Subject: Re: Request to Review the Latest Draft of Section 7bviii of SO 3336
Date: Friday, March 13, 2015 12:41:06 PM

Thank you for sharing Dawn, I will pass along your document for review to a few folks and ask them to respond to you. Given that there is so little time, we will see if anyone will respond.

Thanks.

Stephen Zylstra

We have a very short turn-around and I need to have comments consolidated and back to our task leader by March 17. She has asked that we keep this level of review narrow, particularly since all agencies will have an opportunity to review the complete document, but if there are others in the Service that you think should review please let me know and I will send the draft out accordingly.

<mstomosy@fs.fed.us>, Jeremy Maestas <jeremy.maestas@or.usda.gov>, Karen Prentice <kprentic@blm.gov>, Robin Wills <robin_wills@nps.gov>, Todd Hopkins <todd_hopkins@fws.gov>, Tomer Hasson <tomer_hasson@ios.doi.gov>, Heidi Hadley <hhadley@blm.gov>, Sue Phillips <sue_phillips@usgs.gov>, "Hall, Galon - NRCS, Washington, DC" <galon.hall@wdc.usda.gov>

We're coming down to the wire. Thanks everyone for your input to this last draft. I think this version is getting much stronger and clearer.

I hope you can find a bit more time to review this version. You can share this version with selected others within your agency, but please keep this pretty narrow. I do not want to pre-empt the Department on the input they will provide us which could lead to significant changes, nor what they will send out for a full review of the complete document. All agencies will get opportunities for a full review of the document.

Please get your comments back to me by **March 17**. For those folks that are getting a couple other reviews from your agency, I would appreciate them back in one document in track changes. Thanks to all of you to continuing to stay engaged. Talk to you tomorrow.

Carol
