Okay. Jeff and I should suffice. Thanks.

Dennis,

Tom Schultz is also pretty booked up this week. Can you forward me Jeff Foss's email, and I'll send out a Doodle Poll for a land exchange discussion with Tom Schultz and Bob Brammer from IDL, and you and Jeff. Anyone else critical for this discussion from either the FWS or BLM side? If so, please forward emails.

Thanks,

Hi Pat:

We are pretty booked this week working with BLM and the State on the BLM SG plan, but possibly could meet tomorrow depending on time. What times work for you?

Also, I gave Jeff Foss at BLM a heads up re: a meeting and he was wondering who from BLM in what capacity you wanted at the meeting. Thanks.

Dennis

Dennis

Two needs. Can you have Kathleen, Katie, Brandon or Jason work with Jesse D. and draft some proposed language to add that describes certainty of implementation?

Second, will you check with Jeff F. and see if we can pull of the meeting with Pat on exchanges before tomorrow afternoon?

thanks

Michael,

Director Schultz forwarded your agency's comments to me. IDL is interested in hearing your ideas on the "certainty of plan implementation" element, and I encourage you to forward those as soon as possible.

We will be releasing a revised timeline later this week, but we hope to have revisions completed by Monday March 16, upon which a two week additional comment period will open. The goal would be to have a final draft by the end of April, with the Land Board approving the Plan at the May 19 meeting.

We are still pressed for time, especially considering the broad range of comments we have received, but by taking the Plan to May Land Board, we will have the ability to work with you on Plan revisions. If we could arrange a joint meeting with BLM, FWS, and IDL on the land exchange process this week (ideally before my northward departure Thursday afternoon) would be most fortuitous. Please let us know if you or your staff are available to meet this week, and if so, we will see if we can arrange a meeting for the three agencies.

Thank you,

Patrick Seymour
