THANKS! I will forward this info onto our attorneys for consideration and let you know……later if I need more assistance. At the very least, the Forest will use the list to bolster the sage-grouse literature we already review for project-level analysis.

Hi Jan, here is the path to find the list for literature cited. I looked under regulations.gov but the lit is not listed there. So, you navigate to the FWS Wyoming ES office main page then to sage-grouse is where the lit cited is located. I thought it was available to anyone to look at and use, but I was not sure until after we talked.
