Hi Shauna,

I just sent the PAC data to Theresa. Thank you for letting me know. You are correct, all outside requests for this data should be directed to me.

Thanks,
Jim

Subject: COT Final Report spatial data

Hi Jeff and Shauna;

I work with the Institutue for Natural Resources and am working as the technical coordinator on the SageCon effort for Oregon in anticipation of the 2015 listing decision. I received your names from Paul Henson as possible contacts for the data used for the COT report.

As part of the effort to support the work happening in Oregon, I am writing to request data to complete several GIS analyses that relate sage-grouse habitat to various threats outlined in the report. In particular, I am interested in a copy of the Priority Areas for Conservation and sage-grouse populations poylgon data as depicted in Figure 3 in the final COT report.

Please let me know if you have any questions. I look forward to hearing from you!
