Thanks everyone!

Following the BLM's request to move the due date of the assessments to 3/27, we asked that they provide a written response for issues the Service identified as "required" in the final assessments, but the BLM didn't elect or weren't able to do. According to Dough Havlina, the BLM is getting to the point where he is able to see the content the final assessments and has a pretty good feel for what the BLM was able to accomplish versus what will be in FIAT step 3 (e.g., NEPA and implementation). As soon as I receive the written response from the BLM I will share it with you.
