels as indicated by the monitoring programme.

Predators also fall under the same approach, and the vision of as little management intervention as possible also applies to predators. We know, and information from other game reserves indicate likewise, that predator-prey relationships are complex processes that are not easy to understand, and the balance between predator and prey are not easy to establish. A lot of reserves struggle to find that balance, and are often ham struck with objectives that does not allow them the freedom to let processes continue a little longer in search of the point where the natural control mechanisms start to come to the fore (Millet et al 2013). On KKR the approach would be to only intervene if predation reaches levels where it crosses levels of acceptable change and from which prey populations are unlikely to recover.

3.10 Preferred herbivore density

3.10.1 Carrying Capacity

The concept of 'carrying capacity' is rather nebulous and consequently it has been defined in many ways. An essentially loose definition of the concept in an ecological context is:

"The number of animals that the habitat/vegetation of a given area can safely carry/maintain in the long term without risk of habitat degradation and species extinction"

In a commercial production context a more appropriate definition would be as follows:

"The number of animals that the habitat/vegetation of a given area can carry/maintain in a sustained long term productive state or a state that maximizes long term sustained yields"

In arid areas such as KKR with unpredictable variable rainfall patterns, and hence highly variable vegetation production from season to season, there is no such thing as a static or fixed carrying capacity. Instead the so called carrying capacity in reality is something that fluctuates widely and unpredictably over time. In these circumstances the usefulness of the concept becomes highly questionable with respect to herbivore management decision making for KKR.

Thus, in the context of KKR it is better to manage and make decisions in accordance with a range of so called carrying capacity estimates with upper and lower limits (i.e. *limits of acceptable change*). In this context carrying capacity estimates have some use at the start-up phase in providing the "pointers" within this range or the "ball park" estimates for placing start up stocking rates within the range. Furthermore, in the absence of any exact science basis for determining this range of estimates the following approaches were adopted in this report (Collinson & Brett, 2007):

- According to the knowledge and experience of local farmers and herbivore ranchers the overall herbivore carrying capacity for the Molopo area is:
  - 1AU/10 ha in good to average rainfall years[1]*
  - Much lower than this for drought years
  - 1AU/20ha if the aim is to adopt a cautious approach that minimizes the risk of die offs in drought years
- The current herbivore stocking rates of the nearby Molopo Game Reserve were then compared with the figures provided above by local farmers and they were found to concur i.e. during the current good rainfall years the total stocking rate has been sustainably maintained at 1AU/12 ha

Footnote: [1] **An AU (Animal Unit) is a standard animal with a mass of 454 kg which is used as a standard measure in carrying capacity estimates. Different species with different body masses are then assigned AU equivalent on the basis of this standard e.g. Conventionally in South Africa, carrying capacity has been expressed as the number of hectares required to support an AU (ha/AU or AU/ha). Recently, the use of an AU as a standard measure in the carrying capacity estimates has come under criticism due to the fact that it has several shortcomings. The critics of the use AU as the standard measure recommend biomass (with kg as the unit) as a preferred alternative. Nevertheless, due to its familiarity in the South African context this report has persisted with the AU concept.*

- More scientific general equations (using average annual rainfall and soil fertility parameters) for estimating carrying capacity provide figures ranging from 1AU/10ha to 1AU/30ha for a mean annual rainfall of 320mm

3.10.2 Limits of Acceptable Change

Having established a carrying capacity range and start-up stocking rate guidelines, and in keeping with KKR's vision and mission *(allow ecological processes to function with minimal management intervention)*, herbivore management, after the start-up phase, needs to be conducted as follows:

- The total overall stocking rate of established herbivore species should be allowed to fluctuate between an upper limit of 1AU/10ha and a lower limit of 1AU/30ha
- Apart from rare and/or valuable species, management interventions such as removals, predator control, feeding, veterinary treatment, supplementary introductions etc. should only be undertaken if herbivore populations fluctuate to such an extreme that they increase or decrease outside the range of these limits. *(Note that with this approach, some die offs of common species during droughts would need to be tolerated in keeping with the vision/mission)*
- For rare and/or valuable species such as black rhino, white rhino, and buffalo a far more hands on management approach would be required. In this respect, intervention including selling off of surplus animals (before food becomes scarce), feeding in times of drought and veterinary treatment would be major challenges for achieving maximum productivity through low mortality and high birth rates.

4 BASE FOR DEVELOPING A LION MANAGEMENT PLAN

4.1 Background to lion management on small reserves

As prelude to the lion management plan, let us look deeper into the typical breakdown of natural population factors that happen in small enclosed reserves.

Naturally lions live in groups or prides in order to defend territories from other groups, or to defend cubs from roaming males and/or males wanting to take over prides (Miller et al 2013). The typical situation on small fenced reserves is that there is often no roaming males, or sometimes no other prides and/or roaming groups. As a result there is no pressure for prides to stay intact, often leading to complete disintegration of pride structures. This in turn affects predator-prey relationships because the impact of several individuals and/or small groups of lions making multiple kills is bigger than the case with more stable prides making less kills, even if the total number of lions on the reserve is similar.

The typical situation on small reserves is that male coalition take-overs are a scarce occurrence, which is the prime reason for cub mortality in natural populations (Miller et al 2013). Pride males often stay with a particular pride for many years, sometimes leading to inbreeding when these males start mating with their daughters, reducing the genetic variability of the population.

Lion populations on small reserves often have a lower age of first breeding, shorter breeding intervals and larger litter sizes than their counterparts in natural populations (Miller & Funston 2014). This is probably partly management induced, but there are also arguments for the theory that because of the absence of roaming males and more prides, there are less social and resource stress in the populations. Increasing social and resource stress results in females loosing body condition, which in turn could affect fecundity. It could lead to females breeding at a later age, as well as less often.

Furthermore, management actions like culling or regular removals as ways of controlling population numbers can have the opposite effect in that it increases population growth rates (Miller et al. 2013). The reason for this is that it does not mimic natural population drivers, but are more similar to removals from a population due to natural disasters. When a population is under pressure from natural disasters, for example recovery after a disease outbreak, it can often respond by increasing its growth rate.

4.2 Objectives of lion management on Khamab Kalahari Reserve

Lion management on Khamab should strive to:

- manage the lion population in such a way that they form part of Khamab's vision by seeing them as an ecological process that should function with as little management intervention as possible
- keep the lion numbers within the levels of acceptable change, allowing for natural fluctuations in population size, and ensuring that they do not reach levels where the prey populations are unable to recover from
- allow natural population regulation mechanisms to play a role in the maintenance of the lion population
- keep the genetic integrity of the population intact
- to ensure that lion population does not grow to levels where the continued existences of endangered predators like wild dog and cheetah are in jeopardy
- minimize the prevalence of diseases in the lion population

- make Khamab a leading role-player in lion conservation community regarding the management of lions on small reserves
- contribute to lion conservation as a whole by participating in a lion meta-population management approach as suggested by the Lion Management Forum ("LiMF")
- minimize lion/human conflict situations

4.3 Principles incorporated in the lion management plan

System based approaches to conservation management include at least one of the following elements: allowing natural processes to play out, restoring ecological processes or mimicking the outcomes of ecological processes.

In line with the Khamab Kalahari Reserve's Vision, Mission and Key objectives, lion management on Khamab should primarily allow natural processes to play themselves out, as far as possible. However, realities and experience on small to medium sized, fenced reserves, have indicated that, although good to aim for, are not viable in practice, and that management intervention needs to be more intense, especially when managing a large carnivore like lion.

Therefore, the management plan must primarily attempt to restore ecological processes that control lion populations. Secondary it should aim to, in conjunction with the restoration, mimic social factors that impact on lion population control, rather than direct management actions based upon carrying capacity approaches.

Keeping in mind the reason for the breakdown of natural processes as described earlier, the natural population control mechanisms that can be restored or mimicked are:

- More prides
- Roaming males
- Coalition take over and infanticide
- Age of first and last breeding
- Litter intervals
- Litter sizes

4.3.1 Restoring ecological processes

In order to allow for natural mechanisms of population control, Khamab should aim to have at least two or three prides on the reserve, and possibly more depending on how the lion population develops. There should then be at least one roaming male coalition per pride to add social pressure on the population. As summarised earlier, increasing social pressure could potentially lead to increase in litter intervals and decrease in litter sizes.

More roaming male coalitions could potentially lead to more regular natural coalition take-overs, and this should be allowed to happen. In case natural take-overs do not occur, due to several factors, this should be mimicked by removing pride males regularly by live removal (providing other reserves with males or swopping males with other reserves) or hunting. Pride males should be allowed to ideally have two (or maximum three breeding cycles) and then be removed, or a natural pride take over should be encouraged by allowing competitor males to come through the ranks or being introduced.

This approach is new in lion conservation and as far as knowledge stretch, has not been implemented on any small fenced reserve in South Africa. Although the theory behind this

are sound, the effect of this on a small population is still unknown. This approach therefore needs close monitoring and regular scrutiny with regards to its effectiveness. The potential of this is widely recognised at the Lion Management Forum (LiMF), but because of the practical implications, especially in small reserves, is not that easy implement. The size of Khamab may make it more viable as a management tool than on the majority of other reserves in South Africa.

4.3.2 Mimicking of natural control mechanisms

If results from the above approach do not prove to be successful, ways to mimic the natural population regulation mechanisms can be introduced. This should ideally be done in combination with the above approach, and only under extreme circumstances be introduced as an "exclusive" option.

By carefully incorporating contraceptives as part of a lion management approach, it can fulfil a valuable role in mimicking natural control mechanisms. As described earlier, the age of first breeding, inter-litter intervals and age of last breeding can be controlled with the use of contraceptives. Here they can be used to increase the age of first breeding and increase litter intervals, and reduce the age of last breeding to be more in line with natural patterns as described earlier.

Contraception should be used with care. There have been some negative effects on population dynamics of lions reported when contraception has been used as a management tool for example prides splitting up, lionesses becoming over weight and sometimes unable to come into oestrus again . Although this is based circumstantial evidence on not documented literature, there are enough reports on this to probably have a certain amount of truth to it, even though not documented scientifically. Contraceptives should only be used in a way that will mimic natural population control mechanisms, and should not be used in a blanket approach in the population. In natural populations it is very unlikely that a number of females in a population will be without cubs for extended periods of time and this very unnatural approach should therefore not be induced by the use of contraceptives. However, if contraceptives are used carefully and as part of a well thought out management approach, can be an effective tool in controlling lion population growth. Like with restoring ecological processes, monitoring should be done to test the affectivity of mimicking these factors, as well as picking up any negative consequences of this approach.

Litter sizes could potentially be reduced by a current experimental procedure of unilateral tube tying. This is a surgical procedure where one tube of the uterus of the lioness gets tied or removed, which mean that fewer cubs can be conceived. Some reserves have started to use it, and the effectiveness of this procedure in natural conditions is still unknown, although it worked well in zoo situations. However, it does show some huge promise as a way of reducing population growth rate. Although it invasive and requires surgical intervention which can be expensive, it is a once-off cost, where after there are not regular interventions with the specific lioness, and in the long term probably the better option.

4.4 Management considerations in the management plan

4.4.1 Excess lions and population control

Lion numbers on Khamab should only be reduced if the lion population on Khamab reaches a level where it prevents the reaching of objectives of the reserve as a whole, or the specific objectives of the lion management plan.

However any decisions to reduce or control the population should be made with care and only if it proves that objectives cannot be achieved as a result of a larger lion population.

Several options are available for population control of the lion population: live removals to other reserves, hunting of specific individuals, culling (euthanasia) and contraception.

a. The options to remove live animals for introduction to other reserves have decreased dramatically of the past few years. The majority of reserves in South Africa belief that their lion populations are too large, and are looking for translocation opportunities. There is an oversupply of free-roaming lions from game reserves, so finding an outlet for lions for translocation will not be easy. However, this should be the preferred method if young animals need to be removed, and should be attempted first before other options are considered.

   If males in their prime need to be removed for genetic purposes (see below), they should be considered for swopping for other males (see below) from other suitable and credible reserves.

b. If specific adult individuals needs to be removed for whatever reason, and it is impossible to remove them alive, they should be considered for hunting. However, individuals that are part of a stable pride should not be hunted while in the presence of the pride. Hunting should only be applied as a simulation of a natural population process, and not as a means of generating income.

   Old males that have reached the end of their lives can be considered for hunting. Males in their prime can also be considered for hunting if there is no need to introduce new genes by swopping with other reserves (see above), or if there are no other reserves that form part of LiMF (see below) who are looking for lions for introduction.

   In small populations there are often single lionesses with a tendency to move off and spend most of their time on their own. Although un-documented, previous experience indicates that the offspring from such lioness show similar tendencies later in life. These animals are often shy, don't get seen often, and therefore don't contribute much to the game viewing experience. However, they add considerably to predation impact. In order to promote pride structures once the population and prides have established, these animals should be removed, preferably alive by translocation to other reserves. This strategy should be monitored for its effectiveness, and will hopefully contribute to more stable pride structures.

c. Euthanasia (culling) can be used in exceptional circumstances if the above options have been explored and if no alternative solutions can be found. However, because of the controversial perceptions of euthanasia, it should be done with the utmost care. Animals should not be euthanized in the presence of other individuals that are not earmarked for euthanasia. The best method of euthanasia is to first dart and immobilize all animals earmarked for euthanasia, remove them from the area, and then to kill them while they are asleep.

   Euthanasia of cubs is both a very sensitive topic, as well as hard on the person that needs to do it. In natural lion populations, low survival rate of cubs is one of the prime natural population control processes that appear to break down in small, fenced lion populations. In terms of simulating natural control mechanisms, euthanasia of cubs could be a good way of achieving the objective.

However, as with other euthanasia described above, this should not be done in presence of the mother or other pride members. Furthermore, not all the cubs from a littler should be euthanized. By leaving at least one cub, it will prevent the lioness from going into estrus immediately.
As mentioned, the euthanasia of cubs is extremely controversial, and should be debated openly and honestly by the Khamab management team.

d. Euthanasia should not be adopted as a rule as a quick fix, but underlying problems that cause over-population should be addressed as far as possible.

e. The use of contraceptives to control population numbers has been described in more detail earlier. Contraceptives should be used with care in a well thought out management approach.

4.4.2 Genetic integrity

In open systems genetic integrity is ensured through normal social behavior of lions, but these mechanisms often gets broken down in small populations. As a result some reserves with small lions populations face inbreeding issues, which is often amplified by management actions like euthanasia, contraception etc. However, by mimicking natural control mechanism and social behavior as described above, inbreeding problems are unlikely to occur on Khamab. However, whenever a lion needs to be darted for the first time for whatever reason, genetic samples should be taken and send for analysis to continuously monitor the genetic integrity of the population. If test results show indications of continuous decrease in genetic variability and integrity, serious steps to introduce new genetic material should be made as soon as possible. This can largely be achieved by participation in a meta-population management approach as described later in this document.

4.4.3 Disease and general health

Diseases play important roles in the functioning of natural systems, whether it is to control population numbers or maintenance of genetic diversity. It is therefore often important in natural systems that diseases dynamics play out in order to increase ecological heterogeneity. However, in small and/or fenced populations, it is important that managers think through the potential impacts of diseases carefully. Some diseases can severely deplete or in some cases completely exterminate a small population. And in a fenced reserve as an "island" there is no opportunity for natural re-colonization of the population. The establishment of the populations often came with lots of effort and financial implications, and it would therefore be ill advised to let certain diseases play itself out.

However, it also doesn't make sense to contracept or euthanize lions to prevent the population from getting too large, and then on the other hand also vaccinate to protect lions from diseases.

To not remove the important role that diseases play in the functioning of the system completely, it will therefor make sense to vaccinate core individuals only. This will allow diseases to still play a role in controlling the population, but will prevent the complete removal of the whole population as a result of the disease. However, vaccination should not be seen as a must do, and it is up to KKR management to decide on the necessity of vaccination.

Key diseases of lions to look out for are canine distemper virus (CDV), bovine tuberculosis (BTB), rabies and feline immunodeficiency (FIV). Some of these diseases has the potential to

kill a large percentage or exterminate the population, and should be avoided where possible. Furthermore, some of the diseases like BTB and rabies has the potential to spread into other animal populations as well, and should therefore be avoided. FIV seems to be present in most lion populations, and should not be a serious concern, but should be monitored.

Whenever lions get darted for whatever reason, blood samples should be taken and analyzed for these diseases if possible. The skin test for BTB has not been perfected for predators, and need boma time and follow up tests. It should not be a concern unless new animals are brought in from the Lowveld or KZN regions.

However, diseases that affect single animals and with a low probability to spread in the population should not be a concern. If animals do get infected by some means, they should not be treated unless it is an animal that has value for a particular reason, for example a new introduction for genetic reasons.

Similar rules should be used for injuries etc., even if it is life threatening. If it is an animal that doesn't have a high genetic value, or high potential economic value, these animals should be allowed to either die naturally as a result from the injury, or to recover naturally on its own. Lions have a remarkable ability to recover from what we as humans see as serious injuries, and even broken legs etc. have the ability to recover well. Managers often over-react to injuries on lions, but each case should be evaluated on its own merits.

4.4.4 Conflict with other predators

It is known that lion can have a large impact on con-specific predators, in specific wild dogs, cheetahs and brown hyena. However, some of the other smaller predators are also killed by lions, although unlikely to such an extent that it will threaten the existence of the small predators.
It was reported in some reserves that the populations of wild dog and cheetah were virtually killed to extinction on some reserves by lions, while on others the impact appears to be less severe.

However, both these species also have the ability to increase in numbers quickly, and as a result can have a high impact on the prey populations on a reserve. Lions serve as an important population control mechanism in natural systems.

Therefore, it must be accepted that lions will kill a significant number of other predators, and this must be allowed without interference. However, the status of small predators needs to be monitored closely, particularly for impact of lion killings on the population. Cheetah and wild dog are more endangered than lion, and therefore should have a higher conservation status on the reserve than lions. Khamab should aim to contribute to the conservation of both these species by providing excess animals for relocation to other reserves.

Only if it appears that the lion population will cause local extinction of any of the smaller predators should it be a concern, and should measures be implemented to combat this.

4.4.5 Effect on biodiversity/prey populations

In natural populations lions regulate the number of prey in most savannas systems. However, in small and fenced situations they are known to negatively affect prey populations, and this influence gets magnified on reserves where large scale hunting or continuous live removals for sale take place. Models have shown that increased numbers of predation in combination with regular harvesting can drive fenced prey populations to extinction. However, the same effect is also witnessed on reserves where hunting and live removals are not a regular occurrence, the difference is that it takes place over a longer period. Without careful

monitoring and sometimes regulation of large predator numbers, ungulate populations can decline more rapidly than managers expect.

However, the effect of waterhole distribution on the predator-prey relationships on small fenced reserves has not been tested. The limited waterholes on Khamab might or might-not influence the potential impact of the lion population on the prey population, as well as on other predators like cheetah and wild dog. There is the potential that the predator-prey relationships on Khamab might be more balanced in comparison with other much smaller fenced reserves, taking into account both the size and limited water distribution on Khamab. Therefore, Khamab management should not over-react when the lion population increases rapidly initially, and appears to start having an impact on the prey population. Natural ecological balances takes time to develop, and likewise might take time for the growth rate of the lion population to respond to the impact on prey population numbers.

The impact of the lions on the prey should continuously be monitored and modeled in order to get a good understanding of the predator-prey dynamics. This should also indicate if some sort of equilibrium between the predators and prey are possible in the context of water distribution, or if the pattern on Khamab will follow what is seen elsewhere on other fenced reserves.

As a starting threshold of potential concern (TPC) for the prey population, if a 15% decrease in the prey population can be attributed to high numbers of lion

4.4.6 Meta-population management

The major reason for the introduction of lions in fenced reserves is by far majority done for tourism purposes, rather than ecological reasons. Most small lion populations get micromanaged and in isolation from other populations, which has the net effect of reducing the conservation values of these small lion populations on a regional scale. This prompted an initiative by several private and government management agencies as well as biologists dealing with lion management, to form the Lion Management Forum (LiMF), with the purpose of enhancing the conservation status of lion population on small fenced reserves. It also attempts to find solutions to lion management issues and challenges on fenced reserves.

Part of this strategy is to group small lion populations on fenced reserves together to form a larger lion meta-population. The idea is to have regular movement of lions between the different meta-population reserves by swopping of animals from time to time, and to work together to mimic a much larger natural lion population. All reserves will still have its own management objectives and measures, but by having regular contact and assisting each other by creating opportunities for movement of animals, will prevent micromanagement of the populations, and in that way increase the conservation value of each small population.

Khamab was one of the founding members of LiMF, and should continue to participate in this initiative. In this way it can achieve several of the objectives of the reserve as a whole, as well as the vision of keeping a lion population as described earlier.

4.4.7 Human conflicts and compensation

Conflict between humans and lions (and all other predators) should be avoided at all costs. This implies keeping the electrified boundary fence in perfect condition to minimize the risk of escaping to almost zero. However, even if the fence is in perfect condition, the chance of a large predator escaping are always present, and in the case of a large predator escaping, Khamab management should react immediately to either capture the animal and return it back to the reserve, or destroy it if no alternative is available, and/or the escaped animal poses danger to the life a human outside the fence.

In case the escaped animal causes damage outside the reserve if it escapes, Khamab should have a compensation policy to repay damages to the affected parties. Whether this compensation policy is covered by insurance, or from allocated budget funds are to the discretion of the management team. However, they need to ensure the public liability etc. is in place in case the escaped animal causes the death of a human being.

In order to ensure the continues respect that the large predators have for the electrified fencing, it should be ensured that all fences on Khamab to which predators have access to, be electrified and in good condition. This include fences around camps, houses etc. The reasoning behind this is that animals will increasingly test fence lines in attempts to escape if they regularly come into contact with fences without electricity or electrified fences that are not working properly.

The first line of preventing predator/human conflict situations is a proper working boundary fence line.

In the case of an animal escaping the reserve, but gets captured and returned to the reserve, such an animal should only be giving one chance. The next time it escapes again (except in exceptional circumstances which is not the fault of the escaping animal), the animal should be destroyed as soon as possible to avoid escaping turning learned behavior.

Khamab should develop a policy for the compensation of neighbors in the case of any large predator escaping the reserve and causing damage on neighboring properties, as well as for liability in the possibility of a human being killed by an animal that has escaped from the reserve.

