Thanks Lief! I have copied the RISCT so they will have a jump start on the conversation.

See you next week.

Subject: GRSG Metrics Discussion

Hi San,

Attached are 3 documents for next week's Metrics discussion. The 1st is the 'narrative' version of the Metrics Framework the Task Force has been working on. It is structured in a (Conservation Goal - Cons. Action. - Metric) format. The 2nd document is the 'tabular' version of the same list. Not all of the narrative has been incorporated into the table. The 3rd document is the definitions of the 'activities' listed in the Table.

We'll primarily be using the table for our discussion and the other 2 as supplemental information as well as a background on how we've got to this point.

Take care, see you next week.
