Great; thanks. If you have anything to share before 1000 am tomorrow, that's when we are meeting with Noreen and can put it front of her. At a minimum, we can update her per your below. When you do send forward the final, please indicate who all from FWS (ARDs, RDs, AES, etc.) has seen/signed off on the content so we can advise Noreen accordingly.

Thanks again.

Thanks Matt. I did just hear from NRCS's media relations specialist and public affairs director this afternoon. It appears everyone on their end was good with our last round of edits and responded to a couple of requests for clarification. I'm currently making those last of the revisions and I've looped Theo in - I'm hoping that he'll be able to glance at it before it goes out.

According to NRCS's public affairs folks, the desire is still to have it on hand for early next week. I'll update you when I send it back to NRCS (hopefully tomorrow).

Thanks,
Angela

Hi, Angela. Thanks for flagging this earlier. I haven't heard back from Julie yet but will look for something from her tomorrow. If not, we'll touch base with her in person at SGTF.

Hi, Julie. Hope you are doing well. Say, I'm meeting with Noreen tomorrow in advance of next week's SGTF meeting and am checking in on the subject item. Angela Burgess advised we are close to tying this off and you all were working with your communications folks on a final version.

I know everyone's running so no worries if we need to push past the TF meeting; I just want to let Noreen know whether we anticipate we'll have something to share then. Thanks in advance for your reply and see you next week.

Matt
