Thanks Theo, and let me know if you have any trouble getting what you need from the other agencies to make this work.

Have a good weekend,

Noreen

Subject: GRSG state fact sheets

Hi Kate & Will

We've been asked to take the lead in putting together state fact sheets for the sage-grouse rollout, which is scheduled for a week from Tuesday.

These are consolidated, interagency fact sheets, four pages each, which bring together our info and messaging, along with content from BLM and USFS.
I created a google folder for folks to place their content.

I've attached DOI's outline, but here are salient points.

- P1 State Overview: We are responsible for content, it's pretty much an update of the current state fact sheet material
- P2 Conservation Strategy: BLM providing most content, including maps and some nice graphics. Our content is in hand
- P3 Federal Plans: BLM responsible for entire page
- P4 - Future Conservation Efforts - will be one standard page that repeats for each state. Talks about the value of collaboration, flanking photo bars with sagebrush wildlife We are the lead.

On the call, I told folks we needed everything by noon Weds.
Working on what I can today and this weekend.

I'll see you first thing Monday, Kate.
