implementing a GRSG Habitat Conservation Program that is effectively conserving the GRSG, the BLM, in concert with FWS, will review the management goals and objectives to determine if they are being met and whether amendment of the BLM plan is appropriate to achieve consistent and effective conservation and GRSG management across all lands regardless of ownership

Noreen-
Ed and i left you a message on your cell. We propose the following small revision. Will this work for you? let us know

If the BLM~~, in concert with the FWS~~, finds that the State of Montana is implementing a GRSG Habitat Conservation Program that is effectively conserving the GRSG, the BLM, in concert with FWS, will review these management goals, objectives, and actions to determine whether amendment of the BLM plan is appropriate to achieve consistent and effective conservation and GRSG management across all lands regardless of ownership

Good morning Amy, Ed, and Steve,

I have a concern about the proposed plan language that would address a transition to MT state plan. I'd like to talk about it with you as soon as convenient for you. Is there a time later today or early tomorrow we could connect by phone?

Thanks,
Noreen
