Yes, please! There should be someone from MT on the list but it's possible it didn't get filtered down to within-state agencies…

Hey Shauna - Montana Fish, Wildlife & Parks hasn't seen this and requested a copy. OK to send? Thanks,

Jeff

MTT,
FYI, the draft mitigation framework is out to the states and partners.

I'd also like to take this opportunity to say thanks to the MTT for getting this draft together!

Subject: USFWS draft Mitigation Framework for Greater Sage-grouse - feedback due 12/31

Sage Grouse Task Force and Executive Oversight Committee,

Attached is the U.S. Fish and Wildlife Service's draft *Greater Sage-Grouse Range-Wide Compensatory Mitigation Framework*, as introduced by Paul Henson of the USFWS Oregon office on the Task Force call today. We invite the feedback of our partners to refine this framework.

The overall purpose of this document is to communicate how the Service will evaluate the efficacy of mitigation programs when assessing the status of the sage-grouse and the overall conservation value of mitigation programs. Specifically, the framework is intended to assist states and other partners as they develop or refine mitigation programs to offset development impacts to sage-grouse.

Please send feedback on the document to me and Paul Henson by December 31, 2013.

Much obliged,
Shauna
