Comments:

Our comments are with regard to the proposed Copenhagen Wind Farm and its impact on local residents and the environment. Although we have no opposition to the Wind Farm itself, we would like to go on record saying that we do have a concern with regard to the possibility of the towers' interferring with our satellite television and internet reception once the windmills are up and running. Our home is located at 10314 Stoddard Road, Copenhagen and sits just under the hill where several towers will be located. If there is interference, we would expect OWN Energy to correct the problem.
