Hi Jim,

Those data are from the USGS OFR 2013-1098 and are going to be out of date once we receive the merged BLM ADPP and no-action data. For more information on specific layers expected, see the spreadsheet I sent listing these data last week.

Unfortunately the BLM often has broken links to this set of data. You can contact Vanessa Stepanek at BLM to report the link issue and get the data.

Hope that helps,
Lara
