Subject: FW: GRSG ROD Review - Forest Supervisors

As promised - here is our latest version of our Records of Decision and Adaptive Management appendix for Great Basin. We will also be appending the May 2014 Interagency Monitoring Framework as a component of the ROD/Decision. The plan amendment language will also be appended to the RODs.

At this point I don't expect any changes in the specifics of the proposed decision based upon the current review. When the next version is available – likely late next week .

Subject: GRSG ROD Review - Forest Supervisors

Forest Supervisors;

As agreed last week during the STRUT call, the Great Basin and Rocky Mountain Draft Records of Decision for the Greater Sage-grouse LMP Amendment are attached for your review. The Adaptive Management Appendix for the Great Basin ROD is also attached.

These draft RODs have been through 3-4 reviews by Regional Staff, WO Staffs, and OGC. We are not expecting thorough editorial reviews. Rather I'd appreciate and value your review and comments from a line officer perspective responsible for implementation. Is the decision clear and the rationale thorough? Is some element confusing or unclear? Have we missed something from your Line perspective?

Your comments are needed to Chris Iverson and Glen Stein by COB Friday 8/21/2015. They will start synthesizing comments for a final draft ROD for the RF's on Monday 8/24/15…so you may use the weekend should you choose to do so.

I realize this is a short turn around, but we are on a very tight schedule. We expect to sign the RODs by mid-September and need to factor in time for final editorial work and leadership briefings before then.

Thanks.

Nora Rasure
