No - we have not provided OR conifer removals yet. I believe Jim spent most of Thursday finishing the 'occupied range' layer (sans Canadian border attribute), and then was out Fri-Tues. He's back on Wednesday and I've asked him to finish compiling this after he finishes the 'occupied range' layer.

Tim got back to me Friday night, and Jim will have to get to finishing compiling the CE data as well.

Keep your fingers crossed for a Wednesday delivery.
