Subject: Sage-Grouse Conservation Plan draft letter - revised

Larry,

attached is the updated comment letter:

- 5% Disturbance cap section - I added a paragraph re: mitigation - 2nd paragraph in this section.
- Lack of Regulatory Mechanisms section - I added a reference to our PECE policy in parentheses - 3rd paragraph in this section
- Lek Buffers & Transmission Line sections - I added some citations to these sections
- Lit Cited - all lit cited now included at end of letter

Betsy - the letter describes our primary issues with the Utah Plan, and the items we will be discussing with Pat today.

Laura.