4.5 Monitoring

The effectiveness of this management approach will depend on a detailed monitoring program. An adaptive management route should be followed to make this management approach work. For the success of any adaptive management approach information the outcomes of decisions are very important in order to feed back in future decision making processes. Therefore, to get a good understanding of the outcome of decisions in this regard, a stringent and detailed monitoring program is critical. This monitoring program needs to be permanent and ongoing. Lions as apex predators are important drivers in the ecosystem and can have top-down effects on ecosystem processes.

5. DETAILED ADAPTIVE LION MANAGEMENT APPROACH FOR KHAMAB KALAHARI RESERVE

As described earlier, the lion management plan on Khamab is based on two strategies.

Strategy 1 focusses on the restoration of ecological processes, while **Strategy 2** involves the mimicking of natural control mechanisms that regulate lion populations.

The core of the lion management plan is based on the **flow diagram (Appendix 3)** which serves as decision making process on which management decisions can be based, and is very important in understanding the management process as described below.

5.1 Strategy 1 (Restoring ecological processes)

Strategy 1 should be the preferred (primary) management strategy to start off lion management on Khamab. As mentioned earlier, it is still untested, and therefore need to be monitored closely before decisions on its effectiveness can be made. Should it proof effective, it should remain the primary management strategy for managing lions on Khamab.

This strategy entails the following:

- Establish at least 2 prides on Khamab
- Establish at least 3 bachelor male coalitions
- Allow 2 or max 3 breeding cycles for pride males
- Remove pride males by live removal (preferable) or hunting (if no translocation options are available). Timing of removal will be important (try to remove when there are very young cubs or pregnant females pregnant). This should open opportunities for infanticide.
- Allow a young coalition to take over.
- Replace the coalition that took over with new, young coalition (either from outside of Khamab if new genes are needed or from within Khamab population).

Female dispersal groups should be allowed to establish prides to test for the increase in social pressure on the population. Khamab can potentially accommodate 3-5 prides based on home range size and available habitat.

Once fairly stable prides are established, lionesses that become loners should be removed, preferably by live removal.

Male coalitions should be restricted to maximum of one for each pride. Extra male coalitions should be removed by live removal (preferable) or hunting (if no translocation options are available) if they are old enough.

Pride sizes are not important and should self-regulate. However, if large prides leads to a significant increases in predation on large herbivores like rhino or buffalo, this strategy should be re-evaluated.

5.1.1 Monitoring

Monitor the outcome of Strategy 1, in particular population growth (inter-litter intervals, age of first breeding, cub survival).

Monitor the effects of these actions on the lion population growth and social structures.

Continuously monitor the effects of the lion population and the different management approaches on the prey populations.

Closely monitor impact on prey population, and use in predator-prey models to determine the effect of different management options on the predator-prey relationships.

If a decrease in prey populations can be attributed to lion predation (decrease of 20% of prey population), find the reason/s for this:

- Is the lion population to big?
- Are there too many prides?
- Are the prides to large?
- Too many single animals or bachelor groups?
- Is it related to environmental factors like water distribution?
- Is it a combination of the some of the above factors?

These can be answered with the use of models, using data from a monitoring program.

If the conclusion to above questions is that the lion population is too big, find the reason for why it is too big, and what can be done to remedy it.

- Is Strategy 1 not working, or not working well enough?
- Can Strategy 1 be adapted to make it work better?
- Should Strategy 2 be combined with Strategy 1 to make it more effective?

5.2 Strategy 2 (Mimicking natural control mechanisms)

Strategy 2 can be followed in case Strategy 1 does not prove successful. However, it should be kept in mind that the restoration of ecological processes will take time, and the natural drivers that are attempting to be restored with Strategy 1, need to be given ample time to start being effective.

However, should monitoring indicate that Strategy 1 does not lead to the desired results, Strategy 2 can be incorporated, and should ideally be combined with Strategy 1. Only in extreme cases should Strategy 2 be used on its own.

Strategy 2 involves mimicking natural control mechanisms that control lion populations

If a large lion population is responsible for decrease in prey numbers, the population needs to be reduced. Mimicking natural population control is important in this instance.

The best way to reduce impact on prey is to remove small dispersal groups, or a whole pride. In such a case the whole group or pride should be removed and no individuals left behind. This mimics normal dispersal or immigration and should not impact the surviving groups much.

The best option for removing a whole group is through live removals and relocation. However, options for relocation are becoming increasingly rare, and if it is a small group of only two animals they can be removed by hunting, alternatively if it is a larger group with young animals should be euthanized.

If this becomes a regular occurrence, other measures to reduce population growth should be implemented, but again should be focused on mimicking natural mechanisms.

- Unilateral tube tying to mimic decrease in litter sizes, but also mimic reduced cub survival into adulthood.
- Cub survival can be mimicked by euthanasia of cubs.
- Using once off contraception on young lionesses to increase age of first breeding.
- Using contraception on old lionesses to reduce age of last breeding
- Using single contraception in between litter to increase inter litter interval.

Of the above options, unilateral tube tying shows the most promise, and information should become available with regards to its effectiveness as more and more reserves are starting to use it as a management option.

APPENDIX 1: PLANT SPECIES LIST

The following is a list of species identified on KKR during the vegetation survey: (Brown & Bezuidenhout, 2010)

ACANTHACEAE
Barleria rigida Nees
Blepharis integrifolia (L.f.) E.Mey. ex Schinz
Monechma divaricatum (Nees) C.B.Clarke
Monechma incanum (Nees) C.B.Clarke

AIZOACEAE
Gisekia africana (Lour.) Kuntze var. africana
Limeum argute-carinatum Wawra & Peyr.
Limeum fenestratum (Fenzl) Heimerl
Limeum viscosum (J.Gay) Fenzl ssp. viscosum var. viscosum
Plinthus karooicus I.Verd.
Plinthus sericeus Pax
Trianthema parvifolia E.Mey. ex Sond. var. parvifolia

AMARANTHACEAE
Amaranthus praetermissus Brenan
Hermbstaedtia fleckii (Schinz) Baker & C.B.Clarke
Kyphocarpa angustifolia (Moq.) Lopr.
Pupalia lappacea (L.) A.Juss.

AMARYLLIDACEAE
Boophane disticha (L.f.) Herb.
Nerine laticoma (Ker Gawl.) T.Durand & Schinz
Pancratium tenuifolium Hochst. ex A.Rich.

ANACARDIACEAE
Rhus tenuinervis Engl.

ANNONACEAE
Monanthotaxis angustifolia (Exell) Verdc.

ASCLEPIADACEAE
Pergularia daemia (Forssk.) Chiov.

ASPARAGACEAE
Asparagus africanus Lam.
Asparagus species

ASTERACEAE
Chrysocoma obtusata (Thunb.) Ehr.Bayer
Dicoma capensis Less.
Eriocephalus aspalathoides DC.
Felicia muricata (Thunb.) Nees
Gazania krebsiana Less.
Geigeria ornativa O.Hoffm.
Helichrysum lineare DC.
Hirpicium echinus Less.
Hirpicium gazanioides (Harv.) Roessler
Nolletia arenosa O.Hoffm.
Pentzia globosa Less.
Schkuhria pinnata (Lam.) Cabrera
Verbesina encelioides (Cav.) Benth. & Hook.
Vernonia poskeana Vatke & Hildebr.

BIGNONIACEAE
Rhigozum brevispinosum Kuntze
Rhigozum trichotomum Burch.

BORAGINACEAE
Ehretia rigida (Thunb.) Druce
Heliotropium ciliatum Kaplan

CAPPARACEAE
Boscia albitrunca (Burch.) Gilg & Gilg-Ben.
Cadaba aphylla (Thunb.) Wild
Cleome angustifolia Forssk.

CHENOPODIACEAE
Chenopodium hederiforme (Murr) Aellen var. dentatum Aellen
Salsola kali L.
Salsola rabieana I.Verd.

COMBRETACEAE
Terminalia sericea Burch. ex DC.

COMMELINACEAE
Commelina africana L.
Commelina benghalensis L.

CONVOLVULACEAE
Convolvulus sagittatus Thunb.
Ipomoea magnusiana Schinz
Ipomoea species
Merremia verecunda Rendle

CRASSULACEAE
Kalanchoe paniculata Harv.

CUCURBITACEAE
Citrullus lanatus (Thunb.) Matsum. & Nakai
Cucumis africanus L.f.
Acanthosicyos naudinianus (Sond.) C.Jeffrey

CYPERACEAE
Bulbostylis hispidula (Vahl) R.W.Haines
Cyperus obtusiflorus Vahl
Cyperus species
Kyllinga alba Nees

DRACAENACEAE
Sansevieria aethiopica Thunb.

EBENACEAE
Diospyros lycioides Desf. ssp. lycioides

EUPHORBIACEAE
Chamaesyce inaequilatera (Sond.) Soják
Phyllanthus maderaspatensis L.

FABACEAE
Acacia erioloba E.Mey.
Acacia haematoxylon Willd.
Acacia hebeclada DC.
Acacia luederitzii Engl. var. luederitzii
Acacia mellifera (Vahl) Benth. ssp. detinens (Burch.) Brenan
Aspalathus laricifolia P.J.Bergius
Aspalathus suaveolens Eckl. & Zeyh.
Crotalaria orientalis Burtt Davy ex I.Verd. ssp. orientalis
Cullen obtusifolia (DC.) C.H.Stirt.
Dichrostachys cinerea (L.) Wight & Arn.
Elephantorrhiza elephantina (Burch.) Skeels
Indigofera alternans DC. var. alternans
Indigofera auricoma E.Mey.
Indigofera charlieriana Schinz var. charlieriana
Indigofera daleoides Benth. ex Harv. var. daleoides
Indigofera flavicans Baker
Indigofera species
Lebeckia macrantha Harv.
Lotononis platycarpa (Viv.) Pic.Serm.
Melolobium microphyllum (L.f.) Eckl. & Zeyh.
Requienia sphaerosperma DC.
Rhynchosia nervosa Benth. & Harv.
Rhynchosia species
Rhynchosia totta (Thunb.) DC.
Sericorema remotiflora (Hook.f.) Lopr.

HYACINTHACEAE
Ornithogalum species

ILLECEBRACEAE
Pollichia campestris Aiton

LAMIACEAE
Salvia runcinata L.f.
Acrotome inflata Benth.
Leonotis ocymifolia (Burm.f.) Iwarsson

LORANTHACEAE
Tapinanthus oleifolius (J.C.Wendl.) Danser

MALVACEAE
Hibiscus pusillus Thunb.
Pavonia burchellii (DC.) R.A.Dyer
Pavonia senegalensis (Cav.) Leistner
Sida chrysantha Ulbr.

MOLLUGINACEAE
Hypertelis salsoloides (Burch.) Adamson var. salsoloides

OXALIDACEAE
Oxalis semiloba Sond.
Oxalis species

PAPAVERACEAE
Argemone ochroleuca Sweet

PEDALIACEAE
Harpagophytum procumbens (Burch.) DC. ex Meisn.
Sesamum triphyllum Welw. ex Asch.

POACEAE
Anthephora argentea Gooss.
Aristida congesta Roem. & Schult. ssp. congesta
Aristida meridionalis Henrard
Aristida stipitata Hack.
Brachiaria nigropedata (Ficalho & Hiern) Stapf
Cenchrus ciliaris L.
Chloris virgata Sw.
Dactyloctenium aegyptium (L.) Willd.
Digitaria eriantha Steud.
Enneapogon cenchroides (Roem. & Schult.) C.E.Hubb.
Enneapogon desvauxii P.Beauv.
Eragrostis bicolor Nees
Eragrostis biflora Hack. ex Schinz
Eragrostis echinochloidea Stapf
Eragrostis lehmanniana Nees
Eragrostis obtusa Munro ex Ficalho & Hiern
Eragrostis pallens Hack.
Eragrostis rotifer Rendle
Eragrostis trichophora Coss. & Durieu
Eragrostis truncata Hack.
Melinis repens (Willd.) Zizka
Oropetium capense Stapf
Panicum coloratum L.
Pogonarthria squarrosa (Roem. & Schult.) Pilg.
Schmidtia kalihariensis Stent
Schmidtia pappophoroides Steud.
Setaria verticillata (L.) P.Beauv.
Sporobolus rangei Pilg.
Stipagrostis obtusa (Delile) Nees
Stipagrostis uniplumis (Licht.) De Winter
Tragus racemosus (L.) All.
Tricholaena monachne (Trin.) Stapf & C.E.Hubb.
Urochloa oligotricha (Fig. & De Not.) Henrard

POLYGALACEAE
Polygala hottentotta C.Presl
Oxygonum delagoense Kuntze

PORTULACACEAE
Portulaca kermesina N.E.Br.
Talinum crispatulum Dinter ex Poelln.

RHAMNACEAE
Ziziphus mucronata Willd.

RUBIACEAE
Kohautia cynanchica DC.
SCROPHULARIACEAE
Aptosimum albomarginatum Marloth & Engl.
Aptosimum elongatum Engl.
Aptosimum procumbens (Lehm.) Steud.
Peliostomum leucorrhizum E.Mey. ex Benth.
Selago densiflora Rolfe
Selago dinteri Rolfe ssp. dinteri

Senna italica Mill. ssp. arachoides (Burch.) Lock
Striga gesnerioides (Willd.) Vatke ex Engl.

SOLANACEAE
Lycium bosciifolium Schinz
Lycium cinereum Thunb. sensu lato
Lycium hirsutum Dunal
Solanum incanum L.
Solanum species
Solanum supinum Dunal

STERCULIACEAE
Hermannia species
Hermannia tomentosa (Turcz.) Schinz ex Engl.
Hermannia vestita Thunb.
Melhania rehmannii Szyszyl.

THYMELAEACEAE
Gnidia polycephala (C.A.Mey.) Gilg

TILIACEAE
Corchorus asplenifolius Burch.
Grewia flava DC.
Grewia retinervis Burret

UMBELLIFEREAE
Trochomeria debilis (Sond.) Hook.f.

VERBENACEAE
Lantana rugosa Thunb.

ZYGOPHYLLACEAE
Tribulus zeyheri Sond. ssp. zeyheri
Zygophyllum prismatocarpum E.Mey. ex Sond.
Zygophyllum pubescens Schinz

APPENDIX 2 : LARGE MAMMAL SPECIES LIST

English name	Afrikaanse naam	Scientific name
Chacma baboon	Kaapse bobbejaan	*Papio ursinus*
Vervet monkey	Blouaap	*Cercopithecus pygerythus*
Pangolin	Ietermagog	*Manis temminckii*
Cape hare	Kaapse haas	*Lepus capensis*
Scrub hare	Kolhaas	*Lepus saxatalis*
Porcupine	Ystervark	*Hystrix africaeaustralis*
Springhaas	Springhaas	*Pedetes capensis*
Ground squirrel	Waaierstertgrondeekhoring	*Xerus inauris*
Aardwolf	Aardwolf	*Proteles cristatus*
Brown hyena	Bruin hiëna /Strandjut	*Hyaena brunnea*
Leopard	Luiperd	*Panthera pardus*
Lion	Leeu	*Panthera leo*
Cheetah	Jagluiperd	*Acinonyx jubatus*
Caracal	Rooikat	*Felis caracal*
Serval	Tierboskat	*Felis serval*
Small spotted cat	Gekolde kat	*Felis nigripes*
African wildcat	Vaalboskat	*Felis lybica*
Black-backed jackal	Rooijakkals	*Canis mesomelas*
Bat-eared fox	Bakoorvos	*Otocyon megalotis*
Cape fox	Silwervos	*Vulpes chama*
Wild dog	Wildehond	*Lycaon pictus*
Honey badger	Ratel	*Mellivora capensis*
Striped polecat	Stinkmuishond	*Ictonyx striatus*
Small-spotted genet	Kleinkolmuskejaatkat	*Genetta genetta*
Suricate	Stokstertmeerkat	*Suricata suricata*

Yellow mongoose	Witkwasmuishond	*Cynictis penicillata*
Slender mongoose	Swartkwas muishod	*Galerella sanguinea*
Antbear	Erdvark	*Orycteropus afer*
White rhino	Witrenoster	*Ceratotherium simum*
Black rhino	Swartrenoster	*Diceros bicornis*
Burchell's zebra	Bontkwagga	*Equus burchelli*
Warthog	Vlakvark	*Phacochoerus aethiopicus*
Giraffe	Kameelperd	*Giraffa camelopardalis*
Blue wildebeest	Blouwildebees	*Connochaetus taurinus*
Red hartebeest	Rooihartbees	*Alcelaphus buselaphus*
Common duiker	Gewone duiker	*Sylvicapra grimmia*
Springbok	Springbok	*Antidorcas marsupialis*
Steenbuck	Steenbok	*Raphicerus campestris*
Impala	Rooibok	*Aepyceros melampus*
Sable	Swartwitpens	*Hippotragus niger*
Gemsbuck	Gemsbok	*Oryx gazella*
Buffalo	Buffel	*Syncerus caffer*
Kudu	Koedoe	*Tragelaphus strepsiceros*
Eland	Eland	*Taurotragus oryx*
Waterbuck	Waterbok	*Kobus ellipsiprymnus*

NOTE: Small mammals like rodents not included in this list.

Reduce population growth by mimicking natural control mechanisms
1. Unilateral tube tying
2. Contraception - age of first breeding
3. Contraception - age of last breeding
4. Contraception - inter litter

KHAMAB KALAHARI RESERVE LION POPULATION

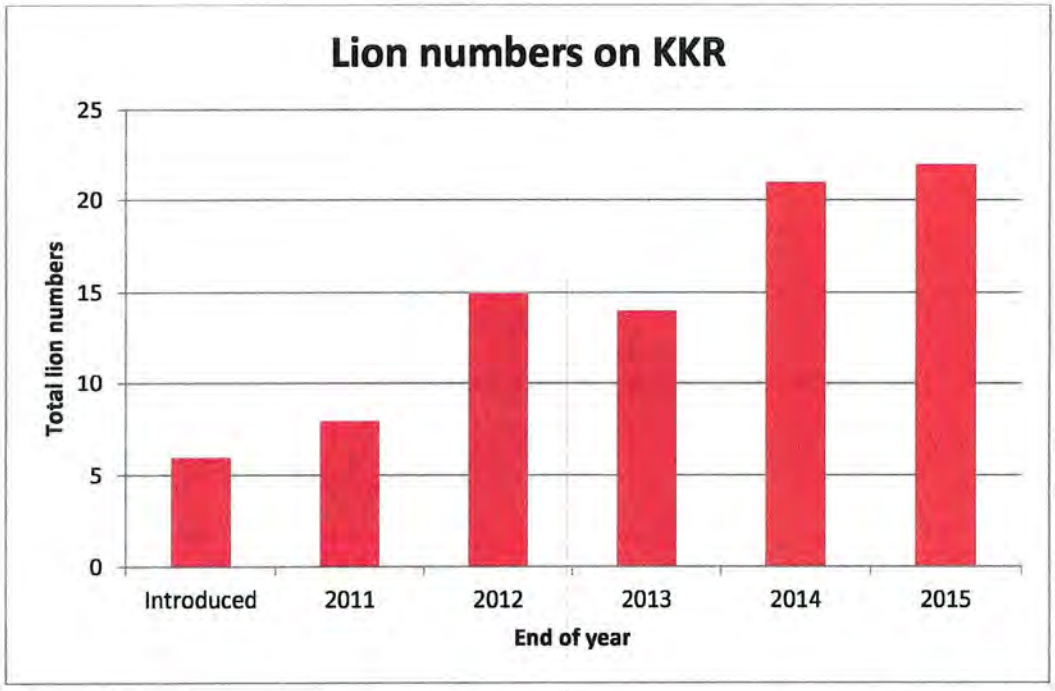
The first lions were introduced to Khamab Kalahari Reserve (KKR) in July 2011 with the introduction of two young adult males and two young adult females. Another two unrelated males were introduced in September 2011.

Several litters were born from the first group that was introduced.
In January 2014 the second introduced group of males ousted the first males as pride males and pushed them onto the western edge of the reserve, where they lived on their own for the following 18 months without integrating with the KKR lions again. These males were trophy hunted in August and September 2015.

In the meantime two new litters were born from the conquering males that pushed the original males out of the pride.

The current size of the population is 22 lions, with several young males from the first litters now at an age that they need to be removed from the reserve to prevent inbreeding with mothers and sisters.

This population size of 22 is the known number of lions on KKR and is not estimated. The lions are currently not in fixed prides, but occur in several smaller groups on KKR at present.



New genetic material in the form of new young males will be introduced soon, as guided by the KKR lion management plan, to replace the young males that needs be removed.

TROPHY HUNTING OF LION ON KHAMAB KALAHARI RESERVE

Lion management on Khamab Kalahari Reserve (KKR) is directed by a comprehensive Lion Management Plan. This document describes how trophy hunting of lion fits in with the Lion Management Plan for KKR, as it is not described in detail in the lion management plan itself.

Some of the key objectives of the lion management plan on KKR are to:

- manage the lion population in such a way that they form part of KKR's vision by seeing them as an ecological process that should function with as little management intervention as possible
- keep the lion numbers within the levels of acceptable change, allowing for natural fluctuations in population size, and ensuring that they do not reach levels where the prey populations are unable to recover from
- allow natural population regulation mechanisms to play a role in the maintenance of the lion population
- keep the genetic integrity of the population intact
- to ensure that lion population does not grow to levels where the continued existences of endangered predators like wild dog and cheetah are in jeopardy

The reason for introducing lions to KKR was first and foremost as integral part of the ecological system and processes. Lions, as apex predators, play a vital role in the health of ecological systems. For KKR, having lion on the reserve is about the conservation of the species, as well as the conservation and restoration of the ecological processes with which lions are involved.

The unfortunate reality of the majority of reserves in South Africa is that they are relatively small in relation to natural systems (despite KKR being 90 000ha or 222 000acres in size), and completely fenced. This implies that some sort of management is needed as natural processes cannot be left to play out completely on their own.

One unfortunate consequence of the conservation success of lions on free-roaming reserves in South Africa is that it was too successful and resulted in overpopulation on most reserves. Coupled with the fact that natural immigration cannot happen because of the presence of fences, implies that management needs to intervene to keep the lion populations at levels where the prey populations can sustain the predation by lion. Management also needs to intervene to keep the genetic integrity of the lion populations at healthy levels. This includes removing certain individuals from time to time, introducing new genetic material, or using other measures to keep populations at sustainable levels.

High lion population numbers are mostly controlled through culling or contraceptive techniques. As a result of the overpopulation of lions on most reserves, translocation options are extremely limited and virtually nonexistent for males over their prime. Various regulations also make it extremely difficult to translocate lions to other parts of Africa where lion populations are under pressure.

