Hey Neil. I'd be happy to speak with the Governor. I saw the Utah Fish and Game director this past Sunday and he was asking about how they might revise their state plan. I think they are getting the message, and feeling some pressure.

Happy to get our senior folks together. Let's do it!

Dan.

Sage grouse was on the list of topics and I encouraged him to make sure that he's in dialogue with you so that he better understands the challenges you face with gsg. It sounded like he may reach out to you for a call and/or meeting.
