Pam,
For some reason, I'm not able to download and open the BBRMP Chapter 2 attachment.
Would you please re-send it?
Thanks.
Alex

Holly:
The changes have been made and reviewed with the exception of Comment #s 5 and 10 (see below). Looks like that we're still waiting on these items – do you want to transmit Chapter 2 to Pam without addressing these comments or wait?

2.3
Does not contain GRSG Habitat Objectives Table, per 1/30 guidance.
Comment from Pam -- Still working on, hopefully will have by next week
No change made at this time.
10
Appendix L
RDF—Please make change to first sentence in appendix to comply with 2/9 drop in language (see red text):
"Required Design Features (RDFs) are required for certain activities in priority all GRSG habitat."
The statement above is just saying that the RDF protocol is required in both PHMA/GHMA. All RDFs must be applied in PHMA, and then some (not all)
must be applied to GHMA. The RDFs that will be applied in GHMA should be identified in the body of the appendix.
Change to read:
Required Design Features (RDFs) are required for certain activities in GRSG habitat.
Agreed with SO resolution
Change made in Appendix L file that has not been incorporated into the master file yet. Should we incorporate now or wait for the appendix from Pam?

Hey guys,
Once you get the elements incorporated from the pre-consistency review, could you please send to me the most current version of your chapter 2s?
Thank you.