As KKR is privately owned, it has to be operationally self-funding in achieving its economic objectives. Unlike state reserves that are funded publicly, KKR is dependent on sourcing its own income from within the reserve itself. Hunting forms an integral part of the ecological as well as economical management plan of the reserve, and contributes 30% to the total income generated annually for the operational management thereof. This is achieved by means of a very conservative removals quota drawn up in conjunction with the reserve ecologist annually.

The balance of the income is generated by live game removals, breeding and sale of high value species, as well as small scale - low impact, photographic safaris.
The income generated by hunting and live game removals are dictated first and foremost by ecological factors and not with the sole function of earning an income. They are adapted annually according to the fluctuations in populations as well as local weather patterns.

The lion population on KKR are completely free-roaming, the majority of the lions being born on the reserve. They can roam over the entire area of the reserve (90 000ha), and are completely reliant on catching their own prey for food. Their movements are only restricted by the perimeter fence line, while inside the reserve itself there is no restriction or control over where they roam. Therefore, except for the outside perimeter fence, the lions on KKR live as any natural free-roaming population would have done, and there is no human interference at all in their day to day lives.
However, due to management considerations and population control as described above, it may be necessary to remove lions from the reserve from time to time. With the reserve being self-funding, it makes sense to earn income from hunting them instead of the other alternative which is culling, if no live translocation options are available.

Because of the unpredictability of the availability of males that can be hunted, there are no fixed quotas for lion hunts on KKR. Some years there might be one or more lions available for hunting, while other years there might be no lion available. Lions on KKR are not bred for hunting. Hunting is seen as just another tool in the lion management toolbox, as is translocation, culling, contraception etc. Compared to these options, which cost money to implement, hunting provides the additional benefit in that it generates income, which is directly ploughed back into the conservation and management programmes of the reserve.

KKR do not condone, support or associate with the intensive lion breeding and hunting industry in South Africa at all. KKR believes that hunting should only be used as tool that benefits the conservation of lions as a whole, and not just as a vehicle to generate money as seen in the captive lion industry. KKR management is of the opinion that trophy hunting used as part of a well thought out lion management plan can greatly benefit the conservation of free-roaming lion populations on fenced reserves, and also earn vital income that can be used directly to the benefit of conservation programs.

LION SOUTH AFRICAN ESA TROPHY

Permit Number: MA49332D-0

Effective: 08/30/2019 Expires: 08/29/2020

Issuing Office:

Department of the Interior
U.S. FISH AND WILDLIFE SERVICE
DIVISION OF MANAGEMENT AUTHORITY
BRANCH OF PERMITS, MS: IA
5275 LEESBURG PIKE
FALLS CHURCH VA 22041-3803

Mary Coglianese

CHIEF, BRANCH OF PERMITS, DMA

Permittee:

ROGER ALAN KEY

(b)(6) [redacted]

LUBBOCK, TX 79414

U.S.A.

Authority: Statutes and Regulations: 16 USC 1539(a); 50 CFR 17.40(r).

Location where authorized activity may be conducted:
IMPORT THROUGH ANY PORT LISTED IN 50 CFR 14.12

Reporting requirements: Not applicable

Authorizations and Conditions:

A. Authorized to import the sport-hunted trophy of one male African lion (*Panthera leo melanochaita*), taken in South Africa for the purpose of enhancement of the survival of the species.

B. Specimen may not be sold or transferred for any financial remuneration.

C. **Trophy must have been taken during the 2019 hunting season.**

D. Trophy must be accompanied by a valid trophy permit or hunting license issued by the government of South Africa for the 2019 season.

E. Trophy must be accompanied by a valid Convention on International Trade in Endangered Species (CITES) Appendix II export permit/re-export certificate, source code "W", issued by the Management Authority of the exporting/re-exporting country.

F. General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

G. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law.

H. Valid for use by permittee named above.

I. Acceptance of this permit serves as evidence that the permittee understands and agrees to abide by the "General Permit Conditions" (copy attached).

RE: Import Application of an African Leopard Trophy from Zambia for Kevin Ash

Dear Chief Cogliano:

Enclosed please find a permit application to import a Southern African Leopard (*Panthera pardus*) trophy for Kevin Ash. Attached to the permit application is a copy of the Zambian Hunting Permit, Zambian Hunting License and the *Record of Game and/or Protected Animals Killed or Wounded* (NPW 12 Form) .

Please do not hesitate to contact us if you have questions about this permit application.

Sincerely,

John J. Jackson III

encl:

NOTICE OF REPRESENTATION

This is a notice to the U.S. Fish and Wildlife Service that I have appointed John J. Jackson, III of the non-profit firm Conservation Force as my attorney and legal representative for all matters concerning my application for a permit to import a lawfully hunted LEOPARD trophy.

This authority is inclusive and extends to all applications and filings, whether administrative or judicial, including but not limited to any request for reconsideration, appeal, and litigation.

In the case of a permit an ESA endangered listed species this is also a request for Ten Days Notice before the permit is issued so I and my attorney can know of approval as soon as those that may have opposed the issuance of the permit.

E. IMPORT OF SPORT-HUNTED TROPHIES OF ~~SOUTHERN~~ AFRICAN LEOPARD AND ~~NAMIBIAN SOUTHERN WHITE RHINOCEROS~~

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   Please use address from page 1

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   John J. Jackson III, Conservation Force, p. 504-837-1233 e. permits@conservationforce.org

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Zambia, Chikwa GMA, Coordinates are on the S 1137783 E 03239643. Nearest town: Lundazi

   e. Date wildlife was hunted: July 15, 2018

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Ivory Safaris

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Bangweulu Taxidermy Limited, 4142/K Chifwema Road, New Kasama, Lusaka, Zambia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). please see attached

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Michael Borman
Business Name:	Bangweulu Taxidermy Limited
Address:	4142/K Chifwema Road
Address:	
City:	New Kasama
State/Province:	Lusaka, Zambia
Country, Postal Code:	

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b) (6) [redacted] Date: 7/22/19

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

b. Date wildlife is to be hunted:

N/A

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Riverside Ranch, Hwange, Matabeleland North, Zimbabwe GPS coordinates: 18.39787 26.33166

   e. Date wildlife was hunted: July 17, 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Professional Hunter: Mr. Wayne Bartlett
License Number: 543

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Matabeleland Taxidermist, 16 Birmingham Road, Belmont, Bulawayo, Zimbabwe
Telephone Number: +263 29 77282

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). N/A

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b) (6) [redacted] Date: 07/30/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

MAILING ADDRESS - SAME AS PAGE 1
FEDEX AIR BILL & ENVELOPE ENCLOSED

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

JANICE SCHRAMM
(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners o the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

TANZANIA, ARUSHA

b. Date wildlife is to be hunted:

15 SEPTEMBER - 31 OCTOBER 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

TANZANIA GAME TRACKER SAFARIS

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   e. Date wildlife was hunted: N/A

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Please continue to next page

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   CINDI RULON CINDI.RULON@PROCARGOUSA.COM
   PHONE 281-220-3176

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

CAPRA FALCONERI HEPTNERI BUKHARAN MARKHOR

b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

GPS 38.101984 SOUTH 70.428382 EAST NEAR ZIGAR VILLAGE DARZOV REGION BBAO TAJIKISTAN

b. Date wildlife was hunted:

DECEMBER 2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

SHIKAR SAFARIS

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

LLC M. SAYON DARVOZ REGION GBAO NEAR ZIGAR VILLAGE TAJIKISTAN

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). ATTACHED

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	AYUB MULLOYOROV
Business Name:	LLC M- SAYOD
Address:	DARVOZ REGION, GBAO
City:	ZIGAR VILLAGE
State/Province:	DARVOZ
Country, Postal Code:	TAJIKISTAN

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

WE UNDERSTAND THAT THE TAJIKISTAN WILDLIFE SURVEY IS WIH THE USFWS FINDINGS DEPT.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

APPROXIMATELY 20 PEOPLE WERE EMPLOYED DIRECTLY WITH REGARDS TO THIS HUNT. PERMIT AND OUTFITTER FEES WERE APPROXIMATELY 170,000. THE COMMUNITY GETS DIRECT FUNDING FROM THE HUNT AS AN INCENTIVE TO MANGE AND CONTROL POACHING.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

A LARGE PERCENTAGE OF MY HUNTING FEES GO DIRECTLY TOWARD THE MANAGMENT OF THE MARKHOR POPULATION. ALL PERMITS ARE ISSUED ON A SRTICT QUOTA BASIS BASED ON SUSTAINABILITY. MONITORING AND ANTI POACHING EFFORTS ARE PAID BY FEES CHARGED ME AS A HUNTER

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: [signature] atty in fact Date: 07/29/2019

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

x Individual

KNOW ALL MEN BY THESE PRESENTS: That, x Daniel Harold Smith Jr. (Full Name of Person), residing at x (b) (6) , San Jose, Ca. 95148 hereby constitutes and appoints each of the following persons - John Rulon CHB

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or cosigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filing of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB , who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

MAILING ADDRESS - SAME AS PAGE 1
FEDEX AIR BILL & ENVELOPE ENCLOSED

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

JANICE SCHRAMM
(b) (6)
[redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

TANZANIA, ARUSHA

b. Date wildlife is to be hunted:

15 SEPTEMBER - 31 OCTOBER 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

TANZANIA GAME TRACKER SAFARIS

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   e. Date wildlife was hunted: N/A

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
FRIEDKIN	RYAN	PATRICK	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
HOUSTON	TEXAS	77019	HARRIS	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
CONTACT: JANICE SCHRAMM (b) (6)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country
HOUSTON	TEXAS	77077	HARRIS	USA

Section D: All applicants MUST complete

1 Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE in the amount of **$100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2 Certification. I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence, and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   MAILING ADDRESS - SAME AS PAGE 1
   FEDEX AIR BILL & ENVELOPE ENCLOSED

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   JANICE SCHRAMM
   (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

TANZANIA, ARUSHA

b. Date wildlife is to be hunted:

15 SEPTEMBER - 31 OCTOBER 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

TANZANIA GAME TRACKER SAFARIS

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   e. Date wildlife was hunted: N/A

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b) (6) [redacted] Date: 7/21/19

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   MAILING ADDRESS - SAME AS PAGE 1
   FEDEX AIR BILL & ENVELOPE ENCLOSED

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   JANICE SCHRAMM
   (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners o the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

TANZANIA, ARUSHA

b. Date wildlife is to be hunted:

15 SEPTEMBER - 31 OCTOBER 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

TANZANIA GAME TRACKER SAFARIS

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   e. Date wildlife was hunted: N/A

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- ***If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.***
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

THEA GATES
(b) (6) [redacted]

Please use the provided self-addressed envelope.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

THEA GATES
(b) (6) [redacted]

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

b. Date wildlife is to be hunted:

N/A

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Namibia, Silversand Farm/Ranch, (22°36'60.1" S, 17°79'07.2" E)
Orumbo #198A

e. Date wildlife is to be hunted:

leopard was taken on June 1, 2019

f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Hugo Kotzé, Hugo Kotzé Safaris

g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Ingwe Wildlife Art CC
Industrial Street West 786, Industria
OKahandja, Namibia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Please see included photos, scans.

8. Complete name and address of overseas person or business shipping the trophy to you.

a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Hugo Kotzé
Business Name: Hugo Kotzé Safaris
Mail Address: PO Box 1333
Physical Address: Wilhelms Court nr Uitspan Street
City: OKahandja
State/Province: Otjozondjupa
Country, Postal Code: Namibia, 9000

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: N/A Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b) (6) [redacted] Date: 7-31-2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

Schedule G – RECORD SHEET
(Regulation 114C (o))

DEADLINE

This Record Sheet must be completed in full and sent by electronic means to the permit office's dedicated e-mail (predator.hunted@met.gov.na) within 1 week after the hunting permit expired.

Please save the document using the following format: Species_ HUNTING QUOTA TAG Number_ Hunting Permit Number_ Date of record sheet submission (DD/MM/YYYY).

SPECIES HUNTED	Leopard	TAG NUMBER	60
HUNT PERMIT NUMBER	187237	CLIENT NAME	Thea Gates
PROFESSIONAL HUNTER	H. Kotze	HUNTING OUTFITTER	M. Seefelt
PLACE OF HUNT	Orumbo	CONCESSION HOLDER/LANDOWNER	M. Seefelt
HUNT START DATE (DD/MM/YYYY)	28/5/19	HUNT FINISH DATE (DD/MM/YYYY)	1/6/19

1. WAS THE HUNT SUCCESSFUL? (tick appropriate box): YES [X] NO [ ]

IF NO, WHY NOT?

---

2. HUNTING METHOD (tick appropriate box): i) BAIT AND BLIND [X] ii) ON FOOT [ ]

3. PRE-BAITING: YES [X] NO [ ]

4. NUMBER OF BAIT SITES USED DURING HUNT (including pre-baiting if applicable): 6

5. NUMBER OF BAIT SITES FED ON BY PREDATOR (including pre-baiting if applicable): 1

6. TOTAL NUMBER OF BAIT NIGHTS (including pre-baiting if applicable): 84
The total number of nights that all bait sites were open (if 6 bait sites were open for 1 night = 6 bait nights)

7. TOTAL NUMBER OF BAITS USED (including pre-baiting if applicable): 6
The total number of times that bait sites were 'freshened' with new bait

8.

SEX & AGE OF PREDATOR FEEDING ON BAITS DURING HUNT:	NUMBER:	EVIDENCE (SIGHTING, TRACKS, TRAIL CAMERA):
Adult male	2	Track / camera
Adult female	3	Track / camera
Subadult male		
Subadult female		
Juvenile		
Unknown		

9. NUMBER OF PREDATOR SEEN MORE THAN 1 KM AWAY FROM BAITS: [ ]

IF TROPHY WAS TAKEN:

10. DATE TROPHY TAKEN (DD/MM/YYYY): 1/6/19

11. GPS LOCATION OF HUNT (in decimal degrees for example; 15.21478 and -19.9591, one number per box):

22 11 3660 1 °S | 17 11 7907 2 °E

12. CONDITION OF PREDATOR (tick all appropriate boxes):

i) HEALTHY [X] ii) UNHEALTHY [ ] iii) FULL STOMACH [ ] iv) MEDIUM STOMACH [X] v) EMPTY STOMACH [ ]

MEASUREMENTS:

13. BODY LENGTH (CM): 207

14. SHOULDER HEIGHT (CM): 69

15. NECK CIRCUMFERENCE (CM): 54

16. SKULL LENGTH (CM): 25

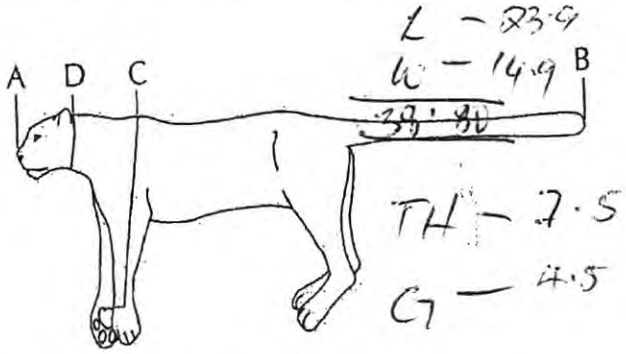
17. SKULL WIDTH (CM): 15

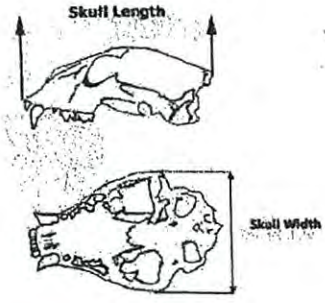
18. WEIGHT (KG) 54

MEASUREMENTS & PHOTOGRAPHS

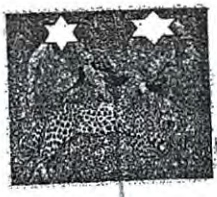
Measurements to be taken:

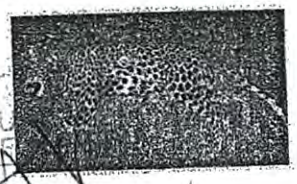
1. Body length (cm, tip of nose to tip of tail; Measurement A–B)
2. Shoulder height (cm, tip of scapula to back of plantar pad; Measurement C)
3. Neck circumference (cm, immediately behind the ear; Measurement D)
4. Skull length (mm, greatest length of skull, measured as a straight line between pegs)
5. Skull width (mm, greatest width of skull, measured across zygomatic arches)

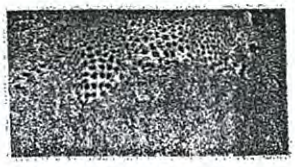




Photographs required before the trophy is skinned:







1. Side view showing the entire body with the hunter positioned directly behind for scale, and visible predator hunting quota tag number.

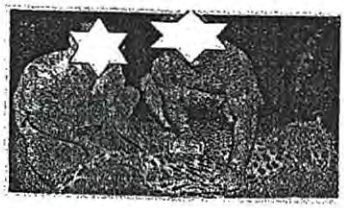
2. The predator lying on its right showing the feet and visible predator hunting quota tag number.

3. The predator lying on its left showing the feet and visible predator hunting quota tag number.

13 JUN 2019
WINDHOEK

4. Close up of the nose clearly showing the nose, eyes, and mount and a visible predator hunting quota tag number.

5. Frontal view of the teeth showing coloration and wear on the canines and incisors and visible predator hunting quota tag number.



6. Hindquarters clearly showing the scrotum and visible predator hunting quota tag number.

Photographs required from the cleaned skull:

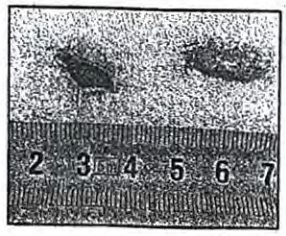
7. Lower jaw showing all the teeth and chipping of the enamel ridge on the back of the canines.

8. Upper jaw showing all the teeth and chipping of the enamel ridge on the back of the canines.

9: Side view of the lower jaw (either side) showing the canine and wear on the cusps of molars and premolars.

10. Wide shot of all the teeth showing wear, broken teeth, and teeth coloration.

Skin and Fur Sample - Collection Guidelines:



1. Cut off a 3 by 3 cm^3 square piece of fur with skin from the underneath (belly) of the leopard, as shown in the photograph, to avoid any damage to the trophy skin.
2. Write the following information onto an envelope:
    a. Species e.g. leopard
    b. Professional Hunter Full Name
    c. Farm Name
    d. MET TAG Number
    e. GPS Coordinates of hunt (in decimal degrees for example; 15.21478 and -19.9591)
3. Place the sample into the envelope.
4. Put a handful of rice or salt into the envelope with the sample.
5. Seal the envelope.
6. Store the envelope in a cool and dry place.
7. The envelope must be submitted to MET PERMIT OFFICE within a period of 2 months from the hunt date.
8. Tick the box below to confirm that a skin and fur sample has been collected from the leopard for submission:

YES	NO

SIGNATURE OF (Type in full name into the box):

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Fowlks	Michal	D.	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail Address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1 (b) (6)				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Murray	Utah	84107	Salt Lake	USA
2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Mike Fowlks (b) (6) [redacted]

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   Zambia, Nyaminga Hunting Block & closest City is MFUWE

   e. Date wildlife was hunted: 6/14 to 28/2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   Paya Kakuli Safaris, Ross Heath professional Hunter

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
   Paya Kakuli Safaris Plot
   284 Bwinjimfumu Road PO. Box 32502
   Lusaka Zambia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).
   See attached License

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name:
   Business Name:
   Address:
   Address:
   City:
   State/Province:
   Country, Postal Code:

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

   Taxidermist/Broker's signature: _____ Date: _____

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signatur (b) (6) [redacted] Date: 8-1-2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
WOODSIDE	WAYNE	MABRY	

(b) (6)

5. Affiliation/ Doing business as (see instructions)

6.a. Telephone number | 6.b. Alternate telephone number | 6.c. Fax number | 6.d. E-mail address

(b) (6)

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)
2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)

(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
MIDLAND	TX	79707	MIDLAND	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)

(b) (6)

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country
MIDLAND	TX	79705	MIDLAND	USA

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100, nonrefundable processing fee**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☐ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue. _____ No ☑

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the t(b) (6) t any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES* and/or *ESA)*

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but are unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 3: USFWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 4: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-5 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. For each trophy to be imported, provide:
   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      PANTHERA PARDUS (LEOPARD)

   b. Sex (if known).

      MALE

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife was removed from the wild (provide a map if possible):

      COUNTRY- ZAMBIA NKALA GAME MANAGEMENT AREA, KAFUE REGIN, GPS- S-A5.90003,E-25.97556, NEAREST CITY - ITEZHI TEZHI

   b. Date wildlife was hunted:

      08/04/2017

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

SKULL AND LIFESIZE MOUNT SKIN

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export documents]:

BANGWEULA TAXIDERMY,PLOT K,CHIFWEMA ROAD, NEW KASAMA, LUSAKA,ZAMBIA

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will also appear on your Namibian export permit and must match the U.S. import permit].

Name:	UNKOWN
Business Name:	BANGWEULA TAXIDERMY
Address:	PLOT K
Address:	CHIFWEMA ROAD
City:	NEW KASAMA
State/Province:	LUSAKA
Country, Postal Code:	ZAMBIA

5. Please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., population status or trend data; how the funds from license/trophy fees will be spent; what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: _____ Date: _____

7. **If you are the hunter applying to import your own trophy,** please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: (b) (6) [redacted] Date: 9/21/17

Be aware that there may be additional permitting or approval requirements by your local or state government, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist you, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish permit mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):
WAYNE M WOODSIDE(b) (6) [redacted]

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   BRAD EICHLER
   (b) (6) [redacted]

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   BRAD EICHLER
   (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   ZAMBIA, LUANGWA RIVER VALLEY LATITUDE: -14.1320 LONGTITUDE: 30.6912

   e. Date wildlife was hunted: JUNE 17, 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   PH: WH VAN NOORDWYK PLOT 2414 FREEDOM WAY, LUSAKA, ZAMBIA
   AGENT: JOHYN OOSTHUIZEN (HUNTERS & GUIDES)

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

   LUSAKA, ZAMBIA (SHIPPING DEPARTMENT NYAMVU SAFARIS)

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Dale C Donndelinger
(b)(6) [redacted]
Anderson Island, WA 98303

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Dale Donndelinger
(b)(6) [redacted]

OMB Control No. 1018-0093
Expires 08/31/2020

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners o the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   Koukuas & Gross Immenau # 1056, 756

   e. Date wildlife was hunted: 15-06-2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   Africa Awaits Hunting Safaris

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

   Hunters Pride Taxidermy
   P.O. Box 30
   Witvlei Namibia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). See attached Permit No. 187297

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

x Individual

KNOW ALL MEN BY THESE PRESENTS: That, x FRANK T. GIACALONE (Full Name of Person), residing at x (b) (6) MONTGOMERY, TX 77316 hereby constitutes and appoints each of the following persons - John Rulon CHB

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or cosigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filling of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB , who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an Importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the Importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the Importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an Importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

ROBERT ANDERSEN

(b) (6)

[redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
   Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   Zimbabwe, Bubye Conservancy

   e. Date wildlife was hunted: July 19 - 24 2019 Leopard Taken on July 24, 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   Mazunga Safaris

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
   Mazunga Safaris (Bubye Valley Conservancy)
   8 Norfolk Road
   Bulawayo, Zimbabwe Tele 263 9 241425

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

GENUS LOGISTICS
161-15 ROCKAWAY BLVD SUITE 205 JAMAICA, NY 11434

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

MATT MAYERS
TEL: 7187900216
EMAIL: MATT@GENUSLOGISTICS.COM

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

ITEZHITEZHI, ZAMBIA

e. Date wildlife was hunted: 07/07/2019

f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

NSONGA GAME MANAGEMENT

g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

BANGWEULU TAXIDERMY LIMITED
4142/K CHIFWEMA RD

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982.

