I discussed your request with Theo and he and the other talented folks on his team are available to help bring the products we discussed over the finish line in the days ahead, so by way of this message I ask you please work together to make that happen. In the meantime, I'll touch base with Noreen to get a sense of how firm the 11/5 deadline is for finalizing the fire report (before the DOI-sponsored workshop). Please let me know if you/all have any immediate questions or if I can assist further at this time. Regards.
