>> Thanks. Happily, your below is very consistent with what I got from Jeff.
>>
>> Stephenne postponed our call until mid-morning MST tomorrow. In the meantime, I pulled together our (and BLM's) comments on the MT draft strategy and our comments on the 5 BLM plans in that state and will provide those to her. I am also running down a good base map that shows basic features of interest (SG distro/habitat/PACs/BLM planning boundaries). Jeff and his chain, as well as Mike and Nicole, are in the loop and Jeff is available as necessary to help further with any products, etc., which Stephenne indicated won't be intensive/formal.

>> Private lands are very important to these populations/PACs. It is not yet clear if/how/to what degree the MT EO will provide a regulatory mechanism to govern impacts and disturbance on private land. We encourage as much certainty as possible before the listing decision.
>>
>> We appreciate the 1 mile lek buffer commitment in the draft plan and highly recommend it remain in the final. The reason that a lesser

buffer in WY was sufficient is due to the combination of other protective mechanisms in their plan.
