Matt--I called Noreen's Ex Sec this morning and had her reserve time for time to talk to Noreen et al., on October 29 sometime between 8-11 AM for an hour. She will be with Terry Rabot in Sac for a SG meeting. My plan would be to walk everyone through the Fire Report and provide you a draft prior to that so you can make copies and follow along. Please talk to Noreen and figure out who else needs to be on the call. Also, if you could set up the conference call number that would be very helpful. I'm around if you need to talk to me!

> Hi, Ken. I talked with Noreen about the time frame to finalize your fire/invasives products in advance of the DOI fire conference in November. She advised we should try and have everything turnkey by the conference but not to let perfecting the style and format preclude us from delivering the substantive content at the conference, since – as we understand it – there will be policy level discussions and decisions made during the conference. Worst case we deliver a draft and advise the final version is pending.