BELOW IS A POWER OF ATTORNEY FORM WHICH IS REQUIRED BY U.S. CUSTOMS, TO ALLOW US TO TRANSACT U.S. CUSTOMS CLEARANCE ON YOUR BEHALF.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

NA

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Earl Harrison
(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

NA

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

NA

b. Date wildlife is to be hunted:

NA

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

NA

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Country and place: Zimbabwe - Bikita District - Save Valley Conservancy - GIS Coordinates: S 20,40441 E 32,11777 - Ranch: Mokore & Umkondo Ranches - Nearest city: Masvingo

   e. Date wildlife was hunted: 07/21/2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Mokore Safaris Pvt Ltd - PH Gary Duckworth

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

TCI Bulowayo - Zimbabwe

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). attached

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Wildcat		1						
Wildebeest (m)		10						
Zebra		15						
Lioness		2						

Secondly to remove from the Hunting Area such number of animals as indicated in column "B" above against the name of the animal specified. An animal specified may be removed in whole or in part unless there is a condition on this permit prohibiting such removal.

Thirdly to sell, within a period of six months from the second date which appears above, the trophies of such number of animals as may be indicated in column "B" above against the name of the animal and subject to any other regulations which may be in force governing movement, sale or export of wildlife trophies.

The holder of this permit shall not permit any other person to hunt the animals specified in addition to such holder and his co-hunter appointed at the time of issue of this permit.

This permit is issued strictly subject to the terms and conditions which appear on the reverse.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

N/A

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Tracey Ha(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Tanzania, Hunting Blocks: Kilombero Game Controlled Area-Mlimba

   b. Date wildlife is to be hunted:

September 20th-October 7th, 2019

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Kilombero North Safaris LTD, PO Box 22567, Dar Es Salaam, Tanzania, +255 22266174

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   e. Date wildlife was hunted: N/A

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Kilombero North Safaris LTD

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). N/A-Hunt will start on September 20th, 2019

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Kilombero North Safaris LTD
Business Name:	Kilombero North Safaris LTD
Address:	PO Box 22567
Address:	
City:	Dar Es Salaam
State/Province:	Dar Es Salaam, Tanzania
Country, Postal Code:	

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b) (6) [redacted] Date: 08/22/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

N/A

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Pat Canan, (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   b. Date wildlife is to be hunted:

N/A

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Zimbabwe at the Kazuma Forestry Camp -18.337694° 25.599495° 18 kilometers south of Victoria Falls.

   e. Date wildlife was hunted: July 14, 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Classic African Hunting Safaris

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

15 Josiah Chinamano Road, Belmont, Bulawayo, Zimbabwe

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). N/A

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Colletts Wildlife Artistry
Business Name:	
Address:	
Address:	15 Josiah Chinamano Road
City:	Hillside
State/Province:	Bulawayo, Zimbabwe
Country, Postal Code:	

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature (b) (6) [redacted] Date: 08-19-2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

1200 minters chapel road
suite 100
Grapevine Texas 76051
phone 817 421 8989

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☑ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20). N/A

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild: N/A

   b. Date wildlife is to be hunted: N/A

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with: N/A

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   Tanzania selous game reserve Morogoro Q6

   e. Date wildlife was hunted: 7-17 to 7-28 Harvested on 7-28-19

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   Pori Trackers

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
   Pori trackers of Africa Ltd
   PO Box 7201 Arusha Tanzania

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). permit # 201319 see attached copy

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Import of Sport-hunted Trophies of Southern African Leopard, African Elephant, and Namibian Southern White Rhinoceros

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C. see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
SMITH	ROBERT	KYLE	

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b) (6)			

6.a. Telephone number	6.b. Alternate telephone number	6.c. Fax number	6.d. E-mail address
(b) (6)			

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
PLANO	TEXAS	75025	COLLIN	U.S.A.

2. (b) (6)

2.	2.f. Country
	U.S.A.

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100, nonrefundable processing fee.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☐ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: _____ No ☒

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the b(b) (6) ay subject me to the criminal penalties of 18 U.S.C. 1001.

(b) (6) 8-16-2019

Signature (in blue ink) of applicant/person responsible for permit (No photocopied or stamped signatures) — Date of signature (mm/dd/yyyy)

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: The U.S. FWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during a sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year)

African elephant (*Loxodonta africana*) Quantity: _____ (Import permit is not required for trophies harvested in Botswana, Namibia, South Africa, or Zimbabwe). **Note: once imported, ivory cannot be re-exported.**

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: _____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

3. **IF THE ANIMAL IS DEAD,** please enter the following: (NOTE ENCLOSED SCHEDULE & RECORDS)
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild: NAMIBIA / S 20° 00' 57.0" E 19° 57' 33.0" / ONDOTOA CONSERVANCY / WINDHOEK
   b. Date wildlife was hunted:
   START: APRIL 1, 2019 FINISH APRIL 3, 2019

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks): LIFE SIZE MOUNT, SKULL, CLAWS (NOTE SCHEDULE 6 RECORD SHEET)

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

No 7 ALUMINUM ROAD / PO BOX 763
WHITE RIVER
MPUMALANGA, 1240
SOUTH AFRICA

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: CLAIRE SANDS
Business Name: LIFE-FORM TAXIDERMY
Address: No 7 ALUMINUM ROAD
Address: PO BOX 763
City: WHITE RIVER
State/Province: MPUMALANGA, 1240
Country, Postal Code: SOUTH AFRICA

ADDR: 92 NELSON MANDELA AVE
STILL WATERS No 2
KLEIN WINDHOEK
NAMIBIA

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application. NOTE ENCLOSED (17 PGS.) CONSERVATION FORCE OPERATOR ENHANCEMENT QUESTIONNAIRE

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: _____ Date: _____

7. **If you are the hunter applying to import your own trophy,** please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Conservation Force v.5/8/18
Operator Enhancement Questionnaire

1. Name of area operator:
Friederich Peter Johann Thormahlen,
Name Used-Peter

a. Years in business: 18

b. Name of company conducting hunt: Thormahlen & Cochran Safaris

2. Name of concession: Ondjou Conservancy Size in km^2: 8729

a. Land tenure: __ Government lease __ Community x_ Private ranch __ Private conservancy

b. Length of concession agreement: 2 years Can it be renewed? _x_ Yes __ No

c. Length of renewal, if applicable: 9 years

d. Estimated total amount received in trophy fees last year, if applicable: $33,590

e. Are there any special obligations under the concession agreement such as annual reporting, poaching control, community investment, community employment, etc.? If so, please explain:
ANSWER:
Yes, there are special obligations under the concession agreement:

- ANNUAL REPORTING -The Trophy Hunting Operator must submit an Annual Report Yearly within 30 days after the hunting season ends, which is 30 November. These Annual Reports are handed in at the Ministry of Environment & Tourism, as well as a copy at the Conservancy office, and the WWF office. Failure to submit the report timeously is punishable with a fine of N$5,000.

- COMMUNITY INVESTMENT – We donate school stationary supplies for the local school through the SCI Blue Bag system in the amount of N$54,000 per annum, buy uniforms for community game scouts and community camp staff to the value of N$84,500.
We donate the trophy hunting camp which was built at a cost of N$750,000 after a three-year period, back to the community and lease it from them so they can generate a monthly income from the trophy hunting camp. All maintenance is done by the Trophy Hunting Operator. The trophy hunting camp consist of 4 x client tents, dining area, kitchen tent, and 5 staff tents to the community.

  Drilling and maintaining of the boreholes in the concession to establish Permanent Wildlife Water Points is a crucial part of the concession development as water allows the elephants to become resident in the concession compared to the previous yearly migration into the concession when the natural pans fill up with water during the rainy season. After which the elephants move back into Khadoum National Park and Nyae Nyae Conservancy where there is Permanent Wildlife Water Points.

Installation of solar pump for water supply to the community members is also a crucial part of the community development program. Community members feel they are rewarded by the Conservation Developments when they receive fresh clean drinking water at their villages. This results in Wildlife Water Points being left alone and not damaged or settled around them, which chases the game away.

- COMMUNITY EMPLOYMENT - We permanently employ 5 Community Members as Camp Staff, and 12 community members as Casual labor in the concession. The Casual Workers are employed 10 months per year to open roads in the concession, open the concession boundaries (Cutlines), and to skin elephants when hunted. The Permanent Staff gets a basic salary of N$2,000 per month. The Casual workers get a monthly salary of N$1,750 per month. On average N$210,000 salary is paid per annum to Casual Workers who are community members, which is a great inflow of funds in the poor community.

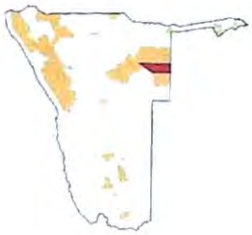
- MEAT DISTRIBUTION – All hunted Trophy, as well as Non-Trophy game meat is distributed to villages in the concession within 24 hours after being hunted. As a company Policy we do not leave any remains of elephant where it was hunted - no bones, skin, meat etc. After 2 days diesel is poured onto the stomach gcontent and blood at the slaughtering site, wood stacked on top and burned. This is done to cause as little as possible stress on the elephants as there is no smell left of the hunted elephant or its remains. Elephant gets stressed seriously when bones and skin is left at the site!

- ANTI POACHING PROGRAM – Establishment of Wildlife Water Points is the first and most crucial development in the concession so that existing game becomes resident in the concession! After Permanent Wildlife Water Points (PWWP's) are established we start our Anti-Poaching program to protect the PWWP Equipment as well as the existing game. Currently all personnel are utilized as anti-poaching staff when no safaris take place. Community Game Scouts are on permanent anti-poaching patrols. Equipment and funding remain the biggest challenges as equipment is expensive.

f. Please provide the concession location and nearest city. Please attach a map or maps with the boundaries marked and showing the nearest city:

Nearest town is Gam.

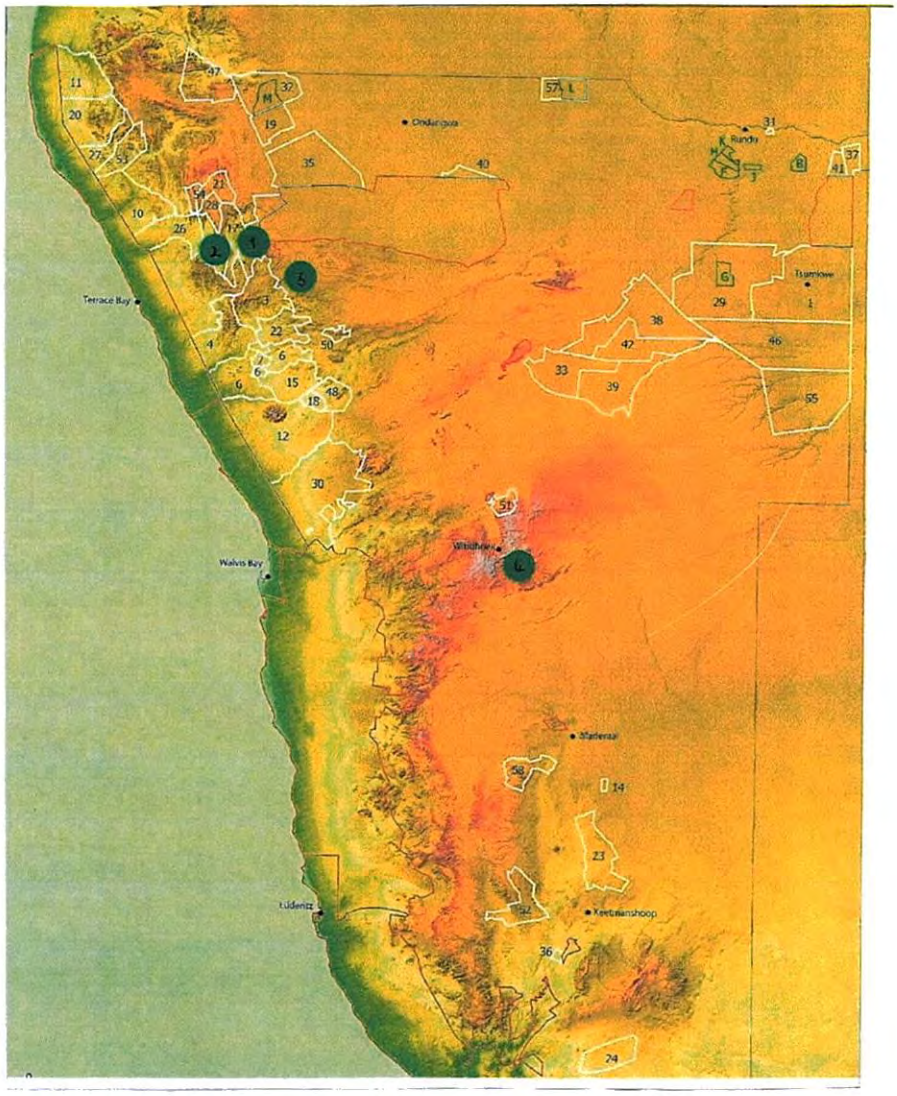
Nearest City is Windhoek -650 km away.



ONDJOU
(named after the Otjiherero word for 'elephant')

Registered	October 2006
Address	Ondjou Conservancy Private Bag 2008, Groodfontein
Telephone	067 245509
Approximate population	2,000
Main home languages	Otjiherero, San
Area	8,729 square kilometres
Region	Otjozondjupa
Geographical features	Characterised by undulating landscape and diverse vegetation including woodlands, grassland and well-defined drainage lines. Rock outcrops may have archaeological significance.
Unusual or important features	Traditional culture of Herero people.
Major wildlife resources	Elephant, lion, leopard, giraffe, kudu, steenbok, gemsbok, wild dog, spotted hyaena, cheetah, black-backed jackal.
Management	Management Committee of six women and ten men; one staff; no wildlife monitoring at present.
Enterprises	Trophy hunting; devil's claw harvesting.
Support Agencies	MET, MAWF, NCDC, LAC, NNF

Map attached, Ondjou Conservancy is no 46 on the map



g. If the concession borders a national park, please provide the park name:
_____N/A_____

h. Description of general and distinctive habitat features and any water features:

Ondjou is named after the Otjiherero word for elephant.

Geographical features:

Characterised by undulating landscape and diverse vegetation including woodlands, grassland and well-defined drainage lines. Rock outcrops may have archaeological significance.

Unusual or important features:
Traditional culture of Herero people.

Major wildlife resources:
Elephant, lion, leopard, giraffe, kudu, steenbok, gemsbok, wild dog, spotted hyaena, cheetah, black-backed jackal.

3. Are there any communities living in the concession? x Yes __ No

   a. If so, estimated number of people or villages in the concession? 2969 people

4. Are there communities bordering this concession? x__ Yes __ No

   a. If so, estimated number of people or villages around the concession?

   Na# Jaqna Conservancy on the northern boundary with Bushman (San) communities, Nyae Nyae Conservancy on the northern boundary with Bushman (San) communities, and Eiseb Conservancy on the southern boundary with Damara communities. See Conservancy map. Not densily populated. Bushman tribes and Damara in the neighboring concessions.

5. Relevant game populations in the concession:[1]

Species name	Relative Abundance (dense/avg./sparse)	Est. population	3-Year trend (up/ down/ stable)	How monitored?
Elephant	abundance	450 – 550	upwards	Count Surveys by Community Game Guards, #MET & *NACSO
Leopard	abundance	400	stable	Count Surveys by Community Game Guards, #MET & *NACSO

6. Total employment number: __5__

   a. Please identify the number and type of all employees:

Type	Total number of this type	Number of this type who are local/from nearby communities
Professional Hunters	6	2
Trackers	4	1
Anti-poaching scouts/rangers	9	9
Other anti-poaching		
Cooks/housekeepers	2	2
Community coordinators	1	1
Managers	2	1
Biologists		
Others: _____		

7. Number of staff employed in the off-season:

   5 x Camp Staff, 9 x anti-poaching Game Guards.

a. Please identify the number and type of staff that are engaged when the season is not open:

5 x Camp Staff, 9 x anti-poaching Game Guards

Type	Total number of this type	Number of locals/from nearby communities	When employed?
Anti-poaching staff	9	9	2018 to date
Managers	1	1	2018 to date
Maintenance	1	1	2018 to date
Road opening/construction			
Community relations personnel			
Others: Camp Staff_____	5	5	2018 to date

8. Anti-poaching efforts:[2]

a. Number of anti-poaching staff: __9__

b. Are anti-poaching patrols conducted during the hunting season, off-season, or both? both

c. Months during which anti-poaching patrols are conducted: every month of the year

d. Number of anti-poaching patrols per month: Project staff carried out foot, vehicle, donkey patrols - for inaccessible areas

e. Description of anti-poaching equipment, vehicles, etc.: Patrol 4x4 cars and on foot, and donkey.

f. Who is responsible for organizing and coordinating anti-poaching from prevention through successful prosecution? Namibian Police and Game Department

g. Do you offer rewards to poaching informants leading to arrest? _x_ Yes __ No

h. Do you offer rewards to poaching informants upon conviction? _x_ Yes __ No

[2] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers anti-poaching a "conservation benefit."

i. Please describe the company's anti-poaching expenditures below. What currency are the expenditures given in?

Type of expense	Spending 2018-N$	Spending 2019 -N$	Spending 2020 – N$	Remarks
Salaries for anti-poaching scouts	N$91,800 - N$850 per month x 9 scouts	N$91,800 - N$850 per month x 9 scouts	N$91,800 - N$850 per month x 9 scouts	
Equipment	N$20,000	N$20,000	N$50,000	
Vehicles	N$500,000 – Landcruiser pick-up	N$500,000 – Landcruiser pick-up	N$500,000 – Landcruiser pick-up

Rewards paid				
Other:				
Other:				
TOTALS	N$661,800	661,800	691,800	

9. Anti-poaching results:

Category	2018	2019		Remarks
Poaching incidents discovered	7	0		Eland, Gemsbuck, Steenbuck, and spotted hyena poisoned
Elephant carcasses observed	0	0		No Elephant poached
Lion carcasses observed	N/A	N/A		No Lions
Leopard carcasses observed	0	0		None killed
Ivory poachers arrested	0	0		No Elephant poaching yet
Meat poachers arrested	1	0		Killed Eland cow
Other poachers arrested	2	0		Stole solar panels at PWWP
Poachers convicted	2	0		Prison sentence
Snares/gin traps collected	0	0		Poaching with dogs & horses. No snares used due to cattle in concession
Firearms confiscated	0	0		Dogs & Horses used
Vehicles confiscated	0	0		Dogs & Horses used
Bicycles confiscated	0	0		Dogs & Horses used
Boats/nets confiscated	0	0		Dogs & Horses used
Tusks recovered	N/A	N/A		No Elephants yet
Other:				

10. Community investment:[3]

a. Does the company contribute money or goods/services to local communities? X__ Yes __ No

b. If so, what percentage or amount is shared, how often, and why (e.g., required by law, required by contract, voluntary contribution)? _

Communities gets 100% of money contributed by Hunters for non-exportable game (Own Use Quota). The Donation for a Non-Exportable elephant is US$15,000 of which US$3,500 goes to the community, and the rest is used to establish PWWP's in the concession as wildlife water points is our primary development goal. Without water the concession is just a "Green Desert" because all surface water seeps into the sandy soil. Two non-exportable elephant is on quota yearly. The Communal fee is a contractual fee.

Our clientele is primarily USA citizens who donate SCI Blue Bags with school stationary supplies. Each hunter hunting in the conservancy donates between one and two SCI Blue bags with school stationary at a value of US$200 each bag. Hence a minimum of 5-10 SCI Blue Bags is donated at a value of N$13,500 to N$27,000. The SCI Blue Bag donations is a Voluntary fee.

c. Does the company provide game meat to nearby communities? X_ Yes __ No

d. If so, please estimate the amount and/or value of meat contributed in prior year and describe the meat contribution program:

All the game animals hunted by us per the allocated quotas of the Minister of Environment and Tourism, go to the local community of Ondjou.

Elephant x 4 on quota x 4,500 kg meat x N$22 per kg = N$396,000 worth of meat is distributed to the Ondjou Communities.

A list of all villages that need to receive meat is handed to the hunting operator by the Management Committee, and meat must be distributed within 24 hours after an animal is hunted. If not distributed within 24 hours after the hunt the contractual penalty fee is N$22 per kilogram meat. With elephant that is a fine of N$99,000 per elephant or US$7,300.

e. If the company performs problem animal activities for surrounding communities (e.g., patrolling fields during the harvest, chasing away problem animals, conducting PAC hunts or PAC killings), please describe.

The Ondjou Concession block is not a horticulture area, and very little crops are raised. Mainly cattle, goats, donkey, and horses are raised by community members.

[3] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers community investment a "conservation benefit."

When an elephant damages any property, problem elephant situations are raised by the local community and it is addressed with the Chairman of the Community. The chairman then reached out to the Minister of Environmental and Tourism, who investigates the Wildlife Human conflict, and approves the problem animal permit in writing when enough evidence is collected by the Ministry. The Chairman then reached out to the Hunting Operator to provide a client. If a suitable client is found, there is a certain time limit to hunt the animal and the permit will be issued with the client's details.

