---

yes. Not necessarily from the WEA perspective but from the science component.

FYI

To my knowledge, this is not (yet) controlled to us for a response.

Hello Celia,

I just wanted to let you know that a letter I sent to Secretary Jewell yesterday on the science used by BLM and FWS for the greater sage grouse has made it into a reporter's hands. We did not send it out to the press, but he obtained the letter mistakenly from someone doing legal work for me, and not at my behest. So there may be something in the press on it soon. It was not my intention at all to release this publicly, especially since I just mailed it yesterday and I'm sure the Secretary's office has not yet received it (I couldn't get a fax to go through yesterday).

Would you be so kind as to get it to the Secretary's office, as I don't have a contact with her press personnel. Thank you.

Kathleen M. Sgamma
