We will plan to meet with Quincy after we have pulled together all of our comments - it's too preliminary to meet with him yet.

Laura.

Subject: FWS/BLM Color Table Matrix

Hi All –

As we agreed at the Federal Family meeting – here is the "Miles City" matrix table with Red, Green, and Yellow colors that Matt just resent me. We agreed to work together with our FWS liaisons to 'color' our populated table during the 90-day comment period. The sooner that you all can make contact with your FWS liaison and get started, the better off we will be.

Working thru the table with the FWS will

1. allow you all to explain and help them understand more of our planning processes,

2. provide us feedback on where the potential management actions may or may not be enough and why,

3. discuss the other management actions in the other alternatives, where needed

4. prepare us for the comments that will be coming forward from them during the comment period, and

5. start some of our thought processes on the formulation of the Proposed Plan.

For those plans where we also have the Forest Service in partner with us; your FS liaison should also be part of these discussions with the FWS and BLM.

Thanks,

Lauren