The Operator must pay the community a predetermined contractual fee for the problem animal, and the meat has to be distributed to villages on the meat delivery list as per contract

f. Please describe any consolation payments made to residents damaged by game species. What currency are the expenditures reported in?

There is a Government Fund that is supposed to refund the community for damages, however it is depleted. Thormahlen & Cochran Safaris pays the community members compensation agreed upon by the community, the hunting operator and the Minister of Environment and Tourism, when damage was done to keep the community from killing the animals.

Species	Damage caused	Consolation paid 2018	Consolation paid 2019	Consolation paid 2020
Elephant	Very little damage caused	N$0		
Lion	N/A – No Lion in Concession	N/A	N/A	N/A
Leopard	Goats, Calves, Donkey caught	N$0		
Wild Dogs	Calves & Goats caught	N0$		
Spotted Hyena	Cattle calves caught	N$0 due to hyenas being poisoned. Perpetrator arrested by MET		
Porcupine	Destroy the little crops there is.	N$0		
Caracal	Goats killed	N$0		
TOTAL DAMAGED CAUSED	**N$140,000**	N$0		

According to a report done by NACSO, there is human wildlife conflict, whereby hyena and wild dogs are the most troublesome and are responsible for the most incidents, followed by porcupine, leopard and caracal.

The cost of estimated human wildlife conflict cost on average, **is N$140 000 per year**.

The estimated poaching of high value species was none.

Natural resource benefits outweighed the conflict costs.

g. Please describe any community projects paid for by the company. What currency are the expenditures reported in? _____**Namibian$**_____

Type of project	Spending 2018	Spending 2019	Spending 2020	Remarks
Education e.g. School Stationary supplies	N$55,000	N$55,000	N$	20 blue bags @ $200 per bag = $4000, or N$55000. Clients donate $200, we fill-up the bag to the total of $200 with the necessary school or educational supplies, identified by the local schools.
Education (e.g., school fees, supplies)				
Health (e.g., clinics, offices)

INVESTMENT SUMMARY - 2018

UTILIZATION & DEVELOPMENT OF THE ONDJOU COMMUNITY

TOTAL SALARIES & TRAINING COST- 2016

Thormahlen & Cochran Safaris spent the following amounts on training and labour in 2018:

- **Training of Camp Staff-N$75,000**
- **Camp Staff Salaries – N$47,250**
- **Casual Labour Salaries – N$280,000**
- **Staff & Casual Workers Workwear Uniforms – N$33,500**

TOTAL COST – N$435,750

NOTE:

- Training Camp Staff – 3 staff x N$3,125 pm x 8 months
- Camp Staff Salaries – 3 staff x 9 months x N$1,750 ea
- Casual Labour – 20 casuals x 8 months @ N$1,750 ea
- Staff Uniforms – 3 x N$4,500 ea
- Casual Workers Equipment – N$1,000 ea

Casual Workers cleared the Trophy Hunting Campsite at Ondjou Conservancy where we built a Permanent Trophy hunting camp. The first trophy hunting Camp ever at Ondjou Conservancy.
Casual workers cleared a strip of bush and dug the trench for the water pipeline to the trophy hunting camp from Post 2, a distance of 3,5 kilometres.
The casual workers also cleared the Ondjou Airstrip which was overgrown for 28 years since the Namibian Bush War with South Africa. The airstrip is operational after 28 years and the first clients flied into Gam for their elephant hunt.

TOTAL WATER DEVELOPMENT COST - 2018

Thormahlen & Cochran Safaris donated diesel to Mooiplaas Post, Mangetti Post, and Otjijere Post so that the village members can pump water for the elephants. An average of 25 litre diesel was donated every week, hence 200 litre per village per month for 8 months.

We also donated a new Lister Pump to the community at Post 2 where the trophy hunting camps water is coming from.
A plastic Pipeline was laid from Post 2, to the trophy Hunting Camp. A total distance of 3,5 kilometres.
A 10,000 litre plastic tank on a 6 meter steel stand was erected at Post 2 to store the trophy hunting camp's water.
At the Trophy Hunting Camp two plastic Tanks (5,000 & 2,500 litre) was erected on steel stands.

TOTAL WATER DEVELOPMENT COST

- **Diesel to pump water for elephants – N$76,000**
- **Lister Pump Cost – N$16,000**
- **Plastic Pipe Cost – N$35,000**
- **Water tank 10,000 -N$9,700**
- **Water Tank 5,000 litre – N$4,700**
- **Water tank 2,500 litre – N$2,700**
- **Steel Tank stand 10,000 litre tank – N$37,000**
- **Steel Tank Stand 5,000 & 2,500 litres tanks – N$23,000**

TOTAL COST – N$204,000

NOTES:

- Diesel 200 litre x 3 villages x 8 months x N$16 per litre
- Plastic pipeline of 40 mm class 6 @ N$10 per meter x 3,500 meters

TOTAL CAMP DEVELOPMENT COST - 2016

- **Camp Material –N$650,000**
- **Camp Building Cost –N$240,000**
- **Tents & Equipment – N$284,495**

TOTAL COST – N$1,174,495

GAM AIRSTRIP REHABILITATION COST-2018

- Vehicle Cost -N$40,000
- Big Game PH Salary Cost – N$50,000
- Steel Wire to fence off Airstrip for Airplane Safety – N$33,000
- Anchor Poles – N$12,000
- Dropper Poles – N$21,700
- Trailer Rental -N$8,500
- Steel Gate – N$1,000
- Windsock -N$3,500
- Windsock steel post -N$1,000
- Cement -N$2,000
- Molopo Tree Poison – N$3,600

TOTAL AIRSTRIP COST – N$176,300

SCHOOL STATIONARY DONATIONS

TOTAL SCHOOL STATIONARY DONATED – N$55,000

TOTAL DEVELOPMENT / INVESTMENT – 2018:

A TOTAL OF N$2,091,045 was invested in Ondjou Conservancy

11. How many U.S. clients did the company have in the past three years, what percentage of the company's clients were from the U.S., and what fees did they pay?

We operate in South Africa and Namibia, and the figures below, is for the whole operation. In Ondjou we only hunt what is allocated on quota, and it is fixed by the

Government. The Namibian Government, specifically the Minister of Environment and Tourism, set strict quotas at the beginning of every three years, revising it at the end of each year when the Hunting operator must submit a Hunting Report on that specific year. So, before the client arrives, the hunting operator must take out a hunting permit – and this is only available if it falls within the quota that was pre-approved.

Current Ondjou Trophy quota: 2 x trophy elephant, 2 x own use elephant, 4 x Steenbuck, 2 x caracal, 5 x jackal, 3 x kudu, 1 x leopard, 3 x ostrich, 4 x Oryx, 3 x warthog. 1 x duiker.

The table below is for the total of Thormahlen & Cochran's concessions:

	Hunting elephant	Hunting lion	Hunting leopard	Hunting all other species
Number of U.S. clients	2015: 4 clients 2016: 9 2017: 5 2018: 4	2015: 2016: 2017: 2018: 1	2015: 2 clients 2016: 9 2017: 9 2018: 10	2015: 126 clients 2016: 110 2017: 141 2018: 83
Percentage of U.S. clients	2015: 99 % 2016: 98 % 2017: 100 % 2018: 98 %	2015: 2016: 2017: 2018: 100 %	2015: 100 % 2016: 98 % 2017: 99 % 2018: 100 %	2015: 95 % 2016: 96 % 2017: 97 % 2018: 95 %
Trophy fees paid by U.S. clients – US$	2015: $220,000 2016: $495,000 2017: $275,000 2018: $260,000	2015: 2016: 2017: 2018: $75,000	2015: $42,000 2016: $225,000 2017: $256,000 2018: $265,000	2015: $303,715 2016: $1,075,000 2017: $997,375 2018: $410,110

12. Approximate dollar amount and/or percentage of the company's revenue from U.S. clients:

    95%

13. Other information: Please provide a narrative of other enhancement information about the operation, such as any special hunting policies (e.g., aging, size, resting areas), concession improvements (e.g., digging and maintaining boreholes, restocking), management activities, research, etc.

    Thormahlen & Cochran Safaris policy in our hunting blocks is:

    - to only hunt Leopard males of six years and older;
    - to only hunt Trophy elephant bulls of 47 years and older;
    - to only hunt elephant bulls in excess of 55 lbs tusks.

    This way we enhance the genetic trophy quality by hunting post-productive animals only.

Thormahlen & Cochran operates on other conservancies in Namibia, namely:
Na#Jaqna
Ondjou
Ozondundu
Otuzemba
Anabeb
Orupupa (2015-2017)
Otjambangu
Ombuijokanguidi
Okangundumba
Impalila
Kabulabula
We built trophy hunting camps in Na Jaqna, Ondjou, Anabeb, Impalila and Kabulabula.
Thormahlen & Cochran donate all the camps to the Conservancies.
We deliver all the meat that we hunt, to the conservancies, and
Donate to every local school school stationary SCI blue bags.
We are building roads and are responsible for the water and electricity supply for the camps.
We employ the local community as staff and currently employ 5 to 6 conservancy members per camp as staff.
We are also responsible for the training of the staff to be able to serve the overseas clients.
To date we have 32 community members employed in the various camps.
We also have social responsibilities towards the conservancies: we built a school hostel, a community hall, drilling of waterholes, making Cutlines, building roads etc.
Ondjou's camp was built in 2018 for **N$1,174,495**.
We are buying protective clothing to the game guards and uniforms for the personnel on an annual basis.
Two of the most significant benefits for the conservancy, is the cash income derived from the trophy hunting activities to cover its own running cost, and to invest in their social programs, and the yearly employment of its own community members.

14. I declare that the foregoing is true and correct.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

HOUSTON, TEXAS 77032

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

CINDI RULON CINDI.RULON@PROCARGOUSA.COM
281-220-3176

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
   Quantity: n/a (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Coun[illegible] place (area, region, GIS coordinates, ran[illegible]servancy, management area, or hunting block, Ar[illegible]rest city) where wildlife is to be tak[illegible] the wild:

   b. Date wildlife is to be hu[illegible]

   c. Name of hunting outfitte[illegible]ce[illegible] or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

ZAMBIA, LUANGWA VALLEY, EASTERN PROVINCE, NYIMBA 14° 37678 S, 30° 48105 E

   e. Date wildlife was hunted: JULY 17, 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

JACOBUS FREDERICK VAN STADEN
MOPANE SAFARIS LTD.

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

MOPANE SAFARIS LTD.
LUANGWA VALLEY, CENTRAL PROVINCE, NYIMBA, ZAMBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). ATTACHED

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

KNOW ALL MEN BY THESE PRESENTS: That x James R. Reid (Full Name of Person), residing at (b) (6) [redacted] Fort Worth, TX 76109 hereby constitutes and appoints each of the following persons - John Rulon CHB

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or cosigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filling of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB , who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

KNOW ALL MEN BY THESE PRESENTS: That x Larry Waide (Full Name of Person), residing at x (b) (6) Newberg Ore 97132 hereby constitutes and appoints each of the following persons - John Rulon CHB

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or cosigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filling of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB , who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Theodore J. Nelson II

(b)(6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
   Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   NAMIBIA, SONDERNAAM #467, OUTJO

   e. Date wildlife was hunted: 24 April 2019 – 8 MAY 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   MR ANDRE BENNETT
   UNDJOVO HUNTING SAFARIS
   264 81 3892797

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

   MR ANDRE BENNETT
   PO BOX 15
   OTJWARONGO, NAMIBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

   See ATTACHED

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name: MR ANDRE BENNETT
   Business Name: UNDJOVO HUNTING SAFARIS
   Address:
   Address: PO BOX 15
   City: OTJWARONGO
   State/Province:
   Country, Postal Code: NAMIBIA 12001

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

   Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/~~will be~~ personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b)(6) [redacted] ate: 20 Aug 2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

PERMIT CONDITIONS

TROPHY HUNTING OF CHEETHAS, LEOPARDS & LIONS

1. A trophy hunter, trophy hunting guide and trophy hunting operator must read and acknowledge and sign the predator trophy hunting permit conditions before the hunt commences.
2. A predator trophy hunting permit must be obtained before the hunt for a predator commences and must be in the physical possession of the trophy hunting guide while the predator is being hunted.
3. The trophy hunting operator concerned must give notice of the predator hunt to the regional office of the Ministry seven days before the hunt commences.
4. A predator trophy hunting permit is
    a) issued to a trophy hunter;
    b) non-transferable; and
    c) valid for a period specified in the permit.
5. Predators may only be hunted for trophies under the following conditions -
    a) only free roaming, self-sustaining and adult predators may be hunted as trophies with a minimum skull measurement of 27cm for a cheetah, 32cm for a leopard and 52cm for a lion;
    b) a female leopard may not be hunted as trophy;
    c) a predator may not be shot in any form of confinement or in a trap or in an area which is smaller than 1000ha;
    d) a predator may be baited, but a live animal may not be used as bait;

e) a predator may not be shot within a range of 1km of any other predator kept in captivity in any form;

f) a predator may be stalked, tracked or ambushed, but dogs or horses may not be used to hunt it;

g) predator trophy hunting may not take place during the period between 30 minutes after sunset in any day and 30 minutes before sunrise the following day and artificial light is prohibited;

h) a predator may not be shot from a moving vehicle or chased in any way with an aircraft;

i) a predator may not be hunted unless it belongs to a wild and sustainable population (It exists as a naturally interacting member of a wild and sustainable population in an area large enough for it to breed, forage and hunt freely and where there is a natural state of balance between forage, predator and prey);

j) a predator bred in captivity may not be trophy hunted;

k) a predator to be hunted may not be drugged in any form;

l) a canned hunting (any restriction of an animal's natural movement for the purpose of trophy hunting) in any form is illegal; and

m) a predator may only be hunted in areas as specified on the predator trophy hunting permit;

n) once the predator has been killed, the following must occur –

(i) the following photos must be taken immediately after the hunt, at the location where the predator was killed –

(aa) the predator lying on its right showing the feet;

(bb) the predator lying on its left showing the feet;

(cc) a close-up photo from the front showing the face of the predator, clearly depicting facial features: nose, eyes, and mouth, and a visible leopard hunting quota tag number, in case of a leopard;

(dd) a close-up photo of the trophy hunter and trophy hunting guide posing with predator, with all four

legs of the predator stretched out for clear visibility of genital feature such as scrotum and visible leopard hunting quota tag number;

(ii) the trophy hunter and trophy hunting guide must sign all the photos on the reverse side of the photos;

o) the recording sheet of the predator trophy hunting permit in Schedule G has to be filled in, in permanent ink, immediately after the hunt;

p) the trophy hunter and trophy hunting guide must sign on the reverse side of the predator trophy hunting permit with the following statement:

"We hereby individually and collectively declare that the predator recorded and photographed was hunted, shot and killed by us in full accordance with all the predator trophy hunting permit conditions.";

q) a telephonic report must be given to the staff member responsible for the predator trophy hunting permit register in the Permit Office in Windhoek within 72 hours of the predator being killed, and full details of the predator trophy hunting permit must be provided;

r) an unsuccessful predator hunt has to be reported to the Permit Office in Windhoek within 72 hours after the trophy hunting permit has expired;

s) no application for subsequent predator trophy hunting permit from a trophy hunting operator may be processed if the Permit Office has not received the report on the previous permit issued to his or her client (trophy hunter);

t) the original predator trophy hunting permit with full details as described in paragraph (u) must be handed in to the Taxidermist or shipping agent with the trophy; and

I hereby acknowledge that I have read and understand the predator trophy hunting permit conditions:

Schedule G – RECORD SHEET
(Regulation 114C (o))

DEADLINE

This Record Sheet must be completed in full and sent by electronic means to the permit office's dedicated e-mail (predator.hunted@met.gov.na) within 1 week after the hunting permit expired.

Please save the document using the following format: Species_ HUNTING QUOTA TAG Number_ Hunting Permit Number_ Date of record sheet submission (DD/MM/YYYY).

SPECIES HUNTED	Leopard	TAG NUMBER	NAPP 50/250
HUNT PERMIT NUMBER	186803	CLIENT NAME	T.J Nelson
PROFESSIONAL HUNTER	A. Bennett	HUNTING OUTFITTER	Undjovo Hunting Safaris.
PLACE OF HUNT	Sondelmaan	CONCESSION HOLDER/LANDOWNER	Mrs. du Toit
HUNT START DATE (DD/MM/YYYY)	24.4.19	HUNT FINISH DATE (DD/MM/YYYY)	8.5.19

1. WAS THE HUNT SUCCESSFUL? (tick appropriate box): YES [X] NO [ ]

IF NO, WHY NOT?

2. HUNTING METHOD (tick appropriate box): i) BAIT AND BLIND [X] ii) ON FOOT [ ]

3. PRE-BAITING: YES [X] NO [ ]

4. NUMBER OF BAIT SITES USED DURING HUNT (including pre-baiting if applicable): 1

5. NUMBER OF BAIT SITES FED ON BY PREDATOR (including pre-baiting if applicable): 1

6. TOTAL NUMBER OF BAIT NIGHTS (including pre-baiting if applicable):
The total number of nights that all bait sites were open (if 6 bait sites were open for 1 night = 6 bait nights) 21

7. TOTAL NUMBER OF BAITS USED (including pre-baiting if applicable):
The total number of times that bait sites were 'freshened' with new bait 7

8.

SEX & AGE OF PREDATOR FEEDING ON BAITS DURING HUNT:	NUMBER:	EVIDENCE (SIGHTING, TRACKS, TRAIL CAMERA):
Adult male	1	Tracks
Adult female		
Subadult male		
Subadult female		
Juvenile		
Unknown		

9. NUMBER OF PREDATOR SEEN MORE THAN 1 KM AWAY FROM BAITS: 5

IF TROPHY WAS TAKEN:

10. DATE TROPHY TAKEN (DD/MM/YYYY): 7.5.19

11. GPS LOCATION OF HUNT (in decimal degrees for example; 15.21478 and -19.9591, one number per box):

12. CONDITION OF PREDATOR (tick all appropriate boxes):

i) HEALTHY [X] ii) UNHEALTHY [ ] iii) FULL STOMACH [ ] iv) MEDIUM STOMACH [ ] v) EMPTY STOMACH [ ]

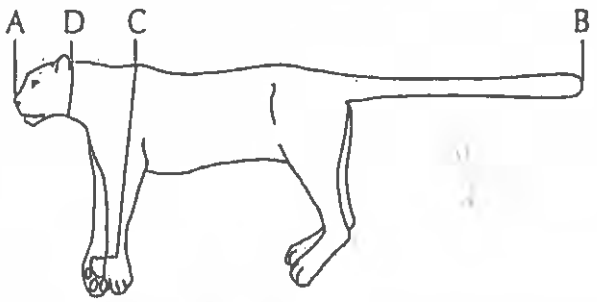
MEASUREMENTS:

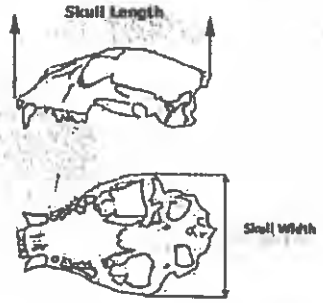
13. BODY LENGTH (CM):	213	14. SHOULDER HEIGHT (CM):	75
15. NECK CIRCUMFERENCE (CM).	65	16. SKULL LENGTH (CM):	24,5 cm
17. SKULL WIDTH (CM).	15 cm	18. WEIGHT (KG)	70

MEASUREMENTS & PHOTOGRAPHS

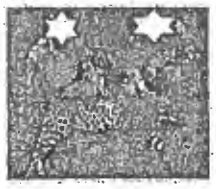
Measurements to be taken:

1. Body length (cm, tip of nose to tip of tail; Measurement A–B)
2. Shoulder height (cm, tip of scapula to back of plantar pad; Measurement C)
3. Neck circumference (cm, immediately behind the ear; Measurement D)
4. Skull length (mm, greatest length of skull, measured as a straight line between pegs)
5. Skull width (mm, greatest width of skull, measured across zygomatic arches)

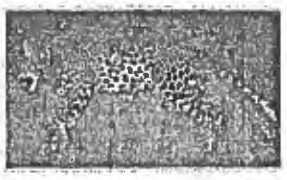




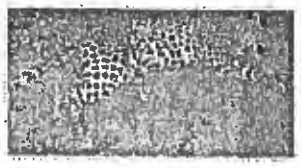
Photographs required before the trophy is skinned:



1. Side view showing the entire body with the hunter positioned directly behind for scale, and visible predator hunting quota tag number.

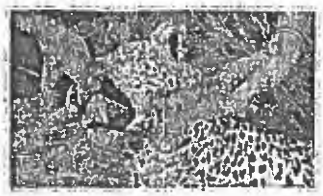


2. The predator lying on its right showing the feet and visible predator hunting quota tag number.

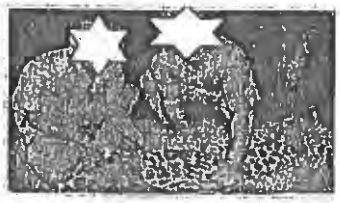


3. The predator lying on its left showing the feet and visible predator hunting quota tag number.

4. Close up of the nose clearly showing the nose, eyes, and mount and a visible predator hunting quota tag number.



5. Frontal view of the teeth showing coloration and wear on the canines and incisors and visible predator hunting quota tag number.



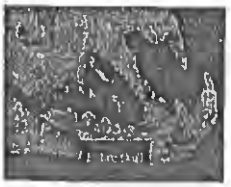
6. Hindquarters clearly showing the scrotum and visible predator hunting quota tag number.

Photographs required from the cleaned skull:

7. Lower jaw showing all the teeth and chipping of the enamel ridge on the back of the canines.

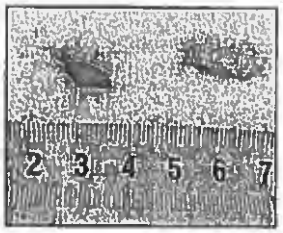
8. Upper jaw showing all the teeth and chipping of the enamel ridge on the back of the canines.

9: Side view of the lower jaw (either side) showing the canine and wear on the cusps of molars and premolars.



