HI Ed,

Yes, May 1 is our drop-dead deadline to have the complete species status assessment to the RDs. That being said, we would need the data at least a week before in order to make sure we were able to incorporate it into the chapter.

I will be turning a first draft of the Wild Horse and Burro chapter in by Wednesday, March 4. Between now and late April the chapter will be reviewed by various people and then come back to me for edits/additions.

If we are able to get/produce updated information for the FS's WHB territories/populations, I would love to incorporate that into the chapter. If we aren't, then we'd have to fall back on the 2007 data with a disclaimer.

Thanks for all your work in tracking down this information!

- Genevieve

> I spoke with Tom Frolli this morning and he desired a visual map that would aid in his ability to track down data that we could use. He indicated that these data (2007 data on map) are out of date and possibly do not reflect what is on the ground or in use at this time. He also indicated that these data could be or may not be (at this time) updated by the actual Forest Units and have not been compiled into a National Data set. It is possible that with the aid of the map, he could determine if these data are valid or exist for NV, CA, OR and we may be able to get that.

> I will keep you in the loop on what and if we can get any data. I did inform him that at this point our maps and numbers are considered draft (as placeholders) in the chapters and I suggested that we could use these till we have updated information. He did not seem opposed to that, but he would like to look into this further and see if he can help. That way we are not representing something that is out-of-date.

> If possible, do you have an idea of when we need these data for the map and numbers? I provided what we have from BLM earlier this month and you can see on the map sent to Tom the extent of the USFS area, but I have yet to get any acres of territory footprint in relation to the current range. I assume we need to have the maps and numbers by May at least regardless if full correct?

valid data).
