He checked with the NRCS before he sent out the invite to us, and they (Elise I think) thought it would be good to have us there as well. Other than the description that Quincy put in the invite, I don't know much else about it. I don't think our role in it will be much more than to just listen to how the NRCS is evaluating SG habitats. If you have more questions I can ask Quincy or I can contact the NRCS.
