Good idea Shawn. The map wasn't intended as final, but simply a starting point for discussion. If we want to include it in the final report, we will have lots of opportunities to discuss format.

It may help to portray the fires with a black outline with cross hatching so that you can see the purple PAC or priority habitat that has been affected underneath more clearly.

Just a suggestion.

Thanks,

Subject: map of fire perimeters

Jim pulled together this DRAFT map of the fire perimeters from this past August. Its fyi for now, but something we need to consider in our revision. It also includes the new ID map.

(See attached file: 20121024_GSG_PAC_FirePerimeter_DraftMap.jpg)
