Thanks, Seth. I'm actually setting here with Tim, Julie and my leadership at a SGTF meeting where we plan to distro the joint NRCS-FWS SGI/CCAA fact sheet to the state and federal partners tomorrow. We should have it up on the FWS GrSG website this time tomorrow and I can flip you that URL then. Does that work?

Matt

Do either of you have an update on the deliverables (I think it was a version of Angela Burgess' CCAA/WLFW doc) from the CCAA/WLFW earlier in the month in Lakewood? Tim is on spring break, I hadn't heard anything since the meeting. A JV partner in WA state is looking for info regarding CCAA and WLFW to add to the WA State CCAA being developed by Washington Department of Fish and Game... I was thinking using the most up to date versions of things would be best. I have some other WLFW documents that should suffice for the time being if need be. (Galon the docs. I have that seem best suited is the NB from Chief Weller from 12-2013,including the said attachments - see attached NB)
