Subject: Re: Next week"s GSG 2015 SDM Briefing
Date: Monday, May 05, 2014 1:37:04 PM

Sorry to hear that. Hope you feel better soon! If you are up to it, a slide or two on modeling from your perspective would be good to have, at least in our back pocket. /Dave

>>> Good Morning-

As you know, we've been asked to present a short overview on the SDM approach for greater sage-grouse 2015 Status Review with a focus on the modeling work.

Here's what I'm thinking in terms of next week's briefing, but if folks have ideas for a better flow or better way to present, just let me know!

15-20 minutes for total presentation

PRESENTATION:
This is my first-blush attempt at sketching out a possible presentation for next week- feel free to do whatever works best for you. I'm not wedded to any of it except the overall time frame :)
https://portal.doi.net/usfws/SG/docs/20140507_GSG_SDM_Briefing.pptx

- **Intro** (Kate or Mike T.?): Title Slide - Thanks for being here; goals for today
- **Background** (Pat or Mike T.?): 1 slide - explaining 2005, 2010 work; challenges that were faced that could be served by SDM approach
- **SDM General** (Dave/Sarah): 1-2 slides - Big principles for SDM
- **SDM GSG** (Dave/Sarah): 1 slide - What came out of the 3-day meeting Objectives, Measures, lead to Model approach.
- **Model Approach** (Dave/Sarah)**:** 1-2 slides - Plan of action (Model workshop, Expert review of model, Expert Elicitation)
- **Model Work FWS** (Kevin): 1 slide - What Kevin's work brings to the table, how it will be included in overall Uber Model.
- **Wrap Up** (Kate or Mike T.?): Is the model approach, model workshop peachy? Recap goals

Does that sound acceptable?

Please let me know how I can help or if there are any fatal flaws that I've missed :)

Thanks!
K

P.S. Per Dave's suggestion, I have also added a calendar invite for next Monday at 4:00 pm to discuss this presentation.
