>> Hello Heather, I wanted to get you some of the draft numbers thus far. I will work on the FAA data next and I still need to determine how and if we will be creating the FCC data or using the FCC data that was used in the Open File Report 2013 (FCC source year 2012). The new FCC data is all text file stuff and its a bit tricky and a lot of files. The FCC no longer build their data from text files to working ESRI data sets. So it's up to us to do it if we can.
>>
>> I'll send you a list of the FCC files that actually have some sort of location information. Maybe from the list we can determine what files I should build, or if I should build them all, and in what order for your needs.
>>
>> These numbers are only some of the infrastructure data, and I will get you some draft maps too.
>>
>> I need to work on the surface streets and will update the soon to come Road map later, but today the road map will only contain interstates and Federal/State Highways. The surface streets are a very large data set and I have had no success processing the overlay operations.
>>
>> Will let you know more soon.
>>
>> *** Please remember these numbers are draft and subject to change with data, and the processing retune that we will use closer to final dates.
>>
>> Hope this helps, Ed
