---

Good morning.

Our public affairs team sent word through Angela this morning as well, but I wanted to circle back confirming we are confirmed with this as the final version. Thanks for helping make this happen in the last few weeks. This will be a great tool for our staffs and customers.

See you this afternoon.

Thanks,
Julie

Julie Grogan-Stewart

>> Many thanks to you and your team for helping us work together on the CCAA – SGI interface. Matt Kales let me know that you all are good with the attached file (the last two pages are the newly developed content). I just wanted to check in with you personally to ensure you had no remaining concerns before we use them as handouts next week. Let me know if there are any issues.
>>

>> Lastly, did you end up pursuing any potential for Chief Weller or yourself to participate in the IJNR (Institute for Journalism in Natural Resources) media tour on sage-grouse coming up next month? The last itinerary I saw from IJNR included only a very few tentative NRCS participants at the field stops, but no leadership presence. I know IJNR would welcome it if you all chose to participate because NRCS is such a key player in the big picture of sage conservation and they are working hard to give their media fellows a well-rounded picture of the topic.
