That works. If you remember, cc Lara Drizd when you send them - she'll be doing the compiling along with making sure projects crossing state lines match up.

I'm all done with MZ IV and most of MZ V and MZ VI, but I have a little more work to do to wrap up the larger threats sections of MZV and MZVI – specifically the conifers and invasives sections. I should have this done and uploaded to sharepoint by the end of this weekend. I'm heading into the field next week and if I don't have connectivity to sharepoint I will email you the spreadsheets directly.
