If you need a projector, tell me and I can bring one out as we will be there the day before.

thanks Noreen

Looks like all is good, now if I can get my folks to do a meaningful briefing!

Ren,

Everything is all set. You will be using the large conference room in what we call Building 129. It is the large white two-story building in the administration area of the refuge (about 1.5 miles NE from the event last week). We mentioned to Anna, but we request you guys are pretty self-sufficient for this meeting (e.g., bring projectors or anything you may need). Not trying to be poor hosts, but we have the ferret release the night before and likely prescribed burning the rest of the week.

Greater sage-grouse, black-footed ferrets, and then Delta smelt -- this place is getting crazy!

Bruce (copied) will be here in 129 that day and can assist with anything you guys need.

Thanks and safe travels,

David

Hi David,

I should have checked in with you earlier but I believe Anna coordinated a meeting between my Bay Delta FWO and the Director at your refuge the morning of Oct 6. Hopefully that happened and a meeting room for a dozen is available.

Please let me know if anything has changed and thanks for all you and your folks are doing. Refuges like the one you manage are vital to the future of the FWS.

best,

Ren
