Re: 30% Design Review- Cameron-Creole Watershed Grand Bayou Marsh Creation (CS-54)
Statement of Local Sponsor Concurrence

Dear Mr. Weller:

The 30% Design Review meeting for the Cameron-Creole Watershed Grand Bayou Marsh Creation (CS-54) project was held on March 27, 2013. Based on our review of the technical information compiled to date, the land ownership investigation, and the preliminary design, the Coastal Protection and Restoration Authority, as the local sponsor, concurs to proceed with the design of CS-54. In accordance with the CWPPRA Project Standard Operating Procedures Manual, we request that you forward this letter of concurrence to the Technical Committee and the Planning and Evaluation Subcommittee and proceed to 95% design level with the selected alternative and revised project cost estimate.

Sincerely,

Andrew D. Beall
Project Management Administrator
Project Management Division
