Hi Ted,

Thank you for visiting with me about the possibility of speaking to the Nevada Rural Electric Association (NREA) at our Annual Conference in Carson City on April 9. I have appreciated your insights and perspective when I have heard you visit with the Elko County Commission and the SANE group. The members of NREA are also looking for collaborative ways to conserve sage grouse while preserving affordable electric service to the tens of thousands of consumers we serve. We have tentatively reserved 4:00 for your presentation but have some flexibility in the schedule. Please let me know if I can provide additional information of if you would like any equipment to facilitate your presentation.

Thank you for your consideration.

Thad S. Ballard
