One of the products we are developing for section 7b(vi) is documenting agency activities to execute their commitments to long-term, multi-year restoration investments, including associated effectiveness monitoring, data management and integration, and adaptive management within the sagebrush-steppe ecosystem. Do you have a list of which FWS programs are working on restoration and could you provide a list of POCs if we need to get more specific information on the specific projects/activities?

I'm working on the Initial Report as part of the recent SO 3336 - Rangeland fire prevention, management, and restoration. One of the products we are developing for section 7b(vi) is documenting agency activities to execute their commitments to long-term, multi-year restoration investments, including associated effectiveness monitoring, data management and integration, and adaptive management within the sagebrush-steppe ecosystem. Do you have a list of which FWS programs are working on restoration and could you provide a list of POCs if we need to get more specific information on the specific projects/activities?

FWS Program	Effectiveness Monitoring	Data Management & Integration	Adaptive Management
Partners for Fish and Wildlife	Limited	Limited	Limited
Refuge Operations	Limited	Limited	Limited
ESA Recovery Implementation	Limited	Limited	Case Dependent
Migratory Bird Joint Ventures – Capacity Funding for partners, science support to promote restoration	In some cases	In some cases	In some cases
ESA Candidate Conservation Agreements	Limited	Limited	In some cases
ESA Candidate Conservation Agreements with Assurances (Removes regulatory dis-incentives for restoration)	Limited	Limited	Limited
