Hi Dan,

I have attached the FWS PAC data from the COT Report. A few things to note with the data though. Please do no redistribute outside of your team/org. Folks are welcome to the data but please send them to me to request it.

Other than that I just want to make sure it's realized that the FWS PAC data is separate from BLMs Priority Habitat. Also, the PACs came from State mapping efforts so if States make adjustments/changes to their mapping, the PACs will be updated to reflect those changes. Information on how data was created and boundaries delineated can be found in the Metadata. If you have any questions or problems please let me know.

Jim
