Subject: Public Review of Regulatory Plan for Mississippi River refuges

We received a request for more information from a local citizen regarding the FWS regulatory plan for the Upper Mississippi River. The inquirer said it was a 600-page document that outlines proposed changes in recreational river use – hunting, camping, fishing and the like. He thought it was open for public review through August.

Do you have a direct link to the plan? The National Mississippi River Parkway Commission (byway organization for the Great River Road National Scenic Byway along the Mississippi) would like to review it too.

Many thanks.
