If we don't connect, I still need the short summary of the CED we discussed for Noreen's briefing package, which she is coming to the office to get early tomorrow morning before she heads out for another meeting. I think it is particularly important we include that info since the live demo may be postponed as WGA retools the agenda. We are talking here about whether folks outside Denver, including you, still need to come in for the meeting. Thanks in advance. MK