10. Wide shot of all the teeth showing wear, broken teeth, and teeth coloration.

Skin and Fur Sample - Collection Guidelines:



1. Cut off a 3 by 3 cm^3 square piece of fur with skin from the underneath (belly) of the leopard, as shown in the photograph, to avoid any damage to the trophy skin.
2. Write the following information onto an envelope:
    a. Species e.g. leopard
    b. Professional Hunter Full Name
    c. Farm Name
    d. MET TAG Number
    e. GPS Coordinates of hunt (in decimal degrees for example; 15.21478 and -19.9591)
3. Place the sample into the envelope.
4. Put a handful of rice or salt into the envelope with the sample.
5. Seal the envelope.
6. Store the envelope in a cool and dry place.
7. The envelope must be submitted to MET PERMIT OFFICE within a period of 2 months from the hunt date.
8. Tick the box below to confirm that a skin and fur sample has been collected from the leopard for submission:

YES	X	NO

SIGNATURE OF (b) (6) ame into the box):

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
McCray	Joe	Lynn	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b)(6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b)(6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Hopeton	OK	73746	Woods	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
(b)(6)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country
Hopeton	OK	73746-0008	Woods	USA

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   same as page 1

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Applicant on page 1, (b)(6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

n/a

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ----- (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

n/a

b. Date wildlife is to be hunted:

n/a

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

n/a

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

S 19 40.316' E 014 05.853', Omatendeka Conservancy, nearest city Windhoek, Namibia

   e. Date wildlife was hunted: July 11, 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Jamy Traut Hunting Safaris, Namibia

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Kings Taxidermy, 27 Bahnhof Street, Otjiwarango, Namibia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Namibia Permit to Hunt for Trophies (front and back) attached

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Louw Lotter
Business Name:	Jamy Traut Hunting Safaris, Namibia
Address:	Farm Strife No. 64, Windhoek District
Address:	PO Box 1189
City:	Windhoek
State/Province:	
Country, Postal Code:	Namibia

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: N/A Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b)(6) [redacted] Date: 08/23/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Edward U. Miller
(b) (6) [redacted]

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Edward Miller
(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   b. Date wildlife is to be hunted:

N/A

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Same as page 1 Samuel Noble, Jr.
(b) (6) [redacted]

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Samuel Noble, Jr
(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   The United Republic of Tanzania, Selous Game Reserve LU5
   9.23670 South 37.00757 East

   e. Date wildlife was hunted: August 21, 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   Allan Vincent, Tanganyika Game Fishing & Photo Safari LtD

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
   Tanganyika Game [FP] Ltd Safari Outfitters
   TZN +255-753 924 069 alan@tanganyikagame.com
   13 Manara Street Kinondoni, Dar Es Salaam

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name: Alan Vincent
   Business Name: Tanganyika Game (FP) Ltd
   Address: 13 Manara Street Kinondoni,
   Address:
   City: Dar es Salaam
   State/Province: Tanzania
   Country, Postal Code:

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b) (6) [redacted] Date: 9/4/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

(b)(6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

NA

b. Date wildlife is to be hunted:

NA

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

NA

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

BLOCK L8, NIASSA RESERVE, MOZAMBIQUE, PEMBA, MOZAMBIQUE

   e. Date wildlife was hunted: July 24, 2018

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

KAMBAKO SAFARIS

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Life-Form Taxidermy Pty Ltd, 7 Aluminium Road, White River 1240, Mpumalanga, South Africa

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Life-Form Taxidermy Pty Ltd
Business Name:	
Address:	7 Aliminium Road,
Address:	
City:	White RIver
State/Province:	Mpumalanga,
Country, Postal Code:	South Africa, 1240

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b)(6) [redacted] Date: 07.25.2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

PERMIT / CERTIFICATE № 200278

PERMIT CONDITIONS FOR THE INTERNATIONAL IMPORT, EXPORT OR RE-EXPORT OF CITES AND NON-CITES SPECIES AND ANY PRODUCTS THEREOF; NON-CITES LIVE WILD ANIMALS, LIVE EXOTIC ANIMALS, HUNTING TROPHIES, WILD ANIMAL PRODUCTS, PROTECTED PLANTS AND LIVE FISH

OR Tambo International Airport is the only port designated for International Imports, Exports and Re-Exports of CITES and Non-CITES species and any products thereof; live wild animals, live exotic animals, hunting trophies, wild animal products, protected plants and live fish by aircraft within the Gauteng Province.

Import permits are not valid unless the imported consignment is accompanied by a valid ***(original)*** export permit from the country of origin ***(if required)***, which must be handed to the authorized Environmental Management Inspector on inspection.

THE FOLLOWING CONDITIONS ARE APPLICABLE TO:

(A) ALL INTERNATIONAL IMPORTS, EXPORTS AND RE-EXPORTS OF CITES AND NON-CITES SPECIES AND ANY PRODUCTS THEREOF; LIVE WILD ANIMALS, LIVE EXOTIC ANIMALS, HUNTING TROPHIES, WILD ANIMAL PRODUCTS, PROTECTED PLANTS AND LIVE FISH (INCLUDING AIR, MAIL, RAIL, ROAD, AND SEA)

THIS PERMIT

1. a) Shall not be transferable;
   b) Shall be invalid until the signature of the holder thereof been appended thereto;
   c) This permit is not valid unless it has been endorsed and released by an authorized Environmental Management Inspectorate official prior to the import, export or re-export taking place. In cases of importation of live animals, which are to be quarantined at OR Tambo International Airport's Quarantine Station, the permit must be released prior to the animals leaving quarantine. Original import permits to be inserted into a sealed envelope and placed in the Environmental Management Inspectorate box that's provided at the quarantine station, no more than 14 working days after import;
   d) Shall be subject to the provisions of any other law and or regulation;
   e) Shall be valid for one consignment only;
   f) This permit is subject to the compliance of Veterinary and Agricultural requirements; and to the compliance of IATA Live Animal Regulations.

2. The permit holder or his delegated agent must contact one of the authorized Environmental Management Inspectorate officials, per telephone ***and*** confirm per fax a minimum of ***48 hours*** prior to the import, export or re-export taking place to book an inspection (the inspection booking must be requested a minimum of 48 hours prior to the intended inspection), applicable for shipments done over weekends and public holidays, with the following information:
   a) Name / Company Name of Importer / Exporter;
   b) Name of Airline and Warehouse where intended inspection will take place;
   c) Date and Time of Import / Export / Re-Export;
   d) Date and Time of intended inspection (subject to approval);
   e) Agents particulars (if applicable), Carrier Name, Flight Number, Flight Time and Waybill Number;
   f) The applicable permit number/s and relevant expiry dates; and
   g) Detailed packing list as per condition 7.

3. Inspections are by appointment only and early booking is necessary. An authorized Environmental Management Inspectorate official may be contacted at the following telephone numbers during office hours ***(07:00 – 15:30):***
   Office: **+27 (11) 390-3687/ 2311**
   Fax: **+27 (11) 390-1720**

4. All relevant documentation, including ***original*** permit/s ***(CITES permits must include original and coloured copy)***, Packing List/s, Waybill/s and Bill of entry/s (SAD/ DA 550) must be presented for inspection. A photo copy of all these documents must also be handed to the Environmental Management Inspectorate officer on inspection. The original permit/s, these conditions and packing list/s must accompany the consignment/s.

5. All transport containers must be numbered and the numbers must coincide with the numbers on the packing list/s. The country of destination as shown on the containers must coincide with the country of destination as on the permit. The details on the packing list/s must coincide with the details on the permit/s and Waybill/s.

6. Detailed packing list/s, that are signed and dated must accompany the consignment/s, with the following information:
   a) Details of Importer and Exporter (Names, addresses and contact numbers);
   b) Waybill number/s and name of carrier, flight number, date and time;
   c) Transport container number/s;
   d) Scientific name of species (in full) with relevant transponder / tag / ring numbers; a detailed description of specimen / product and the origin thereof;
   e) Common name of species (in full);
   f) Number per species per container (actual number exported / imported); and
   g) Applicable permit number/s

7. If this permit is not used, the ***original permit (CITES permits must include coloured copy)*** must be returned to the issuing authority within ***14 working*** days after expiry thereof. Import permits must be returned to the issuing authority within ***14 working days*** after use. Export permits must be handed to a Management Authority of the importing country within ***14 working days*** after use.

8. The permit holder must make and retain photo copies of permit/s for audit inspections. Copies of import permits must be made and retained ***after endorsement***, for Re-export permit applications. When applying for a Re-export permit, a copy of the ***endorsed import permit*** must be submitted to the Permit office with the application.

9. A person authorized thereto by the Premier may only make any alteration on the permit.

10. Failure to comply with any of the permit conditions renders the permit invalid and may result in criminal proceedings, cancellation of the permit/s and seizure of the consignment/s.

11. The holder of the permit and / or his delegated agent will be held responsible for any legal costs; costs incurred for delays and / or storage fees due to irregularities and / or due to the consignment being withheld due to incorrect documentation, and / or incorrect consignment/s and / or failure to comply with permit conditions.

12. Permit holders or their delegated agents must inform the Environmental Management Inspectorate official if an inspection is cancelled, or if they are to be late for an inspection within a reasonable time before the inspection is due to take place.

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
West	Jeffrey	Thomas	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6) [redacted]		(925) 417 5273	import@b.hunter-international.net

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b) (6) [redacted]				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Salyer	CA	95573		USA
2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
-SAME-				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE in the **amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

HUNTER INT'L BROKERAGE SERVICES, INC
5700 STONERIDGE MALL RD., SUITE 260
PLEASANTON, CA 94588

FEDEX RETURN LABEL ATTACHED

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Vanessa Tabugan-Liao
E-mail: import@b.hunter-international.net
Phone: (925) 417 5273

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Outfitter: Big Five Safaris Ltd. HOP0143, Harere, Zimbabwe

b. Date wildlife is to be hunted:

September 09-24, 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Outfitter: Big Five Safaris Ltd.

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   e. Date wildlife was hunted: N/A

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). For future hunt.

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: Atty. In Fact for Jeffrey West Date: 7/01/2019

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

CUSTOMS POWER OF ATTORNEY

and

Acknowledgment of Terms and Conditions of Service

Social Security number (b) (6)

Date of birth (b) (6)

Know all men by these presents: That, Jeffrey West (legal name of individual)

residing at (b) (6) Salyer, California USA 95563

(Residential or physical mailing address, P.O. Box is not accepted)

hereby constitutes and appoints: **HUNTER INTERNATIONAL BROKERAGE SERVICES, INC., its officers, authorized employees and duly appointed sub-agents** to act for and on its behalf as a true and lawful agent and attorney of the grantor named above for and in the name, place, and stead of said grantor from this date and in all Customs Districts, and in no other name to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, carnet or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandise shipped or consigned by or to said grantor, to perform any act or condition which may be required by law or regulation in connection with such merchandise to receive any merchandise deliverable to said grantor;

To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make sign, declare, or swear to any statement, supplemental statement, schedule, supplemental schedule, certificate of delivery, certificate of manufacture, certificate of manufacture and delivery, abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filing in any customs district;

To sign, seal and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owner's declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise;

To sign and swear to any document and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated by said grantor;

To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantor's name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor;

To waive the requirement of other Customs Brokers transmitting a copy of the customs entry CF7501 and the Customs Broker's bill of services directly to the undersigned grantor in accordance with CF 111.36(a) & (b). Such entry summary and bill will be transmitted through Hunter International Brokerage Services, Inc. It is also understood that the agreement between Hunter International Brokerage Services, Inc. and other Customs Brokers does not forbid or prevent the Customs Broker from having direct contact with the grantor in accordance with CFR 111.36(c)(3).

To generally to transact at the customs houses in any district any and all customs business, including making, signing, and filing of protests under section 514 of the Tariff Act of 1930, in which said grantor is or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent and attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents the forgoing power of attorney to remain in full force until notice of revocation in writing is duly given to and received by a District Director of Customs.

The undersigned grantor of this power of attorney hereby agrees to HUNTER INTERNATIONAL BROKERAGE SERVICES, INC. Terms and Conditions of Service, which are attached hereto and incorporated herein by reference.

IN WITNESS WHEREOF, the said (Print full legal name) Jeffrey West

has caused these presents to be sealed and signed: (Signature) (b) (6)

(Capacity) Individual (Date) 5-26-2017

Important note: If you are the importer of record, payment to the broker will not relieve you of liability for Customs charges (duties, taxes or other debts owed Customs) in the event the charges are not paid by the broker. Therefore, if you pay by check, Customs charges may be paid with a separate check payable to the "U.S. Customs Service" which shall be delivered to Customs by the broker. Importers who wish to utilize this procedure must contact our office in advance to arrange timely receipt of duty checks.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

GENUS LOGISTICS 161-15 ROCKAWAY BLVD SUITE 205 JAMAICA NY 11434

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

MATT MAYERS 718 790 0216 / MATT@GENUSLOGISTICS.COM

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

ZAMBIA, LUMIMBA

   e. Date wildlife was hunted: JULY 5, 2019

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

IMPANGA SAFARIS

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

IMPANGA SAFARIS LTD
PO Box 31012
LUSAKA, ZAMBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Impanga Safaris Ltd.
Business Name:	
Address:	PO Box 31012
Address:	
City:	LUSAKA
State/Province:	
Country, Postal Code:	ZAMBIA

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: 9/6/19

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an Importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the Importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the Importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an Importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
LINES	JAMES	K.	MR.
(b) (6) [redacted]	3.a. Alternate Telephone Number	4. E-mail address	
		cindi.rulon@procargousa.com	

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b) (6) [redacted]				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Colleyville	Texas	76034	Tarrant County	USA
2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
Same as above.				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee–attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   PRO CARGO USA, ATTN CINDI RULON 15619 MORALES ROAD, HOUSTON, TEXAS 77032
   - FED EX RETURN ENVELOPE IS ENCLOSED -

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   CINDI RULON 281-220-3176 CINDI.RULON@PROCARGOUSA.COM

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      CAPRA FALCONERI - KASHMIR MARKHOR

   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

HIMALAYA NATURE TOURS, PAKISTAN, AMAAN PLAZA, NEAR KHOMAR CHOWK, SHARAH-E-QUAID-E-AZAM GILGIT

   b. Date wildlife is to be hunted:

DATE OF HUNT IS BETWEEN DECEMBER 5, 2019 AND JANUARY 10, 2020.

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

MUHAMMAD ASIF KHAN, HIMALAYA NATURE TOURS

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

   b. Date wildlife was hunted:

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). NOT HUNTED YET

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	MUHAMMAD ASIF KHAN
Address:	HIMALAYA NATURE TOURS
City:	AMAAN PLAZA
State/Province:	NEAR KHOMAR CHOWK, SHARAH-E QUAID-E-AZAM GILGIT
Country, Postal Code:	PAKISTAN

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

IT IS OUR UNDERSTANDING THAT THE GOVERNMENT PROVIDED A COMPREHENSIVE POPULATION STUDY FOR 2018 AND HAS SUPPLIED IT TO DMA.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

TROPHY FEES WERE $120K TO PAY FOR THE PERMIT FROM THE KOHISTAN DISTRICT OF PAKISTAN WHICH SUPPORTS LOCAL COMMUNITIES; THEY HAVE A VESTED INTEREST IN THE MARHOR POPULATION, WHICH HELPS CONTROL POACHING.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

THROUGH SUPPORT OF THE COMMUNITY WITH THE FEES OUTLINED ABOVE, ANTI POACHING PROGRAMS ARE MAINTAINED AND SUPPORT OF GOVERNMENT EFFORTS TO ENHANCE POPULATIONS ARE SUPPORTED. 80% OF PERMIT FEES ARE GIVEN TO LOCAL COMMUNITES TO SUPPORT INFRASTRUCTURE AND PROMOTE INTEREST IN MARKHOR MANAGEMENT.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: [signature] Date: 09/12/2019

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

KNOW ALL MEN BY THESE PRESENTS: That, x James Kevin Lines (Full Name of Person), residing at (b) (6) [redacted] Colleyville Texas 76034 hereby constitutes and appoints each of the following persons - John Rulon CHB may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or cosigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filling of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB , who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an Importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the Importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an Importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

Expires 08/31/2020

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

D&L CHB
2015 S. Arlington heights rd. Ste. 123
Arlington Heights IL 60005

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Lisa Jamnik
lisaj@dlchb.com
(847) 690-0690

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: N/A (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

b. Date wildlife is to be hunted:

N/A

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Namibia, Okahandja, Reveille GIS 21.29.38255
nearest city Okahandja 16.48.29.23E

e. Date wildlife is to be hunted:

November 24, 2013

f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Phillip Fourie, Omujeve Hunting Safaris

g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Pronto Global Air and Ocean Freight

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

See attachments

8. Complete name and address of overseas person or business shipping the trophy to you.

a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Phillip Fourie
Business Name:
Address: PO BOX 9453
Address:
City: Windhoek
State/Province:
Country, Postal Code: Namibia

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

See attachments

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: 10/1/2019

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

N/A

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

Type of Activity

REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details. **Instructions on how to make your application complete and help avoid unnecessary delays are attached.**

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Costa	Lawrence	P	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b)(6) [redacted]			(b)(6) [redacted]

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b)(6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Nottingham	NH	03290	Rockingham	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
(b)(6) [redacted]

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country
Nottingham	NH	03290	Rockingham	USA

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 6 and 7**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

(b)(6) [redacted]

or permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

Please continue to next page

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

   Lawrence Costa, 35 Congress Street, Rumford, ME 04276

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   (b)(6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☒ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. **Permit number.** Enter the permit number to be reissued/renewed/amended. Prt#: 18US60729C/9

5. Submit the original permit with this application.

6. **Past activities.**

   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

7. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

8. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

9. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

      I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signature: _____ Date: _____

   b. For **CHANGES** to original application:

      On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we may need to request additional information regarding the changes after reviewing your initial request.

      I certify that the information submitted in support of my original application for the permit indicated above is sti[redacted]r the changes noted on the attached, signed page(s). I hereby rec[redacted]f this permit with the indicated changes.

   Permittee's signature: [redacted] Date: 9/30/2019

All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

Re: Permit 18US60729C/9 renewal/amendment

Dear USFW,

This permit is being renewed as import was not completed before expiration.

This permit also needs to be amended for the shipper as taxidermy work to do a full mount on base was done in South Africa and it will now be shipping/exporting from:
J.K. Human
21 Storm Avenue
Bainsviei
Bloemfonein, 9338 South Africa

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Costa	Lawrence	P	

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b)(6) [redacted]			

6.a. Telephone number	6.b. Alternate telephone number	6.c. Fax number	6.d. E-mail address
(b)(6) [redacted]		(b)(6) [redacted]	(b)(6) [redacted]

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b)(6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Nottingham	NH	03290	Rockingham	USA

2.a. Mailing Address (include if different than physical address, include name of contact person if applicable)
(b)(6) [redacted]

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country
Nottingham	NH	03290	Rockingham	USA

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100, nonrefundable processing fee**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
(b)(6) [redacted]
…urrent permit you have held or that you are applying to renew/re-issue: 16US07379C19 No ☐

3. …d and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other …r I of Title 50, and I certify that the information submitted in this application for a permit is complete and accurate to the …nd that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

…esponsible for permit (No photocopied or stamped signatures) — Date of signature (mm/dd/yyyy): 10/25/2017

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES* and/or *ESA)*

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but are unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 3: USFWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 4: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-5 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. For each trophy to be imported, provide:
   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      Leopard/ Panthera pardus Skull, skin, claws

   b. Sex (if known).

      male

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

      NA

   b. Date wildlife is to be hunted:

      NA

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

      NA

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife was removed from the wild (provide a map if possible):

      Bwabwata National Park (East)Zambezi Region
      Kongola, Tanzania GPS S17 46.313, E023 ls.359

   b. Date wildlife was hunted:

      8/31/2017 - 9/12/2017

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

Skull, skin, claws

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export documents]:

Ndumo Lodge, Kalambizo, Zambezi Region, Namibia

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will also appear on your Namibian export permit and must match the U.S. import permit].

Name:	Titus Schmidt
Business Name:	The Yellow Shark Holdings (Pty) Ltd
Address:	Managing Director
Address:	P.O. Box 81413
City:	Olympia - Windhoek, Republic of Namibia
State/Province:	Phone: +264 (0)61 304030
Country, Postal Code:	Prof hunt guide Karl Stumpfe PO Box 1667 Katima Mulilo Namibia

5. Please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., population status or trend data; how the funds from license/trophy fees will be spent; what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: _____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if appl[redacted]rstand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: _____ Date: 10/25/2017

Be aware that there may be additional permitting or approval requirements by your local or state government, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist you, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-port.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

New York, NY 70E. Sunrise Hwy #419 Valley Stream NY 11580 5168253850

9. Name and address where you wish permit mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

Lawrence Costa, 35 Congress Street, Rumford, ME 04276

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

(b)(6) [redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Form 3-200-20 Additional info:

10/25/2017

5% of the safari fee goes to the conservation fees for the Tanzanian government and community development. In addition to that, the Trophy Fees paid directly to the Tanzanian government funds anti poaching and conservation in the areas the animals were taken

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

Capra falconeri heptneri (Bukhara Markhor)

   b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Tajikistan, GBAO region, Darvaz District, Zigar village, M-Sayod conservancy.
https://goo.gl/maps/RuxCEhHCoiboxsaA9
38°06'34.8"N 70°26'33.1"E

   b. Date wildlife is to be hunted:

During the season Nov 2019 - Feb 2020

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Mr. Ayubkhon Mulloyorov LLC "M-Sayod"
PH - Dodi Mulloyorov
www.tajwildlife.com

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

   b. Date wildlife was hunted:

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].
   Name:
   Business Name:
   Address:
   City:
   State/Province:
   Country, Postal Code:

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

   a. Do you have any information regarding the population status or trend data on the species hunted?

   Yes, there is a very good records on the population status, the last country scale survey have been conducted in 2017 with the participation of IUCN, WSF and report has been published on ec.europa.eu https://ec.europa.eu/transparency/regexpert/index.cfm?do=groupDetail.groupDetailDoc&id=33640&no=5

   b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

   I have applied for a conservation hunt offered by Wild Sheep Foundation US and to be a sponsor of the joint initiative between Tajikistans Government and Wild Sheep Foundation US to conserve mountain ungulates in Tajikistan. All funds are dedicated to the mission of Tajik Government and the Wild Sheep Foundation to keep and put wild sheep on the mountain. M-Sayod is a CBWM area managed by v.Zigar.

   c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

   M-Sayod conserancy has invested since 2010 over one million US dollars in the development of the Darvaz District (build new and improved old houses of the village people, delivered fresh water to the few villages, donated to village families honey bees to produce own honey, improved livelihoods of at least 100 village families, donate TJK / AFG border policemen with a food). No poaching anymore exist.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

    Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

    Applicant's signature: (b) (6) [redacted] Date: 11/17/19

    Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES* and/or *ESA)*

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but are unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 3: USFWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 4: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-5 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. For each trophy to be imported, provide:
   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      CAPRA FALCONERI CASHMIRIENSIS / KASHMIRE MARKHOR

   b. Sex (if known).

