Most importantly, we could spend a large part of our second hour talking about how LCCs can be even more valuable to western States. We want to build on this partnership and make it stronger.

Thanks very much, Ren.

Tony, let me know what your schedule looks like on October 2. I have flexibility and will accommodate your availability. We'd like to give you a thumbnail sketch of the work being completed by LCCs in the west and a brief overview of the LCC Council. This should give you a solid foundation for the LCC Council meeting in November. Most importantly, we'd like to begin a conversation about how we can work even more closely with western States and meet the needs of State wildlife agencies. We can then follow up at a later time with the more focused conversation in Reno, per Ren's note.

I'm headed to AFWA in Tuscon a week from Sunday and will be there through the business meeting on Wednesday. Perhaps we can find 15 minutes to compare notes. I want to be sure we are providing you with what you need leading up to the LCC Council meeting and any other discussions you have scheduled.

Looking forward to it . . .

Tony, sorry to hear about the conflict.

By all means you should meet with Paul in DC on October 2nd. He said he is available and I will leave it to you two to work out the details.

We will try to have a sage steppe/LCC meeting a little later in the year and we will try to do that to accommodate your schedule.

all the best,

Ren

I'm anxious to have a discussion after broaching the subject with the IWJV this week and also the upcoming LCC Council meeting in North Carolina in early November.
