>
> All, As you were informed in Mike's recent e-mail, you have been identified as the team leads for 7 Idaho Ecoregions. The identification and prioritization of Priority Landscapes from within these ecoregions is a critical step and the sooner we begin this planning process, the more time we will have to work with our teams to develop well thought out landscapes for consideration as priorities for the IFWO.
>
> We are scheduling a 1st meeting that will only include the Team Leads, providing them with guidance with which they can then work with their team members to develop draft priority landscapes within their ecoregions. In preparation for that meeting I am attaching some historical (past effort) documents as well as some of the "guidance" documents we have been working on since our earlier workshops. These include:
>
> 1) IFWO Priority Species List (from July Workshop);
> 2) The Draft Priority Landscape ("70%") Map: illustrates ecoregion boundaries and each team's 1st cut at identifying important landscapes (from July Workshop);
> 3) Office Goals and Objectives;
> 4) Landscape Selection Criteria.
>
> At our first meeting, we will be providing a presentation on the landscape selection process to serve as a primer for you to use with your teams as we move forward over the next few weeks. If you cannot attend this first meeting, please select someone on the team who will be able to attend and then provide you with all pertinent information.

A Doodle Poll will be sent following this e-mail to identify the best time for your attendance. Please respond as quickly as possible (or provide an alternate person to attend for you - and let us know) so we may schedule this meeting.
