Hey Craig-

Was just checking in. Is everything going okay with the geographic areas (SPR) team?

I was hoping you might be willing to schedule a first call with the team in the near future. Is that doable? Or can I be of assistance?

I'll be in the office tomorrow, so maybe we can touch base :)

Thanks!
K

I'm absolutely up for it! Sounds great!

Looking forward to it!

Craig.

Thanks for your prompt response in the affirmative. Susan was really clear about what's expected so I know you may have other tasks that will require your attention in the next few months, but it sounds like you're mostly all ours!

On that not, I've got your down for two teams:

- SPR
- Species Report, Outline

I was wondering if you'd be willing to head up the SPR (which might need to be renamed - in chatting with Carey Galst who's the HQ contact, I think the name could be misleading).

My hope for you as lead would be:

- Draft a Charter (Clarify the goal/timeline for this team, communication standards, decision making process)
- See to scheduling of meetings
- See to documentation as appropriate (notes, etc.)
- Make sure tasks are completed

Would you be up for that?

Thanks!
K
