Naw, I understand you have been going through the SUTL program and have been out-of-pocket. Thanks for getting back.

I think you meant to say, the "late quick response." ☺

Hi, Kevin. Say, we are still looking for an update per the below. Please review and revise as necessary

for ND and send the updated version to Jesse. Much obliged.

Matt

**Subject:** Please read: status of state sage-grouse planning efforts

Folks,

I hope this finds everyone well. Noreen is at the Directorate meeting this week and asked we provide Directorate members with an update on sage-grouse conservation efforts. We are working here in Denver to revise the regular, periodic update that's been used for this purpose and need your input on the subject item. I've attached the latest version of the status document Jesse built previously; please review, populate it accordingly with any changes or new information affecting your state, and send the document back to Jesse, who will compile it into one current version (which he'll then put up on the SG SharePoint site).

Noreen has asked for the update NLT Thursday morning, so Jesse and I would be grateful if you would please respond by **1200 MDT tomorrow (5/1**) so we have time to turn the information around.

Thanks in advance for your/staff's time on this item, and please let me know if you have questions or need more information.

Regards,

Matt