      MALE

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife was removed from the wild (provide a map if possible):

      PAKISTAN, TOSHI DIST, CHITRAL

   b. Date wildlife was hunted:

      JAN 3, 2018

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

SKIN, SKULL, HORNS

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export documents]:

PHA FLAT #05, BLOCK #5, G 8/4, Islamabad, Pakistan

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will also appear on your Namibian export permit and must match the U.S. import permit].

Name: Farhad Maqbool
Business Name: Shikar Safaris Pakistan
Address: PHA FLAT #05, BLOCK #5, G 8/4
Address:
City: Islamabad
State/Province:
Country, Postal Code: Pakistan

5. Please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., population status or trend data; how the funds from license/trophy fees will be spent; what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

See attached page

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: _____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: (b) (6) [redacted] Date: Feb 27, 2018

Be aware that there may be additional permitting or approval requirements by your local or state government, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist you, it is your responsibility to obtain such approval.

CITES Section E
Paragraph 5

Wildlife conservators have observed an increase in the population of Kashmiri Markhor in Chitral, Pakistan. The markhor population in the conservancies, according to the latest counting survey (March 29, 2015) was 1,349 markhors in Toshi-Shasha and 434 in the Gahirait-Golen conservancy. The number of markhors in areas other than the two conservancies was 27 in Arsoon, 28 in Sheshi Koh Valley and 6 in Drosh Gol, bringing the total to 1,844. Adding a CGNP supported a population of 1,556, the total markhor population comes to 3,400 in the district.

As per community-based conservation programs put in place by the Department of Wildlife, the villages supporting the population of markhor were organized into Village Conservation Committees (VCCs). Each VCC was a statutory body which was incorporated in the Wildlife Act, whose office-holders were chosen by the villagers themselves. They had a defined role in the conservation process with financial powers vested in them. The diversion of 80 percent of the trophy fees for hunting of markhor to the VCCs acted as a catalyst which they utilized for their collective development on their own free will. Twenty percent of the funds go to the Wildlife Department.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish permit mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

FAUNA & FLORA CUSTOMHOUSE BROKERAGE
15231 135TH AVE
JAMAICA, NY 11434

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

DONALD A. BERG
214 532 1572 donaldaberg@sbcglobal.net

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☒ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Williams, Robert <robert_williams@fws.gov> Fri, Mar 30, 2018 at 7:09 AM
To: (b) (6)

Mr. Berg,

I am working on your Permit application to Import a sport hunted Markhor and need some clarification's. You gave your physical address as: 3838 Oak Lawn Ave., Suite 1720, Dallas, TX 75219. Is this your "Physical Address"? It had appeared to the Senior Biologist that it was a business address. The person shipping your trophy to you is unreadable. Is the first letter an "F" or an "E"?

Please get back to me with the answers to these questions and I can then issue your permit.

Robert Williams
Legal Instrument Examiner
Division of Management Authority
US Fish and Wildlife Service

Donald A. Berg <(b) (6) Mon, Apr 2, 2018 at 11:29 AM
To: "Williams, Robert" <robert_williams@fws.gov>
Cc: "Berg Donald A." (b) (6)

The 3838 Oak Lawn address is my personal business office address. It is a “Physical Address “. I receive most of my personal mail and deliveries there. If you’d rather use my home address, it is (b) (6) , TX, 75205.

The person sending the trophy to me is Farhad Maqpoon.

When you send the permit to my Customs Broker, Fauna & Flora, please send it to the attention of John Mehann.

Thank you very much for your prompt response to my permit request. Please contact me if you require any additional information.

John,
Would you please forward my original CITES import permit for my Markhor to Mr Villavicencio at US FWS. His address is in his email to me below.
Apparently he intends to correct the error regarding the Markhor species.

OFFICE OF THE CHIEF CONSERVATOR WILDLIFE KHYBER PAKHTUNKHWA PESHAWAR.

To

The Inspector General of Forests
Government of Pakistan
Ministry of Climate Change
Forestry Wing, Islamabad

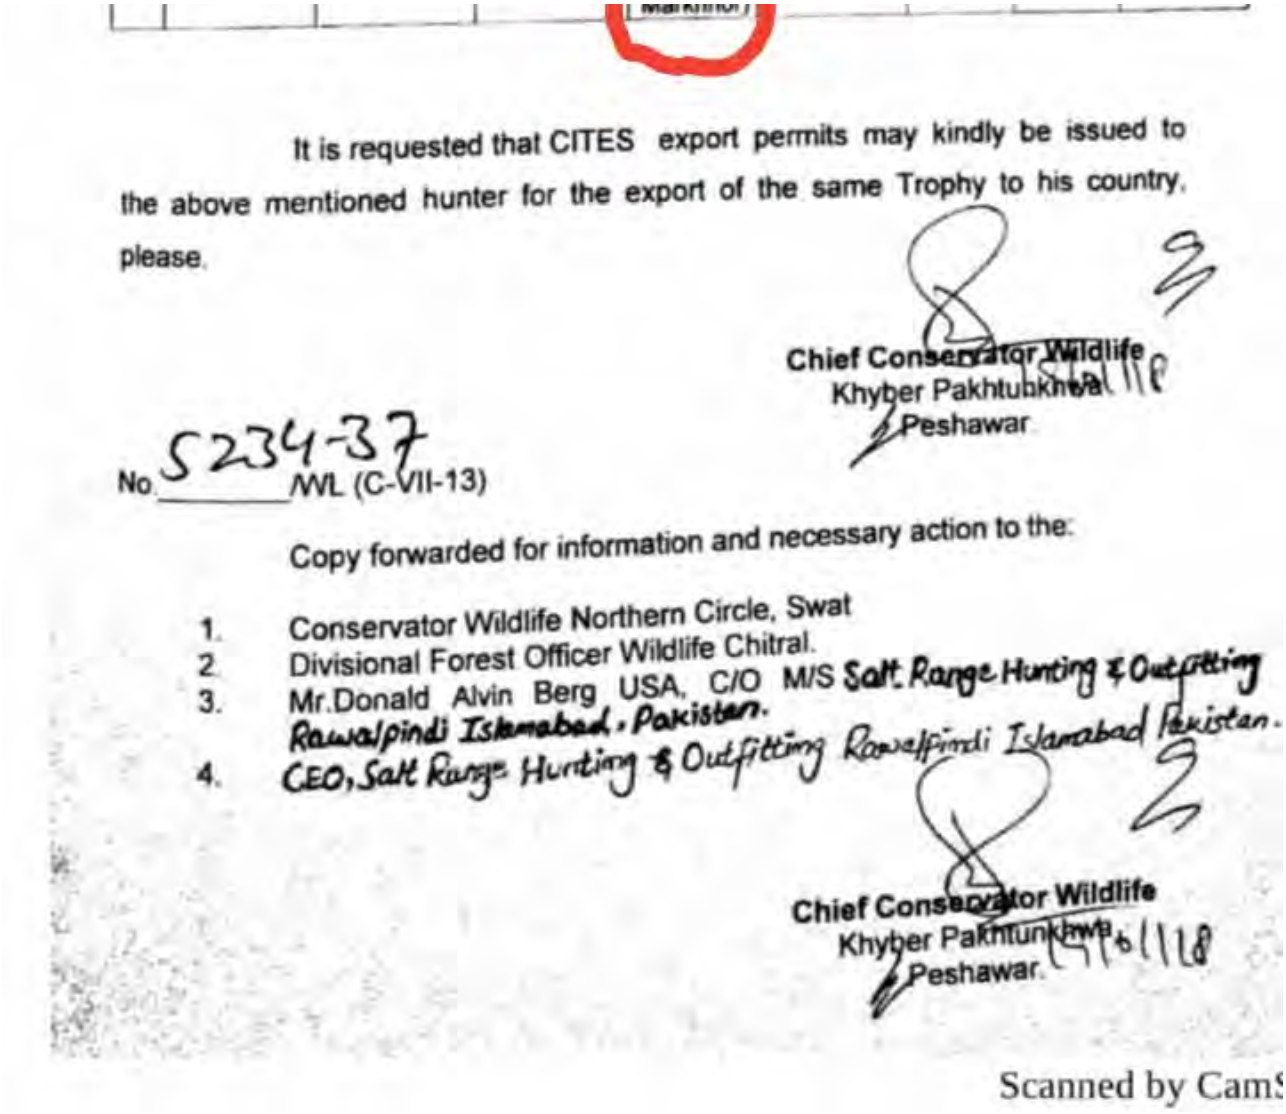
No. 5933 /WL (C-VII-13) Dated Peshawar the 19/11/2018.

Subject: - **ISSUANCE OF PERMIT FOR THE EXPORT OF MARKHOR TROPHY**

The Khyber Pakhtunkhwa Wildlife Department had issued Kashmir Markhor hunting permits to hunter for hunting season 2017-18. This permit is issued according to quota allocation made by Cabinet Secretariat Climate Change Division Islamabad.

The hunter successfully hunted Kashmir Markhor in the Community Game Reserve Tooshi Chitral as per detail given below:-

S#	Name of Hunter	Passport No	Permit No and date	Species	Place of Hunt	Trophy specification		
						Right Horn Length	Left Horn Length	Basic round size of the head markhor
1.	Mr.Donald Alvin Berg	505892421	02/WL dated 14-12-2017	Flare Horned Markhor (Kashmir	Tooshi Community Game Reserve	47"	42"	10"



It is requested that CITES export permits may kindly be issued to the above mentioned hunter for the export of the same Trophy to his country, please.

April 17, 2019

To: U.S. Fish and Wildlife Service

I am seeking a Reissuance/Renewal for my Cites Permit to import a Markhor from Pakistan. Due to multiple problems with the export of my trophy on the Pakistan side, including the cessation of shipments of Appendix 1 Trophies by Kuwait Airlines, we were unable to ship my trophy before the expiration of this permit. As of today, it is unclear how or when these trophies will be exported from Pakistan. I understand there are several Markhor trophies taken by other hunters which are also stranded, and several alternatives are being explored. In the meantime, I would appreciate an expedited reissuance/renewal of my permit in case this problem is solved in the very near future.

Thank you very much for your help in this matter. Please contact me on my cell phone at (b) (6) [redacted] if there are any questions or issues.

Donald A. Berg

Type of Activity

REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details. **Instructions on how to make your application complete and help avoid unnecessary delays are attached.**

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
BERG	DONALD	ALVIN	

(b) (6) [redacted]

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
DALLAS	TX	75205	DALLAS	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 6 and 7**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature of applicant/Principal Officer for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

(b) (6) [redacted]

04/17/2019

6. **Past activities.**

   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

7. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

8. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

9. **Certification -** Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above has (b) (6) [redacted]. I hereby request reissuance or renewal of this perm[redacted]

   Permittee's signature: [redacted] Date: 04/17/2019

   b. For **CHANGES** to original application:

   On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we may need to request additional information regarding the changes after reviewing your initial request.

   I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

   Permittee's signature: _____ Date: _____

All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   DONALD BERG (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☒ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. **Permit number.** Enter the permit number to be reissued/renewed/amended. Prt#: 18US82863C/9

5. Submit the original permit with this application.

Re: Applications for Import of Sport-Hunted Lion Trophies

Dear Chief Van Norman:

Enclosed please find three applications to import sport-hunted lion trophies. The first applicant is hunting in South Africa, at Khamab Kalahari Game Reserve, an area that has been designated to have "wild" lion by South Africa's Department of Environmental Affairs. Please refer to the attached list and information in the DMA's files, which includes the management plan for this reserve. The applicant is lawfully hunting a lioness as a population control measure, as explained in the attached justification. Please consider that information and the information previously submitted by South Africa's DEA and Conservation Force in making a positive enhancement finding for this applicant.

The second applicant is hunting in Tanzania with Rungwa Safaris/Bundu Safaris. This operator has submitted an enhancement report, which was sent to the DMA in October 2016 and is attached for ease of reference. Please consider that information and the information previously submitted by Tanzania's Ministry of Natural Resources and Tourism/Wildlife Division/Tanzania Wildlife Management Authority and Conservation Force in making a positive enhancement finding for this applicant.

The third applicant is hunting in Zimbabwe in the Dande South concession. This concession incorporates extensive anti-poaching and community investment. We will shortly submit an enhancement report from this operator. Please consider that information and the information previously submitted by Zimbabwe's Parks and Wildlife Management Authority, Conservation Force, and others in making a positive enhancement finding for this applicant.

Please do not hesitate to contact us if you have questions.

Sincerely,

Regina Lennox

NOTICE OF REPRESENTATION

This is a notice to the U.S. Fish and Wildlife Service that I have appointed John J. Jackson, III and Regina Lennox of the non-profit firm Conservation Force as my attorneys and legal representatives for all matters concerning my application for a permit to import a threatened-listed, wild-managed African lion trophy from South Africa.

This authority is inclusive and extends to all applications and filings, whether administrative or judicial, including but not limited to any request for reconsideration, appeal, and litigation.

I also request that these attorneys be copied with all correspondence, acknowledgements, notices and decisions concerning my application to import my lion trophy at the following address:

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES* and/or *ESA)*

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but are unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 3: USFWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 4: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-5 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. For each trophy to be imported, provide:
   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      P. l. melanochaita (African lion)

   b. Sex (if known).

      Male

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild: Coenraad Vermaak Safaris Hilton South Africa
   b. Date wildlife is to be hunted: July 11th - 18th 2018
   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

all parts for Life Size Mount - Skin, Skull, teeth, Claws

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife was removed from the wild (provide a map if possible):

   b. Date wildlife was hunted:

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export documents]:

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will also appear on your Namibian export permit and must match the U.S. import permit].

Name:	Dieter Ochsenbein
Business Name:	Highveld Taxidermists
Address:	Farm 354
Address:	Vlakplaats
City:	Hennopsriver 0023
State/Province:	South Africa
Country, Postal Code:	

5. Please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., population status or trend data; how the funds from license/trophy fees will be spent; what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

Please see information submitted by Conservation Force and range states authorities and operators.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: N/A _____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Hi John, here is the motivation to hunt 1 possibly 2 lionesses at Khamab this year. Let me know if this will cover what is required by USFW? John, have you heard from Matt Mouron?

Note below from Hanno, the reserve ecologist.

Hi Scruff and Johan

Attached the motivation for the hunting of the lioness. I think this should be sufficient as it describes in detail how it fits in with the National lion BMP as well as the KKR lion management plan.

Scruff, let me know if anything else is needed from our side for now?

I have spoken to the Northwest Conservation officials and the permit should not be any problem as we are one of the 4 approved reserves.

Best regards

Hanno

Hanno Kilian

MOTIVATION FOR THE HUNTING OF AN ADULT LIONESS ON KHAMAB KALAHARI RESERVE

Prepared by Hanno Kilian, Reserve Ecologist, Khamab Kalahari Reserve.

E-mail: ecologist@khamab.co.za

A Biodiversity Management Plan (BMP) for the African lion (*Panthera leo*) in South Africa was published for implementation in December 2015 in accordance with the National Environmental Management: Biodiversity Act (10/2004) (Gazette no. 39468). The wild managed lion metapopulation is one of three recognised lion populations in South Africa, the other two being the wild lion population and the captured lion population (BMP). The wild managed lion population typically occurs in fenced game reserves that are typically <1000km^2 in size. Fencing of reserves is seen mostly in South Africa, and few fenced reserves are seen in the rest of southern Africa. There are various pro's (Packer et al 2013) and con's (Creel et al 2013) of using fencing as hard boundaries of game reserves, but the reality is that fencing is unfortunately an essential component of lion conservation in the future as habitats get more fragmented (Riggio et al 2013) and human populations pushing towards boundaries of conservation areas. The managed lion population could therefore be an important example of conservation of lions in a changing African context.

However, because of the fragmented nature of the fenced reserve, the conservation value of these populations has been questioned (Slotow & Hunter 2009). Furthermore, management of these fragmented and isolated populations create problems as many of the natural processes that occur in large naturally functioning lion population were disrupted in the small fenced reserve. As it is almost impossible to restore these processes on these fenced reserves, another approach is needed. The approach that has been adopted to overcome these problems is to mimic the outcome of these natural processes through management interventions (Miller et al 2013) in a metapopulation approach (Selier & Ferreira 2017).

Disruption in social dynamics were identified as one of the key drivers of challenges in managed wild lion populations, of which rapid population growth and degraded predator-prey relationship are the most important (BMP). It is some of the basic biological characteristics of lions where the opportunity lies to mimic behaviour and dynamics of lion prides. These characteristics include ages of first breeding, litter intervals, cub survival, litter sizes, female dispersal and age of last breeding (Miller et al 2013). Several suggestions have been identified on how to mimic the outcomes for natural processes, which includes contraception, unilateral tube tying, translocations and removal of females, which are all recognised by the by the Lion Biodiversity Management Plan for South Africa (BMP).

To mimic the social and population dynamics of females and maintain an average pride size of four females, one or more of the following five management options are recommended:

1. Increase the age at first reproduction using contraception of sub-adult females;
2. Establish longer intervals between births using contraception of adult females;
3. Reduce age specific fecundity through reduced litter sizes using unilateral tube-tying of fallopian tubes;
4. Mimic female dispersal by removing as well as introducing sub-adult females at infrequent irregular intervals (on average once every 5 to 10 years);
5. Mimic higher death rates of old females by removing (through hunting/translocation) the oldest females (typically >10 years of age) in the pride.

The lion management plan of Khamab Kalahari Reserve (KKR) (Kilian 2016) has identified the same possibilities to mimic behaviour and population dynamics as those specified in the National BMP. However, in the lion management plan of KKR, the restoration of some of the biological process involved in lion dynamics are given priority above mimicking of the natural control mechanisms, which are far more invasive and management intense. Here mimicking especially refers to the use of contraceptives and other birth control options like unilateral tube tying or removal of ovaries. The restoration of biological process in lion populations would involve managing the population in such a way to promote natural pride structures, as well promoting male lion turnover, and facilitating the presence of roaming bachelor male coalitions on the reserve.

One of the problems identified with managed wild lions is the inclination of adult females to become loners (Miller et al 2013) and not associate in pride structures. This especially disrupts predator-prey dynamics, which results in an increase in overall predation, which can be a problem on fenced reserves. This has been flagged as a potential problem in the lion management plan of KKR, and which is something that was specifically highlighted as something that must be avoided (Kilian 2016). The female offspring of lone lionesses also tend to develop into lone females when they grow up (pers obs), which exacerbate the problem even further.

The KKR management plan suggests that females that spend more time on their own (or with their own offspring only) than with other lion groups, should be removed from the population to promote the development of stronger pride structures, as is the case in wild lion populations. These females can then either be removed through translocation if there are translocation options available, removed through hunting if they don't have dependant cubs, or euthanised as last resort.

Where translocation is not an option, trophy hunting can be a valuable meta-population management tool for South Africa's managed wild lions in the following instances (Selier & Ferreira 2017):

a. Removal of the oldest females (typically >10 years of age) in the pride to mimic higher death rates of old females.
b. Removal of sub-adult males (typically 2-4 years old) to mimic male dispersal.
c. Removal of the dominant male/s every 3 years to mimic pride take-overs.
d. Removal of oldest males (typically >8 years old) to mimic higher death rates of old males.

KKR has identified three lionesses that the fits the criteria of spending more time on their own than with other lions in a pride, and therefore do not form part of any pride. As per the KKR lion management plan (Kilian 2016), these lionesses should be removed from the population by one of the means identified above. Furthermore, it also coincides with the option above of mimicking higher death rates of older females as a management tool in the lion meta-population as identified by the BMP.

Options for the removal through translocation of older (10yr) adult females are extremely rare, and any possible translocation option will be pursued if they become available. KKR has decided to make at least one of these females available for hunting in 2018. This, however, will be dependent on her not having cubs at the time of the hunt, or not associated with a pride at that stage.

KKR is one of four reserves that were identified by the Scientific Authority and recognised by the Department of Environmental Affairs (DEA) as reserves where hunting of managed wild lions can take place. Hunting of lion forms an integral part of the management toolbox of the lion management plan on KKR, together with live removals and translocations, as well as the restoration of natural processes and conserving genetic diversity.

The removal of these old lionesses will benefit the lion population as a whole as it forms part of the process that KKR embarked on to restore natural lion social dynamics, and at the same time reducing the predation impact of the lion population on the game population of KKR. Hunting of one of these lionesses will therefor only have positive impact on the lion population, while also providing additional income to the reserve to assist in managing the reserve and its animal populations in a responsible and sustainable manner.

Dear Tim

Please note the attached lion properties that are approved by our Scientific Authority as contributing to Conservation.

Please note we have removed the reserves that do not hunt lions and added one new one. If you receive an application with none of these properties please contact us for verification.

Regards

Mpho Tjiane

Type of Activity:
Import of Sport-hunted Trophies of Southern African Leopard, African Elephant, and Namibian Southern White Rhinoceros

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Newcombe	Arthur	S.	

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b) (6)			N/A

6.a. Telephone number	6.b. Alternate telephone number	6.c. Fax number	6.d. E-mail address
(b) (6)			

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
South Miami	FL.	33143	Dade	U.S.

2. (b) (6) name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country
Miami	FL	33283	Dade	U.S.

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100, nonrefundable processing fee**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☐ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: _____ No ☒

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my (b) (6) ct me to the criminal penalties of 18 U.S.C. 1001.

Signature (b) (6) amped signatures) Date of signature (mm/dd/yyyy)

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: The U.S. FWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during a sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year)

African elephant (*Loxodonta africana*) Quantity: _____ (Import permit is not required for trophies harvested in Botswana, Namibia, South Africa, or Zimbabwe). **Note: once imported, ivory cannot be re-exported.**

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: _____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

N/A

   b. Date wildlife is to be hunted:

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

3. **IF THE ANIMAL IS DEAD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild: Mozambique / TETE Province / District Chifunde Chiridzi Concession Coordinates 15 27.91 / 33 54 12.
   b. Date wildlife was hunted: 1 Sept. 2015

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks): life size mount, skull, claws, stein, floating bowl

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]: Window of Africa Unit 6, Aurens Industrial estate 6 Honda street Aurens, Randfontein, Gauteng, Republic of South Africa

4. Complete name and address of overseas person or business shipping the trophy to you. ~~If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].~~

Name: ~~Willie~~ Winnie da Costa
Business Name: Window of Africa
Address: Unit 6 Aurens Industrial Estate
Address:
City: Aurens - Randfontein
State/Province: Gauteng
Country, Postal Code: Republic of South Africa 1759

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

See Attached Info & Photos

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: _____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, can

RCVD JUL 17 2014

7-4-14

Dear Sir or Madame,

I am seeking to replace the attached CITES permit for the elephant I shot in 2012 because it is expired.

