---

yes it is. For the bi-state it would mean we would have to redo the analysis that got us to where we are - what a waste of work.

but, it is what it is.

(2) a proposed rule for the Columbia basin distinct population segment of greater sage-grouse;

(3) a final rule for the bi-state distinct population segment of greater sage-grouse; or

(4) a final rule for Gunnison sage-grouse (*Centrocercus minimus*).
