Hi Again,

I have been going through the documents and this is what I now know.

We still need to go through surnaming of the permit package which isn't ideal for a signing on the 18th but we always seem to make it work. I didn't get the signed CO, which was needed to complete the surnaming package, from Jennifer until Feb 23rd when I was already out of the office. Last I knew the signing wasn't anticipated until the last full week of March or perhaps even April so I wasn't too worried about needing to move on this while I was on leave or at NCTC. That being said, I have Shelly in our office on notice that I need her help to move this package and I have what I need to do so.

I am however, wondering if you or someone still needs to complete the final edits to Deschutes and Lake CCAAs. I did not receive the final clean versions of Lake and Deschutes CCAA like I did for Malheur, Grant, and Baker. I am not even sure at this point whether the final edits were regarding our take discussions or something else but I did see an e-mail from Angela to you on Feb 5th saying that it would be best if you coordinated the final edits. I will leave it to you to look into that situation.

I am lining up Shelly now and will give you a call once that is done. Jane

> Hi Jeff, You have kid logistics and I have parent logistics:) I can't give you a time just yet but I will try your cell first and then the office if needed. Is Richard going to be part of the signing ceremony? I hope so, as it seems easiest if he signs the CCAAs and permits. I need to see if the permits are completed and ready to go. The 18th is a solid date I assume? I will see if I can get that on the permits. Jane

Thanks Jane – I am struggling with kid logistics but I should be in the office between 10:30 and 1:30 pacific time today; teleworking from home otherwise. Do you have a particular time that would be better to chat? I am mostly flexible today; office number is 503-807-6192, cell is 503-807-6192.

Cheers

Hi Jeff, I am on leave assisting my parents but I will work with you on this. Let me get my head back in the project and we can talk or e-mail today. Today is better than tomorrow for me. Jane

Hey Jane –

We are wrapping up preparations for the multi-county CCAA signing ceremony next week 3/18 outside of Ontario. I am headed over this Sunday to do lek counts and will be meeting the rest of the group there; they are flying through Boise, so I am taking all the printed material with me in the truck, which means I need to have everything printed and ready to go on Friday this week.

Could you carve out a half hour at some point after today (I'm in training all day) to catch up and see what, if anything, still needs to be done? I think all of the final documents are in the RO so it's just a matter of printing and everything, but I have not looked at anything in the last week or so.

Only one public comment on the DSL CCAA has been received so far – it's been pretty quiet which has allowed me to refocus on other high-priority work items relating to the sage-grouse species report, etc. I think we are in good shape for next week, but wanted to double check while we have a bit of time.

Let me know what might work, and thanks!

Cheers