I had to replace this permit once already because the consignee's name did not match exactly on the CITES & the Tanzania export permit. By the time I got the attached replacement, all the other paperwork had expired.

Neither the first permit nor this one were used in any way. The elephant tusks etc are still in storage in Tanzania.

Thank you,
Catherine Hammond Rondeau

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Rondeau	Catherine	Hammond	Mrs.

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b) (6)			

(b) (6)

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)
N/A	

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address: Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
Leonard	MI	48367	Oakland	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)
(b) (6)

2.f. Country: USA

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount indicated on pages 6 and 7**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☑ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: 12US88593A/9 No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best (b) (6) o the criminal penalties of 18 U.S.C. 1001.

7-4-2014

Signature (in blue ink) of applicant/person responsible for permit (No photocopied or stamped signatures) — Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf) and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66, http://www.fws.gov/international/pdf/permit-application-form-3-200-66-replacement-document.pdf. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to http://www.fws.gov/international/permits/by-form-number/index.html to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. **Permit number.** Enter the permit number to be reissued/renewed/amend 13US88593A/9.

2. Submit the original permit with this application. ✓

3. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal. ✓

4. **Annual Report.** If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

6. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

a. For **NO CHANGES** to original application:

I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

Permittee's signatur[redacted] Date: 7-14-14

b. For **CHANGES** to original application:

Please note new mailing address

On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we need to request additional information regarding the changes after reviewing your initial request.

I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

Permittee's signature: _____ Date: _____

7. All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

8. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

N/A

9. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 8. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Catherine Hammond Rondeau
[redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

CITES permit

cathy rondeau (b) (6) Tue, Aug 13, 2013 at 4:54 PM
To: "shaunta_nichols@fws.gov" <shaunta_nichols@fws.gov> (b) (6)
(b) (6)

Hi Shaunta,

How are you? I am hoping you can help me out.

I received a CITES permit (No. 88593A) many months ago. In March, I sent an application to have it changed because a name was wrong on it. On April 1, I received a letter stating that you had received my application. On April 12, I received a request to turn in the original permit. This was surprising as nowhere on the website or in the instructions did it say I needed to turn in the original permit. I sent it in on April 13.

I called 800-358-2104 today to find out about the revised permit and was told that it has been abandoned. I checked with the nice man to see if my email, work address, and phone numbers are correct in your system, and they are. So, I was surprised to hear that my permit was abandoned with no further communication.

I left a message on Ailteas's voice mail, and I have not heard back from her.

Could you please help me get my revised permit? I really don't have the money to pay again, when I have already paid twice.

Thank you very much,

Cathy Hammond Rondeau

RE: CITES permit # 12US88593A/9

Dear Sir or Madam,

Could you please reissue the attached CITES permit? I shot an elephant during the 2012 hunting season, and I am currently making arrangements to have it shipped from the hunting grounds to the United States.

I would like to change the consignee in box 4 to read:

Gerard Pasanisi Safari
PO Box 21880
Dar Es Salaam
Tanzania

I have enclosed the $50 fee.

If you have any questions, please, please call or email me.

Thank you very much,

(b) (6)

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please return the unused original permit. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form, (3-200-52), [www.fws.gov/forms] and return your original permit with that form. NO NO I am requesting a new elephant & a new leopard permit. fo

Note 2: The U.S. FWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during a sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Please provide the following information. Complete all pages of the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year)

African elephant (*Loxodonta africana*) Quantity: 1 (Import permit is not required for trophies harvested in Botswana, Namibia, South Africa, or Zimbabwe). **Note: once imported, ivory can not be re-exported.**

Southern white rhinoceros (*Ceratotherium simum simum*) Quantity: 0 (Import permit is not required for trophies harvested in South Africa)

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
   a. Country and place (area, region, or ranch AND nearest city) where wildlife is to be taken from the wild: Tanzania's Selous Reserve
   b. Date wildlife is to be hunted: Nov. 2 - 24, 2012
   c. Description of the trophy and/or parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn): Leopard = full body skin with claws, skull, teeth. Elephant = 2 tusks, 2 ears, 4 feet, 1 trunk, tail with ha
3. **IF THE ANIMAL IS DEAD**, please enter the following: full body skin, four teeth
   a. Country and place (area, region, or ranch AND nearest city) where wildlife was removed from the wild (provide a map if possible):
   b. Date wildlife was hunted:
   c. Description and size of the trophy and/or parts (e.g., skin, skull, shoulder mount, life size mount, claws, horn):
   d. The current location of the trophy (address and country):
4. **Complete name and address** of overseas person or business shipping the trophy to you (this name will appear on the face of the permit). If you are applying to import a trophy from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit.

   Name: Tanganyika Wildlife Safari

Address: Uhuru Street, Plot-38, near Buguruni Police Post

City/Country: P.O. Box 21880 Buguruni Kisiwani, Dar-es-Salaam, Tazania, Eas

5. Please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license\trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application. Afri

CERTIFICATION STATEMENT

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement (disregard no. 7).

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

   Taxidermist/Broker's signature: _____ Date: _____

7. **If you are the hunter applying to import yonr own trophy**, please read and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

   Applicant's signature (b) (6) Date: 9-12-12

8. Have you obtained all required local, Federal, or foreign government approval(s) to conduct the activity you propose? (Be aware that there may be other requirements necessary to conduct this activity such as a hunting license or collection permit.) Yes ☒ (provide a copy of the approval(s)) Have applied ☐ Not required ☐
   The outfitter in Tanzania is holding my hunting license on my behalf

9. Enter the U.S. port through which the [export/re-export/import] will occur. New York City
   (All wildlife, including parts and products, must be declared to and inspected by a Wildlife Inspector from the U.S. Fish and Wildlife Service Office of Law Enforcement. A list of designated ports (where an inspector is posted) is available from [illegible])

10. Address where you wish permit mailed (if different than page 1):
    (b) (6)

11. If you wish the permit to be sent to you by means other than regular mail, provide an air bill, pre-paid envelope, or billing information:
    N/A

12. Who should we contact if we have questions about the application? (Include name, phone number, and email):
    Catherine Rondeau (b) (6)
    (b) (6)

Dear Ms. Hammond Rondeau:

On 04/12/2013, you were notified, and requested to provide additional information in regard to your application PRT- 88593A. In that request, you were informed that you needed to respond within 45 days or your application would be abandoned. Since we have not received the requested information, we have abandoned your application, and your application has been administratively closed.

If, in the future, you wish to pursue the activity for which you originally applied, you will need to submit a new application, along with any appropriate fees, to this office. Please be aware that in most cases, we will not "transfer" information from your old application to a new application. All relevant information would need to be supplied at the time a new application is submitted.

If we can be of assistance, you may contact our office at 703-358-2104 or fax 703-358-2281.

Sincerely,

Division of Management Authority

OMB Control No. 1018-0093
Expires 08/31/2020

E. IMPORT OF SPORT-HUNTED TROPHIES OF ARGALI

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: This form should be used only if:

a. You intend to hunt in Mongolia, the Kyrgyz Republic (Kyrgyzstan), and the Republic of Tajikistan (Tajikistan) that has annual quotas on the take of argali.

b. Any permits issued will be conditioned that the permit is valid only if, at the port of entry, evidence from the conservation agency in the country of origin is presented showing that the trophy was part of that quota (e.g., copy of hunting license)

c. If you are hunting in a different country, please use form 3-200-20.

Note 4:

a. Complete all questions on the application.
b. Mark questions that are not applicable with "N/A".
c. If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.
d. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below). If you wish expedited delivery, please provide a self-addressed, pre-paid, computer-generated courier service airway bill.

2. Who should we contact if we have questions about the application? (Include name, phone number, and e-mail):

3. Have you or your client (if a broker applying on behalf of your client, , been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

   No Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

OMB Control No. 1018-0093
Expires 08/31/2020

4. ENTER the quantity next to the name of Argali subspecies you are applying to import:

Argali (Marco Polo Sheep) (*Ovis ammon poli*) Quantity: 1

Argali (Altai Sheep) (*Ovis ammon ammon*) Quantity: _____

Argali (Gobi Sheep) (*Ovis ammon darwini*)* Quantity: _____

*Includes Hangai argali (the Service does not consider this to be a separate subspecies from *O. a. darwini*)

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Kyrgyzstan, South of the Naryn Region

b. Date wildlife is to be hunted:

Fall 2018

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

The Ministry of Forestry

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

b. Date wildlife was hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

d. Current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses please indicate so).

OMB Control No. 1018-0093
Expires 08/31/2020

8. The U.S. Fish and Wildlife Service must make certain determinations under the U.S. Endangered Species Act before an import permit can be issued. If you have information (e.g., recent population surveys of argali in the area where you will hunt/have hunted; how the funds from license/trophy fees will be spent; what portion of the hunting fee will support conservation) that would support our findings, submit this information on a separate page with your application.

9. From which country do you intend to export/re-export the specimen, if different from the country of origin?

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

    Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

    Applicant's signature: (b)(6) [redacted] Date: 4/10/18

Be aware that there may be additional requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

KYRGYZ ARGALI-THREATENED SPECIES IMPORT

Permit Number: MA89111C-0

Effective: 07/19/2019 Expires: 07/18/2020

Issuing Office:

Department of the Interior
U.S. FISH AND WILDLIFE SERVICE
DIVISION OF MANAGEMENT AUTHORITY
BRANCH OF PERMITS, MS: IA
5275 LEESBURG PIKE
FALLS CHURCH VA 22041-3803

CHIEF, BRANCH OF PERMITS, DMA

Permittee:

JESS DRURY
(b)(6) [redacted]
SPRINGFIELD, OR 97478
U.S.A.

Authority: Statutes and Regulations: 16 USC 1533(d); 50 CFR 17.32.

Location where authorized activity may be conducted:
IMPORT THROUGH ANY PORT LISTED IN 50 CFR 14.12

Reporting requirements: Not applicable

Authorizations and Conditions:

A. Authorized to import, for personal non-commercial use, the sport-hunted trophy of one male Marco polo argali (*Ovis ammon polii*) taken during the 2018 (August 11, 2018 to December 2, 2018) hunting season from the Naryn region of the Kyrgyz Republic.

B. Trophy must be accompanied by a valid trophy permit or hunting license issued by the government of the Kyrgyz Republic for the 2018 season.

C. Trophy must be accompanied by a valid Convention on International Trade in Endangered Species (CITES) Appendix II export permit issued by the Kyrgyz Management Authority.

D. No specimens for these imports may be hunted in areas that may contain populations of the Tien Shan argali (*Ovis ammon karelini*). Based on this information, Marco Polo argali (*O. a. polii*) for these imports may only be hunted in the southern Kyrghyz Republic west of the Uzengikush River basin (approximately 77° longitude). Specific areas that apparently contain huntable populations consisting of only the Marco Polo argali subspecies, and therefore suitable for hunting trophies for these imports, include the Myurdyurum, Aksai, Atbashi, Kara-Koyun, and Arpa river basins, the Alai Valley, and the southern Fergana Range.

E. If no trophy is imported, this permit should be returned to the Division of Management Authority on or before the expiration date.

F. General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

H. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law.

I. Valid for use by permittee named above.

E. IMPORT OF SPORT-HUNTED TROPHIES OF ARGALI

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: This form should be used only if:

a. You intend to hunt in Mongolia, the Kyrgyz Republic (Kyrgyzstan), and the Republic of Tajikistan (Tajikistan) that has annual quotas on the take of argali.

b. Any permits issued will be conditioned that the permit is valid only if, at the port of entry, evidence from the conservation agency in the country of origin is presented showing that the trophy was part of that quota (e.g., copy of hunting license)

c. If you are hunting in a different country, please use form 3-200-20.

Note 4:

a. Complete all questions on the application.
b. Mark questions that are not applicable with "N/A".
c. If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.
d. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below). If you wish expedited delivery, please provide a self-addressed, pre-paid, computer-generated courier service airway bill.

(Same) airway bill provided.

2. Who should we contact if we have questions about the application? (Include name, phone number, and e-mail): Matt Ward or (b)(6) (b)(6)

3. Have you or your client (if a broker applying on behalf of your client, , been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

n/A

OMB Control No. 1018-0093
Expires 08/31/2020

4. ENTER the quantity next to the name of Argali subspecies you are applying to import:

Argali (Marco Polo Sheep) (*Ovis ammon poli*)	Quantity:	1
Argali (Altai Sheep) (*Ovis ammon ammon*)	Quantity:	
Argali (Gobi Sheep) (*Ovis ammon darwini*)*	Quantity:	

*Includes Hangai argali (the Service does not consider this to be a separate subspecies from *O. a. darwini*)

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Tajikistan Gorno-Badakhshan area Khorog region
Nearest Village Karakul

b. Date wildlife is to be hunted:

January 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Yuri Matison

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

b. Date wildlife was hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

d. Current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses please indicate so).

8. The U.S. Fish and Wildlife Service must make certain determinations under the U.S. Endangered Species Act before an import permit can be issued. If you have information (e.g., recent population surveys of argali in the area where you will hunt/have hunted; how the funds from license/trophy fees will be spent; what portion of the hunting fee will support conservation) that would support our findings, submit this information on a separate page with your application.

9. From which country do you intend to export/re-export the specimen, if different from the country of origin?

Tajikistan

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b) (6) Date: May 1, 2018

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
N/A			
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

(b)(6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Santa Monica	CA	90401		USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
(Same)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 6 and 7**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and [illegible]derstand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

(b)(6) 10/23/19

Signature of applicant/Principal Officer for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

Please continue to next page

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

   (Same)

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Matt Ward (b)(6) [redacted]
   or (b) (6) [redacted]

3. Disqualification factor: A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☑ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. **Permit number.** Enter the permit number to be reissued/renewed/amended.

   Prt#: MA90017C-0

5. Submit the original permit with this application.

6. **Past activities.**

   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

7. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

8. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

9. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

      I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

      Permittee's signature: (b)(6) [redacted] Date: 10/23/19

   b. For **CHANGES** to original application:

      On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we may need to request additional information regarding the changes after reviewing your initial request.

      I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

      Permittee's signature: _____ Date: _____

All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

CHIEF, BRANCH OF PERMITS, DMA

Permittee:

MATT WARD
(b)(6) [redacted]
SANTA MONICA, CA 90401
U.S.A.

Authority: Statutes and Regulations: 16 USC 1533(d); 50 CFR 17.32.

Location where authorized activity may be conducted:
IMPORT THROUGH ANY PORT LISTED IN 50 CFR 14.12

Reporting requirements: Not applicable

Authorizations and Conditions:

A. Authorized to import, for personal non-commercial use, the sport-hunted trophy of one male Marco polo argali (*Ovis ammon polii*) taken during the 2018 / 2019 (September 1, 2018 to March 1, 2019) hunting season from the Murgab region of the Republic of Tajikistan.

B. Trophy must be accompanied by a valid trophy permit or hunting license issued by the government of Tajikistan for the 2018 / 2019 season.

C. Trophy must be accompanied by a valid Convention of International Trade in Endangered Species (CITES) Appendix II export permit issued by the Management Authority of Tajikistan.

D. If no trophy is imported, this permit should be returned to the Division of Management Authority on or before the expiration date.

E General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

F. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law.

G. Valid for use by permittee named above.

H. Acceptance of this permit serves as evidence that the permittee understands and agrees to abide by the "General Permit Conditions" (copy attached).

E. IMPORT OF SPORT-HUNTED TROPHIES OF ARGALI

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: This form should be used only if:

a. You intend to hunt in Mongolia, the Kyrgyz Republic (Kyrgyzstan), and the Republic of Tajikistan (Tajikistan) that has annual quotas on the take of argali.

b. Any permits issued will be conditioned that the permit is valid only if, at the port of entry, evidence from the conservation agency in the country of origin is presented showing that the trophy was part of that quota (e.g., copy of hunting license)

c. If you are hunting in a different country, please use form 3-200-20.

Note 4:

a. Complete all questions on the application.
b. Mark questions that are not applicable with "N/A".
c. If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.
d. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below). If you wish expedited delivery, please provide a self-addressed, pre-paid, computer-generated courier service airway bill.

Same as page 1

2. Who should we contact if we have questions about the application? (Include name, phone number, and e-mail): Robert A. Rosier (b)(6) [redacted]

3. Have you or your client (if a broker applying on behalf of your client, , been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of Argali subspecies you are applying to import:

Argali (Marco Polo Sheep) (*Ovis ammon poli*) Quantity: 1

Argali (Altai Sheep) (*Ovis ammon ammon*) Quantity: ____

Argali (Gobi Sheep) (*Ovis ammon darwini*)* Quantity: ____

*Includes Hangai argali (the Service does not consider this to be a separate subspecies from *O. a. darwini*)

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Tajikistan. Gorno-Badakhshan area. Khorog Region. Nearest village – Karakul.

b. Date wildlife is to be hunted: January, 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Yuri Matison

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

N/A

b. Date wildlife was hunted:

N/A

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

d. Current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses please indicate so).

N/A

8. The U.S. Fish and Wildlife Service must make certain determinations under the U.S. Endangered Species Act before an import permit can be issued. If you have information (e.g., recent population surveys of argali in the area where you will hunt/have hunted; how the funds from license/trophy fees will be spent; what portion of the hunting fee will support conservation) that would support our findings, submit this information on a separate page with your application.

9. From which country do you intend to export/re-export the specimen, if different from the country of origin?

Tajikistan

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement. N/A

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: N/A Date: N/A

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may o[redacted].

Applicant's signature (b)(6) Date: 05/16/18

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Rev. 8/2017

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

D & L CHB, LLC
2015 S. ARLINGTON HEIGHTS, SUITE 123
ARLINGTON HEIGHTS, IL 60005

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Lisa Jamnik; 847-690-0690; lisa@dlchb.com

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. **Permit number.** Enter the permit number to be reissued/renewed/amended. Prt#: MA933926-0

5. Submit the original permit with this application.

See Attached

6. **Past activities.**

   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

7. **Annual Report.** If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

8. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

9. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application: N/A

   I certify that the information submitted in support of my original application for the permit indicated above has (b)(6) [redacted] hereby request reissuance or renewal of this perm

   Permittee's signature: [redacted] Date: ~~10/31/19~~ KAK

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting, please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Randall Hudson (b)(6) [redacted]

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      PANTHERA PARDUS LEOPARD

   b. Sex (if known).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

      MOZAMBIQUE TETE PROVINCE MAGOE DISTRICT

   b. Date wildlife is to be hunted:

      JULY 31, 2018 - AUGUST 16, 2018

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

      SAFARIS DE MOZAMBIQUE

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

   b. Date wildlife was hunted:

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

HAVE NOT HUNTED YET

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:
Business Name:
Address: N/A Have not hunted yet
City:
State/Province:
Country, Postal Code:

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

Outfitter has a very good track record of taking males. All relevant harvest data is recorded & submitted to the gov for inclusion in research reports, including the recent NDF doc on leopards in Mozambique.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

The final fees are yet to be determined. A percentage of the fees the outfitter pays to the Mozambique government is returned to the local communities. A conservation honey beekeeping program has been started to further promote sustainable resource management practices by the local communities.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted

Outfitter has several ongoing programs in the area specifically to benefit wildlife, including leopards. Water wells for wildlife use are regularly drilled and equipped with pumps. Outfitter employs over 40 game scouts, @ their own expense, to run a 24/7 anti-poaching program to help look after the wildlife.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

    Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

    Applicant's signature: (b)(6) _____ Date: 6/7/18

    Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Federal Fish and Wildlife Permit Application Form No. 95135C

2 messages

Whitley, Stephanie <stephanie_whitley@fws.gov> Fri, Oct 26, 2018 at 1:59 PM
To: (b)(6)

Dear Mr. Hudson,

The information we need is the complete name and address of overseas person or business shipping the trophy to you.

Please provide the information and documentation indicated. **Any response must be in written form.** If we do not receive the information requested above within **45 days** from the date of this e-mail, your application will be abandoned and administratively closed. Once the file is closed, you would need to submit a new application, supplemental documentation and all required fees.

Kind regards,

To be approved by Carol

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Merrell M. Fuson

(b) (6)

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

   a. Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
   Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

VALID AS AUTHORITY TO HUNT

ZIMBABWE PARKS AND WILDLIFE MANAGEMENT AUTHORITY
HUNTING PERMIT
PARKS AND WILDLIFE ACT [*CHAPTER 20:14*]

Permission is hereby granted on the authority of the Minister of Environment and Natural Resources Management in terms of the Parks and Wildlife Act [*Chapter 20:14*],

to Beitbridge Rural District Council

of Sentinel Ranch

and co-hunter .....

of .....

Firstly to hunt in Hunt Number or Section Sentinel Ranch of the Mat South

..... Area, such number of animals as is indicated in column "A" below against the name of the animals specified. Such hunting shall be conducted during the period extending between 01/01/2017

and 31-12-17 (inclusive dates)

Animal	A	B	Animal	A	B	Animal	A	B
Baboon		10	Genet		5	Leopard (m)		2
Bushbuck (m)		6	Giraffe (m)		2	Porcupine		4
Bushpig (m)		5	Guinea Fowl		20	Steenbok (m)		8
Civet		4	Honey badger		4	Vervet Monkey		10
Crocodile		1	S. Hyena (m)		10	Warthog (m)		16
Duiker		4	Impala (f)		20	Waterbuck (m)		5
Eland (m)		16	Impala (m)		20	Wildcat		4
Elephant T/L		1	Jackal		10	Wildebeest (m)		16
Elephant (m)		2	Klipspringer (m)		6	Zebra		16
Francolin		20	Kudu (m)		16	xxxxxxxxxxxxxxxxxxxxxxxxx		

Secondly to remove from the Hunting Area such number of animals as indicated in column "B" above against the name of the animal specified. An animal specified may be removed in whole or in part unless there is a condition on this permit prohibiting such removal.

Thirdly to sell, within a period of six months from the second date which appears above, the trophies of such number of animals as may be indicated in column "B" above against the name of the animal and subject to any other regulations which may be in force governing movement, sale or export of wildlife trophies.

The holder of this permit shall not permit any other person to hunt the animals specified in addition to such holder and his co-hunter appointed at the time of issue of this permit.

This permit is issued strictly subject to the terms and conditions which appear on the reverse.
