Yes it's the same. I do think they can be more conservative without infringing on the core area strategy - eg more NSO in core where there aren't existing rights. Should be an interesting call.

Attached please find the materials BLM Wyoming has put together regarding the Lander Record of Decision and its decisions pertaining to Sage Grouse management. The maps included in the supplemental information are larger than typical print size, however they are best viewed if printed in 11x17. If there are any problems with viewing these files, please let us know and we will immediately rectify the situation. Thank you.
