U.S. Fish & Wildlife Service

WHAT'S THE FASTEST WAY TO RUIN YOUR WEEKEND?

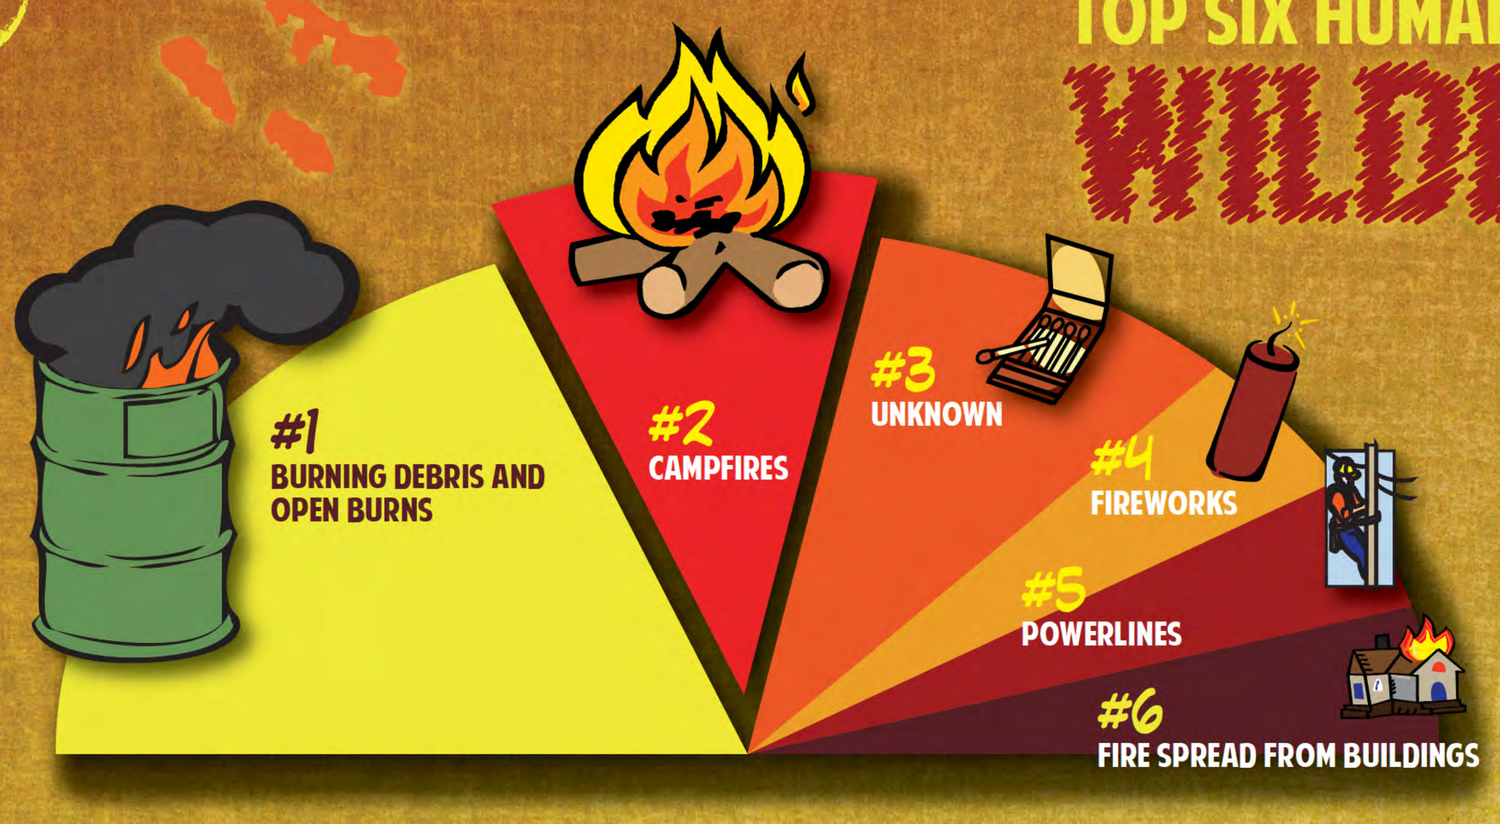
A HUMAN CAUSED WILDFIRE!

ON THE KENAI PENINSULA

MORE THAN HALF OF WILDFIRES ARE CAUSED BY HUMANS

TOP SIX HUMAN CAUSES OF WILDFIRE!

ON THE KENAI PENINSULA



Don't be the one to ruin everyone's weekend,

MAKE SURE YOUR CAMPFIRE IS DEAD OUT!

FIRST, SLOWLY POUR WATER ON THE FIRE.

SECOND, STIR AND SCRAPE THE PIT TO COOL AND SEPERATE THE COALS.

THIRD, ADD MORE WATER AND STIR UNTIL STEAMING STOPS THEN FEEL FOR HEAT RISING.

FINALLY, ADD MORE WATER AND STIR. UNTIL THE RING IS COMPELETLY COOLED.

BE CAREFUL. FIRE BURNS DEEP.

Duff is the upper layer of soil composed of decaying leaves, sticks and other organic matter. This highly flamable layer can be up to 3 feet deep. A campfire that is not properly put out can spread through the duff and cause a wildfire.
