Thanks Noreen! And it'd help if you could get me your thoughts on how to improve Utah's plan, so you and I are on the same page, and Greg and the Governor hear the same things. Thanks, as always, for the exceptional job you do, and the outstanding leadership and vision you are providing! You are amazing!!

Dan.

Sage grouse was on the list of topics and I encouraged him to make sure that he's in dialogue with you so that he better understands the challenges you face with gsg. It sounded like he may reach out to you for a call and/or meeting.
