I asked about this on our weekly call with BLM and FS this morning. Stephanie Carmen agreed that this was needed, but they don't have anything summarizing these changes all in one place. They are working on pulling this information together and agreed to share it with us by the end of the week.

I have some notes, but they are just

that: my notes. BLM should have all the changes in one place. If you have already asked them for that, let me know. Otherwise you or I should ask for that and I'm happy to do so. Let me know and thanks,

Subject: Fwd: checklist with hyperlinks

Hi everyone -

As promised on a variety of calls this past week attached is a checklist for reviewing the BLm/FS planning efforts. It is in a zip drive so you will need to save it to your computer to get the hyperlinks to work correctly. Any questions please let me know.

In response to the question received on the biologist call there is no need to run the Chapter 2 reviews through the normal chain UNLESS there is a significant inconsistency with the agreed upon items in the checklist or other item specific to your state. However, please copy the FMT when you submit your reviews.

Thanks for your patience and have a great weekend!

pat
