Hi Nicole,

We'll be having the GIS call on Wednesday next week (11:00a), and it would be a good opportunity to have the Refuge folks join so we can get them up to speed on tasks needed. Do you think we'll have names finalized by then? We can forward them the invite...

If not, we can set up a separate call and explain some of the tasks we need.

Also, I'll be sending a list of task/products we need to complete the Sp. Report today to the GIS Team for review and feedback. We might pencil in some of the products we were thinking of tasking to them and will include you on that email if you want to share with Refuges - given that the products may have changed slightly from what you originally described to them.
