Dave,

I hope this finds you well. My new Sage-grouse energy team GIS biologist started Monday - Lara Juliusson. She had been working as a contractor for BLM and helped with the Baseline Report. You mentioned when we had lunch in June that TNC had just hired a dynamite GIS person who was working out of Fort Collins. I wanted to put Lara in touch with her. And anyone else you recommend on the GIS front. I'm putting her in touch with Doherty and Salvo (Defenders).

Thanks,
